#### PITTSBURG DISPATCH, FRIDAY, SEPTEMBER 4 HOME SECURITIES.

Failure of the First Attempt to Sell the Shoenberger Property.

A STRONGER FEELING PREVAILS The leading futures ranged as follows, as cor-ceted by John M. Oakley & Co., 45 Sixth street, numbers of Chicago Beard of Trade:

In Iren Circles, Although the Increase in Business Is Slight.

(SPECIAL TELEGRAM TO THE DISPATCH.) NEW YORK, Sept. 3.-The Iron Age reports the iron and steel markets as follows: In all branches of the iron trade there has been little actual increase in business, but there is unquestionably a stronger feeling in some lines, expressed chiefly through the fact that sellers will not at the slightest sign of resistance on the part of the buyer abandon the position taken by them and make an effort to capture business by prompt concessions. It is beginning to happen that a seller has an ultimatum and stands to it. The only fact which causes uneasiness is the report of sales of steel billets at low figures

report of sales of steel billets at low figures by a leading Pittsburg maker.

American Pig—While there is a fair inquiry for foundry irons, forge grades are dull. There have been some sales, in round lots, of Michigan charcoal iron on the basis of \$17.50. Buffalo. Northern brands are quoted at \$16.750/8 to for No. 1, \$16.00,016.50 for No. 2, and \$14.00,014.50 for gray lorge, southern irons sell at \$16.00,016.00 for No. 1, \$15.250/16.00 for No. 1, \$15.250/16.00 for No. 1, \$15.250/16.00 for No. 1 soft, and \$14.00,014.50 for gray forge.

Ferro Manganese—The foreign combination has advanced the price of ferro manganese, and importers now quote \$64.50,00.00 for No. 1, \$15.250/16.00 for No. 2, \$15.250/16.00 for No. 2, \$15.250/16.00 for No. 3, \$15.250/16.00 for No. 1, \$15.250/16.00 for No. 1

Billets and Rods—In the East the market is very dull. The feeling is casier as the result of the reports from the West, where were billets are reported to have been sold at \$24 50624 75, while rods have changed hands at \$33 30634 00. Here we quote foreign billets at \$31 25631 30, and domestic wire rods at \$37 30638 00, tidewater. Steel Rails—After many weeks of duliness we can now record the placing of one good order, for about 10,000 tons, for a Southern railroad by the Maryland Steel Company. The feeling in the trade is hopeful, and the appearance of some inquiries for round lots after so long a period of stagnation is regarded as an earnest of the better times to come. And yet there is no serious thought after so long a period of stagnation is regarded as an carnest of the better times to come. And yet there is no serious thought of higher prices, but it is believed that before long the representatives of the mills will come together and deal with a few matters of detail which need adjustment. We continue to quote \$30.75@31.00 at tidewater. Manufactured Iron and Steel—Conditions are practically unchanged. There is a fair amount of architectural work at low prices, very active competition for bridge work, and continued weakness in plates. Bars, however, show a somewhat stronger feeling, and a moderate advance is among the possibilities of the near future. We continue to quote: Angles, 190@2.10c, sheared plates, 1.95@2.25c; tees, 2.45@2.25c, and beams and channels, 3.1c on dock. Steel plates are 1.36.2.15c for tank, 2.25@2.26c for shell, 2.4@2.6c for flange, and 3@3.25c for fire box, on dock. Bars are 1.7.01.9c on dock. Scrap axles are quotable at 2.15@2.20c delivered.

#### FOREIGN METAL MARKETS.

Pig Iron Still Remains Quiet, While Copper and Tin are Irregular.

NEW YORK, Sept. 3 .- [Special.]-The foreign metal markets are thus reported by the Iron et has remained very quiet and stocks in Connal's stores remain almost stationary The last returns show 501,000 tons Scotch and 154,000 tons Cleveland. Firms not connected with the "ring" remain idle and are likely to continue so, as those most deeply interested in Scotch seem disinclined to let the price fall below 47s. The shipping demand is limited. Cleveland makers are firm and assert that foundry iron is scarce. Latest ales of warrants were at 47s for Scotch; 39s Pig tin, prompt delivery, advanced to £92 2s 6d on Friday, under the influence of the or decound but a subsequent falling off in orders led to a reaction of 17s 6d that gave the market a weak appearance. Australian tin is still very scarce and now commands 25s premium over straits. Copper has been irregular, with the aver-age of prices somewhat lower and merchant

ar prompts down to £52 5s on Tuesday consumers seem more inclined to buy, but take hold very cautiously. Tin plates are steady. There is more inquiry from home buyers for prompt deliveries, but futures are slow, as prices offered are not meeting buyers' views. Scotch pig iron makers' buyers' views. Scotch pig iron makers ron is still slow of sale, and prices are barely

## THE COKE MARKET.

A Large Increase in Shipments Shown by the Past Week's Business.

SCOTTDALE, Sept. 3 .- [Special]-The returns for last week still show the coke market to be in good shape. The furnace men, however, are stocking up and a revival in the ron market is all that will improve it from market is all that will improve it. Shipments has week went several hundred cars ahead of the previous week, and many of the smaller operators are accusing some of the larger operators with cutting prices, but the big fellows deny it and say they are maintaining the regular rates. There are about 12,730 active ovens in the district. Shipments hast week averaged about 1,104 cars per day, as against 1,028 cars of the week before. The total increase was 456 cars. The following was the distribution: ars. The following was the distribution: To points west of Pittsburg, 3,621 cars; to Pittsburg and river points, 2,050 cars; to coints east of Pittsburg, 350 cars; total, 6,629 points east of Fittsburg, 359 cars: total, 6,62 cars. This was the previous week's record To points west of Pittsburg, 3,193 cars; to Pittsburg, 2,150 cars; to points east, 830 cars; total, 6,175 cars. Prices remain at \$1 90; \$2 30 and \$2 65.

Metal Markets.

New York, Sept. 3.—Pig fron dull: American, \$16.00@18.25. Copper nominal; lake September, \$12.25; do, October, \$12.25. Load dull and strong; domestic, \$4.55. Tin irregular, closing easy; Straits, \$20.05.

## ALMOST STATIONARY.

The fluctuations in Wheat Rather Frequent, but Very Narrow-News of Frost Past and to Come Gives an Impetus to Corn-Oats Quiet.

CHICAGO-The wheat market appeared to have touched a price early in the session to-day below which speculative scutiment does not expect to find much profit in short sales, and it took very little in the way of additional bull news to cause a lively re action and put the price Ic higher than it

losed yesterday.
In spite of very weak cablegrams, wheat opened at from only 1/2 lower to 1/2 higher than it closed yesterday. There were some rather erratic performances in the privilege erowd yesterday afternoon, the result of which was the advance of the price of calls for to-day from \$1 013,601 06, and even higher.

for to-day from \$1.012,621.06, and even higher. The outside orders were principally to sell, and local shorts took all such offerings.

The range in price for the first hour was narrow, not getting below \$20\fo or above \$1.062, and that show of comparative calm begot more confidence among the local bears, who mided the price down to \$20\choose Atter someslight recovery a cable message was received quoting Liverpool 2d higher on renewed wet weather. This immediately set the pit here in a ferment, during which practically no wheat could be bought until from around \$20\choose 400\choose and weather of the price advanced to \$1.00\choose being offered. The price advanced to \$1.00\choose before this buying fever abated, and as the excitement lessened the price began to dwindle also. The advance had been nelped by the heavy Atlantic clearances, amounting to \$1.000,000. Another scramble to buy in short wheat occurred on the rally and the price went up in about ten minutes from around \$1.00\choose 100\choose 100\choo

There was another quiet and draggy spell, uring which the price worked off again to 160%, but the shorts by this time had be-ome thoroughly demoralized, and it took out a moderate pressure from the bulls to gain shove prices up to \$1 0134 and closed

corn opened strong and higher on private reports of killing frosts in the West and Northwest, and fears that this era of low temperature would spread over the corn belt. The weather maps showed light frosts to have occurred in portions of Iowa and South Dakota, and Killing frosts at Cheyenne, Wyo., and Moorehead, Minn. Those were the influences which brought out buyers at the opening for October at from 5%46394c, compared with 58% at the close of the Signal Service Bureau for to-night's temperature, that light frosts would occur in the northern portion of the corn belt and

in Wisconsin, caused a further advance, during which October sold up to 60%. The closing prices were within a small fraction of the best of the day, October closing at 60c. In eats price changes were few and unimportant, the fluctuations for the day amounting to only 560%c.

Hog products opened very firm, and under good buying the price started up and became stronger as the session advanced, the latest prices being the highest of the day. Pork closed at an advance of \$736635c; lard, 10c; ribs, 1061236c.

The leading futures ranged as follows, as cor-

New York, Sept. 3.—Business in drygoods was fair, with a well sustained demand from the northwest. Transactions on the spot were unimportant, but interest increased as the day advanced and it began to look as if a turn in the tide was imminent. There was a better feeling all through the market.

New York, Sept. 3.—[Special.]—Bar silver in London, 45 1-16d per ounce; New York dealers' price for silver, 98% per ounce.

The Messenger Who Called for Him With a Coupe Positively Identified.

nephew of Perrien, testified that Ed Kent was the messenger who came for Perrien was the messenger who came for Perrien with a coupe the night he was abducted and he identified Kent.

Petricn is the wealthy miller who was abducted last winter and kept by his abductors several days. They used him viciously, tried to frighten him into signing a check for a large sum of money, but finally let him go home without having gained their point. The identification of Kent, who is a livery man here, it is hoped will lead to determining who were the abductors.

THE SALE DEFERRED

GLASS COMPANY STOCK PICKED UP.

Increases Its Resources. FINANCIAL AND SPECULATIVE DRIFT

Yesterday at 10 o'clock was the time set by the Orphans' Court for the auction sale of the interests of the late J. H. Shoenberger as special partner in the firms of Schoenberger & Co. and Schoenberger, Speer & Co., iron and steel manufacturers. The decedent had a 5.32d interest in each firm, the appraised value of which is \$208,07982. When Auctioneer Leggate arose to open the proceedings seven gentlemen were comfortably seated in the office facing the immense plant. These included all the partners except one. Bidding was slow. Finally Mr. Speer offered \$53,000 under the impression that the profits of 1890 were included, but on Attorney Shiras stating the sale was to date as from July, 1891, Mr. Speer withdrew his bid. After waiting until nearly Il o'clock, and no other bids being made, the sale was adjourned until Tuesday, October 6, at 3 P. M. Meanwhile the executors will receive private offers.

The Fidelity Doubles Its Resources. The stockholders of the Fidelity Title and Trust Company decided at a special meetriust Company decided at a special meeting held yesterday afternoon to increase its capital to \$1,000,000. The present stockholders are entitled to subscribe for one share of new stock for one share of the presshare of new stock for one share of the present holdings, with the right of assigning the options. Any new stock not taken by the original owner will doubtless find ready sale. The payments have been made quite easy; 10 per cent October I and 10 per cent every sixty days thereafter. But every subscriber becomes liable for the unpaid balance of his subscription, and upon the entire stock being taken the company may be fairly regarded as having a capital of \$1,000,000.

monwealth the capital stock of a trust com-pany is taken in lieu of the bond ordinarily given by a guardian, administrator or others; and the directors appreciating the value of ample security recommended the action which the stockholders yesterday confirmed.

action which the stockholders yesterday confirmed.

In a corporation as large as the "Fidelity" absolute unanimity is not to be expected, but out of 5,000 shares only 883 shares voted against the increase. About 75 per cent of the whole capital was represented.

It is probable the new capital will be largely invested in installment mortgages, which experience elsewhere has shown to be a desirable form for persons desiring to make frequent and small payments. Each payment being an equivalent to an investment of that amount at the same rate of interest as the mortgage bears, it keeps the mortgagor's money always actively employed, instead of lying idle, to meet one large payment, or at best earning a low rate of interest.

of interest.

The Fidelity has grown to be one of the most important institutions of Pitisburg. It finds a constantly enlarging field of usefulness in this city.

Meeting With Fair Success.

Subscriptions to the preferred stock of the United States Glass Company are coming in quite fairly. Robinson Bros. report that up to date \$220,000 of the \$500,000 has been taken. Subscriptions were from one share to 250. Subscribers are nearly all Pittsburgers. Ground for Encouragement.

While it is plain enough that there is no boom in Pittsburg realty, the market is fairly active and full of good features. It is not oversold, and there is a good, strong inquiry for use and investment, Speculation, like hanging, is almost played out. The prospect of an abundance of money for some time to come is causing farsighted operators to turn their attention to lands and houses, and many of them have important deals under consideration. Four or five downtown propconsideration. Four or two downtown properties are cooking.

'In the outlying districts rapid transit has penetrated, territory is being developed and built up with surprising rapidity. All things considered, the outlook is full of en-

What is known as the "Harris" property with a large frontage on Westminster place near Amberson avenue. Shadyside, has bee placed in the hands of W. A. Herron & Sons for sale, either as a whole or in parts. West-minster place is paved, and since the com-pletion of the Shadyside Presbyterian Church has become one or the most desir-able streets in the East End.

Business News and Gossip. This will be another good week in the building line. Large permits are a special

feature. A mortgage specialist said yesterday: "Business is slow on account of the absence of many of the lenders. Inquiry is good and the outlook favorable for a good movement this fall. Very little money is offered under

6 per cent."
It is rather singular that whenever the croakers exhaust the stock of natural gas-in their minds-new sources of supply are developed.

The Shoenberger Iron Works cover ten acres of ground. This affords a pretty good

acres of ground. This affords a pretty good idea of the magnitude of this great industry in Pittsburg.

The American Banker states that 48 counties of Kansas the past three months paid off \$1,500 000 farm mortgages, and that it is expected the payments will average \$1,000,000 per month for the next year.

The Williamson Manufacturing Company has been incorporated at Williamson, W. Va., to mine coal and sell lumber, iron, etc. The authorized capital stock is \$300,000.

Pennsylvania Railroad, in the Wilkins estate, third plan, lot 64 on Hutchinson
avenue, 52x120 feet, for \$700. They report
since the hot season is over good inquiry
for lots in this plan.

The Building Record. The Building Record.

Sixteen permits were taken out yesterday for the same number of houses, the estimated cost of all being \$25,220.

Dr. Le Moyne, brick two-story dwelling on Belfont street, Twentieth ward. Cost \$3,500. Mrs. Rossifa Maddock, brick two-story and mansarddwelling, on Meyran avenue, Fourteenth ward, Cost, \$6,000. Louis List, frame two-story dwelling on Penn avenue, Nineteenth ward. Cost, \$1,150. Edward Smith, frame two-story dwelling on Lovell Street, Twenty-first ward. Cost, \$6,200. Biggs Bros., two frame two-story dwellings on Webster street, Thirteenth ward. Cost, \$6,000. Mrs. Ida Kerr, frame two-story dwelling on Shetland street, Twenty-first ward. Cost, \$1,400. R. J. Godfrey, frame two-story dwelling on Shetland street, Thirteenth ward. Cost, \$3,500. Charles C. Kaufinan. frame two-story dwelling on Frazler street, Fourteeth ward. Cost, \$1,485. W. F. Dieterle, frame two-story dwelling on Mary street, Twenty-fourth ward. Cost, \$1,400. Several others were taken out for small structures ranging from \$40 to \$700.

Sixteen permits were taken out yesterday

Paper Closely Scrutinized, But All Good Borrowers Readily Accommodated.

Local monetary conditions continue favor

able to business expansion. Paper is carefully scrutinized, but none that is all right is thrown out. The market was easy yesterday, with a moderate call for loans, which as a rule were made on the basis of 567 per cent, anything less being exceptional. Bank clearings were \$2,233,787.40, and balances \$435,-650.61.

clearings were \$2,233,787.60, and balances \$433,\$200.61.

The Wall Street News remarks: "Events point to the realization of our predictions, made some weeks ago, that the early part of the present month would witness the beginning of gold imports on a large scale. At the rate at which exchange has been declining during the present week, it will not take much additional pressure to reach the gold importing point. That pressure is being supplied by the enormous foreign buying of stocks. The goming exports of grain would render gold imports inevitable: but the buying of our securities by foreign interests, on the scale they are now taking them, makes assurance doubly sure."

At New York yesterday money on call was easy, ranging from 2½ to 3½ per cent; last loan 3, closed offered at 2. Frime mercantile paper, 5½,67%. Sterling exchange quiet and steady at \$4.82 tor 65-day bills and \$4.85 for demand.

STOCKS SETTLING DOWN.

THE LEADERS ESPECIALLY SUFFER MARKED DECLINES.

Various Rumors Concerning Union Pacific Have Their Effect-Burlington Also an Element of Weakness-No Interest in Industries-Hallroad Bonds Dull. NEW YORK, Sept. 3 .- The stock market cor

tinues to show a steadily decreasing volume of business, and to-day the trading was only moderate outside of the half dozen stocks which still remain prominent in the market The buying power seems to be checked for the moment, and the buil leaders are letting the market take care of itself apparently. In to-day's market Union Pacific was still the prominent object of attention and the rumors were still thick, the one concerning the application for a receiver at Omaha mak-ing most mischief. Official denials which

the application for a receiver at Omaha making most mischief. Official denials which followed each one as issued seemed to have no material effect, but the stock was not as weak as yesterday, and late in the day the interest in its finctuations was in great part transferred to other securities.

More pressure was brought to bear upon the Grangers, and Burlington and Rock Island especially bore the brunt of the attacks, and at times exhibited considerable weakness. The general list was very quiet, and the extreme fluctuations in bus few cases reached 1 per cent.

The opening was comparatively quiet and heavy to weak, Union Pacific and Burlington each showing declines of 3/2 per cent from last night's figures, and in the early dealings, which were principally affected by the reports of frosts in the Northwest, causifig selling for Western account, there were further recessions in almost all the stocks. The Grangers' weakness encouraged the local bear element, and they hammered the list all along the line. The reactions were in no case of importance until the last hour, when the losses in the Vanderblits were largely made up, Canada Southern rising over 1 per cent from its lowest figures. The dealings in the Industrials were of no interest.

The market continued to settle away slowly in most-stocks, but rapidly enough in the leaders, until the last few minutes trading, when the usual attempt to cover by the recoveries from the lowest points. The activalist however, shows invariable losses in which were principally affected by the recoveries from the lowest points. The activalist however, shows invariable losses in the stocks are accounted to be a support of the continued to settle away slowly in most-stocks, but rapidly enough in the coover by the recoveries from the lowest points. THE RISE OF BUTTER

Brings Oleo to the Front Again, and Dealers Are Awaiting the

PRONUNCIAMENTOS OF COURTS.

Large Supply of Peaches, but Demand Good for Good Stock.

OFFICE OF PITTSBURG DISPATCH, THURSDAY, Sept. 3.

COUNTRY PRODUCE-(Jobbing prices)-Receipts of peaches to-day were the largest this week, the total being above 15 carloads. Notwithstanding liberal receipts, demand was good for all good stock at prices quoted. Other fruits and melons go slow and are likely to until the great peach crop is worked off. In vegetable lines we have to report continued dullness. Tomatoes, cabage and sweet potatoes are a drug, and prices are merely nominal. Strictly fresh eggs are tending upward, and, as will be eggs are tending upward, and, as will be seen, our quotations are advanced. The supply of strictly choice creamery butter is still short of demand, and markets are firm enough to advance within a few days. With the upward tendency of butter, oleo begins to put in its yearly appearance, and is already selling freely for what it is not, namely, butter. Jobbers in dairy product lines anxiously await the decision of our courts as to the lawfulness of oleo selling. This decision will have a very important bearing on the butter trade this fall and winter.

box.

VEGETABLES—Cabbage, 25@30c a bushel basket;

St. Louis—Cattle—Receipts, 2,900 head;

Society Leader to Suicide.

WILLIAMSFORT, Sept. 3.—[Special]—Aifred T. Travis, a well known young man of this city, was found dead at 6 o'clock this morning upon a pile of rocks on the river's bank. A coroner's inquest was held and it was found that Travis had committed suicide by taking potson. His clothes were wet and it is probable that after taking the poison he started to drown himself, but, after getting wet, his nerve failed him and the poison did its work.

A letter was found on him, saying that he would be found dead this morning because life had no charms for him and he was disgusted with his home. It was his desire to be a leader in society, but not having the necessary money he became disconsolate. He also had an idea that it was a diagrace to work. When he committed suicide an assembly was being held by the elite of the city, which he desired to lead.

USINESS OF RESPECTABLE VOLUME diadelphia Gas Leads in Activity—Strong Buyers in the Market—Airbrake Climbing-Better Inquiry for the Tractions-

There was considerable buying in speculative circles yesterday and trading assumed respectable proportions. Sales were 445 shares; of which 280 were Philadelphia The course of this stock is bard to understand. It's ups and downs are beyond calcu-lation. Conditions have been ignored so long that they have almost ceased to be a actor. But a change appears to have taker place, and the statement of the company that they will have plenty of gas for the winter has doubtless had some effect. Some strong buyers are in the market, and orders are said to be coming in from Philadelphia.

are said to be coming in from Philadelphia. The stock was strong yesterday and closed & better than the opening on comparatively heavy selling. There was vague talk of a dividend in October.

Electric held advanced ground, selling at 14, and finishing strong at that figure. Buyers were largely in the majerity. Airbrake continued its unward movement, adding half a point to its credit. The tractions were practically unchanged, but there was more inquiry for Central and Flessant Valley. The meeting of the Switch and Signal Company was held too late to influence the market. Sales were:

First call—30 Philadelpha Gas at 114, 50 at 114, 15 Luster at 12.

Second call—100 Electric at 14, 50 Luster at 12. Third call—200 Philadelphia at 11%. Bids and asking prices at each call are ap-
