OFFICE OF PITTERURG DISPATOR, WEDNESDAY, September 9. There were 130 carloads of cattle at East Liberty yards Monday morning, and the number was increased to 140 loads before the day was over. Since Monday there have been additional reinforcements, and the total for the week has not been much below 150 carloads, against 80 carloads last week. About one-third of the offerings were from Chicago, Ohio, Pennsylvania, West Virginia and Indiana, furnishing about 100 loads. There were no strictly prime beeves on sale. All this grade seems to float of late to Chicago, where prices are better than here. Nothing that was offered at Liberty this week brought more than 55 50 per cwt, and very few reached this price. Philadelphia Gas Strong on a New Well

A Few Slight Concessions—Nothing in Sight to Cry Over.

Although the room traders succeeded in placing but few orders yesterday, they displayed more anxiety to do business than at any previous time this month. They appeared to realize to some extent that better times for speculators are on the way.

Pleasant Valley was a strong feature. It

was in demand in large and small lots, with very little offered. Its earnings are said to be increasing, which is reason enough for the bulge. All of the listed tractions received more attention than usual, while the inlisted ones maintained their old attitude if supineness. At the last call Duquesne woffered at 13½ and Birmingham at 17½.

Philadelphia Gas was strong and scarce on reports of another good well in the Bellivernon field. The rest of this group, while nominally unchanged, developed a stronger undercurrent.

- WALL STREET'S REVIEW.

THE STOCK MARKET IS ACTIVE, BUT ONLY IN SPOTS.

enerally Favorable News Assists Bulls-The Vanderbilts Still Lead the Procession-The Highest Prices Reached nt Noon-Railroad Bonds Also Active. New York, Sept. 9 .- The stock market was was in spots, the general list being held

The news of the day was generally favorable. There was considerable selling for arbitrage account, but the foreign operations are not of special importance. The bears endeavored to press their advantage of yesterday afternoon, and a weak opening was made. The demand was urgent, however, and the temper of the speculation was soon changed for the better, when at noon the nighest prices were attained. The Vanderbilts led the advance, but later Lake Shore, Cleveland, Columbus, Cincinnati and St. Louis and the Chesapeake and Ohios became prominent. At different times New England, Reading and Erie were specially strong with marked activity, but while St. Paul, Atchison, Union Pacific and the other leading shares were more largely traded in than those mentioned, their fluctuations were confined to narrower limits.

In the last hour realizations started a reaction, which gained force as the day came to an end, and the market finally closed active, generally at insignificant changes for the day. The gains in most of the strong stocks were completely neutralized, but Lake Shore and New England are 1½ per cent higher, and Reading 1 per cent. The only really weak spot was Cordage, which dropped away 4 per cent and closed with a loss of 3½.

Railroad bonds displayed the usual active trading, but followed closely the course of the early share list, and the early advances were about wiped out before the close of business. All the active issues betrayed marked strength in the forenoon, but none of them retained more than a small fraction of the improvement at the close. The total transactions reached \$2,216,000. MONETARY MOVEMENTS.

Large Shipments of Gold Expected From Germany and France.

The general conditions of the local money market were unchanged yesterday. The supply of funds was sufficient for all pur-poses, the call fair and rates steady at 6@7 on all classes of loans. Bank clearances were \$2,634,421 80, and balances \$310,794 14. were \$2,694,421 80, and balances \$310,794 14.

Advices from London to leading New
York bankers indicate that a further flow
of specie from England to the continent is
considered more than probable. French
and Gorman financial interests are preparing themselves for an early and exceedingly
large movement of gold to the United
States, and will, therefore, draw specie from
England to as great an extent as possible.

At New York yesterday money on call was
easy, ranging from 3 to 7 per cent; last

SUGARS PROMISE TO GO UP HIGHER

OFFICE OF PITTSBURG DISPATCH, WEDNESDAY, Sept. 9. COUNTRY PRODUCE-(Jobbing prices): Receipts of peaches to-day were the largest this week, the total being upward of 15 carloads. Notwithstanding large receipts, markets were active for good stock. Common stock, however, was slow and dull at nominal prices. With the exception of choice peaches, all fruits are slow and weak. The ame is true of vegetables. Supply of the atter is in excess of demand all this week, and drift of prices is downward. Choice creamery butter is very firm at quotations, and all signs point to a 30c market before the week is out. Eggs are also climbing toward a higher level, as our quotations will disclose.
