THE SIDEWALK CAME UP.

Sad Plight of a Little Girl Who Had Never

Seen a Freight Elevator-She Is Rescued

by a Good Natured Irishman and an

There was a very frightened little girl in

this city yesterday afternoon. She was about 12 years old, and had evidently been

to the Exposition, for she held a ball of

popeorn and several picture cards in her

hands. She was walking quietly along

Wood street, and when she had nearly

reached the corner of Liberty, she stopped

to look in the great show window of a

wholesale drygoods house. She was ap-

parently in a reverie of delight as she gazed

at a bolt of bright-colored dress goods, when

The sidewalk began to go up with her,

and almost before she realized the situation

she found herself about eight feet above the

rest of the people on the street, and still

going up. She was too frightened even to

two ladies who were passing, and they came

to her assistance. The little girl had stood

upon one of the freight elevators that sink

level with the sidewalk when they are

in the cellar, but that will rise noiselessly

through the agency of unseen machinery when it is desired to use them for moving

goods.

There was a good-natured Irishman on the elevator beneath the little girl, and as

oon as he understood that he had carried

up an unwilling passenger he lowered the machine and let the child off. She walked

away without a word, but the tears that ran

in a stream down her cheeks showed how much she was upset by her unexpected as-cent. It is safe to say that she will be as-sured of the firmness of the sidewalk the

next time she stops to look in the window of a wholesale drygoods store in Pittsburg.

THE RAILWAY MAGNATES LAUGH.

They Say There Is Nothing in Gilliford's

Officials of the Pleasant Valley and the

Manchester street railway lines were asked

yesterday what action they proposed to

take in the matter of the report read by Dr.

Gilliford, of the Auditing Committee,

Pleasant Valley company is indebted to the city in the sum of \$63,000 and the Pittsburg,

Allegheny and Manchester Company \$15,-000. They stated very briefly that there was nothing in it. One of the officials of

the Manchester Company was seen last night, and, while he refused to be

quoted personally in the matter, said that it was the intention of his company to pay promptly whatever shortage was found to exist against them.

Commodore Kountz said that the Man-chester line had been prompt in making payments of its car taxes for 18 years, but

ately had allowed itself to fall in arrears in

order to bring about an investigation in

which the much larger shortage of the Pleasant Valley Company would be brought

George Alfred Townsend Visits Pittsburg.

Duquesne yesterday was Mr. George Alfred Townsend, the well-known publicist,

whose daily contributions to the press of

the country have for 20 years past com-

manded more attention than those of any

other writer. Mr. Townsend's personality

is as interesting as his work. From the

number of years he has been discussing and

describing men and things in his unrivaled manner under the familiar nom de plume of

manner under the familiar nom ac passes of "Gath," one might suppose him to be silver-haired and in the "lean-and-slippered ver-haired and in the place of that, he has

ver-naired and in the "lean-and-suppered pantaloon" stage. In place of that, he has not yet reached even the youth of old age, but is the picture of the robust health of manhood in its prime. When Mr. Town-

send is about writing those unique and min-

distinguish his letters, he travels right to the place where the facts can be gotten at first

hand. It was a trip of that sort to look into early facts about Albert Gallatin which

brought him to Geneva, whence he ex-tended the tour, with his stenographer, to Pittsburg; and to-morrow he will go away with bushels of pertinent points about this place, to be used, we trust, with advantage

and interest to Pittsburg and to the outside

The investigation of Fitzsimmons' escape

from jail is not yet finished. The Quarterly

Committee of the Prison Board spent its

second day at the work yesterday. When it adjourned at 6 o'clock last

evening the ground had not all been

covered. One of the most import-

ant witnesses examined was Cora Wyatt,

the order of District Attorney Burleigh to

furnish additional bail in the Fitzsimmons

case, it having been decided that her secur-

ity was not large enough. The Quarterly

Committee, in consideration of the fact that

she had been reported as communicating by

signals with Charles Clark prior to the

escape, desired her testimony. Whether

any valuable information was secured from

her will not be known until the committee

mons escape Anderson told a story about

having been offered \$1,000 to help break

iail. The committee desired his sworn

statement. Several other prisoners appar-

ently knew of the plan before it was

executed, and they were all put through an

IT WAS A STAR CHAMBER SESSION.

The members of the Quarterly Committee

refused to tell anything about what infor-

mation they had gained except that there

was considerable of it that would be inter-

esting when made public. That will not be

until the committee reports to the Prison

Board. As there is a vast amount of the

ble that the report will not be presented be

fore the next regular meeting of the Board

in October. It is expected that the investi-

. Hamilton, Nos. 91 and 93 Fifth Avenue This exhibit is one of the drawing card of the Exposition, large crowds being in and around it at all hours. Large as is the beautiful display, it is the veriest trifle in comparison with the stock carried by Mr. Hamton at the warerooms. To derive complete satisfaction take a trip to the warerooms and make yourself acquainted with the mar-velous number and variety of makes both of oianos and organs, always on view, and be fore you go to your homes, whether in or out of town, select the very instrument you prefer, for "it goes without saying" that you are bound to be more than pleased. Mr. Hamilton is showing at this time not only the superb Decker Bros., but the Knabe, the Estey, the Fischer and other makes not shown at the Exposition; in organs Farrand and Votey, Clough and Warren, Story and Clark and the great favorite, the Estey. All these well-known instruments at the lowest prices for cash or on easy payments.

Resolutions of Respect.

At a meeting of the Board of Directors of the Federal Street and Pleasant Valley Passenger Railway Company, held this 18th day of September, A. D. 1891, the following resolution was passed:

Whereas, This board has learned with the deepest regret of the death of William McCreery, who organized the Federal Street and Pleasant Valley Passenger Railway Company in 1868, and was its President from that time until 1889, and through whose energy and ability the road became one of the best street railways in Allegheny one of the best street railways in Allegheny county, and was the means of building up that portion of Allegheny City known as "Pleasant Valley." Throughout his whole course as President of the road he won the respect, the admiration and friendship, not only of the stockholders, but of every one with whom he came in contact, therefore

until morning. Savage was arrested at the time, but was released on \$500 bail by Magtime, but was rectained and partially intrate Gripp for a hearing yesterday. When the serious condition of Mrs. Meyersburg was learned he was rearrested and locked up in Central station to await the result of her injuries. Mrs. Meyersburg i by Marvin. It came in a carload lot and is exceptionally fine. This will be good news to the people who watch each fall for the first appearance of Marvin's self-rising

Will Look Into the Accounts. The creditors of the Moorhead-McClean ompany met yesterday at the office of Shiras to consider the matter of granting the extension. Mark W. Watson, of the Exchange National Bank, was Chairman, and Henry M. Lloyd, of the People's Bank for Savings, was Secretary.

No. 4, last night about 8 o'clock, for a slight fire in the shoe store of John Berger at No. 513 Fifth avenue. It was extinguished by a babcock with slight damage.

The author of the whole difficulty is still at large. Yesterday morning Police Super-intendent Weir received a telegram from Blackstone, W. Va., stating that a man answering the description of the missing murderer had been arrested there. The message asked for additional particulars about Fitzsimmons. The only discrepancy between the man arrested and the man wanted was that the former weighed 150 pounds, while the lafter weighed but 135 pounds. Superintendent scaffold at the Linden Steel Works and lost his balance and fell to the ground, a distance of 20 feet. He has also sustained an ugly Weir telegraphed a full description of Fitzsimmons and requested prompt reply. At

William Fitzsimmons, a brother of the escaped murderer, arrived in Pittsburg yes-terday morning. He had originally made arrangements to leave Brock-ville, Ontario, to come here, and attend his brother's trial. Just be-fore starting he learned of the escape. He did not allow this to alter his plans, but came right on. At the jail he asked per-mission to speak to Mrs. Fitzsimmons, but mission to speak to Mrs. Filzsimmons, but was refused. Later, he was seen at Attorney Marshal's office, in company with the murderer's little daughter. He declined to talk about his brother, except to state that he did not believe he would ever be caught. Several thousand more photographs and descriptions of Fitzsimmons were sent out police are determined to have the man thoroughly advertised. They are working every point that looks like a clew and are still confident of his capture.

KNOCKED HER SENSELESS. Wolf Savage Held to Await the Result of Mrs. Meyersburg's Injuries.

vesterday to all parts of the country.

Wolf Savage, a scrap iron peddler, was odged in the Central station yesterday. He will probably be charged with murder. Savage is a resident of Magee street. On Wednesday he and Mrs. Rebecca Meyersburg, of No. 23 Magee street, took up a quarrel of their children. A child of Mrs. Meyersburg took a slate from Savage's child, causing a dispute. The parents took a part in it, and Mrs. Meyersburg finally slapped Savage in the face. He retaliated by knocking her down. In falling, it is said, her head struck the ire of a wagrn wheel, and she was knocked nsensible. She was carried into her house insensible. She was carried into her house and physicians were summoned. She had a large gash in her head, and her right shoulder was fractured. She was in a delicate condition, and they prononneed her injuries serious. She never fully recovered consciousness, and has not spoken since her

injury.

The physicians say she can hardly live bout 38 years of age and the wife of Jaco Meversburg, a peddler. She has three chil-

THEY KILL THE GRAY SQUIRRELS.

Song Birds.

A crusade is to be made against what is known in this neighborhood as the red squirrel or pine squirrel, not the chipmunk. Some people will tell you that all creatures have a specific purpose to perform and yet these same people will make war on bedbugs, mice, lice, roaches, etc., giving the lie to their profession of faith. But the war against the pine squirrel has been waged by sportsmed for a considerable time and now some farmers are taking it up.

Attorney N. W. Shafer calls attention to the ravages of the animal. In his tour after gray and black squirrels in the western part of the county he found the larger varieties very scarce, while the impudent "piney" confronted him on every hand. He states that the farmers have in some neighborhoods declared that it must go. It is not only very destructive on cereals, but it is an Ishmaelite among the animal creationwhat the sparrow is among song birds. It not only destroys the young of the gray squirrels, but devours the eggs of song birds, quail, grouse, and in fact of all

PINE SQUIRRELS ARE PIRATES. It partakes much of the character of the degree surpassing any other beast of prey except the weasel, and when it congregates in numbers other squirrels are forced to vamoose. Its especial hatred seems to be against the gray and black squirrels, and one who can imitate the "bark" of these squirrels can in a few minutes collect the "pineys." They come chattering from every direction, with fur erect and tails

Though small game their flesh is very tooth some, and in some localities an energetic badly crushed about the hips,

John McCormick, a small boy, had his foot mense numbers every year, they still manage to keep up the supply. In 1863 a town hunt was organized in Palmyra, Portage county, O. The town, like others on the Reserve, is five miles square, and a line of shooters placed at short distances apart surrounded the whole town one morning, and started to meet at the center.

> STORY OF A FAMOUS HUNT. They carried every conceivable form of gun then known, and were not allowed by e conditions of the hunt to shoot any the conditions of the nunt to shoot anything except nexious vermin, aside from pine squirrels. About the middle of the afternoon they met at the center and made the event. In addition to the weasels, skunks, etc., they had killed 1,152 pine squirrels, and supposed the pest would give them a rest for that year, but the very next week there seemed to be as many in that township as seemed to be as many in that township as there were before the hunt.

NOT WELL INFORMED

Governor Campbell's Coupling of the United States Glass Company With High Protection

DISCLAIMED BY THE OFFICIALS.

President Ripley Writes to McKinley Giving Him Facts to Meet His Opponent's Fancies.

NOT 25 BUT 15 FACTORIES IN THE DEAL.

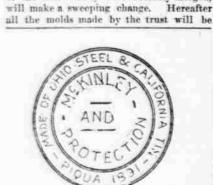

The Dispatch Receives Ohio Campaign Badges Made of Furely American Material.

Governor Campbell's remarks at Sidney, O., on Thursday relative to the association under one management of a number of tableware manufacturers in the Ohio Valley does not meet with the approbation of United States Glass Company officials. The Buckeye Governor charged that 1,000 moldmakers would be thrown out of employment, whereas the number employed in the 15 factories included in the company is about 100. He also assumes that the necession of Dovle & Co. within the company

will tend to control production, and injure the remainder of the trade. D.C. Ripley, President of the United States Glass Company, lost no time in furnishing the Republican candidate for the Governorship with the true aspect of the situation as far as the charges made against his company were concerned. He mailed the following

letter yesterday:

PITTSBURG, PA., Sept. 18, 1891. "Honorable William McKinley, Jr., Canton, O.: "DEAR SIR-Governor Campbell is reported to have said in his speech at Sidney vesterday that 'as an illustration of the effects of high protection it may be said that the United States Glass Company, the 'combine' into which all the glass factories of the Ohio Valley were recently merged,

made in three factories. The mold shops in over 25 other Inctories will be closed. This change will throw over 1,000 moldmakers

out of employment. COULD NOT CLOSE TWENTY-PIVE. "The newspapers also announce that the flint glass firm of Dovle & Co., of Pittsburg, has joined the 'combine.' It is claimed that the acquisition of Doyle & Co. will

make the combination strong enough to control production, dictate prices and freeze out small competitors. "Now, in regard to the above statement what are the facts? The whole number of factories at present included in the United States Glass Company is 15. How, therefore, is it possible to close the mold shops in 25 concerns? The whole number of mold can the combination then possibly throw 1,000 mold makers out of employment? These statements are a fair sample of what is being misrepresented in regard to this organization. So far from its having been the result of high protection the fact is that steps were taken as early as May, 1890, which resulted in the formation of the United States Glass Company. It is not a trust in any sense of the word, but it is the consolidation of the works heretofore separate, the new company having the actual ownership of all the works. It has not

taken into the organization any companies or firms whose record did not show that they had done a profitable business in the past. "It is not the policy of the company to re duce prices nor to crush out competition, Nor is it the policy to advance prices by reason of any control of the business. The company does not control the business, having less than one-half of the capacity of production, and having no intention of

taking into the consolidation all or nearly all of the parties now in the business. ONLY SEES ONE WAY. "The fact is that Governor Campbell has taken his facts from such sources as the New

York Froning Post, which sees nothing ex-

'I thought you might be glad to be put

cent through free trade glasses.

into possession of the feets so as to answer this particular misrepresentation of your Vice President William C. King was interviewed yesterday on these charges of the Ohio Governor. He characterized them as pure political buncombe, and as having no bearing on the tariff question. He said that his company was an association of firms brought together under one management for the purpose of minimizing expenses and maintaining uniformity in the price of goods by nullifying the power of individual firms to cut rates. He said that from 6 to

13 mold makers were employed in each plant, and the company never had more than 100 mold makers in its employment. There were fully as many men employed by the company in this department as before the association was effected. A badge, the cut of which appears above was sent to THE DISPATCH office yesterday, with the compliments of F. Van Dusen. Lettering on a ribbon attached to the badge says that it was made from steel sheets rolled by the Piqua Rolling Mill, Septem-ber 8, and coated with California tin and

Missouri lead by the Cincinnati Corrugating Company, of Piqua, September 14, containing not an atom of foreign metal. Ex-Mayor Pearson's Books Demanded. All the books pertaining to the Allegheny Mayor's office have been obtained by the Auditing Committee except the witness fee books in the possession of ex-Mayor Pearson. Dr. Gilliford, Chairman of the Auditing Committee, yesterday addressed another communication to Mr. Pearson, stat-ing that it is impossible for the auditors to make a complete audit of the affairs of the Mayor's office until they get possession of the books held by him. He also states that

of a freight train and jumped from the bridge. He fell a distance of about 25 feet, suffering a fracture of the thigh and was in-jured slightly internally. He was removed the committee will go into court if necessary in order to get possession of the books to his home on Liberty avenue, near Fifti-CONKLING-John Russell Young's letter on Conkling in THE DISPATCH inst Sun-day excited interest everywhere. Knocked Down by a Street Car.

Harry Conner, an 8-year-old newsboy who lives on Vickeroy street, was struck by a Southside Electric car at Smithfield and Diamond streets at 4 o'clock vesterday afternoon and his leg was broken. The injured lad was removed to the Homeo-pathic Hospital.

DENIES THE CHARGES.

ne of the Accused Members of the Dowlin Rush Cattle Company Makes a Statement-Says Everything Was Conducted in an Honorable Manner. John R. Rush, of the Dowlin-Rush Cattle Company, who is one of the defendants in

stockholders, in an interview vesterday, "It is charged that Dowlin, Lantz and myself received stock of the company and never paid for it. This the plaintiffs know to be utterly false. All the stock ever issued to us, or that we ever owned in the company, was paid for in full by us at par before it was issued, and the time when,

have been fraudulently taken from the

where and how paid was well known to the plaintiffs from their first connection with the company, and their allegations to the contrary are without any foundation in fact

"It is also alleged that Dowlin, Lantz and myself have never accounted for \$200,000, which the plaintiffs allege we reported we had received from subscribers. This is also false. In the first place, we never so re-ported, and in the next place, all the money received by any of us was promptly paid over to the company and accounted for.

The allegation that the company's stock was increased \$100,000 to enable us to sell to the company at exorbitant prices a herd of cattle in which we had an interest is also false. The fact is that I opposed the pro-ceeding to increase the stock, and defeated the resolution at the first meeting where it the resolution at the first meeting where it was introduced. Subsequently the resolution was passed. The stock was regularly issued and sold to various parties, and the proceeds paid into the treasury. Mr. Dowlin and myself were appointed a committee to purchase cattle and other live stock. We made the purchases, reported them to the company, and the cattle, etc., purchased were paid for in the proper way by the treasurer. Among the cattle so purchased was a bunch called 'the buffalo herd,' in which Mr. Dowlin and myself had each \$5,000, the herd selling for \$35,000, Lantz having no interest in it. The fact was well known to all parties concerned, and was concealed from no one. Our interest in the buffalo herd was much smaller proportionately than our interest in the Dowlin-Rush Cattle Company, and we, therefore, as was to our interest and the interest of the company, purchased this herd at the lowest price, as we did all the other cattle which we purchased. The prices paid were rea-

sonable and fair, and were so regarded by everybody concerned. Everything was done openly, and with the full knowledge of the stockholders, and nothing was concealed "Any allegation contained in the bill to the effect that the affairs of the company were improperly conducted by us as officers, or that the accounts were not properly audited, etc., I utterly deny. Mr. Bower, one of the plaintiffs, himself was Secretary of the company from the beginning down to within a little over one year ago, when a ing this long period no complaint was heard from him in regard to any of the mat-ters he now sets up in his bill. After his term of office expired, he improperly re-fused to turn over to his successors the books of the company, and still wrongfully withholds them. The spirit which, therefore, has inspired the bringing of this suit is easily understood. Mr. Bower himself

assisted in making a number of audits and signed them as Secretary." CORSETS-Bessle Bramble defends the much-abused corset in THE DISPATCH to-morrow, and inveighs against the trailing

HELD ANOTHER MEETING. What the Allegheny Heating Company Officials Say of the Shields Deficit. Thomas L. Shields, with his attorney, E. Cassidy, had a conference with a committee of the directors of the Allegheny Heating Company yesterday, at the office of W. B. Rodgers, attorney for the company, makers in the 15 factories is about 100. How and the terms of an arrangement by which the deficit in the Treasurer's accounts is to be refunded were discussed. Attorney Cassidy said yesterday afternoon that the affair was now practically adjusted and that the directors had expressed themselvee as being satisfied with the proposition made by his client. What this proposition was he refused to state, but it was learned from another source that Shields had promised that the full amount of the shortage would be made good, and that if his assets would not be sufficient his friends would come to the

> mitted that a meeting had been held, but would not say who had been present, or what had been done. It was learned, however, that President Lysle, Directors Wal-ker and Brown and Mr. Shields and his attorney were present.
>
> Auditor Tidball has not yet finished auditing the books, but it is admitted by the directors that the shortage will not be less than \$100,000, who state that if satis-

factory arrangements are not made and the company secured from loss, criminal proceedings will be instituted.

THEY WERE FORGIVEN

A Neat Elopement to Steubenville, Ohio Successfully Executed. Lawrenceville and Brushton are enjoying a social sensation in the form of a runaway marriage, in which the star performers are

Miss Annie Jeffries, daughter of Robert Jeffries, of Butler street, and Joseph Bollinger, of Brushton.

They met by appointment at a picnic and returning took a train for Steubenville, O., where the marriage ceremony was per-formed. A telegram announcing that they would be "at home" the next day was sent and the usual parental blessing followed. At present Mr. Bollinger and bride are at the home of his father, and have not yet

visited the Jeffries residence.

Romance of a Tramp's Life. Frank Hober was a "sleeper" at the Twenty-eighth ward police station last evening. He is 75 years old, and walked from McKeesport to Pittsburg yesterday afternoon carrying a large satchel well filled with old clothes over his shoulder. Heber says he came to America from Germany 16 years ago. He said that at one time he was land owner, having a farm of nearly 500 acres. Seventeen years ago, he says, his wife died and left him alone on

Jumped From the Junction Bridge. James Coltan, a Hebrew peddler, while carrying a heavy load of tinware yesterday across the Junction railroad bridge, Thirty-

third street, was frightened by the approach

eth street. Organ Recital at Carnegie Hall. The sixty-eighth free organ recital at Carnegies Hall, Allegheny, this afternoon will be an interesting one. Prof. H. P. Ecker, the city organist, will be assisted by the Fisk Tennesseeans, the famous jubilee singers. There will be choruses and quartets and a large number of other special features

will add to the interest of the recital. Dr. B. M. HANNA. Eye, ear, nose and throat diseases exclusively. Penn street, Pittsburg, Pa. Office, 720

WELSHMEN ARE WILL

Because One of Their Number Decided to Come to This Country.

an equity suit to recover \$100,000 alleged to THEY PREVENT HIM FROM SELLING Another Western Manufacturer Is Erect-

ing a Tinned Plate Plant.

PITTSBURGERS BUSY DRAWING PLANS If the Welsh tinned plate manufacturers can keep it none of their number will be

permitted to break up or dispose of their plants to re-engage in the business in this country. Letters received here from Pittsburgers in Wales relate a condition of excitement among the manufacturers which would be entertaining if it did not place one of the tin plate men in a very awkward

The whole affair turns on the publication some four weeks ago, in THE DISPATCH, of the announced determination of a Welsh tinned plate manufacturer to dispose of his interests and re-establish himself in the same business in this country. It was also stated that other makers, whose names were also mentioned, would likely follow in his footsteps. This announcement was made in perfect good faith, and on the authority of this gentleman's own expressed declaration to a Pittsburger, and subsequently supported by letters. Some of the Welshmen attach so much importance to what appears in THE DISPATCH relative to their trade as to have copies of each issue of this paper regularly mailed to them. They looked to THE DISPATCH for reliable news, and were content to ac-

cept what appeared in its columns as trust-

worthy. WELSHMEN POSE AS BOYCOTTERS. When the issue of THE DISPATCH conaining the account of Welshmen propos ing to embark in the business in this country reached Wales it raised a storm around the head of the manufacturer who had foresight sufficient to see that this country would be the future home of the tinned plate industry, and who, with the courage of his convictions, was preparing to move with the tide and realize on his plant while it possessed any value as a young concern. This gentleman came to be regarded by his associates as something akin to a traitor to his cause and his country. The newspapers took up the matter and referred to him as a turn-coat, about as harsh a term as one Englishman can call another. This manufacturer found himself unable to sell his property when the time came. His countrymen simply would not invest; they would not be simply would not invest; they would not be a party to any such treason as a Welshman packing up his traps, his own traps, and hieing him to America to make tinned plate there. They assumed that if he could not dispose of his plant he would likely remain in Wales. It was similar with the brokers. They refused to buy the product of this gentleman's mills; and, in short, both merchants, capitalists and brokshort, both merchants, capitalists and brokers "boycotted" this enterprising Welsh-man. This is the substance of advices recently received here from the scene of hos-tilities in Wales. The sequel to the story

is now in course of enaction HE WANTS THE STORY CONTRADICTED. The Welshman alluded to, when confronted with all the enormity of his offense in doing as he wished with his own, disputed the verscity of the statement made in THE DISPATCH, and sought to show the whole story was without foundation. He represented wherever it was necessary that what an American newspaper should say of Welshmen's affairs was a matter not concerning Welshmen, and that, in fact, the reporter who wrote the story had mixed up names, facts and dates, and delivered himself of a concoction. The only way, this manufacturer concluded, by which he could be set right with his coun-trymen and restored to their confidence was have THE DISPATCH contradict the statements previously made. So a Pitts-burger now in Wales was asked to write to this city and have contradiction made. It is reported here in places authoritatively informed that at least half a dozen Welsh

tinned plate manufacturers are considering the question of coming over to this country to establish tinned plate factories. MACHINERY VERSUS HAND LABOR. "If the Welshmen and English capitalists are consistent in their actions," said a Pittsburg manufacturer yesterday, "they must find out where these projected emi-grants are and treat them to a dose of the same free trade medicine they have pre-scribed for the most intelligent and farseeing among them. The rapidity with which tinned plate mills are being creeted in this country must at last clearly demonstrate this country must at last clearly demonstrate to British capitalists two things, namely, that tinned plate will shortly be produced in large quantities in America, and that in such event the Welsh makers must lose, ultimately, three-fourths of their trade; out of 418,725 gross tons of tinned plates expected by Great British during 1890 318. ported by Great Britain during 1890, 318,-108 tons were shipped to the United States. Welsh manufacturers are also beginning to understand that other than their old fashioned methods, and hand Inbor will be used ioned methods, and hand labor will be used in establishing the industry. With Bes-semer slabs sold at 1½ cents a pound to the tinned plate maker, the requisite machinery for finishing the plate will be forthcoming to make the article at a cost which, despite the higher priced labor of Amercan mills, will enable it to be sold at little above English prices, duty added. Of the makers now membraturing tinned Of the makers now manufacturing tinned or tern plate, every one has improved upon the Welsh system, and is using machinery to execute what is done by hand abroad Welsh workmen are not in especial demand. and are not needed to make the establish-ment of the industry here a success. The hope of manufacturers who have sought to profit by the knowledge of Welsh tin plate work-

ers was that they can get better work done by the American. The day is not very re-mote when the tinned plate workers of Wales will be required neither in their own ountry nor over here." A NEW TINNED PLATE PLANK. Local engineers are receiving many inquiries for plans, etc., for tinned plate plants. There are not less than a dozen being drawn in offices which could be desig-nated. J. E. Reeves, of the Reeves Iron Works at Canal Dover, O., is adding a tinned plate to his mill. He has been in says, his wife died and left him alone on his farm. He had two grown-up children, and they advised him to sell his place, which he did, and then divided the proceeds among the three of them. He took his share of the money, which was several thousand dollars, and came to America. He did not prosper here, his money was soon gone and he was forced to lead the life of a traum. town for a day or so making arrangements. is also receiving attention. One Pittsburg gentlemen has applied for patents for machinery for washing, cleaning plates and separating the pack, all of which is done by hand in Wales. The evidences are many to the unprejudiced that the tinned plate industry is taking a grip which is growing stronger each day, and without lear of any detrimental legislation from the next Congress. The duty on the imported next Congress. The duty on the imported product is to remain in force until 1897, and will be removed then, if one-third of any one of the six years' importations of tinned plate is not being made in American mills. That is to say that 100,000 tons of tinned or tern plate must be produced in this coun-

try by 1897 to retain the duty. In a large number of men, including many politicians of national note, who were asked if they regarded it as likely the next Congress

would interfere with the tin plate duty, not one expressed the opinion that it could, under the nature of the enactment providing for a six years' trial, be honorably done. means of meeting the demand is to be found in THE DIS SCIENCE—Latest developments in scienand electricity in THE DISPATCH to-m PATCH at

A DOG-GONE MEAN TRICK.

world in the future.

Lively Time of the Allegheny Detectives After a Blooded Dog. Fred Gwinner, the well-known Allegheny contractor, recently brought with him from Europe a beautiful dog of a breed resembling the St. Bernard. He was a monstron good-natured fellow and a faithful watch Mr. Gwinner valued him very highly, and he had been greatly admired by all who have seen him. Wednesday the prized and petted canine disappeared and a search was instituted for him, Mr.

and a search was instituted for him. Mr. Gwinner, whose family had become much attached to the dog, placed the matter in the hands of the police, and employed detectives to hunt him up.

Last evening Mr. Gwinner's son, who had spent his entire time in a hunt for his lost friend, found a clew which lead to his discovery. The dog was found in a cellar in Woods' Run, where he was being kept out of sight. It was probably the intention to ship the valuable animal to another

Important U. P. Convention. The annual meeting of the First Synod of the West will convene in the First U. P. Church on Union avenue, Allegheny, Sep-tember 28. About 200 delegates will be present from the 100 churches included in the district. The meetings will extend over three days. On Thursday evening Rev. J. R. J. Milligan will be installed as

pastor of the Ninth U. P. Church. This church will hold services in Cyclorama On Tuesday, September 29, will be your last chance to take advantage of the exceed-ingly low rates offered by the Union Pacific system for the last harvest excursion. Don't miss it, tickets sold to all points West, Northwest and Southwest, with stop-over privilege on going portion of the ticket, and a return limit of 30 days from date of and a return limit of 30 days from date of sale. For further particulars, rates, pamph-lets, maps, timetables, etc., call on or ad-dress S. C. Milbourne, Trav. Pass. Agent, 400 Wood street, Pittsburg, Pa., or R. Ten-broeck, Genl. Eastern Agt., New York.
