QUALITY OF OFFERINGS BETTER. Markets Strong for Good Beeves and Slow

for Poor Stock. SHEEP FIRMER AND SWINE WEAKER

OFFICE OF PITTSBURG DISPATCH, } Monnay, October 5. 4 At the opening of markets there were 97 carloads of cattle on sale at the East Liberty yards this morning, against 83 loads last Monday morning and 100 loads the previous Monday. In to-day's offerings there were about 20 earloads from Chicago. The balance were in the main from Indiana and Ohio, with a small number from West Virginia and Pennsylvania. While there were no prime beeves on sale the average quality was better than it has been for a few weeks past. One dealer reported for a few weeks past. One dealer reported three londs of good cattle weighing 1,400 pounds, from Licking county. Ohio, and hoped to get a shade above a nickel a pound for the same, but appeared to be rather dubious as to success. As prime beeves were worth \$6.25 in Chicago, it is evident that there were no primes offered at the East Liberty rards. Buyers were present in larger number than usual, and there was a good demand for stockers and feeders at strong last week's prices. Handy butcher beeves of light weight were also firmer at a eves of light weight were also firmer at a shade better prices. With these exceptions all eattle on sale were slow and dull, and low grades were weaker than they were a

The Demand for Fresh Cows. There was a fair supply of fresh cows, and demand was good for those of good quality. The range of markets was \$25 00 to \$45 00 per head. Top price of year calves was 6 ge per 2. Sheep-Receipts were light, the total being about 15 leads. Good stock was strong

At Herr's Island yard receipts varied very little from late average in quality, but fre larger in number than last week. Demand was slow, and with unfavorable pdvices from other live stock centers, there was a decline in prices ranging from 25c to 35c per owt. The range of markets was as follows: Best heavy Chicago's, \$5.25 to \$6.40; headiling weights, \$4.25 to \$5.25; common grades, \$2.50 to \$5.55. Fresh cows of good quality were thin at outside rates, the range being \$25.00 to \$4.50 per bead. It was reported yesterday that Black & Baird had sold the Messler property, Nos. 411 and 413 Smithfield street, near Fourth avenue, to a well-known capitalist, for \$100,000. Mr. D. P. Black, of the above named firm, was seen in reference to the matter. He declined to give particulars,

December started at 98%c, sold at 98%c, then broke to 97%c, but reacted to 98%c, again off to 97%g57%c and up to 98%c before noon. Around 98c the market got considerable support. During the last hour the market was rather easy, and December sold off to and closed easy at 97%c.

Corn was unsettled, but inclined to weakness, with only a moderate business during most of the session. At the start a firm tone was manifested, the small receipts and the liberal withdrawal from store, together with the frosts in lowa, Illinois and Nebraska, had a tendency to make shorts cover. The demand was soon satisfied, however, and offerings more liberal the market weakened and sold off. October opened at 36 against \$30%c at the close on Saturday, broke to 53%c, reacted to 51c, dropped to 35c, steadied some, but became very weak during the last hour; it broke to 53%c, advanced to 53%c, and then near the close dropped to and closed easy at 52%c.

Oats were easy on account of the heavy receipts and the weakess in corn, and closed with a loss of 160%c. land is one of the prettiest on the Monongahela river and it is as level as a table. It has a frontage of about 2,000 feet on the river and Pittsburg, Virginia and Charleston Railroad and is in the center of the Elizabeth gas field and also abuts the Peters creek coal fields. The purpose of the Blair Land Company is to

establish a manufacturing town and to put this land on the market at once. Two of the oldest established glass plants, the T. Campbell Company and O'Leury Bros. & Co., have contracted with Mr. Biair to be in comhave contracted with Mr. Blair to be in com-plete operation by next september, and other industries are contemplated. Sellers and Buyers Apart, As an indication of the favorable condition of real estate in and about Pittsburg, a firm on Fourth avenue reports having had offers within two weeks on eight separate pieces of property, including city and East End improved and vacant lots. The total price asked was \$50,270 and offers were \$54,190, showing a difference of only \$5,080, or about 8 per cent off the asking price. This is certainly an indication of confidence in the future by owners of real estate, and also in-dicates that buyers will have to advance their ideas of values or fail to get what they

A LITTLE BOOM IN TWO OF THE UNLISTED TRACTIONS.

Birmingham and Manchester Improve Their Position, but Duquesne Still in Disfavor-Other Strong Features-Local Investors Said to Have Formed a Pool. The unlisted tractions received the lion's share of attention yesterday, several big blocks of Birmingham and of Manchester changing hands. Duquesne was the only weak spot in this group. It was down to 10

in the bidding.

Birmingham Traction made quite a spurt, advancing nearly \$1 a share over Saturday's best figures. The boom was attributed, and perhaps justly, to the already good business of the road, and also to prospective exten-sion to the hill district by way of the Mt. Oliver incline. Friends of the road claimed that there was good prospect of a dividend

that there was good prospect of a dividend in January.

Manchester almost kept pace with Birminglam, selling at 37½ and closing firm.

There was a good local inquiry for Philadelphia Gas stock, and it advanced to 11 bid for 100-share lots.

Boston was somewhat bullish on Electric, and it was bid up to 15 here, with none in sight. Subsequently it weakened a trifle, and closed steady.

Switch and Signal was in better repute in consequence of the appearance of some buying orders, but there was none to be had.

It was stated that a pool had been formed by a few local investors for the purpose of buying Philadelphia Gas, Birmingham, Manchester and Pleasant Valley, and another property not mentionable, and that it had already secured several large blocks of these stocks.

WALL STREET'S REVIEW. STOCKS HEAVY UNDER HAMMERING

BY ROOM TRADERS. The Vanderbilts Looked Upon as a Potent Fonce in the Market-Changes Unimportant-Rock Island Leads in Strength

Union Pacific in Weakness. NEW YORK, Oct. 5 .- The stock market to day exhibited a heavy tone under the per-sistent hammering to which it was subjected by the roon traders, who seem to think that because of the decided rise which has taken place between Friday and this morning there should be a chance to reap some immediate profits by a turn in prices. The confllence in the future of the market, however, proved to be such that new buyers came in at every decline, and the downward movement which prevailed during most of the afternoon was slow and the net losses are in likely to be higher this month than they almost all cases insignificant. The decided | were last. Peaches are on the wane and strength shown by the Vanderbilt proper-ties is looked upon as a sure indication that ties is looked upon as a sure indication that that powerful interest has returned to the street and is working for a better market.

The day was one of little or no excitement, and no news of a character to cause any movement either way was developed. There was only one conspicuous weak point in the list-Union Pacific—and the loss for the day in that was a fraction only, while Rock Island and several of the specialties were very strong, and especially during the forenoon. Lake Shore, Wheeling and Lake Erie, both common and preferred, and Chicago, Burlington and Quincy showed marked strength throughout the greater portion of the day.

the day.

The demand for stocks was very heavy at the opening, and the pressure to sell from both short sellers and realizations met a resistance, which resulted in the advancing of quotations during the first hour from ½ to ½ per cent, Missouri Pacific and Lake Shore among the active stocks, and Tennessee Coal among the low-priced shares leading in the movement, which, however, came to an end when the early demand was satisfied. A reaction followed, Rock Island, Atchison and the Villards being the most prominent for strength, but the trading then lost all character, and during the atternoon prices slowly settled down without special movement in anything outside of Union Pacific, and no special feature marked the dealings for the remainder of the day.

Rock Island continued to lead the list in strength, but it, too, gave way finally and lost most of its improvement. The traders did most of the selling, however, and kept the market unsettled throughout the afternoon. The market finally closed only rairly active and heavy to weak, generally at about the lowest prices. The final changes, however, are almost all for small fractions and show great irregularity, while an advance of 1½ per cent in Tennessee Coal is more than offset by losses of 1½ in Union Pacific and 1 per cent in Northern Pacific preferred.

Railrond bonds were stronger than usual the opening, and the pressure to sell from both short sellers and realizations met a re-
