BRIGHT TRADE PROSPECTS SOUTH

OFFICE OF PITTSBURG DISPATCE. TUESDAY, Sept. 15. The combination which attempted to hold up prices of canned meats has come to an untimely end, and prices of beef have found a lower level. Canned beef has been reduced from \$2 10 to \$1 70 per dozen in the past two weeks, and chipped beef has been educed from \$2 30 to \$1 85. These reductions correspond to the drop in cattle. Canned tongue remains as it has been, price per dezen being quoted at \$2 90. Volume of trade in this line is reported larger this senson than ever before. There has been a

slight decline, however, of late for the reason hat picnic season is on the wane.

The coffee market is a shade firmer the past few days. The late drop in prices of Rio seems to have had the effect of increasing trade. Demand here and westward has increased, and the movement has been much more free the past week than it has been for ember 10 were 913,000 bags, against 545,000 re at the same time last year, and 433,000 cs two years ago. The consumption of cheese the season has allen below the averags. There have been seasons where the volume of trade reached 1500 boxes in a single week. One of our 500bers reported sales of over 2,000 boxes in a week a year ago. The entire consumption as sallen below this amount the best week ins tallen below this amount the best week this year. The decline in consumption is explained by the large receipts and low prices of fruit. When truit is so abundant and cheap as it is this season the products of the dairy are sure to go slow. This is the situation at the present, and it is a situation but uniavorable to the health and comfort of consumers. The more fruit and less fatty matter stored away in the inner man and woman the better it will be for the health and temper.

The row reached from the corner of Wayne, now Eleventh street, the corner of Wayne, now Eleventh street, to Wallace's marble works opposite the head of Smithfield street. The Union depot occupies the grounds of the Methodist burying ground and St. Patrick's Catholic Church. The old canal and warehouses occupied Liberty from now Eleventh street to Pike or Thirteenth street. Commercial Row, as it now stands, was a wonder at the time it was built. Six or eight four-story brick stores all in a row were big things for Pittsburg at that time." As stated, there is talk of replacing two or three of the buildings in this row with large modern structures.

That was for the most part a period of apprehension, and financiers kept a tight grip on their and financiers kept a tight grip on their money bags. Crops were light and there was very little call from that quarter. Now they are immense, and the bulk of available funds is employed in moving them, leaving but little for investment in real estate, stocks or bonds. In a short time the harvest will be out of the way and money will begin to return to other channels of trade, resulting in a general revival in all lines of business. The rise of industrial towns around Pitteburg is a favorable sign of the times, showing that the manufacturing interests of Pittsburg are expanding so rapidly that more room is necessary for their accommodation. These new towns are not inimical to the business of the city. This is the market whence they draw their supplies and where they distribute their products to consumers. Their promoters, or most of them, having their homes in the city are as closely identified with, and as solicitous for, its prosperity as if their mills were located on the Southside or in Lawrenceville. WALL STREET'S REVIEW.

ONCE MORE A BETTER FEELING IN THE STOCK MARKET.

Recovery From the Mitylene War Scare-After an Early Bear Raid There Is a General Recovery and Advance-Distill-

ers' Remains a Feature. New York, Sept. 15.—The aspect of affairs abroad, which was disturbed by the Mity-lene affair, was looking better this morning all kinds of securities, became a buyer today, and to that extent improved the feeling
here in the temper of the stock market. The
feeling in the steeet was of a more pronounced bulitsh character than for some
time, and the opening prices this morning
were all from ½ to ½ per cent better in the
active stocks than they closed last evening.
The bears and those who have been working for a reaction in order to pick up cheap
stocks, made a final assault upon values in
the early trading which has of late broughthem success and Union Pacific was knocked
down ½ per cent, but the rest of the list lost
only about their opening gains. On the
other hand, Distillers' continued its advance
and other specialities showed a tendency to
rise in the face of the general depression,
which lasted only a short time.

The new buying was very apparent, and
purchasers for the long account became more
numerous as the morning wore away, which
started the shorts into cover before prices
had got too far away from them. The result
was that an upward movement began, which
lasted with but few and unimportant interruptions throughout the day. There was a
moderate set-back toward 2 r. M., but the interruption was of short duration and the upward march was quickly resumed, and the
highest prices of the day were generally
reached in the last half hour. The declaration of a dividend of only one-hall per cent
on Rock Island caused the selling out of the
holdings of a few disappointed speculators,

Plenty of Funds, bu They Are Handled

Very Carefully. The local money market yesterday was moderately active and steady, with no change in rates. The supply of funds was more than adequate to all demands. Regumore than adequate to all demands. Regu-lar customers were promptly accommodated, but outsiders had to show unimpeachable collateral or gilt-edged names before they found favor. In this respect the lines were drawn a little closer than usual, showing that business is being conducted on con-servative lines. Checking and depositing reflected an active condition of general trade. Exchanges through the Clearing Honse were \$2,341,224 50 and bulances \$355,-131 65.

131 65.

At New York yesterday money on call was easy, ranging from 3½ to 5 per cent, last loan 4 per cent, closed offered at 4 per cent. Prime mercantile paper, 5½@7 per cent. Sterling Exchange quiet but weak at \$4 81½ for 60-day bills and \$4 83½ for demand.

The Drygoods Market.

New York, Sept. 15.—Business continued fairly active in drygoods at the hands of agents, as well as those of jobbers. The market was strong in tone, shading on prices of cotton seemed pretty well over, and stocks, as a rule, are light.

LATE NEWS IN BRIEF.

-Yellow fever is raging at Rio Janeiro, -The estimate of Michigan's wheat crop has been raised 1,000,000 bushels in a fort-

-Cumberland, Wis., was visited by a ter rific hallstorm yesterday, inflicting consid-erable damage. The police of the City of Mexico are looking for the man who started the recent revolutionary fake. -The distress in the Volga province of

Russia is so intense that women and child-dren wander about shricking for food. —As might be expected, the German merchants of the City of Mexico are bitterly opposed to reciprocity with the United States.

—The two Gilleland brothers, James and Josiah, who murdered Sheriff McCarque at Somerset, Ky., were lynched early yesterday morning.

The kernel of a peanut in the lung of William Berry's 2-year-old child, at Provi-dence, caused its death in about four hours Monday night.

Ties on the track came near wrecking the west bound express of the Pittsburg, Fort Wayne and Chicago railroad 40 miles from Chicago Monday night, but the ties were carried along on the cow-catcher. A man was ploked up on the scene who, while asserting his innocence, claims to have been an eye-witness of the attempt, and can identify the culprits if he sees them.

—Some of the adherents of the Congress. Some of the adherents of the Congressional party, while returning from Montevideo on the British steamship John Elder, were, upon their arrival at Punta Arenas, threatened with arrest by Balmaceda's Governor there. He had not yet heard the news of Balmaceda's downfall. The British captain refused to deliver the persons up, and they arrived at Valparaiso safely Monday.

SUGARS VERY FIRM AT THE ADVANCE

OFFICE OF PITTEBURG DISPATOR, TUESDAY, Sept. 15.

COUNTRY PRODUCE-(Jobbing prices)-At the Monday meeting of the Elgin Butter Board, last week's prices of creamery butter were reaffirmed. There is no longer the or two ago. The high prices served to bring butterine to the front, and the effect is seen in quiet markets for the genuine stuff. Strictly fresh eggs are scarce and outside quotations are easily obtained. Peaches appear to be on the wane. Receipts have been very light this week, and prices are been very light this week, and prices are moving upward. Quality of offerings in this line shows improvement the past few days. As peaches drop out, grapes are coming in to take their place. The noticeable feature in front of the Liberty street commission houses was the pyramids of grape baskets. Tropical fruits are reported quiet, as are vegetables of all kinds. Both sweet and Irish potatoes are heavy stock. The same is true of tomatoes, cabbage and, in fact, all garden products.
