

Chicago.

Now that the baseball season is about over for this year the greatest activity has commenced among the football players, and in a few days from now the kickers will have full possession of local sports. It is safe to say that football will be more popular in Pittsburg this year than it has ever been before, not only as regards Rugby but also as far as Association football is concerned. The Allegheny Athletic Association Executive Committee met vesterday, and among other things they mapped out a great season of Rugby football for this section. They not only selected almost their entire team, but also decided to have some of the Bast teams in the country play games here between now and Christmas Day. The local association means to hustle, and doubtless its team will be a good

A GREAT RUSH LINE.

It has been resolved this season to make the rush line as heavy as possible, and as a result the four players forming the certer of the line will make an aggregate weight of about 800 pounds. The quartet is: O. D. Thompson, Phil Floyd, John Moorhead ad M. Kuntz, Messrs, Brainard and Olliver will be at the ends, and certainly all told the rush line will not be easily downed. The balance of the team are yet in doubt, although Messrs. Fry and Valentine are sure to be among the number. Practice will commence next week as soon as the sports Tuesday are over, and after a few pracice games are played the team will be cunitely selected. Efforts will be made to have teams from

Chicago, Detroit, Cleveland and Princeton play here during the season. It is also that the famous Crescents from Brooklyn will be here. They are a little too strong for the home team, but the con-test will be for a charitable object and At Baltimore ubtless a large crowd will turn out to see

the Brooklynites play.

ANOTHER FAMOUS TEAM.

There is also a strong desire among Pittsburgers to have the team of the University of Pennsylvania play at Exposition Park. Efforts were made last year to have this team visit us, but it was too late in the season for the University players to get here, It may be that an attempt will be made at mee this season to secure a date with them and if that can be done they will certainly a great attraction.

At vesterday's meeting of the Executive Committee final arrangements were also made for Tuesday's sports. The latter promise to be among the best that have ever been held in Pittsburg. The entry list is excellent. There are no less than 14 entries best that have ever from Boston, and the New Jersey Athletic Club is also well represented. Representa-tives from the Detroit and Cleveland Clubs are also expected. In all there will be 13 events, and each one is sure to produce some The Athletic Association is prospering

splendidly, and the members expect to se-cure their new club house before long. The ist of membership is steadily getting larger, and it is expected that a large number of new members will be the result of the sports on Tuesday.

The would-be assassins seem, however, to have miscalculated the time the train was to pass near the bombs, or else they were at full as the length of life of the fuse used. In any case, the fuse acted at about 11:30 r. x. Wed-needay, before the Imperial train even drew near the dangerous location. The explosion displaced the masonry above and about the bridge tunnel and dis-turbed the roadbed, but did not affect the bridge structure. The railroad officials, who had been attracted to the scene of the ex-plosion, after making a thorough examina-tion of both the bridge and the roadbed, set a gang of men at work upon the latter and soon had it in a state of good repair. Conse-quently, when the Imperial train passed at 7 o'clock this morning, there was little or no trace of the explosion. No arrests have been made. It is now officially admitted that explosive bombs have been used along the line of the Emperor's journey. The Emperor received an ovation at Reichenberg when the people became aware of the bomb explosions. Replying to an ad-dress presented to him by the Burgomaster, the Emperor said that he took the keenest interest in Bohemia, and that he would do all he could to promote the prosperity of that country. A LOVE ROMANCE IN IT.

Mr. Schermerhorn was not always a recluse and a miser. Many years ago he fell in love with a beautiful New York girl, a member of an old Knickerbocker family. Her relatives wanted her to marry the head of another Knickerbocker family, and they had their way. It is said that the disap-pointment in his love affair caused melan-

pointment in his love affair caused meran-cholia, which increased with years. He told some of his intimate friends that he would never marry, and he did not. He rarely went out into society, and finally withdrew from outside life altogether, and became practically a recluse. It is this phase of his life that made him at times the most talked about man in Newport. His house on Narrogansett avenue has been for The circular continues : "We have now exported 50,000,900 bushels of our new crop and have 93,000,000 to spare, for 50,000,000 of which charters have been made at present. From such a man as Schermerhorn the offer was considered a marvelous one. For weeks and months he had Grand Army of-ficials dancing attendance upon him. By and by the local reporters were told to pre-pare for an extraordinary piece of news, and it took the form of the announcement of what Mr. Schermerhorn intended to do. The Bostons have nothing to fear as far as protests are concerned, as the two games they have played several times were all legally played. On the other hand, there is a possibility of there being some validity in one or more of the protests against the Chi-cago games. Altogether it is safe to offer congratulations to the Hostons and to hall them as the winners of the pennant of 1891. They have made an extraordinary finish, but they have made an extraordinary finish, but they have condition of opposing teams. Anson also has with his team made a re-markable record. CHICAGO, Oct. 1.-The Home Life Insurance

Company, of Brooklyn, to-day began suit in the Federal Court against Edgar H. Kellogg, MCKEESPORT, Oct. 1.-[Special]-A suit will likely result from the claim made by the who for a series of years prior to last Feb-ruary acted as its general agent for the Northwest. The bill alleges that an exam-ination of his accounts in January showed that he had been systematically falsifying his accounts for vears, and that he had em-bezzled over \$30,000. When the discovery was made Kellogy gave notes and mortgages for \$31,100 to in-demnify the company, and it is for an ac-counting and the foreclosure of the mort-gages and collection of the sums due on the notes that this action is begun. The stakeholders paid over to the Duquesne the \$25 put up, and Dan Gould will enter suit to recover it. The local club claims the rules say the visitors should have furnished two balls, and refuse to give them the game be-cause there was only one ball on the grounds. The losing club has challenged the Duquesne to a game for \$100 a side to de-cide the matter.

Fanatic Hatred and Persecution of AI Foreigners in Russia.

LONDON, Oct. 1-Poultney Bigelow, of the New York Canoe Club, who in company with Alfred Parsons and Mr. Frank D. Millett has been making a long canoe trip in Southern Europe, has returned after three months' absence. In an interview in regard to his tour of Southern Russia, Mr. Bigelow says: "The situation of affairs in Russia, so far as

the anti-foreign crusade is concerned, is more serious than reported. The anti-

Hebrew crusade is only a small portion of a general movement against foreigners in Russia. The Hebrews are, perhaps, the lightest sufferers. Germans, Poles, all non-members of the Russian Church, are perse-outed."

No one will buy our property or we would seek homes elsewhere. Even to speak German is an offense. I was at the railroad station the offense of the second to the elsewhere. Even to speak German is an offense. I was at the railroad station the other day saying goodby to a friend. We were both Germans and naturally we spoke to each other in German. Some officials who heard us came up to us, interposed rudely and said: This is Russia and not Germany. It will be well for you to remember that." The situation in Poland is worse. Brutal and determined efforts have been made to Rus-sianize that country until the Poles are rendered desperate. No one, unless he be-longs to the orthodox Greek Church, is allowed to mange any factory, mill or simi-hir business. He must import and pay a Russian to be the nominal head of such a concern. As fast as Poles are drafted into the army they are transported to the most eastern parts of the empire, while Poland to day is garrisoned by a force of 300,000 Russians."

THE Mavflower was gaily decorated yesterday for the occasion of the excursion given to the visiting delegates. Kempster, those gentlemen said that for the past month or so they had been staying in Russia and that they found that the condidelegates. Some of the straggiers along Water street object to being moved along by the police, claiming they are liable to lose a position by it. Such may be the case when there is plenty of water or when there is some indications of a rise, but at present there are no such indications, and the loafers along the wharf are not the ones to do a day's work when necessary during a dry spell, or they would be out hustling instead of loafing around and compelling the officers to move them along, as it is their out, "There is a class of loafers along the wharf that should be moved about three times every five min-utes, and the merchants and rivermen would be glad of it.

Russia and that they found that the condi-tions affecting emigration there were of such a grave and peculiar character that they did not feel warranted in speaking upon them except in the form of an official report accompanied by corroborative evi-dence, without which their statements might be regarded as incredible. The commissioners have been personally hearing the views of people competent to express an opinion on the subject, and also examining certain districts in regard to crop prospects. They saw sufficient to prove to them that the cold weather and rain had seriously injured all the crops, and that a period of great distress was certain. In other parts of Europe the Commissioners found that emigration had only assumed normal proportions. The principal causes for desiring to emigrate are, besides the de-sire to better their condition, compliary willtary service, excessive taxation, low wages and information as to the superior condition of the United States derived al-Destination Copenhager Liverpool
