Cherwater Jones a Sweeping Pool Challenge—General Sporting News of the Day.

Local patrons of trotting and trotting horses will be interested to hear from Joe Heideger, who has been in Germany for some time training and driving trotting horses.

When Joe wrote the letter he was in Berlin and has for some time past had the very best kind of luck with his horses.

He states that the day before he wrote the letter he started his mare Blue Bell. She exceeded all the other horses considerable start and won in a jiffy.

Heideger is also planning to draw attention to his own horses and also to his splendid driving so that Joseph seems to be on the highway to great success.

SOME HISTORICAL BETS.

Interesting Reminders of the Old-Time Plungers of the Turf.

It is quite probable that there are just now no men who gamble quite so heavily, except in stocks, as did the "plungers" in the early part of the century.

There were a number of men who made \$20,000 "books" on the horse race, and as late as 1850 a man named Jones made \$50,000 against each of the horses in one race.

CONSCIOUS OF HER STRENGTH THE REPUBLIC BECOMES CONFIDENT.

A STATUE OF GEN. FAIDHERBE UNVEILED.

PARIS, Sept. 27.—Foreign Minister Ribot at Luncheon to-day unveiled a statue of General Faidherbe.

"Henceforth she is the mistress of her own destiny. Her position has been consolidated through adhesion to the principles of prudence and moderation."

"Europe, whose attitude was for some time uncertain, has at length rendered France justice. A sovereign far sighted in pacific designs and as firm as France has publicly manifested the deep sympathies which the two countries [France and Russia] have for each other."

"The French nation has joined the Car in extending cordial friendship to France. You know how well these sentiments are reciprocated. The Constantinian incident found an echo in the smallest of our hamlets as much as in our Government palaces."

"Nevertheless they have not caused us to forget what went before and what followed. Our hearts have been touched by the sentiments of friendship extended to the French Republic. However they went they found France respected, as was seen in the demonstrations in their honor in Denmark and Sweden, and finally at Portsmouth, where Queen Victoria received them in person and expressed an imposing, courteous welcome."

"These events have made an impression on the whole world that will not be effaced. France has felt that she is becoming herself re-entering the European equilibrium as an indispensable factor offering an additional guarantee of peace. From this date she regards the interests of the world as a whole in a new light."

"We believe that farmers are already beginning to see the truth. If Mr. McKinley should be elected to govern Ohio it would be regarded in England as a great step for the economic idea which represents and would cause a great deal of joy among English statesmen who advocate fair trade on the basis of free trade."

"If the interests of the world are to be protected, it is not in America alone that the masses must be educated. In England, too, the masses must be educated. It is not in America alone that the masses must be educated. In England, too, the masses must be educated."

"The time for the collaboration of the Chambers and the Government," he added, "is approaching. Whatever happens, we will be ready to meet it with courage and well placed ourselves heart and soul at the service of the republic."

NO BRIBERY FUND.

THE COBDEN CLUB DENIES THAT IT IS HELPING CAMPBELL.

President Thomas Bailey Potter Says the Story is Absolutely False—No Literature Even is Being Sent to This Country at Present.

LONDON, Sept. 27.—The New York Herald correspondent has called the following to his attention: The extraordinary charge that the Cobden Club has raised a secret fund of \$1,000,000 to be used in bribing Ohio voters and securing the defeat of Major McKinley has just been called over to England from American newspapers.

"I do not find any fault with the action of the Governor," he continued, "for the Constitution gives him that right, but you can appreciate the fact that no Senator should in advance express an opinion."

"I have not even read the proclamation," he said as he mopped off the perspiration, "but I have heard of it from the mouths of all day. Just say that I am too busy to say anything about it."
