THE FURY OF STEAM.

It Bursts Its Confines, Hurling Lumbermen Into Eternity.

A BAD MISTAKE OF THE ENGINEER.

One of the Victims Is Blown 200 Feet Through the Mill Wall.

MINOR NEWS FROM THE THREE STATES

"SPECIAL TELEGRAM TO THE DISPATCH.1 TIONESTA, Sept. 24.—The most frightful accident that ever occurred in this vicinity happened at an early bour this morning, hurling three men into eternity. The victims were J. Elva Berlin, James Conger and Charles B. Grove, all well-known lumbermen and men of tamilies.

Grove was the fireman in Berlin's new saw mill at Bear Creek, Kingsley township, with horses and cattle fallen exhausted for 12 miles from this place. He started to want of water. Many people are also dying work as usual early this morning, and was busy about the boiler at 7:15 o'clock when further. The only water to be had is from the boiler exploded. The new mill was totally demolished, pieces of timber, lumber, parts of the boiler and human bodies being thrown many feet away.

Grave, who is supposed to have been standing with his hand on the inspirator, one side. James Conger, a lumber hand, had evidently been standing in front of the leader and received the full force of the explosion. He was thrown fully 200 feet away through the sides of the mill, and who picked up by a horrified lumberman who heard the report from a distance, he was stone dead, though but little cut or bruised, lite apparently having been simply blown out of him by the force of the liberated steam.

Probably the most peculiar death of all, was that of the proprietor of the mill, Elva Derlin. He was standing fully 50 feet away from the scene when the boiler let go, but stood secuningly in the very track of the whirlwing of torn pieces of boiler iron and scantling. He was struck by 160 remnants of the hijving debris and literally torn to boiler and received the full force of the

scantling. He was struck by 100 remnants of the figing debris and literally torn to

Two other men were working at the far end of the mill at the time, but escaped unharmed. They were blown off their feet and but slightly bruised. A careful examination of the pieces of boiler demonstrated the theory that a sudden influx of cold water, turned by Grove into the hot boiler, caused the carefular.

TRAIN WRECKERS FOILED.

Obstructions on the Track Removed in Time to Save an Express Train.

Aurox, Sept. 24.-[Special.]-Train wreckers attempted to get in their work on the Cleveland, Akron and Columbus track in the southern edge of the city last night. Balti ore and Ohio construction men who are milding a track alongside of the Cleveland, Akron and Columbus Railrond linve been pestered of late by thieves. Last night, tile two railroadmen were lying in wait for the robbers they saw several men stealing along the track, and soon after heard the sound of timbers dropped upon the rails. The wreckers soon hid themselves. Two of the ards harried to the track and found five ed on it. One began taking them off other ran down the track to warn express train, which was heard ap-g. The train was stopped and the

ae Baltimore and Ohio employe ork pulling off the ties he was the wreckers in ambus 1. A l of officers beat the woods in the ungon load of officers beat the woods in the vicinity until early this morning without linding a trace of the fiends. On the night before Sheriff Bunn removed a tie from the cleveland. Akron and Columbus track at about the same place. Burgiaries committed in the city the same night, are attributed to the same gang. Two arrests were made on suspicion. The police arrested John McKee and Edward Burke late this afternoon on a telegram from Canton, saying they are wanted for highway robbery. Burke fought desperately, knocking the officer down and taking to his heels. Officer firadhier chased Burke sevent blocks and fired three shots before halting his man. fired three shots before halting his man.

TRAINS RAN TOO CLOSE TOGETHER.

A Costly Freight Wreck on the Ft. Wayne Railroad Near New Waterford.

ALLIANCE, Sept. 24 .- [Special.] - A destruc tive freight wreck occurred this afternoon near New Waterford, on the Pittsburg, Ft. Wayne and Chicago Railroad. Two freight trains, heavily loaded, were going east, and the first had occasion to stop to fix a jouraml. The other was rouning on fast time behind, and before a flagman had been sent back a sufficient distance it rounded a curve and plunged into the standing train. The engine of the rear train was totally de-stroyed, and the wrecked cars were piled one on top of another almost to the height If the telegraph poles, Fortunately the crews of both trains saw

their danger in time to escape by jumping, and no one was injured. The loss to the ompany will run far up into the thousands charged that the trains were running A During Daylight Robbery,

WASHINGTON, PA., Sept. 24.-[Special.]-At Po'clock this afternoon three masked men approached the house of J. J. Baughn, three miles west of here, no one being at home but Mrs. Baughn. Concealed in the house was \$700 in cash, which fact was probably known to the despendoes, as they compelled the old lady, at the points of their revolvers, to bring out the concealed money. Officers are on their track, and will probably arrest them to-night.

Funds for the Embarrassed Bank,

CHICORA, Sept. 24.-[Special.]-A message dated Cleveland was received last night from H.4. Hoyt, saying that he had procured the money and would be home to-day. It is said that when the bank resumes business said that when the bank resumes business the depositors who do not care to leave their money in the bank will be asked to draw small sums at intervals of perhaps every three months. In this way the institution will not be drained of its currency.

The Verdict on the St. John's Tragedy.

St. Manys, O., Sept. 24.—[Special.]—Coroner Hunter to-day rendered a verdict in the St. John's tragedy, that Captain Herring came to his death at the hands of some person un-known. The Coroner could find nothing to establish the theory that death might have been needental, but based his verifict on the fact that the real murders was seen "coming away from the place. It is thought arrest will be made soon.

An Italian Labor Union.

NEW CASTLE, Sept. 24.-[Special.]-The Italians of this county are busy organizing a Fraterna Italiania, which will include all the men employed in the limestone quarries and on the militonds. The order is said to be of the mutual benefit sort, though it is said the organization will likely result in the Halans making a deniand for uniform wages in all the quarries.

Tri-State Brevities.

Tur roughers at the Ætna and Standard Rolling Mills, Bridgeport, O., after a pro-loured strike, returned to work yesterday. The mangled arm of S. J. Bigley, who was blown to pieces by the nitro-glycerine explusion at Washington, Pa., several weeks THE jury at Williamsport in the case of R. J. Early, postal clerk, arrested in Pittsburg

on a charge of embezzing valuables from letters, came in Wednesday evening with a a ordies of nequital.

A DRUNKEN TYPO'S DEED.

He Fatally Shoots a Girl Printer and Ther Blows His Brains Out, TOPEKA, KAN., Sept. 24 .- [Special.] -- Because she would not marry him, Elijah Watts, a drunken printer, shot and mortally wounded Miss Katie Halloran this morning, and then blew out his own brains. The murder was a cold-blooded assassination, Miss Halloran was a printer employed on the Capital. She quit work at 3 o'clock this morning and started for her home, accompanied by William Bush, a printer. Watts, who had frequently accompanied her home, knew the route she always took, and secreted himself behind a sait barrel to wait for her.
Just as she passed he shot her below the right shoulder. Watts made no outery, but started to run. Three shots were heard and the police, who were aroused, found his body within a block of the murder. He had shot himself below the right ear. His body was conveyed to an undertakers and Miss Halloran taken to her home.

DYING FROM THIRST.

TERRIBLE SUFFERING IN THE OKLA-HOMA INDIAN LANDS.

Exhausted People Lay Down to Die for Want of Water-Several Men Killed in the Mad Rushes-A Poor Widow's Negro Protector

GUTHRIE, O. T., Sept. 24 .- [Special.]-Parties in from the Indian lands tell terrible stories of the suffering of both men and animals in the southern part of the Iowa and Sac and Fox reservations. The weather is very hot and sultry, and there has been no rain for weeks. Settlers cannot find water for a distance of 20 miles along the trail, and the roadside is lined

filthy, stagnaut pools.

At the town of Chandler dirty water sells for 10 cents a glass and hundreds of horses have dropped dead. Provisions were away up, but wagon trains arrived to-day and a number of stores were opened up in the new town founded yesterday west of turning water into the boiler, was decapitated and his trunk thrown many feet to Tecumseh was completed 5,000 people made a mad rush into the town, and three men on horseback were thrown under the feet of 100 rushing horses. One man was killed in-stantly and two have since died. Four or

THE FAMOUS WILL PRODUCED.

Mr. Scarles Continues to Testify to His Business Relations With His Wife. SALEM, Mass., Sept. 24.-Another crowded

court room greeted the opening of the third day of the Searles will contest, when the examination of Mr. Scarles was continued Witness had owned an estate in Methuen 21 years Neither this estate nor the Great Barrington property ever went into the co-partnership assets. The Great Barrington perty was transferred by deed to witness, but the deed was never recorded. Witness had considered himself and wife equally interested in the property. Other unrecorded deeds of other property were produced. Witness understood that titles did not pass until the deeds were recorded. No one suggested that these be kept from the records so that neither Timothy Hopkins nor any of his wife's relatives should know of them. A telegram from Mrs Hopkins to Timothy at San Francisco, three days before the marriage, was read. It said: "Marriage proposed and refused four years ago consummated November 8 at 11 a. M. If possible let E. F. 8. and myself receive your congratulations. An writing you. Do not sail before 18th." Witness did not recall hearing the telegram before. Had heard before the marriage that Timothy had had detectives following. Witness did not like it, but still had no unfriendly feeling for Hopkins. Timothy had said in the presence of his mother that he had looked them up, as he was desirous of knowing the character of the man his mother was to marry. In the afternoon the will of 1857 was produced. Witness knew of the will, but did not know of its contents until his wife's death. This will gave \$10,000 to John Harwood, a former coachman, and the residue was left in trust to Edward F. Searles, Timothy Hopkins and Thomas E. Stillman to pay the income in equal shares to Edward F. Searles and Timothy Hopkins during their lifetime, and on their death to whoseever they might designate by will, or failing to make a will, to pay to their next of Kim. A codicil substituted the name of Thomas Hubbard for that of Timothy Hopkins as trustee and executor, but otherwise confirms the will. had considered himself and wife equally interested in the property. Other unrecorded kins as trustee and executor, but otherwise confirms the will.

DR. GATLING'S NEW GUN.

He Promises to Revolutionize the Making of Heavy Ordnance.

MARION, IND., Sept. 24.-[Special.]-Dr. Rich ard J. Gatling, the great inventor, has added to his numerous devices an invention by which he expects to revolutionize the manufacture of heavy ordnance, and to-day he decided to locate in this city a plant for that purpose. The new process includes a composition and a mechanical device. The former he declares to be much greater in tensile strength than any now in use, and to this he proposes to add by a device for coiling the metal about the case and by cooling the gun from the inside. The composition has been tested to the satisfaction of the inventor, and the process being infinitely more rapid than any now applied, he expects to have the first gun ready for a test in four months.

After years of study given to the subject, he declares that he has absolutely no doubt as to the success of his invention. The company has been organized with a capital stock of \$1,000,000, all of which has been guaranteed. which he expects to revolutionize the man-
