OBJECT TO THE MOVE.

Soho Citizens Want the Police Station to Remain With Them,

Evan Davis, of Soho, will to-day have presented to Chief Brown of the Department of Public Safety, a petition having 100 signers, who ask that a police station be kept in Soho. It is thought that the station has very much to do with the keeping of the peace in that neighborhood, as tough element of the place know it takes but a few minutes to call the patrol wagon which is needed very often.

The petition was circulated in view of the fact that the Fourteenth ward police station will be removed to the new building on Forbes street, near Oakland avenue, during the week. Work was begun yesterday on the removal and it is thought every-

BUSINESS IS GOING ON AS USUAL

Everything Is in Readiness for the Carriers to Go on Their Routes This Morning.

The Postmaster Holds an Informal Reception for His Many Friends.

The postoffice at the corner of Smithfield street and Fifth avenue is a thing of the past, and the new, on Smithfield, between Fourth and Third avenues, is an accomplished fact. The transfer of the business from the old to the new quarters was perbeen located there for a month. The lock boxes are filled with mail, and those with keys will have no difficulty in obtaining their correspondence. Every department is in working order and, except for the change in location, the business of the de-

Postmuster James Stitt McKean. The first business transacted in the new office was performed at noon yesterday. The first mail to arrive was the issue of the National Stockman, of East Liberty, and Joseph H. Woodard, assisted by Frank J. Morgan, immediately commenced to distribute it into bags-destined for the West -fixed in Standard Harrison racks in the Cherry alley and Third avenue corner of the Working Room. An hour after a truckload of sacks were ready for mailing. About this time, too, letters were dropped

in a promiseuous manner into the boxes, NOT A MAIL WAS DELAYED.

Everywhere there was a general air of preparation for the removal at night. Postmaster McKean was, as usual, supervising details. He was untiring. He felt the responsibility of moving the business from one place to the other without incommoding the people, and it only furnishes additional evidence of his ability as an executive offier that from first to last there was no hitch cer that from first to last there was no fatch in the affair. At 10:30 o'clock the four long rows of tables were filled with mail matter awaiting delivery. Over in the drop corner clerks were busy canceling letters which had been mailed in the old office. SOLD STAMPS BEFORE MIDNIGHT. At 11 o'clock the first stamp, a 2 cent, was sold from the general delivery window. Several more were sold during the night. The general delivery department had its mails ready for handing out at 10:30 o'clock. At the same hour, too, the lock boxes held the mails received up to that time. Already citizens had gotten on to the new order of things and had called for mail. Some of them tried in vain to open the new boxes with the keys of the old, but they didn't work. One young, man who so tried to obtain his mail was very disgrantled because he didn't know he should have obtained a new key from Mr Ulam.

This official was among the busiest in the room last evening, and had his corps of men doing brisk work until a late hour.

The general details of the postoffice depart-ment were published in last Sunday's issue of THE DISPATCH. Postmaster Me-Kenn and his assistant, Albert J. Edwards, held a kind of informal reception, so many and so frequently did friends drop into their offices to congratu-late them on the occasion. Warden Wright was an early caller on the postmaster. He remarked that it was by a curious coincident that the opening of the new postoffice should occur on the anniversary of his entering the old postoffice as a clerk just 39 years ago. The first boy to visit the postmaster's rooms was Fritzie Warren Kay, a

son of Major Kay's. The postmaster's private room looked ex-tremely pretty last night, and Mr. McKean has displayed much taste in the selection of the fittings. Rev. J. R. Wallace's Case Causes Bad Feeling in the U. P. Synod.

Foreign Missionaries Start for Their Fields of Labor.

AN EVANGELIST NEEDED IN CHURCH At the meeting of the United Presbyte rian Synod in the First Church, Allegheny, yesterday morning, Rev. Dr. McMillin Rev. Dr. Wallace and Elder McCane were chosen directors of the Theological Seminary. Then the appeal of Rev. J. P. Wallace, of Jonestown, Pa., to the Synod from the action of the Presbytery was taken up. The afternoon session opened with prayer by Rev. H. Sturgeon. The report of the Committee on Narration and State of Religion was read, after which

of Jamestown, be postponed until after recess. An intermission was then taken to allow the elders and members of the Synod to visit with the missionaries present and to bid them farewell, as they expected to leave later in the day for their different missions. Among the missionaries present were Dr. William Harvey and wife and Miss Annie Thompson, missionaries to Egypt, who are now on a visit to this country; Rev. W. T. Anderson and wife, of Elders Ridge, Pa.; Rev. E. L. Porter, of Pleasant Unity, Pa.; Miss Minnie Parks, of Denver; Miss Susie Young, of Kansas; Miss Marion M. Ebleten, of Moumouth, Ill., and Miss Mary E. Logan, of Pushville, Ind. The four last named ladies are just starting out in the mission-

s corresponding secretary. BLESSING THE FOREIGN MISSION ARTES. After recess the synod was called to order by the Moderator, and Rev. Dr. Witherpoon was called upon to invoke the divine blessing upon the synod and to God-speed the missionaries in their mission of love in foreign lands. The Moderator then deliv-ered a brief but feeling address to the missionaries, in behalf of the congregation, admonishing them to bear up bravely with increasing zeal and faith no matter what tribulations might befall them, and to strke down the monster ignorance and idolatry with the sword of the Spirit wherever they may chance to minister.

After the missionaries had taken their departure the special session was called to act upon the case of Rev. J. R. Wallace. A member of Synod arose and called for the reading of the records in the case. The call was sustained and the clerk responded by reading the records and also the letter from Rev. J. R. Wallace to the Synod, refusing o resign his pastorate and and asking the Synod to sustain him in the matter. In the letter Rev. Mr. Wallace said he could not see his way clear to resign under the existing circumstances and therefore, appealing from the decision of the late Presbytery, he begged that the Synod give him a fair trial and reinstate him in his pastorate. Papers were then read speaking of the resignation of the him in his pastorate. Papers were then read speaking of the resignation of the elders of the Jamestown church, in which the elders stated emphatically that they did not believe their withdrawal or that of their pastor, Rev. Mr. Wallace, would bring about the unity and church harmony alements the Presbytery alleged were lacking owing to their presence in office in

the church. WANTED THE TESTIMONY READ. At the close of the reading of these pars, several members them Mr. Wallace, arose and asked that the testimony in the case be furnished before the trial proceeded any further. A member then jumped up and said he did not see that

then jumped up and said he did not see that the Synod, respecting the rights and privileges of the Presbytery at Jamestown, could change the decision of that honorable body. This brought Rev. Mr. Wallace to his feet again.

"It is a very strange thing," he said, "that the Synod has no action over pastoral relations, regardless of the Presbytery, which is a lower body."

The Moderator then took a hand by re-The Moderator then took a hand by re-minding the Synod that the question before

them was as to whether or not the testimony should be heard. Motion in the affirmative was made and carried, and the clerk then proceeded to read the testimony in the investigation of the charges the investigation of the charges against Mr. Wallace. Among other things the testimony in the trial showed that Wallace had frequently used abusive language in the Presbyteries, and had shown his temper on several occasions. It stated that he had called several congre-gations "scab" churches. Another charge was that young people do not attend. The testimony in behalf of defendant was that the dissatisfaction in the church was caused by the wrangling of some of the members over the organ and the music, and not because of unpleasant relations with the pastor. The defendant's witnesses further abusive language, and had always considered Rev. Mr. Wallace a kind, considerate and loving pastor, and that twothirds of the congregation, if not more, would sustain that declaration. It also stated that fully 70 young people had united with the church in the past two years.

At the close of the reading of testimony, motion was offered that the contestants be limited to one-half hour each in presenting their case to the Synod. In order to do this a motion to extend the time of adjournment 25 minutes was carried and the pre-vious motion was then carried.

WALLACE DEFENDS HIS POSITION. Rev. Mr. Wallace, the complainant, then ook the floor. He said:

"It is with great sorrow that I come be-fore you to-day on this painful charge which has been preferred against me, but I must defend myself and my position. The Pres-bytery claims that it sent a committee to investigate the condition of affairs in my church. They did not investigate. They came, but found nothing wrong. They managed to scrape around and get a few little petty charges of my using abusive language, etc., and brought these to bear against me. Then I was asked to resign in the interest of peace, which I refused to do, whereupon the Presbytery thrust me out. This is not just at all. They say I called several churches 'scabs.' I admit, at times, that I may have been indiscreet, but if my memory serves me right, the only instances in which I used that term was in applying it to members churches by saying that there were scales in every congregation. What of that? I have heard many a minister say that he would succeed better were there not so many scalasucceed better were there not so many scala-wags in the church. They say that I used the terin, 'It is a lie,' instead of saying 'falsehood.' That reminds of the Senator who said of another that he 'was not brave.' He might as well have called him a 'coward,' '

In conclusion of his defence, Rev. Wal-In conclusion of his defence, Rev. They commended Rev. Mr. Wallace for his pluck in hanging on. The hour for adjournment was at hand, and the case was continued until the next day. PREACHERS DRAWTHEIR DAGGERS until the next day.

AN EVANGELIST IS WANTED. At last evening's session an address on evangelistic work was made by Rev. W. B. Barr. During the course of his remarks Rev. Mr. Barr earnestly urged the appointment or employment of an evangelist by the Synod. He said it was a very peculiar work, and that there was great and urgent need of it in the church. He also spoke at length on the qualifications of a successful Following Rev. Barr's address the Com

The enligion was read, after which the report of the Committee on Devotional Exercises was presented. At this juncture a motton was made and seconded that the trial of Rev. J. R. Wallace, of Jamestown, be postponed until after rebuilt and that congregations in the bounds of the college help to raise the necessary funds for maintaining it. A reso-lation was then added by the Synod that the college should have the benefit of the experience and wisdom of prominent men of business, giving the college the benefit of their counsels and becoming acquainted with its needs, and that the Synod authorize the Board of Trustees of the college to organize and continue an Auxiliary Advisory Committer, made up of business men, to co-operate with them in the management of the business affairs of the college.

Dr. Ferguson and others made brief ad-

SOREON THE NEW LAW The Liquor Dealers Will Ask the

Right to Sell by the Quart.

Ex-Judge Charles Fetterman Is Preparing an Opinion for Them.

MILL WORKERS INDORSE THE NEW MOVE

The wholesale liquor dealers are preparing to make a big kick against the order issued by Superintendent of Police Gamble Weir last week to the effect that they must net in conformity to the law passed at the last session of the Legislature regulating the quantity of spiritnous or malt liquors that may be sold at one time. This law was approved by Governor Pattison June 9, 1891, and is entitled, "An act to restrain and regulate the sale of vinous and spirituous, malt or brewed liquors or any

admixture thereof by wholesale."
Under section 2 of this act it is provided:
"That it shall not be lawful for any rectifier, distiller or manufacturer to sell spiritous liquors in less quantities than one gallon, nor any wholesale or storekeeper to sell spiritous or vinous liquors in less than one quart, and brewed or malt liquors in less quantities than 12 pint bottles, nor shall any brewer or bottler sell less than 12 pint bottles of brewed or malt liquors." The dealers claim that this law was en-

acted after their licenses for this year had been granted, and consequently they should be allowed to operate under the old law un-til those licences shall expire. The Wholesale Liquor Dealers' Protective Association of Allegheny county have met and decided to secure legal advice on this point. DON'T BELIEVE IT IS OPERATIVE.

Victor Dosch, President of the associstion was seen last night. He said: "Yes, sir; we were notified last Friday by Seperintendent Weir that we must not sell beer in less quantities than 12 pint bottles, or less than 13 pints or seven quarts if sold "loose." and if sold in jugs we must not sell less than one two-gallon jug or two one-gallon jugs or four half-gallon jugs. Now this is simply outrageous. It is riduculous, but as it is the law we will have to conform to it next year or quit the business, but our position is this: We applied for and secured our licenses last May, under the old law and with no idea of anything of this kind being sprung on us within a few months. This act did not become a law till June 9, of this year, and it is a rank in-justice to ring it in on us now.

We were granted licenses to sell beer by the quart for one year from last May, and

now to notify us that we shall not sell in less quantities than 12 pints by the bottle, or two gallons by the jug or otherwise, is equivalent to a revocation of the license. PREPARED TO FIGHT THE LAW. "If," he continued, "a dealer satisfies all the requirements and pays the tax and license fees demanded, and is granted the right to sell under certain conditions for one year, and in three or four months there-after is notified that he must not sell under those conditions, he then has a right or

claim to demand his money back, as that for which he paid has been taken from The association has secured the services of Charles S. Fetterman, but he has not as yet prepared an opinion as to the propriety of making a test of the matter. They are expecting a test of the matter. They are expecting advice from him to-day, and a test case will probably be instituted at once. In the meantime they are conforming to the order of the police department. The dealers generally refuse to talk on the subject until it has been decided what action shall be taken. John Herchenroether, of the Southside, said last night that the rectifiers were selling

the quart right along and had not been notified to sell spiritous liquors in no less quantities than one gallon. Superintendent of Police Weir was seen last night. He said: "We have notified all the wholesalers in the city that they must comply with the provisions of the new law." "How about their claim that they are

elling under licenses granted before the exstence of this law? "There is nothing in that," said the Superintendent. "They are subject to any law that may be passed during the year, and will be required to obey this one. It is true that this law was passed after the licenses for this year, were granted but that does not this year were granted, but that does not exempt them from its observance or enforcement. That is our construction of it. and I think it will be found to be correct." A large number of Southside mill men are working with the liquor dealers because

While walking along Carson street with the officers young Maloy made a sudden break and escaped. He started on a lively run up Carson street, and met Detective George Wheatly coming

toward him.

Wheatly suspected something, as the boy appeared very much excited about some one that was coming behind. Wheatly decided to stop him, and just as the boy came to where he was standing he made a grab and caught Malor. Malor was running as first caught Maloy. Maloy was running as fast as his legs would carry him and did not stop when Wheatly signaled him. By the sud-den jerk Wheatly was lifted clear off his feet and almost thrown down, but he man aged to hold his man until Officer Cook took
