PRESENT TELEGRAM TO THE DISPATCHALL CLEVILLAND, Oct. 2.-Boston is happy

over its penant winning team and so is Cleveland because to-day's game firmly settled the local organization in fifth place. Of course it isn't much compared with the championship, but it is such a relief and advancement over the time honored and stereotyped seventh or eighth hole that Cleveland has settled in so long. Local eranks are jubilant and prophecying that Cleveland is on the highway to

A wild pitch put him on third. McKean yelled to him to slide, and Miler thinking he was coming home threw the ball wild past the plate and gave him the chance to score. Childs got a base on balls, went to second on McKean's single, and to third because Shugart muffed King's throw to eatch him napping. Davis' slow sacrifice eatch him napping. Davis' slow sacrifice at him home. A base on balls to Childs in the minth, a stolen base and Davis' single scored Childs. DOWNED THE LAFAYETTES.

The State College Football Team Win an Interesting Game. Easton, Pa., Oct. 2.—[Special.]—Lafayette College lost her second football game to-day the State College team beating her 14 to 4. It was Lafayette's game, despite her poor playing until after the second half had be gus, and then the State College boys walked right away from the home team. The ball was taken from the centerfield by main force and advanced slowly toward the goal,

lege pushed it right into Lafavette's territory and family over the line.

There was some very clever running by
Aull, the visitors' captain, who seemed able
to dodge past every Lafavette man with
ense. He made two of the three touch
downs from one of which a goal was picked,
bringing the score to 14. Lafavette had
done better the first half and scored a touch
down. Throughout Lafavette played a weak
game while the State College men were full
of sharp tricks and quick work.

President J. Palmer O'Neill, of the local ball club, wired to President Young yesterday to the effect that he insists on a meeting of the League directors being called to take action on the protests, Mr. O'Neill said while speaking on the matter:

"I am not enforcing the discussing of our protests merely to have a game or two thrown out. If that were all that was at stake we certainly would make no protests now. But after looking into the matter carefully I think it will be to the interest of all of us if the rules which directly con-cern our case are thoroughly looked into. There seems to be a discrepancy somewhere, as one rule empowered Umpire McQnaid to give the game to Chicago after waiting a minute, while another rule seems to demand five minutes. At any rate there is a sim-plification needed and I want the rules to

plification needed and I want the rules to be so casy to understand that every player in the business can understand them without any trouble. The meeting, therefore, to hear the protests will be held, and probably on Monday or Tuesday."

"Oh, no!" continued Mr. O'Neil, "I do not in any way give any credence to the stories that Eastern teams have favored the Bostons. The latter have won their games by remarkable playing, and even John Ward states that he never saw such playing in his life as the Boston team have been doing lately. It certainly is absurd to say that Pittsburg, Philadelphia, Brooklyn and New York have all been in a conspiracy to lose York have all been in a conspiracy to lose games to the Bostons. They have beaten all of us straightaway."

Speaking of the local team Mr. O'Neil said: Speaking of the local team Mr. O'Neil said:
"Considerable noise is being made about our
players and their salaries, and I think
if the directors and the players were
left alone matters could be arranged
without trouble. It is oursiders who cause
most of our difficulties while these very outsiders claim to be our friends. Let me state
definitely that not a man on our reserve list
will be asked to play for a reduced salary.
That is plain enough and it ought to stop all
this talk about reductions in salaries. The
stockholders have the worst of the bargain,
but we mean to do what is fair. Had our

stockholders have the worst of the bargain, but we mean to do what is fair. Had our players played better and won more games we would have taken in more money, and therefore we would have been better able to talk about increasing salaries. If we don't get the money in we cannot pay it; but I do claim that our players as a team have been paid in the most generous manner, while as players they have as a team been a failures. All that I want, indeed all that any of us want, is to be fairly treated, and most assuredly we will treat everybody else fairly."

The only mines running to-day were the Ivill and Catsburg mines in this vicinity. Ivill and Catsburg mines in this vicinity. John Jones & Sons, the operators at these mines, have promised their men to ship no coal by railroad until the strike has been settled. Brown & Co., who have opened a new mine opposite this city, claim that they will be able to employ all their men driving headings and opening rooms, which is allowed during a strike. On the Allember country side of the river the situation. allowed during a strike. On the Alle-gheny county side of the river the situation is as bad as in Washington county. The men bave left the mines and at Millsville there is not a miner working.

The miners at Black Diamond held a

meeting to-night, the proceedings being secret. The men are dissatisfied with the actions of the operators at the Pittsburg meeting and may refuse to go to work in the morning. At the Catsburg the 200 miners held a meeting at the mouth of the mines, and the Pit Committee reported to them the result of the operators' meeting. They will mine no more railroad coal unless this guarantee is made them by the opera-tors, and will leave the pit entirely. ONLY ROUTINE BUSINESS.

The Pittsburg Conference Gets Down to Hard but Uninteresting Work.

UNIONTOWN, Oct. 2 .- [Special]-The sessions of to-day in the Pittsburg Methodist Epis-copal Conference were only interesting to the ministers present, there being a vast amount of routine work done, Immediately after the reading of the minutes a resolution was offered and passed, asking all churches in the Conference to send protests against the opening of the World's Fair on Sunday. Then followed a number of addresses to young ministers, led by Dr. D. Groucher, President of the Women's College of Balti-mor.

Bishop Fowler then made an eloquent address to the three young ministers of the second year's class—George E. Cable, of the McKeesport district; W. A. Rodebaugh, of the Pittsburg district, and J. A. Yonkers, of the Biairsville district. M. T. Vulchaff, now doing missionary work in Bulgaria, is also a member of the class, but was continued. The three candidates for advancement were highly recommended by their presiding The three candidates for advancement were highly recommended by their presiding elders, and passed an excellent examination. Then, after a prayer by Editor Smith, of the Pittsburg Christian Advacate. Bishop Fowler delivered an address and wound up by telling the three young men that if they were not married now they should be at once. This afternoon a closed business session was held, during which the routine work of the Conference was well gotten through. One of the most interesting features of the afternoon was the annual reunion of the several graduates of Allegheny College.

Generally Fair, Stationary His Airship, However, Seems to Be Ingenious and Successful.

CLARKSBURG, W.VA., Oct. 2.-[Special.]-For several weeks past the postmasters and editors of country papers throughout this vicinity have been receiving letters from capitalists and investors inquiring as to the tecedents of Ondus Love, claiming to be a West Virginian, who was exhibiting an airship which solved the problem of aerial navigation. The last letter received was from Utica, Minn., and was widely circulated. The friends immediately went West and brought him to this city, where he has been confined in the jail for a week while an application for his admission to the State Lunatic Asylum could be obtained. Love is about 26 years of age and the son of a well-to-do furmer. He left his home several years since and his whereahouts has been unknown until very recently. He seems insane on no subject but his airship, but becomes a raving manine when that subject is comes a raving maniac when that subject is broached. The model of his invention is a beautiful piece of workmanship and is said to have been wholly constructed by Love himself. The ship is fish-shaped, having three propellers, one in front and one on each side. It appears almost perfect in operation and capable of going at an incalculable rate.
