The Building Record.

Demolition of Federal Street Buildings to Make Room for Modern Ideas. SEVERAL NEW DWELLINGS UNDER WAY Workmen were busy yesterday tearing down the old building No. 186 Federal street, Allegheny, which, with many others on that thoroughfare, has survived its usefulness. It will be replaced by a large and handsome business structure Nos. 188 and 190, adjoining, will also be demolished and replaced with modern business houses. These signs of progression on Federal street

are refreshing. Reflectorville, on the Castle Shannon this season, and the Methodists have just commenced a handsome church, which they expect to finish and occupy this year. It is too much to hope that Deacon

White's failure will be the signal to whistle "down brakes" on the speculative craze and recall the plungers to their sober senses. But whether the Deacon's trouble have this effect or not, it cannot escape attention that the solid business of the country is going forward in utter disregard of Wall street flurries and Chicago booms. And there is good reason for this. Business is in better shape than since the early part of 1893. On the other side of the ocean there are short crops; on this side they are immense. On the other side there is a panicky feeling over money matters; on this side there are ease, confidence and quiet, with an abundmands. This country is well off. It has been gathering strength, confidence and courage for nearly a year, and is now courage for nearly a year, and is now thoroughly prepared for a forward movement. All the big and little industries are in good condition. All the railroads are making money, and are buying new equipments. Gold is coming back from Europe, the amount in sight to date being nearly \$7,000,000. Between \$4,000,000 and \$5),000,000 more will come. EFFORT TO MANIPULATE STOCKS A

Two Seasons of Declines, but the Net Results of the Day's Transactions Are Fractional Gains-Chicago Operators Are Prominent in the Market.

COMPLETE FAILURE.

tempt to manipulate the money market yes-terday and again this morning proved a complete failure. The market this morning was still weak under the pressure to sell from both bulls and bears at the opening, and the first sales were made at declines and the first sales were made at declines from last evening's figures of from ½ to ½ to ½ per cent. The market gathered strength immediately under the early demand, but later the efforts at depression became felt. Prices slowly declined in most shares, while many scored marerial declines.

The downward movement lasted until well into the forenoon, when money began to be offered more freely and rates eased up to 2 per cent at the close, while there was no lack of firmds to loan at any time of the day. The Gould stocks were the weakest in the list, and with a few specialties scored losses extending to 2½ per cent, while the rest of the list generally brought only fractions below the level of the opening figures.

The buying in the afternoon, and especialty in the last hour, was very spirited, Chicaxo operators appearing again in the market as purchasers of their favories, and Bruilington. Wheeling and Lake Erie was a constant of the constant of t market as purchasers of their favories, and Burlington. Wheeling and Lake Erie preferred, Lackawanna and Northern Pacific preferred showed the greatest strength. The market closed active and strong at the highest prices of the day. The final changes are generally small fractional gains, but Atchison rose 1% on a very large business. Burlington 1% and Rending 1 per cent. Among the low priced shares Lake Erie and Western and Southern Pacific were specially prominent for strength, the latter rising 2 per cent.

Proposition of the percent.

Rhilroad bonds showed more animation than yesterday, but were affected like stocks by the manipulation of money rates, and early trading was marked by heaviness in early trading was marked by heaviness in the active issues, while no material decline was seen in any case. The Rending thirds was weakest, while the seconds rose materially in the late dealings. There was little special activity. Total sales, 2,008,000. No material changes in quotations are to be noted, but the market closed firm and confi-dent. The prices given are the highest and closing:

A Liberty Live Stock Firm's Review.

The following is a report of the situation: Holmes, Rowlen, Briggs & Co.—We report 105 loads of cattle offered for sale on Monday which were made up generally from Chicago and Indiana, of common low-priced heifers and steers. No prime shippers or exporters offered for sale, and very few smooth, fat butchering cattle. The attendance of buyers was fully up to an average, but was very slow to buy any grades at a quarter to half dollar per hundred decline from opening prices of Monday week. The better grades of butchering cattle and stockers and feeders suffered the least loss and were easiest hold. It was not a question of price to sell causes, rough grades, out simply to find a buyer who could use them at any price they would offer. We quote: 1600 to 1200 to 1460.
