Two Very Short and Lively Games Played Amid the Mud, Rain and Lots of Sawdust.

YOUNG INKS WAS KNOCKED OUT.

Manager McGunnigle Plays a Very Smart Trick by Putting Rosin on the Ball.

THE BOSTONS DOWN THE CHICAGOS.

An Exciting Contest at Cincinnati-Baseball News of General Interest.

Had there not been some very tall hustling on the part of Manager McGunnigle yesterday there would have been no games at all in Exposition Park. But there were the local sluggers got the other. But again been, the Chicagos are not absolutely certain of the prize yet. The Philadelphia team is beginning to threaten the Giants and is beginning to threaten the Giants and ness, and had he not suggested a scheme Brooklyn might have tad both games. The grounds were awful wet; in fact, rain fell almost all the atternoon. The ball was very difficult to handle and in the second came Baldwin could do little with it: so little that five runs were piled up against him in the second inning. Then Manager Me-Gunnigle sent and got some rosin, and Baldwin had his pocket filled with it. Each time before he pitched the ball he rubbed its surface with the rosin. Then Mark began to pitch in great form.

SHORT, BUT THEY COUNTED. In each game only five innings were played, and the crowd were indeed lucky to get that much for their money. It is some In the first contest Manager Ward put

Inks in to pitch. He is a left-handed young man from the vicinity of Ft. Wayne. During he five innings of the contest he did fairly well, but there was always a danger, and a great one, of the local sluggers breaking him up. Had the fall nine in-nings been played it seems safe to say that he would have been thumped very hard, But as far as things went he escaped all ght. The grounds were in a wretched andition, and it was a surprise to many that any game at all was played.

In the first inning King was not at home

with the wet hall, nor did the fielders get own to good work. After Collins was out Pinckney made a little infield hit which was safe. He stole second, and then Foutz knocked out a fly which Hanlon caught. Burns sent a grounder to Shugart and the grounder was fumbled, and Burns went to and and Pinckney scored. Griffin was next, and banged out a two-bagger to left field and Burns got home. In the next in-ning after Ely was out Daily and Inks each made singles. It ks tried to make a double out of his but failed, and Daily scored.

A GOOD EFFORT. In the third inning a ter Reilly was out, Corkhill made a single and so did King. Bierbauer made a two-bagger and Corknill scored, and Shugart's sacrifice scored King. When the sixth inning was just commencing the rain began to fall in torrents and time was called. Finally the game was

At 4 o clock after the bucket brigade and and to clock after the bucket brigade and sawdust carriers had been at work for nearly an hour, the second game started. The grounds were a complete puddle and many a dive in the mud the players got. Inks was again put in to pitch for the visitors, but the misuake was soon discovered. In the first mining after two of the visitors were out, Saugart's fumble allowed Foutz to reach rst and he scored on a long two-bagger by

In the second inning matters looked disas-rous for the home team. O'Brien led off for he visitors and got his base on balls. Bier-auer's error allowed Ely to reach first and bally a single filled the bases. Inks made a ingle and O'Brien scored and so did Ely, also got to second on a wild pitch and a nuffed throw by Miller allowed Daily to rore.

FIVE RUNS FOR BROOKLYN. Pinckney's base on balls, a life hit by Foutz and a single by Burns, with the pre-ceding plays, netted five runs, and Baldwin

But the third inning came and the home players had E men at bat and scored seven uns. This settled it. It would be wearisome to tell how the runs were made, as errors were the chief factors. During the inning Miller made two singles, Shugart had two bases on bails, Hanlon made a two-bag ger, Bierbauer made a single and so did

ger, Bierbauer made a single and so did Lang, Reilly was hit by a pitched ball, there were two fielding errors and a passed ball and a sacrifice hit.

In the next inning two more runs were made by the home players. Lally made a double and Reilly made a single. These, with two wild pitches, scored the runs. A base on balls, a passed ball, a single by O'Brien netted the visitors a run in the second half. At the end of the fourth inning the visitors tried their best to prolong the game until darkness or rain came before the fifth inning was finished. But McQuaid insisted on the game continuing, and the fifth inning was finished and rain. The game was called just as the sixth inning was commencing on account of darkness. The score:

McGunnigle is still monarch of all he surveys in Pittsburg. The Smoky City team continues to play in a way that is disheartening to all opponents. Hanlon has been relegated to the bench. He was playing a good game, but McGunnigle claimed that Ned was hindering his (McGunnigle's) efforts to get good ball out of the team. Whatever the merits of the case, O'Neil and McGunnigle have carried the day, and the Pittsburg club is now playing agame that sets local patrons wild with delight.—Sporting Times.

The calling off of this game gives the Gyms the cham pionship of the County League for 1891, as postponed games cannot be played after entember 7. To-morrow the Gyms meet the Bridgeville club that has been chasing them so closely for the pennant. The first time these clubs met it resulted in the finest amateur contest that was ever played in Allegheny county. The clubs are very evenly matched and are great rivals, and although the championship is decided a very hotly contested game is expected, as the Gyms will try hard to win the series from the

THE CHAMPIONSHIP.

The Great Cricket Match Definitely Ar ranged to Take Place This Week. New York, Sept. 5.—The date for the final game of the Inter-city Ccloket League has been finally accepted by Chicago, the champion of the West, and the match will be played on September 11 and 12 on the grounds of the Belmont Cricket Club, at Elmwood, with Philadelphia, the champion of the East. Great excitement has been aroused in the

contest, and the recent defeats of the Ger-mantown and Belmont clubs by the Chicago eleven have materially weakened Phila go eleven have materially weakened Philadelphia's confidence, and they now realize
that their very best eleven will have to be
placed in the field to secure the victory. The
capiains of the Philadelphia clubs m.: on

This is a most powerful team, and could be improved only by R. D. Brown, who is now in Europe, and E. W. Clark, Jr., who is recovering from a severe illness. It is possible that W. Brockie may not be able to play, in which case F. Welsh, Jr., will be added to the team.

Chicago has also got a splendid team together, as may be seen from the following:

Dr. E. R. Ogden, Alex Macpherson, F. F. Kelly, H. C. Wright, Bradley, and J. G. Davis, of the Chicagos, J. Rogers, J. Dethier, J. Cummings and J. Langham, of Pullman, and C. J. Self, of the Wanderers, with T. Dale, of Pullman, first substitute.

The Belmonts are making every preparation for the match, and look for a crowd of acleast 10,000. A special train will run from Chicago, and a big delegation will leave New York to see the play on Friday, returning to see the championship of New York on Saturday.

PITTSBURG TENNIS CLUB FINALS.

The Western Pennsylvania Single Cham plouship to Be Played for To-Morrow. The finals in the Pittsburg Tennis Club annual tournament, which were post-poned over from the July meeting, will be played off to-morrow. Charles A. Buck, of Altoons, won the tournament and was unable to play Prof. S. W. B. Moorhead, hoMer of the Grogan cup, for the championship on account of the Altoona club's tournament. When the meeting closed the final and last round of doubles, the second singles and consolation flusls had not been finished. These all come up to morrow morning, and the Grogan cup championshp comes up in the afternoon at 2 o'clock. In the doubles Buck and Fay, of Altoona, play Moorhead and Reed, of Pittsburg, and nlay Moorhead and Reed, of Pittsburg, and the winners play the winners of the match between Byers and Pier and Coster and Vaill, of this city, for the double champlonship. For second prize singles, R. R. Reed, C. Byrnes and F. M. Barr, of the Pittsburg Tennis Club, and J. E. Porter, of Sewickley, will contest. In the consolation class M. K. Coster, of the Pittsburg club, and R. R. Miller, of the Sewickley club will contest. The leading event is, of course, the play for the championship of Western Pennsylvania. Prof. Moorhead won it handily last year from Mr. Christy, of Sewickley, though the latter was a very brilliant player. Mr. Buck has improved wonderfully since last season and the contest between him and Prof. Moorhead will be close and exciting. The friends of each haye picked their favorite as the winner and no matter who wins, he will receive the weil-deserved cheers of his friends.

OUR KICKERS ABROAD. An Authority Speaks About American

Football Players in Scotland. A prominent English football authority sums up the team of American and Canadian ootball players now in Scotland as follows:

"The 14 American Scoto-American team have lost no time since their arrival in the commercial metropolisor Scotland; no sight-seeing, but all work and preparation for their campagn in the land of the mountain, the flood and football. They, with their manager, Mr. Ellis, appear daily in combination at Hampden Park, the home of the Queen's Park Club, and there they knock the leather around for all it is worth.

"The individual members, too, put in a lot of single handed training on the pretty track, and express themselves as delighted with the ground and its surroundings. Surwith the ground and its surroundings. Sur-reptitious visits have been made to the

reptitious visits have been made to the ground while the Americans are at practice, but no such care is at all necessary, the visitors making no secret of their work in any way whatever. They are candid and free, and answer all questions as to details of whatever description without the slightest reserve. Seen at play they look light of build and are not at all of the make or weight of the usually heavily built Scottish combinations. They are of course very smart, and should their passing and play beat those whom they have to meet, whether in the North or South, the innovation will be nothing short of a revelation. It will be interesting to see how the forwards will stand the charges of the heavier brigades, while the backs must be full of play to tackle the orthodox, weighty fellows they will have to meet." will have to meet."

HAMMOND EASILY BEATEN. The McKeesport Man Defeats Him in

Very Onesided Contest, There was quite a surprise as a result of the foot race at Homewood Park yesterday afternoon between Tom Hammond and ceipt of three vards' start from Hammond. but the fact is that the concession ought to have been the other way. Hammond was acked by the Brownsville party, and Mo rissey's support came from McKeesport. The race was for \$500 a side, and probably \$3,000 were invested on the outside at odds auging from 5 to 4 to 6 to 4 on Morrissey.

The coal miners who backed Hammond backed their man to their last dollar. The track was in wretched condition, and the track was in wretched condition, and the Morrissey party in measuring the dis-tance were a little too smart for the Ham-mond people in all respects, and Morrissey got a good start. But that was immaterial, as Hammond had no more chance to win than a poodle dog has of beating the Chicago limited. Pat Connolly was referee and a well-known sporting man pistol firer. well-known sporting man pistol firer.

The men were off amid lots of mud, but before 25 yards were out aimid lots of mud, but be-fore 25 yards were run Hammond was "out of it," and nearly stopped. From that stage on the affair was a farce, and the sturdy coal miners went home completely broken. No time was taken.

It is equally well known my hands in that fight were considerably damaged, else—well, no matter. I have not, it must be admitted, got very good tools to work with but to show how highly I value Corbett's abilities as a pugilist, I will fight him for £1,000 with fists, and no bluffing.

It was not my intention to fight again, as I have done my share; but when in my retirement people imagine Mitchell will stand "cat" and allow them to issue boastful challenges with impunity, it becomes advisable to show the public that there is still one left in England anxious to uphold the honor of the old country in any shape or form. That one is your very humble servant to command, who will be at the Sporting Life office to-morrow (Thursday) ready to put up the stuff that speaks all languages. Yours, etc., Charles Mitchell.

BECK THE WINNER. He Defeats McCaffrey After a Good Race of

100 Yards. Quite an interesting foot race of 100 yards took place yesterday afternoon between Ed Beck and Neal McCaffrey. They ran on the Homewood track for \$100 a side. There was considerable betting on the result at odds of to 4 on Beck. George Smith was referee

7 to 6 on Beck, George Smith was referee and David Sheehan starter.

The runners were dispatched to a good start and Beck soon forged ahead. The track was very muddy, but the contestants run in the gamest manner. McCaffrey couldn't overhanl Beck, and the latter won a good race by about two vards.

Beck wants to run Ed Rinsey if the latter will concede two yards' start in 100 yards.

Answer from Kinsey through this paper will meet with attention.

HEARST'S FAST YACHT.

His Little Steam Wonder Vamoose Shows Remarkable Speed,

BY BEATING THE BIG MONMOUTH

A Very Exciting Race Between the Two Boats in New York Bay.

PREPARED NOW FOR MONROE'S NORWOOD

[SPECIAL TELEGRAM TO THE DISPATCH.] NEW YORK, Sept. 5.-W. R. Hearst's steam yacht Vamoose, formerly known as the Herreshoff boat No. 165, had a fast trial down the bay to-day. She fully came up to the expectations of those on board, and surprised all who saw her steam through the water. The day was not a favorable one for a fast trial. The wind was blowing hard from the eastward, the water was lumpy 11 AMand a disagreeable rain was falling.

and a disagreeable rain was falling.

For several days Mr. Hearst has been aching for a spin with the Monmouth, the fast boat belonging to the Central Railroad of New Jersey, that runs down to Sandy of New Jersey, that runs down to Sandy Hook. A few days ago Mr. Monroe's boat, the Norwood, beat the Monmouth easily, and as there is a likelihood of the Norwood and Vannoose racing together, Mr. Hearst has been anxious to get a line on the Monmouth. The Vannoose is not yet keyed up to racing form. Mr. Hearst has been trying several propellers, and to-day he used the Zeice wheel. TACKLING THE MONMOUTH.

Just after passing the big boat's dock the Monmouth steamed out and started for Sandy Hook. When fairly under way on her journey she was about a quarter of a mile astern of the Vamoose. The Herreshoff wonder was slowed down a little in order to allow the Monmouth to cate up. The Vamoose was going then at the rate of 18 miles an hour. When off Bay Ridge the Monmouth was just level with the Vamoose, to the starboard of her. The engineer then opened her up a little, and for a few moments the two boats steamed along side by side.

The excitement on the Monmouth among the passengers was intense. Although it was raining hard, they crowded the hurricane and main decks, and many were crowded on the lower deck. All were watching the white steam yacht. The pressure of steam was increased on the Vamoose and the dated awar from the his Sandal and she darted away from the big Sandy Hook steamer. The Monmouth was doing her best, but she was being beaten. Mr. Hearst then said he was satisfied with this test, and as the weather was so unpleasant would not venture down the bay any fur-

EXCHANGE OF COURTESIES. Then Skipper Stanswood thought the pas-sengers on the Monmouth had not had a good enough look at her, and standing over toward the Coney Island shore, took a long sweep around the steamer, thus crossing her sweep around the steamer, thus crossing her bows. The Captain of the Monmouth graciously acknowledged his defeat by giving three toots from the whistle, and as the little boat ran by the steamer the passengers waved their bats and handkerchiefs and gave the Vamoose three cheers. This was answered from the Vamoose by three whistles and a waving of hats. The Vamoose then came back to the city.

The entire distance run was 11½ miles. For half that journey the Vamoose pro-

For half that journey the Vamoose proceeded at only half speed, yet the time occupied was only 34 minutes 38 seconda. The Vamoose raced with the Monmouth from Bay Bidge to Hoffman Island, about 514 minutes 48 seconds, and in that time beat the Monmouth proceedings of the process of the seconds. the Monmouth more than a quarter of a mile. The engineer says that at no time during the trip was she doing her best, and when going her fastest she had about 40 pounds steam pressure in reserve.

WHAT CAN BE DONE.

In the hands of men who are trained phy-icians, and educated and experienced electrical experts as well, electricity becomes the safest, surest and most potent agent for relieving suffering and healing disease that modern science has developed and brought into perfection.

To ostain desired results from medicines, drugs must be carried through the body. To confine their action to any one point is im-possible. Electricity can be localized to a muscle or nerve or any one organ.

ELECTRICITY is more frequently used for the cure of rheumatism and paralysis than any other diseases—because of its instant relief from pain and its permanent benefit.

In diseases of the skin our treatment obtains the most rapid and brilliant results. In nearly all cases of chronic forms on different parts of the body there is immediate relief of distressing pain and ultimate cure after a course of treatment.

******** Rapid recoveries follow electrical treat-ment of goitre or abnormal swelling of the thyroid gland near Adam's apple.

THERE is as much difference between a skillful and an awkward application of elec-tricity as there is between a skillful and an awkward operation in surgery.

Frail and delicate patients suffering for years from valvular disease of the heart, brought on by inflammatory rheumatism, find relief and cure by electrization.

ELECTRICITY is particularly effective in the cure of piles. It relieves the pain and itching at once, and a few applications result in complete cures.

The terrible torture of neuralgia is in-stantly stopped and permanently cured by the proper application of electricity.

The results in our experience which have seemed the most remarkable have been in cases of paralysis, chronic rheumatism and consumption, which have been pronounced incurable and given up to die.

Paralysis Cured.
"I can scarcely describe my sufferings since I was stricken with paralysis over five years ago." said Mrs. John Fields, residing at 50 Beaver avenue, Allegheny.
"I could not move without assistance. My body and feet were cold as ice. For I months I was bedridden. Everything I tried failed. As a last resort I concluded to try electrical returnent as applied by the physicians of the Electropathic Institute, 30 Penn avenue,
"The first treatment received enabled me to lift my arm, something I had not done for six months before. I improved gradually until now I can walk around unassisted. I unhesitatingly recommend these physicians and their methods."

Chronic Bheumatism Cured. Chronic Rheumatism Cured.

Mr. J. Palmer, one of Pittsburg's most estimable citizens, living on Lawn street, near Craft avenue, Fourteenth ward, in giving his statoment, said:

"Every muscle and nerve throbbed with pain that was almost unbearable. My movements were attended with excruciating suffering. I consulted the physicians of the Electropathic Institute, who said my case was one of chronic rheumatism, and assured me they could cure me. Their promise is fulfilled beyond my highest expectations, and I have only words of praise to offer in their behalf."

haustion and loss of blood caused by a knife wound in the heart. John Corti said he saw the scuffle and heard Reid say Maloney had a knife. Several thers testified to having seen the blow struck.

CATARRH of long standing yields readily to electricity when combined with skillful medical attention.

In nervous diseases some authorities maintain that electricity accomplishes its most brilliant results. We believe, however, that this is because the results in nervous diseases are often the most immediate and apparent, and because a good result is assure: in almost every case of this class of troubles.

With Doctor Pierce's Pleasant Fellets, there's no trouble. They're made to prevent it. They're the original little Liver Pills, tiny, sugar-coated anti-billious granules, purely vegetable, perfectly harmless, the smallest, easiest and best to take. They cleanse and regulate the whole system, in a natural and easy way—mildly and gently, but thoroughly and effectively. One little Pellet for a laxative—three for a cathartic. Sick Headache, Billious Headache, Constipation, Indigestion, Billious Attacks, and all derangements of the liver, stomach and bowels are prevented, relieved and cured.

They're the cheapest pill you can buy, for they're quaranteed to give satisfaction, or your money is returned.

You pay only for the value received.
