

A RELIGIOUS RUMPU

Over the Placing of Flags Upon Meadville Schoolhouses.

INDIGNATION AGAINST A PRIEST.

The United Mine Workers Are Again in Session at Scottdale.

MINOR NEWS FROM THE THREE STATES

(SPECIAL TELEGRAMS TO THE DISPATCH.)

MEADVILLE, Sept. 7.—Meadville has been overrun for some six weeks over the question of placing flags on the public school buildings. The School Board refused to put flags on the buildings or accept them from the J. O. U. A. M. The Catholic priest here, Rev. J. J. Dunn, publicly thanked them and expressed himself as opposed to putting up the flag. Public indignation became so strong, however, that the Board was compelled to order the flags as the J. O. U. A. M. had requested. Rev. Mr. Dunn then announced that he proposed to have flags on his school first, and to that end invited the School Board and the G. A. R. to put them there to-day.

During the whole day knots of men were gathered on the street corners, vowing they would not allow him to carry out his scheme, and up to the time of his exercises at 8 p. m. it looked as if there would be serious trouble. It only needed a leader to have started it. The J. O. U. A. M. was very nervous in trying to keep the peace, and exhorted their victory in forcing the flag up by firing the National salute. The exercises were conducted by only 20 out of 200 members of the G. A. R., and Rev. T. H. Flood, a former Methodist minister, assisted by H. Hollister, Postmaster.

A PANTHER NEAR SWISSEVALE

It Is Seen by Many Residents, but Hunters Fail to Find It.

BRADDOCK, Sept. 7.—(Special.)—The good people of the village of Swissevale are passing sleepless nights now. They have reasons to believe that a genuine panther is prowling about the neighborhood, but a week has elapsed since the dangerous animal was first heard from, since which time it has been seen by several of Swissevale's citizens. The animal is described as being about the size of a Newfoundland dog, and those who have heard it say it makes a noise similar to that of a little child weeping piteously.

IN DEFENSE OF RAVEN

Postmaster Cowden, of Wheeling, Says the Refrigerator Works All Right.

WHEELING, Sept. 7.—(Special.)—Postmaster Cowden, in an interview, denies that either he or his assistant, Mr. H. H. Smith, are responsible for the original Raven Refrigerator Company. He says that they saw the concern work in Washington and induced Mr. H. H. Smith to send a party to this city to work all right. The local company was then formed, and they sent for more refrigerating salt, but when it came it did not work. Frank Smith, the inventor, said the salt had been tampered with by an enemy of the company, and another consignment would be sent on.

McKeesport Merchants Are Furious.

McKEESPORT, Sept. 7.—(Special.)—There is a great stir in the city tonight over the now famous sidewalk ordinance, as it prohibits the use of even an inch of the sidewalk for the purpose of displaying goods, while three feet or more have always been used by the merchants. The ordinance was introduced by Dr. S. B. Hotchkiss, has been charged before the Mayor with sidewalk obstruction and fined each \$20 and costs. They were Dr. H. Mahoney, Mrs. H. Thomas, Henry McKay and Levi Fisher & Co. Mayor Tilbrook ordered the police to report all cases where the ordinance had not been observed, and the probabilities are others will be fined to-morrow. The ordinance also prohibits the use of the sidewalks of wheelbarrows, toy wagons, bicycles, baby carriages, etc., and specifies that awnings supported by poles shall not be more than six feet in the clear. A citizens' committee representing the merchants will go into Councils and ask that the ordinance be modified.

An Edinboro Druggist in Trouble.

EDINBORO, Sept. 7.—(Special.)—Edinboro, the seat of the State Normal School, is excited to-day over the fact that "The Brick Druggists," owned by Dr. S. B. Hotchkiss, has been charged in court for selling liquor. Constable Goodrich has been summoned to appear in court for the murder of old man Brainer. The return is made at the complaint of Mrs. Dr. J. N. Taylor and Miss Ella Reeder, W. C. T. U. workers. The chief interest centers in the fact that Mrs. Taylor, wife of Dr. Hotchkiss, is President of the Erie County W. C. T. U. and is prominent in temperance work.

Another Case of Official Embellishment.

YOUNGSTOWN, Sept. 7.—(Special.)—Investigation of the accounts of William Carlin, the outgoing Treasurer of Lewisville School district, has revealed a shortage of nearly \$200. The delinquency was discovered by his successor, Robert Erskine, taking charge of the office the past week. The bondsmen are good for the shortage. Friends of Carlin are endeavoring to raise the amount and avoid prosecution. Carlin is a carpenter and contractor and formerly a prominent candidate for County Commissioner.

Hit Everything but Her Mark.

WHEELING, Sept. 7.—(Special.)—About 9 o'clock this evening, Mary Leslie, wife of Frank Leslie, of this city, fired several shots at her husband in a saloon. She accused him of being unfaithful to her, and, after a scene, she slapped her face. Falling out of a revolver, she opened fire, hitting everything in the room but her husband. The woman was locked up, after exhausting the weapon without injury to anyone.

Many Cattle and One Man Killed.

CLAMANSBURG, W. Va., Sept. 7.—(Special.)—The extra stock train on the West Virginia and Pittsburgh Railroad ran wild down the Becklamban Mountain early this afternoon. The train was loaded with live cattle and the extra conductor about 80 head. Seventy-six out of the load were killed. Fireman Eganburg jumped from the train in the mad flight down the steep grade and was instantly killed.

True Bills in Two Noted Cases.

EDINBORO, Sept. 7.—(Special.)—The grand jury to-day found true bills against Kimer Bruner, Annie Stark and Charlie Bruner, the young boys from the mountains near Edinboro, who were charged with the murder of a young man named Prof. Steffen. A true bill was also found against John Ferman, the daughter of a minister of Christianism.

swept over this section of the State Saturday night and Sunday was more destructive than it was thought. In town north of here the storm had the appearance of a dark funnel which was preceded and followed by a high wind amounting almost to a hurricane. At Deerfield the barn of William Keen, a wealthy farmer, was struck by lightning, and in an instant was a mass of flames. The barn, with its valuable stock of crops and implements, was destroyed with several wagons and buggies, was valued at \$3,000, and the loss to the owner, Fortage county, a whirlwind descended on the place, tearing away sheds and uprooting trees. The barn of John Myers, living near there, was struck by lightning and burned with its contents. Newton Falls, the barn owned by J. Bert Keen was struck and burned, while others are reported as having been destroyed. Altogether the loss in the track of the storm will reach over \$100,000.

THE UNITED MINE WORKERS

Their Convention at Scottdale Considering the Company Store Law. SCOTSDALE, Sept. 7.—(Special.)—Many familiar faces were observed at the special delegates convention of the United Mine Workers, which was held here to-day. Master Workman and Secretary Parker were in their old positions. The company store system, as now in operation in the coke region, was one of the topics of discussion, and a strong resolution was unanimously adopted to insist upon its abolition. A series of resolutions were also passed which were tendered to the Legislature. The session closed at 10 o'clock, and the delegates returned to their homes. The Master Workman was empowered to make appointments to fill the vacancies on the executive board.

DISSEMINATION IN A BAPTIST CHURCH.

The Pastor in a Sermon Unmercifully Scores Would-Be Seceders. YOUNGSTOWN, Sept. 7.—(Special.)—Trouble in the First Baptist Church two years ago, which resulted in the resignation of Rev. J. A. Snodgrass, now located at Columbus, has broken out afresh. During the past week Rev. Mr. Snodgrass was in the city, and in his sermon he tendered his resignation. A series of resolutions were also passed which were tendered to the Legislature. The session closed at 10 o'clock, and the delegates returned to their homes. The Master Workman was empowered to make appointments to fill the vacancies on the executive board.

ENGLAND'S METAL INDUSTRIES

Sad Inroads Made in Them by the Withdrawal of American Trade.

BRADDOCK, Sept. 7.—(Special.)—Joseph Williams, the son of an extensive tin manufacturer in England, has just arrived here, and in an interview, said: "The outlook in England is gloomy, especially in the iron and steel industries. The staple production is tin bars. The rail trade is comparatively small. The largest mills are run on a two and three days a week. The reason for the condition of trade being so deplorable is that England has lost all her American steel mill orders. The American mills producing sufficient to supply the demand. Unless other fields open, such as China or the Euphrates valley, England as an iron producer, stands no chance of being her former self." "The mining situation in Wales in particular, is at its best. Miners make from \$10 to \$20 a week. The tin industry after a month's shut down, have resumed operations. The Manufacturers in Wales are becoming reconciled to the fact that through the new tariff imposed by the McKinley bill, American tin manufacturers are making their own tin, and are somewhat chary in building additional mills. The people who own large tin mills in Wales see that America will eventually take the tin market. The tin industry in some of the weather tin manufacturers have had a monopoly in the production for years, and have made large profits, and are indifferent concerning future prospects. The tin industry in Wales is now being shipped them to India to replace the wooden ties under the railway tracks, which are being used in the tin mines. "The English are very much astonished at the general output of blast furnace iron and Bessemer steel in this country. In fact, some of them would not credit the statement of America's great production unless it was demonstrated on paper. I attribute its increase over England and Wales to more modern ideas. The mills of this country have the greatest facilities and despatch in shipping themselves to the most modern requirements of the times."

SUICIDE WITH A BOMB

The Explosion Scatters the Victim's Remains Over a Room and Outside. SAN FRANCISCO, Sept. 7.—F. L. Camly registered at the Prescott House this morning as William F. De Young, of Fresno. Shortly afterward an explosion which shook the buildings in the neighborhood attracted attention to his room, and it was found he had committed suicide by exploding a dynamite bomb. His remains were scattered all over the room, and one of his arms was found in the street. The windows and plastering were broken and the furniture damaged. The deceased had been working on a fruit farm near Fresno. He held a number of persons that he intended taking his life, as he wanted to create a sensation for the newspapers. In a note to the coroner which he left he says he committed suicide because life was not worth living.

Sir Hector Langevin's Resignation Final.

OTTAWA, Ont., Sept. 7.—In the House of Commons to-day Sir John Thompson read letters exchanged between Sir Hector Langevin and Premier Abbott. In this correspondence Sir Hector asks that his resignation be considered as final, and Premier Abbott, in reply, says he will lay the resignation before the Governor-General.

LADIES' MILITARY FUR CAPES.

This year's fashion decrees a most sensible fur garment in the form of a long, loose fitting cape or mantle, equally appropriate for street or evening wear. It is easily put on or off, and extending as it does below the waist and elbows, is as thorough a protection as a jacket. We are showing them in Seal, Mink, Sable, Marten, Monkey, Astrakhan and Persian. We are already very busy in our Seal Repairing work, and we again urge you to bring your old garments at once to be made into fashionable jackets and capes.

CHRISTY'S HATS

Are the talk of the town, the styles were never so nice as this fall. YOUNG MAN'S HATS. Are very well and suit the young men to do. Many have bought them. Our sales on this hat will be twice as large as last fall. DUNLAP & CO. HATS. The Dunlap hat this fall is entirely new, being very broad in the brim and extremely low in crown. The seal boys have taken hold of it in great shape. Don't buy until you see it. We are exclusive agents for the above hat, and respectfully invite you to call and see them. It will pay you. J. G. BENNETT & CO., Leading Hatters and Furriers, COR. WOOD ST. AND FIFTH AVE., PITTSBURGH. 865-D

BOGGGS & BUHL,

ALLEGHENY. SOMETHING ALL LADIES SHOULD NOTE.

Of all the Corsets exported from Paris no make has achieved such deserved renown as this, which is distinguished by the Trade Mark "I. C. A. LA PERSEPHONE I. C." The inventor of this corset has succeeded more completely than any previous maker in effecting such a true alliance between art and utility, the design being such as to retain perfectly the beauty of shape and present a combination of firmness and pliancy that is exquisite to the last. The materials used are of the best quality and the workmanship is
