HASTINGS MAKES A STATEMENT.

Market Clerk David Hastings was interviewed last night, and denied that there was any crookedness. Said he: "I have held that position for about 20 years. The shortages they show would make it appear that I have taken about \$1,506 a year. I am not much better off than when I went into the office. Then I owned my home on Poplar street. It is now worth from \$2,500 to \$3,000. That is all the property that I own in the world. Neither do I own any bonds or stocks. The way they make that shortage is that, they count up renef for the past IS years for all the stalls in the market. I have known as many as 22 butchers' stalls to be vacan, at one time. Then for years before the center was roofed only the outside stalls were in use the year round. Lots of them were not rented so it is easy to figure out a shortage of over \$30, 600. As for the stub receipts that were burned it was done by an old German who is an assistant sweeper. I told him to dust them and put them away, but instead he three them in the gavang furnace." Mr. Stevart is here at the direction of the Belgian Government for the purpose of collecting information concerning the construction of railroads and the manner in which railroads in America are controlled; to inspect the large manufacturing establishments and to inquire into the condition of the industrial affairs of the country and report back to his Government.

Mr. Stevart is a gentleman of very high standing in the country which he represents. He was formerly a member of the executive cabinet, being chief of the Railroad Department of the Government; he is now a professor in the University of Liege, and also has charge of the public works of that city, which is noted as one of the foremost foreign industrial centers

HE CAME WELL INTRODUCED. THERE were 47 deaths reported in Alle-gheny last week, an increase of 13 over the previous week. Before coming to Pittsburg Mr. Stevart

visited Boston, New York, Philadelphia, Nyw Albany, Pottsville and Altoona. He brought with him letters of introduction to the Carnegic firms, George Westinghouse and other prominent manufacturers. After making an official visit to the office of Arnold Schneider, the Consular agent of Belgium, where he was given much valuable information concerning the location of firms he desired to visit, he began his tour, which will continue the remainder of the week.

His first call was at the office of George Westinghouse. Mr. Westinghouse is ab-

Farmers' Alliance Men in Missouri Will Vote With Their Respective Parties in 1892-He Scores Pennsylvania for Permitting So Much Political Corruption.

Hon. W. H. Hatch, of Hannibal, Mo., came into town last evening and put up over night at the Anderson. He had been visiting relatives in the eastern part of the State, but having contracted a cold in re-

turning decided to wait for an early train this morning, in preference to traveling all night. Congressman Hatch said that the political

"The Farmers' Alliance," said Mr. Hatch, "has an organization in every county in Missouri, and has an undeniable strength. The question is whether that strength will be exerted solidly in a political struggle. I do not think it will. The majority of the members were Democrats before the Allia-ance came to be known as the Third party. Whon the farmers entered into the Alliance they did so without a thought of its ulti-mately becoming a political party, and it will be found that in 1892 the Democratic members will vote with their party just as

SOME OF THE PRINCIPAL EXHIBITS

Yesterday was the first children's day at the Exposition. All the pupils of the the Exposition. All the pupils of the Southside schools and all those of the Central High School were privileged to be present, and most of them went. The doors were open at 9 o'clock, and at that time the youngsters were ready to go in, many of them waiting outside for the doors to open. There were considerably over 1,000 children in the buildings during the day. They en-joyed the sights in the Exposition, and it is safe to say that a more appreciative set of visitors will never be in the Exposition during the 40 days it is to remain open. There are notices in every direction warn-ing people not to touch, but it was very hard for the children to keep their hands off

There are notices in every direction warn-ing people not to touch, but it was very hard for the children to keep their hands off some of the exhibits that seemed made on purpose to be touched by infantile flagers. The youngsters behaved themselves very well on the whole. They were not more mis-chievous than the average youngster is everywhere, and the presence of their teachers had a restraining effect that was very beneficial. It was the desire of the management that the children should leave at 4 in the after-noon, but it was not an easy matter to get them out. They liked the show so much that they seemed willing to stay all night if they could. They had brought their dinners with them, so they were not hungrr, save in a few cases, where the meal had been eaten early in the day to avoid the trouble of ear-rying the parcel around. However, the small visitors were all gotten out at last, and then the halls were left free for the immense crowds that piled in for the evening enter-tainment. It was Labor Day, and being therefore a

He had pre-pared a very strong programme, and the music was a thing of delight indeed. Among the numbers was "A National Fantasie" that was very stirring and harmonious. Mellor & Hoene, not content to take the lead in pianos alone, have taken themselves right to the front in the matter of organs, and as to "Aeolians," they were the pioneers in that line and have the trade beyond a per-adventure. What are the names of some of these pianos? with the fact that Sharpsburg is under a special net whereby the treasurer of the borough is also authorized to act as tax collector, has brought about a very complicated state of affairs. Kraft was to taily incompetent for the position, and it was this ignorance and carelessness rather than any criminality on his part that has caused the trouble. I opened up a set of books for him and started the headings, but I due that this scatter was of books for him and started the headings, but 1 find that this system was never pur-sued. He lost a large sum of money on the Detamater defeat, and ever since that time has been in difficulties, but was enabled to tide along by the aid of friends until last week, when matters were precipitated by a warrant for \$1,362 b0 to pay interest on water bonds drawa on the Philadelphia Safe Trust and Denosit Commany, and returned to the and Deposit Company, and returned to the A. & M. Bank of this city, when it was at once protested. Mr. Kraft endeavored to negolinto a loan of \$5,000 hast week from the Metropolitan Bank, but was unsuccesful, Metropointan Bank, but was unsuccesful, and, recognizing the seriousness of his position and desiring to make all amends in his power, threw up his hands and took the only wise and honorable course left him."

#### HE WILL NOT BE PROSECUTED.

Burgess Lloyd said that he did not think any criminal proceedings would ensue. He had been requested by certain persons to bring action, but having taken every step bring action, but having taken every step necessary to secure the treasury he thought his duty as a public officer ended there. The bondsmen were seen, and stated that they would not institute any proceedings against Mr. Kiraft, as they had agreed with him to make up the deficit and allow him time to reimburse them. There seems to be a tende.cv on all sides to treat the misguided Treasurer leniently, although an attorney said last night he would undoubt-edly be liable for embezzlement if his attorney said hast night he would undoubt-edly be liable for embezzlement if his bondsmen desired to prosecute. Mr. Kraft was seen last night and admitted everything. He said that the fig-ures as given above were, to the best of his knowledge, about correct. He said that he had lost several bousand dollars prior to the Delamater correct. He said that he had lost several thousand dollars prior to the Delamater election, and hoping to recover this loss he had dropped about \$5,000 more on Delama-ter, as he had a 'sure tip," and from this he dates his downfall. Kraft said he had had a talk with his bondsmen, and that they would let him down easy. He said he would continue in his butchering business, and continue in his butchering business, and would repay them every dollar.

kraft's inabilities amount to between \$25,000 and \$30,000, and his assets about \$18,000. He had personal paper out to the amount of about \$7,000 in various amounts, some of had personn paper about \$7,000 in various amounts, some of which was by F. C. Pilgrin, \$2,000; Peter Wertz, \$1,000; C. Bellman, \$505; George Beck,

Wan-ner was elected to serve the remain-der of the term. He was directed to file a bond for \$20,000, and keep the accounts in such a way that they could be readily ex-amined by the Burgess or Councilmanic Committee. He is to deposit in the Metro-politan Bank, and the bank is to be required to furnish security in the sum of \$10,000. Mr. Kraft's bondsmen statted that they could not immediately secure the money nec-essary to pay of the water bond interestand other bills which had heen presented to

other bills which had been presented to councils, and they were given thirty days to make good the deficit, and Mr. Potter having arranged the matter a warrant was drawn on the Monongahela National Bank of Pitts irg for \$6,000 the sum necessary to pay off sing bills.

#### Back Taxes Drifting In.

Some \$6,000 back tax owing the county, some of it for two years, has lately been covered into the County Treasury, and is now coming in at the rate of \$800 to \$1,000 a month. No matter whether you are delin-quent or whether it be some former owner of the property you possess, you had better stir your stumps, for after the 15th of this month writs of seire facias will be issued. month writs of soure facins will be issued. The County Commissioners appear to be in earnest. Last spring some people thought the demand was a bluff.

Andy Wanco, a Pole, of No. 616 Mint alley, Southside, was arrested by Officer Discon las evening for beating his wife with a poker and chair. When the officer arrived at the house he found the woman unconscion from the beating. He sent Wance to the police station and called two physicians who, after working with the woman nearly two hours, restored her to consciousness, two hours, restored her to consciousness. At a faste hour last night the woman showed signs of getting better, but the physicians state that her condition is still dangerous.

W. E. Schmertz, President of the Chamber of Commerce; resigned yesterday and his resignation was accepted. Reuben Miller, the Vice President, also resigned, but the Chamber refused to relieve him of the responsibility. It was the first meeting following the summer vacation. The first business was the reading of the letter of resig nation from Schmertz. He said he made it on account of ill-health.

Hon. Morrison Foster bitterly opposed the accepting of the resignation because Schmertz's circumstances were different from what they had been. J. B. Scott, how-ever, argued that Schmertz was in poor health, and as there was little chance of a speedy recovery the resignation ought to be accepted. He then offered the following resolution:

"Resolved, That this Chamber accept the resignation of President Schmertz with re-gret, and we sincerely wish him a speedy restoration to health."

## Bringing Out Winter Garments.

The first indication of approaching winter is the disappearance of summer garments, Only at rare intervals were straw hats and

warm-weather suits to be seen on the streets yesterday. The coolness of the past few days made summer comforts give way to more substantial attire and the change is very noticeable on the streets. The tem-perature at present is somewhat below the average for this time of year. Yesterday the highest point the mercury reached was  $73^\circ$ and the lowest  $51^\circ$ . One year ago the highest was  $84^\circ$  and the lowest  $74^\circ$ .

seventh street, yesterday morning. He was charged with assaulting his wife. When the officer arrived Lyons jumped out a second-story window and ran to the river, with the officer after him. On reaching the bank Lyons jumped in and was seen no more. A vigorous search failed to find him, and he is supposed to have struck a log and drowned. Lyons was employed in Carnegie's Thirty-third street mill.

#### Mrs. Humphries Reported Dying.

Chief Brown yesterday received word from Chief Engineer Miles Humphries, of the Fire Bureau, who is at the bedside of his sick wife at Crestline, O. In his letter Mr. Humphries states that he cannot give any exact information as to the date of his re-turn as his wife is in a precarious condition and her death is momentarily expected. #### Don't Like a Double Reduction.

The workmen at Wilmerding are consider ably agitated over the condition of affairs into which they have been forced. One of the employes said yesterday that there had recently been a reduction in hours to seven per day, with a comparative reduction in pay. He feared that the double reduction of both time and money would cause some of the men to leave the place.

her work at home, where she is associated with three other inspectors, is confined chiefly to mercantile and textile factories, of which there are many in Philadelphia employing as many as 350 women and chil-drea, the latter ranging from 12 to 16 years of age. Miss O'Really has scarcely made a sufficient investigation of the conditions of the working women and children here to make a comparison with those at home. But she admits that it is something surprising to her to find women working about iron and wire mils and nut and bolt works. The other inspectors in the work with Miss O'Reilly are Mrs. M. B. A state with the historical record of Pennsylvania, which at one time was regarded as the key-stone of the political structure, and whose vote was decisive in national contests, now appears before the country as afflicted with a leprosy of corruption which is simply as-tounding. To me it is surprising that such a state of affairs is allowed to exist. In the West the people would soon rectify any-thing of the kind. Office seekers and hold-ers in Missouri are subject to scrutiny that makes wrong doing impossible. Miss O'Reilly suys that many employers evade the law by limiting their forces to nine persons, when they really should have from 10 to 12. In some cases when firms require a larger number and desire to evade the law they divide their business, one member of the firm em-ploying eight or nine people in one building and another so many more in an adjoining building.
