The Republicans charged recently that ocrats were trying to make a deal with the People's party. It was cited that Chairman Neal met Mr. Snyder, a Kansas Alliance orator, and sarranged with him to stump the State for the Democrats and to use his influence with the Fourth party people in the interest of Campbell. Chairnan Neal could not be seen, but Mr. Tarbell, who is an assistant in the Speakers department, said there could be nothing in the story, as no assignments had been made Suvder, or any other Alliance speaker. He did not believe it wa he would know something about it. He did not believe it was true or

NOT MANY FLOPPERS VET.

In some counties the Democrats have com bined with the Fourth party on the Legislative ticket. This was done in Delaware county, and as a result the Democratic County Chairman, Dr. E. H. Hyatt, has an-nonneed that he will vote the Republican ticket. He is the most prominent flopper up to date, but his conversion is due to personal causes. Neither party has done much preselyting, but it is too early for that kind

Secretary Matthews said the Republican outbook was very bright. He had no appre-hensions but they would fight to a finish. In no instance, he stated, had his party combined with the People's, and in some cases where the Democrats had done so they would lose heavily by it. This was true in Crawford county. He though coalitions to secure present strength were a great mistake; Results continue longer han a year, and he thought in the end the Democrats would regret that they ever For the Democrats, made a combination. Mr. Turbell said they hoped to win. They have no repson to feel discouraged. He thinks there is a great deal of dissatisfacover the tariff, and for this reason nanny Republicans will vote against McKin-

CAMPBELL ON TIN PLATE.

A Speech Devoted to the Difference Be tween That and Terne Plate.

COLUMBUS, Sept. 26.-[Special.]- Governor Campbell had to drive nine miles to reach his appointment at London, Madison county, to-day. As they passed the new Court House, now under process of construction, the Democratic workmen ran up a flag and put a great rooster on top of the Court House, and an immense placard stating: "There is no. Piqua tin used on this building." The platform was emblazoned with great streamers, stating that no Piqua lead tin was used. This gave the Governor an opportunity to explain the difference between tin plate and terne plate. The Governor explained that to talk of terne tin plate was as absurd as to speak of a

black-white man; that terme plate was terme plate, and tin plate was tin plate, and that ere was no such thing as terne tin plate. The word terne came from the French, and ras used to indicate that whatever it was applied to was composed of three different articles. The word "Terne" as applied to metals means that metal named was composed of a union or composition of three metals, no matter whether tin be used or not. Terme plate had a technical meaning, and meant a metal, the basis of which was sheet iron or steel dipped into a mixture of

lead and tin, making a plate composed of three metals, iron, lead and tin One County That Will Have a Farmer. AKRON, O., Sept. 26.-[Special.]-The People's party held their county convention here to-day, with over 100 delegates present. A full ticket was nominated. J. O. Williamson, a farmer, and heretofore a prominent Republican was named as Representa-tive. The convention was very enthusias-tic. All four tickets now in the field are headed by farmers for the Legislature.

act a great amount of business this morning, the weather being somewhat adverse to the exercise of much mental effort.

The constitutional amendments providing for admission into the order of youths of 18 years, was defeated by a vote of 107 to 58, the necessary three-fourths vote not having been obtained. The lodge also decided to postpone for a year the considera-tion of the liquor question. The effect of this will be to leave saloonkeepers eligible

Roumania Alarmed by Russia.

VIENNA, Sept. 26 .- Russian troops are practicing forced night marches and other night maneuvers across the River Pruth, on the Roumanian frontier, with the aid of electric lights. The Roumanian Government has become alarmed at these warlike demonstrations. Consequently, it is also concentrating troops on its frontier, and, has ordered a force of Roumanian cavalry to Upper Moldavia.
