The Outlook for the Fall Trade Is Con-

stantly Improving.

OFFICE OF PITTSBURG DISPATCH, 1

FRIDAY, September II. EAW IRON AND STEEL-The market since our last shows evidence of a better feeling together with an improved demand in most branches of the iron trade. Finished prodne's are in good demand; the advance previously noted has been maintained. In conversation with a Valley furnaceman he marked: "Trade continues active. Most of the furnaces will be employed for some time on orders previously booked. While prices are not what we would like to see, ill we dont hear much complaint. Bessemer iron has been soold for some time to come." The stock of iron in the hands of consumers is not large. Many of them purclase limited amounts, sufficient to run them for a short time, in expectation that prices will be lower my the time the stock on hand has been consumed.

CINCINNATI'S REPORT.

Furnaces Accepting Orders at Full Prices for This Year's Delivery.

CINCINNATI, Sept. 11.—[Special.]—Rogers, Brown & Co. say: The better feeling heretofore noted is gaining strength, and from all quarters encouraging advices are received. Within the past few days there have been speculative inquiries from outsiders, and consumers are apparently becoming more interested in the future of the market. The furnaces are acting wisely accepting orders at full prices for this car's delivery. It is to be hoped that if the bright anticipations for a large trade this fall are realized, the producers will be cont with a mir advance. Iron is unques-solity low, and while the furnaces ought may higher figures to afford them a profit hes have been sent out by western car

siness seems near at hand. A favorable feature of the situation is that haverable feature of the situation is that pile of the enormous productive capac-the stock of hig iron increased very lit-during Angusa. This shows that con-pition is nearly keeping pace with pro-tion. Labor troubles in the iron mills in to have been satisfactorily settled, and re is nothing in sight to interfere with a alterative business for months to come. carries this week of the coke furnaces in Birmingham district shows 20 in blast

Good Feeling at Philadelphia. Philadelphia, Sept. II.-[Special.]-Rogers own & Co. say: We can now report a decalculty better feeling in iron circles. Buy-ers of all kinds of raw and finished material ever that prices must surely advance. The such a condition that it would ake but a slight rumor of a coke strike or something else of a slight builtsh nature to the pesthouse, but the Board of Health are apward, and in this connection thi call attention to the fact that the agair Thomsen works, at Braddock, are aying in a large stock of coke far in excess

building in their yard so as to give them more room for the storage of coke. This, to some conservative minds, looks significant, in view of the threatening aspect of affairs in the Connellsville district regarding another strike.

CHICAGO'S PIG METAL MARKET. A Fair Demand, With a Hopeful Feeling on

the Part of Consumers. Chicago, Sept. 11.— [Special.] — Rogers, Brown & Merwin say: A fair demand, with a hopeful feeling on the part of consumers, is the present condition of the Chicago pig metal market. Small orders are numerous, and several ranging in size to 500 tons have marked the past week. There has been no REPORTS FROM THE LEADING CENTERS particular change in the way of prices, either on Northern or Southern metals. Dis-

either on Northern or Southern metals. Disinclination still continues on the part of
furnace men to make contracts at present
prices running further ahead than the end of
present year. For anything beyond January I more money is asked.

The increase in production during the past
90 days has, however, been so large that consumers generally feel quite easy regarding
any material change in prices. Lake
Superior charcoals are quiet, prices on several of the leading brands being firmly
maintained at \$13.50 in Chicago, with sales
ranging up to \$19. Some of the smaller companies are still prepared to sell \$17.50 iron,
but the number is limited. The outlook for
the balance of the year is healthy, indications being that consumption will steadily
advance, and that as soon as railway lines
have any money they will be large buyers.

Prices Unchanged, but a Big Production Is Constantly Being Sold. BIRMINGHAM, ALA., Sept. 11 .- [Special.]-The conditions of the local iron market are un-changed. Removal of Important Industries to Blair Station Decided Upon.

Mr. Edwin Powell is having plans prepared for 12 three-story stone dwellings on Alpha Terrace, Nineteenth ward, making 25 in all. He and other owners on that street are anxious to have it paved, as a number of important improvements are contingent thereon. H. P. Slotterbeck expects to build 30 houses in the Nineteenth ward, on the ground just purchased by him from Mrs. Sargent. William Warden will soon break ground for six nice frame dwellings on Hazelwood avenue, in the Schenley Park district. These straws show that there is nothing the matter with the building

The reported removal of the old estab lished window glass plants of T. Campbell & Co. and O'Leary Bros. & Co. to Blair station on the Pittsburg, Virginia and Charleston Railroad, is confirmed by Mr. J. F. Blair and That gentleman in reply to an inquiry, said "Yes, the parties named have signed the necessary papers and are under contract to begin building during the present year and to be ready and in full operation for the to be ready and in full operation for the season of 1892. Each of the concerns has five acres of land, with rail and river frontage, and within easy reach of the Peters Creek coal field." Mr. Kennedy could not say anything about the conditions of purchase, as Mr. Larkin had charge of the matter. Mr. Patterson, County Gas Inspector, and former Secretary of the T. Campbell Company, said he understood the agreement had been made, as Mr. Campbell had instructed him to make a survey of the ground and locate two from buildings, with capacity for three ten-pot furnaces. Mr. Fatterson added that he inferred from his talk with Mr. Campbell that the company Patterson added that he inferred from his talk with Mr. Campbell that the company desired to increase its output and must have more room. "Besides," said he, "my experience leads me to believe that Blair station is the center of the Elizabeth gas field, and the natural location for a large supply of either gas or coal. Mr. Blair has large land and coal interests in that section of the county, and intends io establish a town similar to Duquesne or Homestead. Those who have examined the location say the site is a beautiful one, with unequaled facilities for manufacturing and domestic purposes."

The sale of the Sargent property in the Nineteenth ward, consisting of 814 feet on St. Clair, Mellon and Jackson streets, re ported yesterday, amounted to \$26,862, in-stead of \$12,600, as stated. This is considered stead of \$12,000, as stated. This is considered a fair price, considering the depth, which ranges from \$2\$ to 106 feet. It is wholly unimproved. Mr. Edwin Powell, the representative of the Sargentestate, in a brief interview yesterday, said: "There is a good demand for property in the East End by people for improvement. There is practically no speculation. As to prices, they are firm at from \$35 to \$50 on side streets."

A prominent bank official, who has no fear of a financial pinch, talks in this wise: "If there is to be tight money we bank people don't see it. We will get full rates for all we have to loan, I have no doubt, and I expect to see call money keep on a pretty stiff level through the autumn. But there will, ac-cording to the present outlook, be no squeeze. Within a few weeks, should the flow of funds westward cause a serious de-crease in the visible supply, you will see gold coming from abroad by the millions."

The R. D. Nuttall Company, manufacturers of fine machinery, tools and electrical street car appliances, has announced a dividend of 2 per cent out of the earnings of the post three months. This is recorded as highly satisfactory, as the company was or-ganized in June 1, 1891, and already their works in Allegheny are running day and night to meet the extremely heavy demand, which is, by the way, a sign of the genera activity in manufacturing.

WALL STREET'S REVIEW.

DULLNESS AGAIN HAS THE UPPER HAND IN STOCKS.

Gould's Attitude the Element of Uncertainty That Makes Speculators Hesitate-The Downward Tendency Stubbornly Resisted-A Majority of Small Advances-Bonds Dull. New York, Sept. 11 .- The stock market

again displayed a reactionary temper to-day, but while the bifying power seems for the moment to be checked, the efforts to cause a material decline met with a stubborn resistance, and the concessions from last evening's figures were in no case of par-

last evening's figures were in no case of particular moment. The attitude of Mr. Gould and his following seems at present to be the one uncertain quantity in the market, and this, more than anything else, causes the hesitancy which is the most marked characteristic of the buying.

The Government crop report was so encouraging that it stimulated an effort to cover shorts by the local operators, and the effect was to open the market generally at large fractions above last night's figures, while Rock Island was up %. Burlington, 1½ and C., C. & St. L., 1½. The hesitancy in buying for the long account at the advanced prices, however, gave the bears courage to neutralize the improvement, and after slight further gains in stocks the upward movement was completely checked and a material reaction occurred.

However, Lake Shore advanced to 119½ again passing the best price made in years, and Distillers' shot up ½ per cent. Under again passing the best price made in years, and Distillers' shot up 1/4 per cent. Under realizing sales each lost nearly all of the ad-vance, while the rest of the list was pressed realizing sales each lost nearly all of the advance, while the rest of the list was pressed down to something below last night's price, many of the leading shares, such as Union Pacific, Burlington, Rock Island, Missouri Pacific and others dropped away from their highest points over 1 per cent. The hammering operations, however, as usual of late, induced dullness, and during the rest of the day the trading was of a hand-to-mouth character, with insignificant fluctuations, but with a general downward tendency.

The decline was helped in great measure by predictions of frosts in the Northwest, and rumors that more of the Union Pacific loans had been called, though no defails were to be had in any direction of these loans, and the revival of the old rumors in regard to the financial standing of the Richmond and West Point Company, Prices, as a rule, were carried down below those of last evening despite the sharp opening advance, and there was no recovery until the last hour. Final changes are in most cases slight gains, and Lake Shore is up 1 per cent, while the losses are few in number and for fractional amounts only.

BANKS AND BANKERS.

The Usual Demand for Funds, Which Are Well Distributed. There was the usual demand for money yesterday, and the supply showed no signs of giving out. A bank officer said there was no pressing call for funds from any quarter, every part of the country having about as much as it needed. From this he concluded much as it needed. From this he concluded that the possibility of a tight market was very remote. Rates were quoted at 6@7 per cent. Exchanges through the Clearing House were \$2.080,181 79, and balances \$372,529 12. Currency was a little easier.

At New York yesterday money on call was easy, ranging from 3 to 4½ per cent; last loan closed offered at 2½. Prime mercantilo paper, 5½@7. Sterling exchange active and weak at \$4 82 for 60-day bills and \$4 84½ for 60-day bills and \$4 84½ for 60-day bills.

COUNTRY PRODUCE-(Jobbing prices) Dairy products of high grade are still in limited supply, and markets are firm, with a tendency toward higher prices. Best Elgin creamery is 2c per pound higher than it was a week ago. Quality of Ohio creamery has greatly improved the past few days. Ohio cheese of August make is very firm at outside quotations. Strictly fresh eggs are scarce and in demand at 19c per dozen in job lots. Supply of poultry has been scarcely up to demand all this season, and

scarce and in demand at 19c per dozen in job lots. Supply of poultry has been scarcely up to demand all this season, and markets are very firm. The peach supply was light to-day as compared with receipts for the past few days, and price of good stock shows an upward inclination. Other fruits are dull and prices are nominal. Vegetables of all kinds go slow, owing to the abundance of fruits. Grapes are now coming to the front in carload lots, and supply is in excess of demand.

GRAINS AND PROVISIONS. Wheat Both Opens and Closes Weak-The

Bearish Government Report Depresses Corn at the Opening, but Quite a Bulge Succeeded, With Later Declines. CHICAGO-Whent opened weak this morning on the bearish tenor of the Gov-ernment crop report which, it was estimated, presaged, according to the averages, a total yield of about 550,000,000 bushels. The cables told of lower markets at London and Liver-pool with brilliant weather there and but

Northwest were large.

As the result of all this bearish news, December wheat, which closed at 97%c yester-day, opened weak this morning at 95%@95c,

fluctuations in October being confined to a range of %c.

Provisions were very irregular, being weak and strong in turns several times in the course of the day. One of the weak spots was at the opening. In fact, the lowest prices of the day were made at that time, largely in sympathy with the concurrent drop of corn. The firming up of the latter market caused provisions to strengthen, and this, together with the rather light receipts and higher prices for logs, made the market for the rest of the day, on the whole, favorable to buyers. Pork closed 2½@lac higher than yesterday. Lard was unchanged to 2½c higher, and ribs unchanged to 10c up.

Market Basket Filling Seldom as Low-Now the Time to Buy.

At the Diamond Market fruit and vegetable stalls trade was reported active in the first half of the week and slow the last half. little trading. Paris was also lower. In addition to this the receipts here and in the ceipts being close to ten car loads for the week. All good stock offered found ready sale. The past day or two receipts of peaches have declined materially and pros-pects now are for higher prices. Other fruits are a drug. Apples, meions and trop-ical fruits go slow. In a wholesale way vege-tables are lower agent the fruits are a drug. Apples, melons and tropical fruits go slow. In a wholesale way vegetables are lower even than last Saturday, when it was thought that prices were down to bed rock. Tomatoes, cabbage and sweet potatoes are lower this week than they have been for a year. The consumer rarely had a better opportunity for filling the market basket at reasonable rates than be has at this time. Now is the accepted time for laying up in store for the coming winter in all lines of garden stuff. The oyter season, which opened last week, opened quietly. Suppty of select oysters is light, but sufficient for demands. Florists report trade at its lowest ebb for the year, but look for a revival by October. Following are the latest retail prices of market basket materials.

Ladies Think_

18 CHEAPER than any other dressing at any price, be it 5 cents, 10 cents, or 25 cents, you can convince yourself by wearing one shoe dressed with Acme Blacking and the other shoe dressed with whatever happens to be your favorite dressing. While Acme Blacking will endure a month through mous or rain, and can, if the shoe is soiled, be washed clean, the other dressing will not last a single day in wet weather. Your shoes will look better, last longer and be more comfortable if dressed with Wolff's Acme Blacking. WOLFF & BANDOLPH, Philadelphia.
