Harness Leather. Tanners report a very active movement in this line. Prices are firm at the advance

of lc per pound noted in this column a week ago. Allegieny tanners report a good de-

mand for products as fast as ready for

market. One of our principal consumers of harness leather had this to say of the situ-ation: "Our trade this year so far is a fair stand off to that of last year. First class stock has changed very little in price from what it has been all the summer. Volume of trade with us has been about the same this season as last.

ACTIVE MARKET IN GROCERY LINES

OFFICE OF PITTSBURG DISPATCH, SATURDAY, Sept. 12. COUNTRY PRODUCE-(Jobbing prices)-Commission men report a slow Saturday. The peach supply was light, but sufficient for demand. There were not over a half dozen carloads on sale to-day. Consumers have been making the most of their opportunity for a few weeks past and markets have slowed up as a result. All garden stuff is in favor of the consumer. The advance in creamery butter has had the effect

vance in creamery butter has had the effect of bringing oleo to the front once more. Receipts of oleo are now about one carload daily. Wholesale dealers are required to pay \$480 license for selling oleo, and retailers \$48. Prices have jumped 5c per pound in the past week or two. Fancy stock is selling in a retail way at 25c per 1b.

The amount palmed off on consumers as butter is a problem which this editor will not undertake to solve. Eggs are not so firm as they have been for a few days past, but strictly fresh stock readily brings our quotations. Plums and grapes are in bountiful supply, and commission men find a difficulty in unloading goods in these lines.

Railroad Bonds Quiet and Heavy. New York, Sept. 12.—The stock market this norning opened with a confident feeling and with prices generally small fractions better than those of last evening, but there was another batch of rumors touching the condi-tion of Richmond and West Point, and the assertion that a receiver is inevitable was louder than ever. Naturally, as an accompaniment of these stories, the bears at-tacked the stock and bonds with vigor right at the outset, and the common stock fell away from 13% to 10%, while the preferred dropped from 60 to 55 At the same time the Collateral Trust 5s were pounded down from

The effect upon the rest of the list was not what it ought to have been, considering the suddenness and force of the hammering, and, while Burlington yielded I per cent to 35, the others lost only fractional amounts. The foreign houses were buyers, as a rule, while there was some selling for Western account, and the local trading element were sellers almost to a man. The low prices brought in some new buying for the long account, and covering at the bottom prices was urgent, which had the effect of rallying the list rather sharply after II o'clock.

The bank statement was more encouraging to the buils than expected, and the demand for stocks in the last few minutes was specially large. Prices continued to advance, and not only were the early losses made up, but fractions in addition were gained in most cases. The best prices were not fully maintained, however, and the final changes are insignificant in almost all of the active stocks. The close was firm at slight concessions from the best figures. Richmond and West Point is down 1% per cent after a material rally and the preferred 4 per cent from the last previous sale.

The following table shows the prices of active those in the New York Stock Exchange yesterday. The effect upon the rest of the list was not

The Drygoods Market.

New York, Sept. 12.—There was a good business in drygoods for Saturday at the hands of agents as well as jobbers. Demand for cotton goods especially is considerably accelerated and stocks look smaller. The tone of the market is firmer. Prints are active. There are no stocks of popular articles or of indigo blue. The Gloucester prints have been advanced 2½ per cent. The following have been advanced 2½ per cent. The following have been advanced 4½ ca yard each: Androscoggan bleached, Constitution 44 brown, Thorndyke ticks, Swift River and A. C. C. ticks. Manufacturers refuse to sell print cloths at 3 cents. The general market is entering upon a radical change and it is difficult to get many articles for prompt delivery. All indications point to a period of activity. GOOD COUNSEL TO PESSIMISTS.

TALMAGES SUNDAY MORNING SERMON

. [SPECIAL TELEGRAMS TO THE DISPATCH.] BROOKLYN, Sept. 12.-Brooklyn Taberpacie to-day contained many strangers on their way home from the watering places and foreign lands. Dr. Talmage's morning sermon was on "Kindness." from the text, Acts xxviii, 2: "The barbarous people

showed us no little k!nduess." Here we are on the Island of Malta, another name for Melifn. This island, which has always been an important commercial center, belonging at different times to Pho-nicia, to Greece, to Rome, to Arabia, to Spain, to France, now belongs to England. The island is gloriously memorable because the Knights of Malm for a long time ruled there, but most famous because of the apos-tolic sulpwreck. But the island which has so rough a coast is for the most part a gar-den. Richest fruits and a profusion of honey characterized it in Paul's time as well as now. The finest oranges, figs and

Everything land gone to the bottom of the deep, and the burefooted, bureheaded apostle and ship's grew were in a condition to appreciate hos-atraity. My text shows the ship's crew ashore on Malia, and around a bot fire drying themselves, and with the best provision the islander's can offer them. And they go into Government quarters for three days to recuperate, Publias, the railer, inviting them, sithough he had severe sickness in the house at that time, his father down with discussive and typhoid fever. It is a favorite Bible word, and it is early in the Book of Genesis, caught up in the Book of Joshua, embraced in the Book of Rath, sworn by in the Book of Samuel, irroned in many places in the New Testaan mighty. It is strong enough to throw in archangel. But it will be well for us to and around it and warm ourselves by its low as Paul and his fellow voyagers stood round the fire on the Island of Malta. mess. All definitions of that multipo-ord break down half way. You say it mency, benignity, generosity: it is up of good wishes, it is an expression licence, it is a contribute. made up of good wishes, it is an expression of beneficence, it is a contribution to the larginess of others. Some one else says: "Why, I can give you a definition of kindness; it is sunshine of the soul. It is affection perennial, it is a climatic grace, it is the combination of all graces. It is compassion. It is the perfection of gentle manliness and womanliness." Are you all through? You have made a dead failure in your definition. It cannot be defined. But we all know what it is, for we all felt its power.

ADVICE TO PESSIMISTS. So in the system of the delegant of the hypermitical from your disposition. Be-

lieve nothing against anybody until the wrong is established by at least two wit-nesses of integrity. And if guilt be proven find out the extenuating circumstances, if

nesses of integrity. And if guilt be proven find out the extenuating circumstances, if there are any. And then commit to memory so that you can quote for yourself and quote for others that exquisite thirteenth chapter of First Corinthians about charity that suffers long, and is kind, and hopeth all things, and endureth all things.

Furthermore, there is kindness of action. That is what Joseph showed to his outrageous brothers. Do you know that a strange thing has taken place in the pulpit and all the old ministers are helping the young ministers, and all the old doctors are helping the young doctors, and the farmers are assisting each other in gathering the harvest, and for that farmer who is sick the neighbors have made a "bee," as they call it, and they have all turned in to neip him get his crops into the garner. And they tell me that the older and more skillful reporters who have permanent positions on papers are helping the young fellows who are just beginning to try and don't know exactly how to do it. And after a few erasures and interpolations on the reporter's pad, they say. "Now here is a readable account

If this world is ever brought to God that is the thing that will do it. You cannot fret the world up although you may fret the the world up although you may fret the world down. You cannot scold it into excellence or reformation or godiness.

Kindness to all! Surely it ought not to be a difficult grace to culture when we see towering above the centuries such an example that one glimpse of it ought to melt and transform all nations. Kindness brought our Lord from Heaven. Kindness to miscreants, kindness to persecutors, kindness to the crippled and the blind and the cataleptic and the leprous and the dropsical, and the demoniacal characterized him all the way, and on the cross, kindness to the way, and on the cross, kindness to the bandits suffering on the side of Him, and kindness to the executioners while yet they pushed the spear, and hammered the spikes, and howled the blasphemies.

There Are Many Wells Due This Week Which Should Be Big - Freight Stopped Between Gregg and McDonald

-Important Meeting of Producers, The coming week will witness a big increase in the production of the McDonald field unless all lines and theories fail. There are a number of wells which should reach the fifth sand in the proximity of wells which have proven bonanzas for their owners. The pipe lines were taking away the oil at the rate of 24,000 barrels a day Friday, and Thursday this was up to 25,000. And still oil was being lost. Saturday morning a line was broken for five hours, and during the time required to repair the break the wells gained rapidly, and in soveral instances tanks were running over. Saturday evening the reports showed that unusual efforts were being put forth by the pipe line people were being put forth by the pipe line people as they were then pumping away about 1,300 barrels an hour or over 31,000 barrels and ay. The National Transit is building five tanks in the field with a capacity of 35,000 barrels each. Four of them will be located at Gregg station on the Panhandle. When these are completed there will be 1,000,000 barrels of tankage at McDonald and Washington. The work of building these tanks, as well as operations in general, are delayed by the refusal of the Panhandle to accept any freight for at least a week which is billed for stations between Gregg and McDonald, inclusive. All of the available sidings are now filled with cars, and it is an impossibility to ship in any more until relief is afforded by the removal of the cars already there.

Nearing the Last Sand. McDonald—Clark & Bannster's well on the Sauters' property just broke the top of the fifth sand Saturday and increased its flow of 150 barrels from the Gordon to 200 barrels a day and was shut down. It will be drilled into the fifth to-day. It is a few hundred feet northeast of Sauters & Co's lot on the Sauters' property. Shaffer & Co., on the Sau-ters', between the two wells named, is down about 1,400 feet. The Mary Robb well of the Christ the impersonation of all of them.

Kindness! You cannot affect it, you cannot play it as a pari, you cannot enact it, you cannot dramatize it. By the grace of God you must have it inside you, an everlasting summer or rather a combination of June and October, the genfality of the one and the tonic of the other.

It cannot dwell with arrogance or spite or revenge or malevolence. The following from a recognized authority on stocks appears to fairly state the situation as the week left it: "The reactionists are evidently doing their best to stem a tide which day after day proves its strength to be overwhelming. There is no lack of endeavor to et the current in the opposite direction from that in which it naturally flows, but the constant fallure attendant upon such efforts shows the uselessness of all attempts to resist influences whose tendency is to array the financial world against the feeble work of manipulators."

Local monetary conditions during the week were favorable to business. There were no funds to waste on wildcat schemes, but plenty to supply all legitimate wants of merchants and manufacturers, and something over. Reports from other business centers were equally favorable. There is no longer serious apprehension of a stringency this year, for the reason that the crops are moving without the least friction and gold is returning from Europe. The Clearing House business for the day and week shows these results: bhis.

Flour has found a lower level under the influence of declining wheat, and prices are 25c per barrel lower than they were a week ago. As will appear by reference to market columns, receipts of grain and hay for the week have been unusually large.

Hay, onts and mill feed have been steadily gravitating toward a lower level all the week, under the influence of heavy receipts.

In produce lines we note a firm market for dairy product, at higher prices than ruled a week ago. Peaches have the lead in fruit lines. Other fruits are slow and dull. Vegetables touched their lowest point for the season this week. Gardeners lament the dullness of trade. Their loss, however, is the consumer's gain. Not for many years have farm and garden products been so low as they are at present.

Bost and Shoe Trade.

There has been a steady improvement in demand for the past few weeks. Sales of bankrupt stock are now nearly over, and all signs point to a good fall and winter trade is settler. There is no and outlook:

"The Boston Herdid has this to say of the situation and outlook:

"The boot and shoe trade continues to improve. The amount of orders being received is better. There is a large number of buyers is better. There is no the interest of the prove. The amount of orders being received is better. There is a large number of buyers is better. There is no through financial affairs. Money is not difficult to obtain in the legitimate boot and shoe trade and that, too, at a reasonable rate per cent. The volume of trade is daily improving and that, too, at a reasonable rate per cent. The volume of trade is daily improving and that, too, at a reasonable rate per cent. The volume of trade is daily improving and that, too, at a reasonable rate per cent. The volume of trade is daily improving and that, too, at a reasonable rate per cent. The volume of trade is daily improving and though it may take a whole season to get entirely over the depression incident to the recent fluancial stress, yet is certain that there is a very steady gain toward prosper out boots and shoes as fast as they ever were, and they are going to have the means in thorir possession to gratify their desires in the direction of new boots and shoes to great the possession to gratify their desires in the direction of the highest tides of properity ever realized in the boot and shoe trade.

BALTIMORE—Wheat—No. 2 red weak; -Gains and Losses About a Set-Off-The Last week was a dull one in local speculative circles, total sales on call falling under 1,000 shares. There were none yesterday. Brokers were even careless about quotations, and the number put on the board was away below the Saturday average. Office business was light also. There was talk of some big deals, but they did not materialize.

THE BIG PITTSBURG EXPOSITION opened in a blaze of glory on September 2, and all indications point to a successful show. Most of our country cousins will visit it before the close. City folks will thus have an opportunity to show their hospitality in return for favors received. We learn with regret that Max Klein, owing to a press of business, was unable to arrange a display this season, as in former years. Visitors to the city should by all means take a peep at his model establishment, No. 32 Federal street, Allegheny, which is within a stone's throw of the Ft. Wayne and West Penn depots. They can then return home with the satisfaction of having seen the largest and best equipped wholesale liquor house in this
