FEATURES OF MONEY AND SPECULATION

American pig—Dealers generally report an increasing amount of business and more widespread inquiry. The majority of the furnace companies decline to sell beyond this year's delivery, making an exception only when customers need iron for next year to cover on contracts entered into. The majority of sellers are holding firmly, but yet low prices are occasionally made. There has been a little more activity in charcoal iron and prices are held at a somewhat higher level, particularly for delivery over a long period of months. The low price of \$17 at Buffalo, made some time since, cannot now be repeated, while on Southern tron \$15 50 at furnace was named for Nos. 1 and 2 on moderate sized lots, with the privilege of increasing to 2 900 tons. The lowest price thus fair unde was on a contract entered into some time since by a St. Louis car company \$1 \tilde{5}\$. Northern brands are quoted at \$16 75 \tilde{6}\$18 00 for No. 1; \$16 005916 50 for No. 2, and \$14 00514 50 for gray force. Southern irons sell at \$160517 for No. 1; \$15 250516 50 for No. 1 soft, and \$14 00514 50 for gray force. Spleggeleisen and Ferro Manganese—No.

Steel Rais—There has been more activity, Eastern mills having booked orders for about 20,000 tons, including a number of small orders for delivery to New England raids. Pittsburg works have during the past ten days taken orders aggregating about 25,000 tons, which include one 15,000 ton lot. There are a number of inquiries in the market, so that there is a slightly improved feeling. The allotments for the different mills, including the Maryland, will probably be settled this week. We continue to quote \$30.75@381.60 at tidewater.

Track Material—We quote 2.25c for spikes, 1.56@1.80c tor fish plates, and 2.80@3.00c for boots, delivered.

According to calculations by a prominent railroad man, passenger earnings could be increased 29 per cent on all lines from Chi-cago to the seaboard by abolishing all but one limited train on each road, and running lower time on the remainder. Nearly all managers and superintendents of lines running east from Chicago favor the saving and the change will probably be made about the close of navigation, leaving the tracks clearer for grain by rail.

#### MONETARY MOVEMENT.

Heavy Flow to the West, but No Pinch

Anticipated. There is no pressure nor apprehension in Pittsburg. The market is easy and promises to continue so. Being a creditor city, with money always coming in for her products, Pittsburg is seldom hard up for funds. Bank

Pitisburg is seldom hard up for funds. Bank clearings yesterday were \$2,350,296 91 and balances, \$493,762 35.

In regard to the general situation the Financial Chronicle remarks: "It is quite natural, at this period of the year, that shipments of currency to the West and South should assume large proportions. Last week the New York banks lost, in this way, no less than \$5,000,000. During the present week shipments to the interior through the New York sub-Treasury have thus far reached a total of over \$2,000,000. Of course, the flow of gold from Europe obviates, to a large extent,

the danger of any real depletion in the supply of money available for the purposes of the market. At the same time, it is evident that the West will call for more money during the present autumn than it has ever been known to do in the past.

"In banking circles there is a general expectation of heavy and prolonged demands for money in connection with the movement of the crops and from the increased activity of general business. There is, however, a marked feeling of confidence, and a general belief that, while business is expanding and confidence increasing, there can be no real pinch in the financial situation."

Pleasant Valley held advanced ground until the last call, when it declined a fraction in the bid-

ding, although sellers asked more.

There was considerable talk about 3-cent fares on the Duquesne, and the opinion was freely expressed that the cut would be made. That and quicker time, it was thought, would put the road on competing terbus with its rival.

Reai Estate Loan and Trust Company was bid up a point. Philadelphis Gas gained a trifle and Chartiers was stiffer. The Miners were unchanged. Electric improved on a report that Boston was buying. Switch and Signal found some support and advanced a fraction. fares on the Duquesne, and the opinion was

fraction.

A representative of Rea Bros. & Co. said their affairs were improving and they expected to resume in a short time. Information from New York led him to believe that White & Co. would be able to meet all claims.

### SOMETHING LIKE A PANIC.

TWO PERIODS OF INTENSE EXCITE-MENT ON WALL STREET.

The Gould Stocks, Including Missouri Pacific, Lead the Break-Surprising Bull Resistance Shown-The Best of the List

Gradually Falls in Line. New York, Sept. 24.—The announcement to-day caused general surprise and consternation, while the immediate effect upon Missouri Pacific and the rest of the Gould stocks was demoralizing. The whole market felt the depressing effect. The opening vas irregular and excited, and the weakness in Missouri Pacific was most pronounced at the outset, when 4 per cent was knocked off its price within the first hour. The rest of the market was dragged down, and while the decline was steady the resistance was emarkable.

the decline was stendy the resistance was remarkable.

In the afternoon there was comparative quiet in the market, with some slight necoveries, although the market remained feverish throughout. In the last hour, however, there was a renewal of the depressing influence, and the transactions again assumed enormous proportions. Missouri Pacific took another dip and touched 65, against 74½ last evening, while Union Pacific dropped to 40 and many others, including Lackawanna, showed marked wranness. Stocks which had throughout the forenoon resisted the decline now gave way, and Canada Southern fell away 3 per cent from its best figure.

The market closed very active and weak at about the bottom figures of the day. The losses were very material and significant at about the bottom figures of the day. The losses were very material and significant among the lending shares, Missouri Pacific showing a decline of 9½ per cent: Union Pacific 3½; Wabash preferred, 2½; Cordage, 2½; North Amer canand Reading and Lackawanna, 2½; Canada Southern, 2½; Atchison and Burlington, 3½, and the others smaller amounts, but generally between 1 and 2 per cent.

cent. Railroad bonds failed to partake of either the excitement, activity or weakness which characterized the dealings in shares, and the very moderate business was marked by few important changes. The day's business was only \$1,772,000. The highest and closing quotations were:

Groceries.

The weakness of coffees already noted in this column has culminated in another decline. Our quotations are again reduced 3/cc per pound in accordance with the facts, Sugars are still very active and firm, but there is little likelihood of another advance. The fruit canning time draws toward its close, and demand for sugar will no doubt decline in a short time, and thus prevent any advance in prices.

the Palace at Pekin."

The "Palace of Earth's Repose" is where the Empress of China holds her court and rules over the imperial harem, whose only glimpse of the outside world is with they can see in the imperial flower-garden. The present young emperor, in addition to his seven lawful concubines, has already no less than one hundred and thirty ofhers in his harem.—H. O'Shea's article, in the Illustrated American. Such is the life of the most highly favored of Chinese women-prisoners within the palace walls they eke out an existence in real slavery. American women know no slavery but that which depends on themselves. Sometimes they are overworked, "run-down," weak and ailing—then is the time to turn to the right medicine. The one who takes Dr. Pierce's Favorite Prescription emancipates herself from her weakness and becomes a stronger and a happier woman—more than that—a healthy one. For all the weaknesses and ailments peculiar to womanhood, "Favorite Prescription" is a positive remedy. And because it's a certain remedy, it's made a guaranteed one. If it fails to benefit or cure, in any case, you get your money back. Can you ask more!

A UNITARIAN ON DIVORCE.

He Would Punish as Criminals the Con 9 506010 00; common, \$5 50 13 00 P barrel; cider vinetractors of Indiscreet Marriages. Sanatoga, N. Y., Sept. 24.—The devotional exercises of the Unitarian Conference were conducted this morning by Rev. Mary A. Safford, of Sioux City, Ia. Hon. Carroll D. Wright, of Washington, read a paper on marriage and divorce. Speaking of the act of Congress providing for the collection of statistics relating to marriage and divorce,

statistics relating to marriage and divorce, he said the investigation thus ordered and made was the first collection of such facts in sociology ever made by a Government. An examination of the laws of the several States and Territories shows that marriage is generally encouraged by law. He traced a large amount of domestic infelicity, from which arise divorces, to the laxity of the marriage laws.

Mr. Wright concluded that he believes it possible to properly restrict divorce, and while thus restricting it he would make marriage more difficult by making the guilty party to indiscreet and hasty unions amenable to criminal law. Then the law should be changed so that the State should be a party, and no ex-parte divorce decree should be granted, for that would punish the innocent.

"What's that you have ordered,

Jack?" "A wineglassful of Johann Hoff's Malt Extract. It's the finest thing in the world for indigestion. I take it regularly with my meal."

Indigestion is a much prevalent American disease. Too much starchy food will cause it. Rich food and rangements, weak back, gravel, catarrhal sedentary habits also. Johann Hoff's dicharges, inflammation and other painful Malt Extract is a positive safeguard. It increases the energy of the stomach and the intestinal canal, and stimulates the secretion of the proper quantity of diluting fluids. Besides this, the extract reduces the chemical reception of nourishing substances, both in solid and liquid state (this means you can eat a hearty meal without hurt), as well as their conversion to the form most suited for assimilation. The whole idea is-it assists nature. Eisner & Mendelson Co., Sole Agents, 6 Barclay street, New York. Beware of counterfeits, they are dangerous. The genuine must have the signature of "Johann

Hoff" on the neck of every bottle. F CIDER VINEGAR PURE SPICES.

opened in a blaze of glory on September 2, and all indications point to a successful show. Most of our country cousins will visit it before the close. City folks will thus have an opportunity to show their hospitality in return for favors received. We learn with regret that Max Klein, owing to a press of business, was unable to arrange a display this season, as in former years. Visitors to the city should by all means take a peep at his model establishment, No. 82 Federal street, Allegheny, which is within a stone's throw of the Ft. Wayne and West Penn depots. They can then return home with the satisfaction of having seen the largest and best equipped wholesale liquor house in this section of the State—the headquarters of those world-famed brands of absolutely pure whiskies, "Sliver Age" and "Duquesne." The former sells at \$1.50 and the latter at \$1.25 per full quart. Max Klein, it may be added, also keeps in stock Bear Creek, Guckenbeimer, Finch, Gibson and Overholt, and the finest old whiskies, brandies, wines, cordia's, etc. Call and see him.
