The Price of Bar Silver.

NEW YORK, Oct. 8.-[Special.]-Bar silver in

The early improvement was supplemented by further fractional gains in some stocks during the forenoon, but not until the lead-ing shares had been again depressed to about last nigh 's level by the persistent pressure from the bear's side. The bear hammering operations were abated after noon for a time, and the market showed an approach to midsummer dullness, but prices, relieved of the depressing influence, made some advance. The low-priced Yanderbilts, Atchison, Burlington, Bock Island, Chicago Gos and some specialties made considerable improvement. The early improvement was supplemented

binprovement. Prices, however, never got far from those of the opening, and in the last hour another sharp attack was made upon the Atchison securities, and the stock reacted nearly 1 securities, and the stock reacted nearly 1 per card on large transactions, wiping out all the former gain and something in ad-dition. The general list responded feebly to this attack, Bock Listed a 'd Missouri Pacific showing most weakness under the pressure. The market finally closed quiet and rather heavy, generally at insignificant changes from the opening figures, as well as from last night's prices. The final changes are irregular, and in all cases for small frac-tions.

Railroad bonds were more animated than vesterday, but followed the share list in being without feature of moment, the attack ing without feature of moment, the attack upon the Atchison incomes in the last hour making those bonds prominent again in the dealings, being the only occurrence of note throughout the day. The total sales were only \$1,660,000. The highest and closing quo-tations were. tations were:
