Under a low tariff we bought of Europe \$10,000,000 more of products than they purchased from us. Mayor, Controller and Chiefs Confounded by the Information.

A NEW CITY PRISON MUST BE SECURED

The building now occupied as a Central police station on Diamond street, below imithfield, has been leased to other parties than the city, and a new prison must be provided after April 1 next. The officials of Pittsburg were positively confounded yesterday when this information was supplied to them through the medium of THE DISPATCH.

The building has just undergone a complete renovation. Many alterations in its rrangement were made. New cells have een added, and other conveniences have been provided at a cost of \$3,700. The possible difficulty in securing another building mitable for a lockup, or the immense outlay necessary to purchase a - convenient site and erect a building expressly for the purpose is what is confusing the authorities. They were so surprised and shocked by the information that they seemed unable to even suggest a way out of the embarrassmeut.

HOW IT STRUCK CITY OFFICIALS.

Mayor Gourley grew angry over the complication, and in positive language de-nounced much of the management of the Lipsuch 'ty's affairs. Controller Morrow, when he irst received the information, rushed to the LONDON, Oct. 5 .- At the Coroner's p quest Saturday on the body of Lydia Milpolice department to countermand an order for further improvement on the old buildler, or Manton, the suicide, it will be reing. Chief Brown philosophized, and Superintendent Weir promptly charged that a speculator was involved in an attempt to pinch the city out of a higher rent for the

place. The old Central station building is part of the Wilkins estate, which formerly extended from Diamond street, with a liberal frontage, through to Fourth avenue. For nany years, and up until 1871, that part of the property fronting on Fourth avenue. upon which the Fidelity Title and Trust company's building now stands, was leased to the city, and the building thereon was used as a city hall. In 1871 the city offices were moved into the present City Hall, and all the property leased from the Wilkins all the property leased from the winding estate was abandoned, save the prison building. The first lease for ten years of the property for city cells was made in 1802. In 1872 the lease was renewed for ten years, In 1882, when Robert E. Lyon was Mayor and Porter Frieffel was Chairman of the Police Committee, an effort was made to have a prison dustructed in the basement

formation. "It is shameful?" His Horeor went on. "What on earth do you stopose our people mean by speading money im-proving property that they are likely to be forced out of any day? This strikes me as an ugly complication. In our present financial condition it will be some-what of a burden to purchase ground and build a central vrison, such as is required in this eity. I really don't understand what is meant by the city renting property by the year when it could have secured a long lease on the place, or could have built a new prison at its convenience, and by having plenty of time, would not have burdened taxpayers in the least. "Teell you," Mayor Gourley went on, "this thing of improving and 'urnishing city offices, which have been rented only for a short period, is one of the greatest evils of our city government. For instance, the Board of Health took a four years' lease on two rooms in the oid University building on Diamond street, opposite the Court House. It paid 600 for papering those two rooms, Then it paid nearly \$4,000 for furnishing the two rooms. Why, it is sur-rounded with oriental 'elegance, and when the health officials leave their office and go to their homes they must feel wonderfully out of place. They have simply magnifeent desks, chairs and sofas, and have only four years' lease on the building. And now the Central station is to be taken away from us, just when we have spent a next sum improving it! I beats all, doesn't it?" the Mayor concluded, as he swung him-self about in his chair and looked mad. CONTHOLLEN MOREOW CONFUSED

When I left you I went to Superintendent Weir to countermand the authority I had just given him to make further improve-ment on the place. Not a pretty state of affairs, to be sure. Here we have been spend-ing our money improving other people's property. However, the Department of Public Safety must act promptly, and get another prison. THE DEBATE A VERY SPIRITED ONE. Warnings, That the Case Will Disrupt the FORFIAL CHARGES THAT ARE NOW MADE

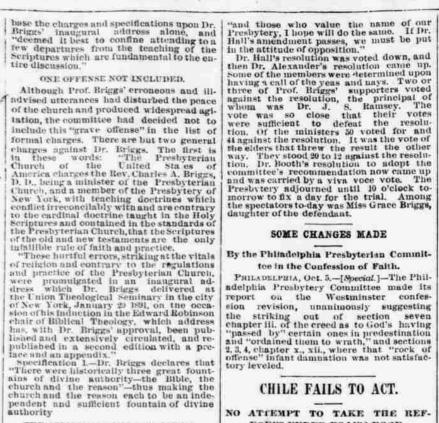

"SPECIAL TELEGRAM TO THE DISPATCE-1 NEW YORK, Oct. 5 .- Prof. Charles A. Briggs will be tried for heresy. After a

long struggle to-day, the New York Presby- authority tory decided to proceed with his trial on the charges presented against him by the Committee of Prosecution. An endeavor was made to-day to carry through a compromise resolution, accepting Dr. Briggs' ategorical replies to questions propounded by the Directors of Union Seminary as suflicient proof of his orthodoxy.

But Dr. G. W. F. Birch and Dr. R. R. Booth, who led the attack, were so persistent that in spite of eloquent appeals and warnings that a trial would mean a rupture in the Presbyterian Church, the resolution was lost by a vote of 62 to 64. Just before 6 o'clock the Presbytery voted approval of the proscenting committee's charges. An interesting feature of the session was the siand taken by Dr. John Hall, who showed that be was very decidedly opposed to the views held by Dr. Briggs.

After flourishing their trumpets, when they are asked to prove their statements they run to cover. The Rev. Charles L. Thompson followed in a speech, which was the feature of the He said: "I favor this resolution because it is my solemn conviction that interests deeper and graver than those of any individual or of our Presbytery are at stake. BRIGGS HOUNDED BY LIES. But Dr. Briggs' friends who were ready to

vote for Dr. Alexander's resolution could not stand this. President Hastings, of the seminary, had this to say: "I am in favor of Dr. Alexander's substitute, but I believe that the latter clause of Dr. Hall's amend-ment would kill the whole business. For two years my beloved colleague has been hounded with hes and misrepresentations." hounded with lies and misrepresentations." Dr. Hastings was called to order for these words, but his modified statement brought out a laugh: "I will say that for two years he has been under fire, and I cannot help thinking that neither he nor Union Theo-logical Seminary has had fuir play. I be-lieve Dr. Briggs would prefer a thorough vindication after a trial, but I also believe that Dr. Briggs feels that he will bear a great deal and sacriflee his personal preferences for the honor of the religion of Jeens Christ and of the church, which might be imperilied by his trial for heresy. Henry Jer-ansen, the Finn, who testified last Saturday that he knew Curtis carried a weapon and that he recognized the pistol in court as the revolver of the actor was recalled. Three revolvers were shown him, but he could identify any of them. Attorney Foote said: "What did you mean by testifying you had seen Strellinger carry a pistol and iden tify so positively the weapon shown you?" "I swore to a lie," Jeransen admitted shifting in his chair uneasily. He declared in answer to a question that he had sworn as he did because he was afraid of police officers and testified to please them. The prosecution tried to break down his new testimony, but failed, so the result is in favor of the actor,

In his speech he said in a very clear voice: "I shall ask you to be patient with me for awhile until I can make this great assemblage hear me. The campaign is national in its character and results. We have a Lerisbature to cleet and a Sonator to ave a Legislature to elect and a Senator to shoose. I want you to remember that, Whoever he may be he will vote for you in the next six years on all public questions.

AN IMPORTANT FEATURE.

"It is important from our standpoint that the Legislature should be Republican, that ve may have a Senator who is a resident of Ohio and not of New York. [Applause.] You should remember, too, that his vote may decide the complexion of the Senate or years to come. See to it that his vote will not be for free trade and free silver.

The Major said that they wanted a Repub-lican Legislature also to correct the gerry-mander passed by the last one. The Major here branched off into a full discussion of the free silver heresy. He said free silver was impossible unless all the nations of the world restored silver and avreed to maintain it on a parity with gold. nations of the world restored silver and agreed to maintain it on a parity with gold. France and Germany have already demone-tized silver. Under the Bland law the Gov-ernment in the last 12 years has made a profit of \$37,000,000 which represents the commercial value of silver as against the coin value. If there is any profit in the busi-ness of making money it should go to the Government. There are 3,000 silver producers in the United States, and under reas silver they would get 5° nor cont more producers in the United States, and under free silver they would get 25 per cent more for their product than they do now. Will the Government be as kind to the farmer, and give him an increase over the market price for his wheat and corn? Cheap money will drive a good dollar out of circulation. During the War when we had a depreci-ated circulation this fact was demonstrated. Gold disappeared from the channels of cir-culation. Make a 76-cent dollar and the \$3i6,000,000 in paper money will be presented at once to the Treasury for redemption. If the Republican party is in power they will be redeemed in gold.

TWO FEET NOT A YARD.

Congress has as much right to declare that two feet shall make a yard as to make a dollar out of 80 cents. Providence will correct bad crops, but never rights a short dollar. It gets shorter and shorter. Short

dollars mean long hours. He next showed now free silver would rob the old soldiers of

In his epistic he points out how similar the platforms of the People's and Democratic parties are. He says the Demo-crats have the horse and harness and the People's party have the wagon." [Laughter.] "Well, a man with a horse and no wagon is in a bad fix; he wants to hitch his horse to the People's wagon. [More laughs]. He says as we travel the same road let us go to gether. The Democrats want to stop half way, however, for repairs, while the Peo-ple's party is going the full journey on the sliver question. GOVERNOR CAMPBELL RESTING.

Rumored That a Radical Change Is to Be Made in the Campaign.

COLUMBUS, Oct. 5.-[Special.]-Governor Campbell is resting quietly, getting ready for his joint debate with McKinley at Ada on Thursday. He was at his office a part of the day, looking after some public business which required attention, and it is understood will go to Hamilton to-morrow, where stood will go to Hamilton to-morrow, where he has some private business to look after. Chairman Neal, of the Democratic commit-tee, and Secretary Cole returned to the city to-day, and during the afternoon held a con-sultation with the Governor, and the result is that Mr. Neal this evening issued a call for a meeting of the Democratic State Executive Committee in this city Wednesday after-noon at 20 clock.

Just what matters are to be considered has not been learned, but it is intimated that there is to be a radical change in the conduct of the campaign and some desper-ate chances are to be taken. The result of the meeting is looked forward to with much interest.

NEW YORK, Oct. 5.-Herman Oelrichs this evening tendered his resignation as a member of the Democratic National Committee to Chairman Calvin S. Brice. The action of the Democratic State Convention in its nominations, he said, indicated that Tam-many Hall is to be the ruling spirit in the State. This was contrary to his views and he therefore resigned.

"That is the Republican principle. We put a duty on everything that competes with American skill and capital. A protective tariff is levied to put men to work at re-munerative salaries and to put money into

At 9 o'clock one of the clerks, as usual, started to open the bank doors, when Cashier Jones quietly notified him that the bank was to remain closed for the day, and in place handed him the above announce-ment, which was posted. The secret of the closing lies in the fact that Jonathan Boynton, of Clearfield, is President of the bank. Boynton, it will be remembered, is father-in-law of President Dill, of the Clearfield and Houtzdale banks, intely closed, and who is uow in jail. The statement has been made here and in Clearfield that Boynton but a few days ago had drawn out \$20,000, which he loaned his soci-in-law to assist him in his troubles, and this, coupled with wild rumne ionned nis son-in-iaw to assist him in his troubles, and this, coupled with wild rum-ors that Dill had previously borrowed enor-mous sums from Jonathan Boynton, caused a feeling of uneasiness that the Phillipsburg bank might become involved.
