FEW PRIME CATTLE.

Our Local Markets Flooded With Common and Low-Grade

STOCK, WHICH IS HARD TO SELL.

Desirable Beeves Are Scarce and Firm at Advanced Prices.

SWINE ARE LOWER AND SHEEP STEADY

OFFICE OF THE PITTSBURG DISPATCH, ?

WEDNESDAY, Sept. 30. There have been all told about 85 car loads of cattle on the market at East Libwere obtained a week ago. The average quality of this week's offerings was below average and nothing on sale brought above \$5 00 per cwt. Prime beeves were worth \$6 25 in Chicago, and the fact that nothing offered in East Liberty sold above \$5 00 per cwi proves that there were no primes on

From all live stock centers the report comes that prime beeves are very scarce. The Pittsburg butchers whose trade calls for primes, are forced to go to Chicago for been good for all offered. The top price of calves this week was 614e per lb., and only a few choice brought this price. Hogs—The un for the week has been above 30 car loads and prices are lower than last week. The top of the market for Philadelphias to-day ons \$5 35, and very few reached this price op price at Chicago this morning was Sheep-Receipts in this line for the The week have been about 35 car loads. oportion of good stock was small. Top-ice of sheep was \$5 00, and lambs \$5 50. or good stock markets were strong and netive, but all common and low grade stuff was slow and dull at whatever prices buyers were willing to pay.

A Liberty Stock Firm's Beview. The following is the report of the situation by Holmes, Rowlen, Briggs & Co.: We report Si cars of cattle on sale Monday, chich was less than half the number on sale the preceding Monday. This was offset by the demand being reduced fully one-half from last week, through complaints of dry weather and shortage of water and grass by raziers and feeders, waile the butchers on the city and country all complain most om the city and country all complain most iteriy of the extreme low prices that Chi-go dressed meat is being sold at, and that any cannot possibly buy any cattle, even at as present low prices, to compete with the resent dressed meat prices. The result as the limited number of cattle could not the seed, and the close was at the lowest fees of the season, with several leads to in he soid, and the close was at the lowest trices of the season, with several loads to e carried over or shipped out in first hands. We quote no prime for sale, Good 1200 to 1,200, \$1,200, Some of the Sales Reported.

loads of cattle on the market at East Liberry yards this week, against 170 loads last week, and 115 the previous week. Desirable grades were in very short supply, and moved actively at a shade better prices than loved actively at a shade better prices than head; market steady.

MARKETS ON THE EBB TIDE.

Wheat the First to Subside, all Markets Being Bullish in the Morning-The Third Hold-Your-Wheat Circular Temporarily Assists the Strength.

CHICAGO-The markets all started strong and higher this morning, but with equal unanimity, they ended with a reaction which left them lower than the closing figures of yesterday. In wheat a good deal their stock. Good feeders and choice fresh of the bull feeling of yesterday was carried cows are in limited supply and demand has over, but perhaps the most potent factor in the higher opening was the issuance of the third Farmers' Alliance "Hold-your-wheat" circular. While the trade generally did not ook for any decided result from it, it made the shorts nervous and they were ready to

cover at the tap of the trading bell. Liverpool was firm, but London was 43669 pence lower. Receipts here were about as expected, but those at Minneapolis and Duluth showed a falling off compared with the recent heavy inflow, though still liberal. Another bullish item was a telegram from Duluth telling of very heavy exports with more in hand to go forward.

Duluth telling of very heavy exports with more in hand to go forward.

December opened at \$85,409812c, against \$75c at the close yesterday. The demand was sharp for a time, with little on the market, and it held for some time at those figures. Then the short scare began to subside, weakness set in and there was a gradual drop to \$75c. The selling was pretty free after the first half hour. Bradsreet's reported the increase in the available supply of wheat east of the Rockles at 2,240,000 bushels and \$55,000 bushels on the Pacific coast, making a total increase of 2,225,000 bushels. The weakness continued during the last hour, and December sold off to \$75c, reacted some on realizing purchases by shorts, but weakneed again and closed easy at \$74c, the bottom figure of the day.

Corn was notive and very strong most of the session, but eased off some later. The strength was due to the small receipts, only 125 cars. This, with liberal out-inspection, alarmed shorts and started them to covering, and offerings being light, higher prices ruled. October, which closed yesterday at \$75c, opened at \$35c, sold up to \$55c and receded to \$3c. Then, when it became known that the estimate for to-morrow was for only 150 cars, there was some recovery, and

ceded to 53c. Then, when if became known that the estimate for to-morrow was for only 150 cars, there was some recovery, and at 120 clock the price was 53%c. During the last hour a good deal of corn was put upon the market, and it sold off sharply. The offerings were by the early purchasers who sought to realize their profits, but there were few buyers, and October quickly simped to 51%c, at which it closed.
Outs followed corn and closed lower. Provisions opened higher in sympathy with grains, but then quickly weakened, and continued to recede most of the day. It was expected that the deliveries of October to-morrow would be heavy, and most of

ber to-morrow would be heavy, and most of the trading was in shifting October deals to the more deferred futures. Pork lost 273-90 39e: lard, 73-@123-e, and ribs, 123-6-20e.

The leading futures ranged as follows, as cor

THE COKE MARKET.

The Expected Improvement in the Trade Fails to Materialize. SCOTTDALE, Sept. 30.-[Special.]-While the coke shipments increased 296 cars last week, the expected improvement in trade has not been realized. No effort has been made by

operators to increase production, and the good showing of last week is not lasting. The plants in operation will work four and five days this week. Though the coke trade

five days this week. Though the coke trade is conceded to be very dull, the work of erecting new ovens is going right along, and if all signs don't fail the coke trade will assume its average before long.

The total shipments were 6,891 cars, distributed as follows: To points west of Pittsburg 5,711; to points east of Pittsburg, 1,990; to Pittsburg, 1,990; total, 6,891. As will be seen, the Pittsburg consignment decreased 39 cars, and the eastern shipments increased 342. In tons the total output was 124,638, Prices remain unchanged. Furnace coke is quoted at \$1.90; foundry, \$2.30; crushed, \$2.65, all f. o. b. cars at ovens per ton of 2,000 fbs.

New York, Sept. 30.—Pig iron quiet; Ameri-nn, \$16 00@18 25. Copper unchanged; Lake, October, \$12 40. Lead stendy at \$4 50. Tin quiet and steady; Stratts, \$20 00.

HOLDS UP AN EXPRESS MESSENGER ON A NEW YORK RAILROAD,

A LONE TRAIN ROBBER

The Victim Covered With a Revolver and His Car Rifled-About \$10,000 Secured by the Thief-The Job Done in True Western Style.

UTICA, Sept. 30.-Special American Express train No. 31, on the Central Hudson road, due here at 3:10 this morning, was robbed between here and Little Falls. The robbery, which was attended by nearly all the thrilling features that accompany such events in the Wild West, took place about Pittsburg, but facts show the contrary, or 1 o'clock this morning.

At the hour named B. A. Moore, of Buffalo, a trusted messenger of the express of the Penn, Eisner, Schmertz, Excelsior, company, who had been in its employ 15 | the Irish block and the Kuhn law buildyears, suddenly realized the fact that a ings, report every room taken and occupied. stranger stood over him with two revolvers They have charge also of the new Ferguson THE PASSING OF THE MISSOURI pointed at his head, and demanded the sur-render of his revolver and the key of the

Moore was taken wholly by surprise, and, as the robber had taken his revolver, he had to give up the key of the safe. The robber then opened the safe, took out the money packages and jumped off the train, having first given a signal to the engineer to slow down. When he was ready to jump he gave down. another signal for the train to go ahead and then jumped and started in a northerly direction. The robber was masked and the messenger was unable to give any accurate

description of him.

As soon as possible Moore made known to the other men on the train what had taken place, and they made a search to see how the robber got in the car. There was no mystery about it, for a hole large enough to admit a man's body was found cut through the forward end of the car.

The car that was robbed was the last one of the six in the train, and it is believed by the express people that the robber had som experience as a railroad employe, from the fact that he was able to give the right signals on the air whistle for slowing and

starting the train.

The exact amount of money taken by the robber is not known, but from the nature of the packages the express company says it is less than \$10,000. Messenger Moore says that when the robber secured his revolver he fired three times, none of the bullets hitting Moore, however. The robber ransacked the safe, taking those packages he thought contained valuables. The messenger managed to thrust a \$5,000 money package behind the safe, which the robber did not find.

Assaulted With a Hatchet,

Howard Brown is under bonds to answer a charge of felonious assault and battery before Alderman McMasters. The infornation was made by Charles Hinds, of 38 Anderson street, Allegheny. Brown is a real estate agent, and he and Hinds had a dispute about some property in which they are both interested, when Brown, it is said, struck Hinds with a hatchet.

THE MANUFACTURING DISTRICTS

And Take in the Famous Suburbs With Their Magnificent Scenery.

FEATURES OF MONEY AND SPECULATION

There is no city in the country that offers stronger inducements to investors than Pittsburg. There will never be a better time to say this than now, when the city is full of visitors. The business of Pittsburg is an open book.

Prosperity is written on every page, to be read of all men. It is a cloud by day and a pillar of fire by night to direct the investor and keep him from going astray. He cannot make a mistake. Go anywhere, look in any direction, and

multiplied evidences of thrift are encountered. Pittsburg is the busiest place in America, and one of the solidest. Legitimate enterprise is fostered and flourishes, but wildcat schemes are discountenanced and soon come to grief. Conservative, yet broad and progressive, Pittsburg bankers, nanufacturers and merchants are safe counselors and guides. Under their magnificent leadership, aided by the active, intelligent oopulace, the city has within a few years made extraordinary progress in wealth and population.

To enable them to acquire a just conception of the magnitude of the Pittsburg the manufacturing districts. They will there see the greatest iron and steel plants in the world, miles on miles of them, turn-

Having acquired an intelligent comprehension of the industrial features of the city, visitors should by all means "take in" the suburbs. This should be done as a matter of justice to the city. The impression formed from a survey of the business quarter is that of push and enterprise, of hurry to meet the demands of trade, and of relentless pursuit of wealth. This is in striking contrast with the quiet but maies-tic beauty of the outskirts. Abounding in fine homes, handsome grounds and broad avenues, they have been admired by trav-elers from every land. No city in America is more highly favored in its environments than Pittsburg. The rapid transit system of the city is so extensive and complete that any part of the suburbs can be quickly and conveniently reached, and no visitor should fail to see them. What he will witness will "a thing of beauty and a joy forever" to

As nearly everybody knows, Pittsburg has made marvelous strides in material development within the past five years, but her possibilities are even greater than her achievements, and what she has accom-plished in the line of expansion is but a foretaste of what may be expected during the present decade.

Facts About Office Buildings,

There is an impression in certain quarters that there are too many office buildings in at least that they are not in advance of the demand. Black & Baird, who have charge firms in the city. This should be encourag-ing to the half a dozen or more individuals anything that is strictly legitimate.

and firms' who have the erection of office buildings under consideration. It is hard to overstock Pittsburg with several years she has absorbed business houses as fast as they could be put up without satisting her appetite.

Business News and Gossip. West Enders are working like beavers in

he interest of rapid transit. The Duquesne Traction people will hav o make fast time to catch the Wilkinsburg travel.

It is said sentiment in North Braddock is changing in favor of consolidation with the big borough and friends of the movement are greatly encouraged.

Another new town will soon come into existence. The announcement will be made

in a few days. Statements show that Pittsburg banks oc cupy a strong position, placing them above he ordinary accidents of trade. To their liberality is due in a large measure the pros

perity of the city.
At 11 o'clock to-day John D. Bailey will offer at auction, on account of whom it may concern, 210 shares of Standard Plate Glass Company stock. The directors of the Monongahela Water Company announce the usual quarterly dividend of 2 per cent, payable October 10.

The low price for oil and sharp fluctua-tions are beginning to bring outsiders into the market. A majority of brokers report Half a million gold was received in New York from Europe yesterday, and as much more was reported on the way. On call yesterday Duquesne Traction was offered at 1234 and Pennsylvania Plate

Glass bonds at 75. The Minnesota Farmers' Alliance has issued another circular advising farmers to hold their wheat.

When the directors of the Pennsylvania

When the directors of the remayler Railroad return from their annual tour of inspection the full dividend will be declared. It will probably be 2½ per cent, making 5½ per cent for the year, the same as last year. An official quotation has at last been

granted to Chesapeake and Ohio securities by the London Stock Exchange. Movements in Realty. J. Pentecost sold for the Safe Deposit and Trust Company, of Pittsburg, administrator of the estate of Patrick May, deceased, to C. F. McKenna, Esq., a lot of ground 43x86 feet, with fine brick build-

and formerly used for saloons, known as 318 Black & Buird report sales of lots in Elwood City as follows: Sold to Alfred George, No. 497 for \$600; to A. HOME SECURITIES. IMPROVEMENT IN BUSINESS AND VALUES DURING THE MONTH.

More Buyers Than Sellers Shows the Bullish Temper of the Traders-Tractions Still Foremost in Interest—Philadelphia Gas Steady Against Bearish Talk.

Business on call yesterday was light, for the reason that there was very little of any-thing for sale. Bidders were unfortunate, but sellers met their advances with a stony industries, visitors should make a tour of stare. This shows most clearly that the market is strong.

There was a good inquiry for the tractions.

with perhaps one exception, showing that there are those who have a good opinion of ing out products for nearly every market | them and strong faith in their outcome. All under the sun; glass factories which, in the of the lines are working fairly well, and inners of their wares, rival the best establishments in Europe, bridge works, locomotive works, in short, nearly everything that capital and skill can produce from the raw material. The capital invested in about 4.000 industrial concerns in Pittsburg and immediate vicinity is estimated at upward of \$1.34,000,000. tinguishment of the remaining indebtedness and make the resumption of dividends either impossible or so far in the future as to cease to be a factor in the market.

The close of the month left everything on the list in good shape. There was a material improvement in values and business over any previous month of the year. A number of obstacles to an upward movement were cleared away, leaving a good outlook for the remaining three months of the year. Sales:

year. Sales: First call—20 Pittsburg Traction at 40. Second call—10 Luster at 12; 10 Philadelphia Gas at 11%.

ONLY A TEMPORARY CHECK.

PACIFIC DIVIDEND

Depresses That Stock Alone, the Rest of the List Hesitating a Moment in Its Advance -Only Union Pacific Sympathizes With the Leading Feature. New York, Sept. 30 .- The influence of the

passing of the Missouri Pacific dividend on the stock list was not commensurate with its effects upon the stock of the Missouri Pacific, and the list refused to follow it on its downward course, though the promising strength which had been shown in the early portion of the day was checked. First prices were almost all from 1/4 to 3/4 per cent better than those of last evening, although Missouri Pacific was down 1/4. It took the lead in the early advance, however, rising 11/2 per cent on a desire among the shorts to cover at the concessions.

Erie, Atchison and Northern Pacific, pre-

ferred, yielded large fractions, but Hocking Valley and a few other specialties like New York, Susquehenna and Western made material gains. The general list later recovered the tone and the upward movement made some progress, when just after noon the announcement was made that the dividend had formally been passed. The market hesitated and soon Missouri Pacific began to drop, and its decline did not cease until well into the late hour when it had touched 55%. This drop, however, proved the fact that the general market will break away from all disquieting influences, as the list refused to follow Missouri Pacific down, though Union Pacific, as was natural, showed considerable weakness under pressure at the time.

The selling of Missouri Pacific, however, had little of the appearance of liquidation, and late in the day there was a material rally, although it finally closed at close to its lowest figures. Besides these mentioned the Pittsburg, Cincinnati, Chicago and St. Louis stocks were again very stron, the into the late hour when it had touched 55% the Pitteburg, Cincinnati, Chicago and St. Louis stocks were again very strong, the common rising over 1 per cent. Outside of the activity in St. Paul, Union Pacific, Atchison, Eric and the Grangers' there was little feature to the trading on the general list, and the market finally closed quiet and fairly steady at close to first prices. The final changes are small and irregular, but Missouri Pacific is down 2½, while New York, Susquehanna and Western preferred is up 1½.

Kallroad bonds were still quiet and with-Kaliroad bonds were stin quiet and with-out pronounced tone, although most of the active issues displayed some firmness in the early trading which disappeared later in the day. The movements were without signifi-cance, and the final changes of note are all in the active list. The total sales were \$1,396,000. The highest and closing quota-tions were:

NEW YORK, Sept. 30.—Chollar, 159; Crown Point, 150; Consolidated California and Vir-ginia, 325; Deadwood, 190; Gould & Curry, 150; Homestake, 1950; Horn Silver, 335; Iron Sil-ver, 120; Ontario, 3800; Plymouth, 175; Stan-dard, 130; Union Con., 200; Yellow Jacket, 100.

HOME MONEY. A Good Movement and Unwavering Confi-

dence in the Future. Business was quiet and comfortable at the city banks yesterday, and everything was in a satisfactory shape. Conditions affecting the money market were reported favorable to the expansion of enterprise, and strong expectations were entertained of the permanency and steady growth of the upward

novement lately set in There was a good demand for discounts, and checking and depositing were of liberal proportions. Funds were abundant for the proportions. Funds were abundant for the regular trade, and rates were steady at 627 per cent. There is no lack of 6 per cent money for gilt-edged names or collateral. Currency was easy on fresh receipts.

The Clearing House statement for the day and month bears out the claim that business is on the mend. Exchanges were nearly \$5,000,000 better than the previous month, and about the same amount ahead of September, 1889. Improvement during the next three months will go far to bridge the difference in favor of 1890.
