THE RELIGIOUS QUESTION CROPS OUT

INT CABLE TO THE DISPATCE.] LONDON, Oct. 10 .- The interment of Mr. Parnell's remains in Glassnevin Cemetery to-morrow will be one of the most impressive ocremonies which Dublin has ever wit-The masses of Dublin, among whom Parnell was an idol in fair weather and foul, are certain to attend in full strength, while there are few towns and villages in Ireland that will not be represented. All the leading men of Cork and Limerick have announced their intention of attending, and on nearly every line special countless thousands into the Irish metrop-

As a rule the anti-Parnellites show a disosition to join in this last tribute to the on who did so much for Ireland, and large numbers of them will take part in the demonstration. But those who made themselves prominent in the opposition have decided not to trust too much to the Irish sense of decorum at a funeral. Tim Healy, for instance, is not likely to have an abundant faith in that respect, and John Dillon would not care to run the risk of further enunciation as a murderer by rampant roughs at his old colleague's grave side.

SERIOUS THREATS MADE. There is a strong suspicion to-day that the members of secret societies have determined to make an example of some of the leading anti-Parnellities if they can get hold of them. The autlook is one which ives the Castle authorities some anxiety, and it may be erocodile emotion, for a riot among the rival factions on such an occusion would be a grand Tory argument, reassuring the English electors that the Irish can never be entrusted with powers of selfgovernment. Therefore it may be assumed that if Irishmen want fight, the royal Irish constabulary will not have an overwhelming desire to spoil the sport.

MELBOURNE AT IT AGAIN.

The Rain Wizard Paving the Way for s Nice Job Next Season.

TOPERA, Oct. 10 .- [Special.]-A dispatch from Goodland says that Melbourne began experimenting again at noon to-day on his own account. A new committee of citizens was appointed, and before the rainmaker leaves there he will be given the money promised him at first in the event that his experiments are successful. Melbourne's proposition to make crop rains next season has been enthusiastically received by the people of this section of the State, and the third series of experiments was begun for the purpose of giving additional proof of his ability to make rain.

A committee was appointed at a meeting held to-day for the purpose of making the canvass of the counties which it is proposed to water. Melbourne will probably amend his proposition to make the canvast to his proposition to make crop rains at 10 cents per acre under cultivation and fix upon a certain sum. The committee with whom he has consulted will insist upon this.

NEW YORK, Oct. 10.—[Special.]—W. R.

Hearst's swift steam yacht Vamoose demonstrated this evening over a measured mile off Milton Point that she may be called a marine phenomenon. The course she covered four times was exactly the same length as that gone over by Mr. Munro's little steam launch Norwood on the Merrimac river in July, 1890. The copper wire used in measuring the mile on the sound to-day was the same that Mr. Mosher, the inventor of the Norwood's boiler, stretched on the Merri-mac. According to the attestations of experts who witnessed the performance of the Norwood on the Merrimac, she made a measured mile in one minute and 58 sec-onds. She ran between the stake boats, marking each end of the mile for two hours, and her mean speed was two minutes and

WASHINGTON, Oct. 10 .- A telegram was eceived at the Treasury Department to-day from Mr. De Young, of San Francisco, saying that the property selected as a site for the public building is a quagmire, and that it will require more that \$1,000,000 to lay a foundation for the building. Secretary Foster said than this was the first intimation he had received that there was anything wrong with the site selected, and he could scarcely believe the statement, inasmuch as it was recommended by the special commission charged with the matter, as well as by both Senators of the State, the two Representatives from the city, and many others, whom he naturally sed to be thoroughly familiar with the locality.

The Secretary said that the site was selected mainly on the recommendation of the persons named. Secretary Foster specially added that Postmaster General amaker did not recommend the site which was selected, but an entirely different one, on elevated ground.

The Brother of the Stenographer Says Chairman Smith Has It.

PROGRAMME OF THE EXTRA SESSION

[SPECIAL TELEGRAM TO THE DISPATCH.] PRILADELPHIA, Oct. 10,-The State Treasury investigation was given a new sensational feature to-night by the asser-tion of Representative John H. Fow that the stenographic report of the Joint Legislative Committee's proceedings has been quietly disposed of so it cannot be produced sefore the Senate at the extra session Tues

"Burke, the stenographer of the Legislative Investigation Committee, has gone out of the jurisdiction of the Legislature and taken all the evidence so far obtained with him," was the startling assertion with which Mr. H. Fow prefaced his speech at the meeting of the Fifth ward executive committee to-night. Mr. Fow, who is a member of that committee said that four nights ago he received a telegram from Attorney General Hensel saying that Burke, the stenographer appointed last winter to take the testimony of the witnesses examined before the Legislative Investigating Committee had left Harrisburg with all the notes of the evidence in his

"The telegram further stated," said Mr. Fow, "that he had gone to Ann Arbor, Mich., but I am confident that he has gone to join Livsey, and that we shall never set eyes on either of them again. He has been induced to go to prevent Governor Pattison from using any of the testimony at the telling the trut's. The crowd accepted the special session of the Senate called for next

"I have long had my suspicions of Burke's partisanship," continued Mr. Fow, "and at one of our meetings at Harrisburg some time ago I openly charged him with displaying too much party feeling. His absence is not unexpected. He has always refused to furnish us with typewritten copies of the testimony which he is required to do law. He has been ordered to get out of the way with the notes of his testimony and all. Time after time I have requested copies of our proceedings, but Senator Flinn has interfered and helped excuse Burke from furnishing them, and now what I have long suspected has come to pass."

Early last evening before the statement made by Mr. Fow was known at THE DIS-PATCH office, Mr. John Burke, brother of Stenographer Burke, called and asked whether any message had been received from Harrisburg relative to the stenographer's report of the investigating committee's proceedings. When informed that no such message had been received at THE DISPATCH office he said there was a rumor in the streets to the effect that a charge had been made at Harrisburg that the stenographic report had either not been prepared or had been spirited away. He had called to state that the report was all complete and was now in the office of George Handy Smith at Philadelphia.

On receipt of Mr. Fow's statement THE DISPATCH directed its Philadelphia correspondent to ascertain if the report were not at George Handy Smith's office. The correspondent wired the following answer: George Handy Smith has no office in Phil adelphia, and lives ten miles in the coun-

THE REPUBLICAN SENATORS WILL ACT WITH VIGOR.

All Violators of the Law Developed at the Extra Session Tuesday Will Be Summarily Dealt With-Trouble Expected Over the Rights of the Senate. [SPECIAL TELEGRAM TO THE DISPATCH.1

PHILADELPHIA, Oct. 10.-The Senate meets in extra session next Tuesday, and Lieutenant Governor Watres leaves the city Monday for Harrisburg. General Reeder has been in charge at Republican headquar ters during the past few days and will direct the campaign until Mr. Watres returns, as Chairman. Very much interest is shown in the Senate's extra. The investigating committee in charge of the investigation of the Auditor General's and State Treasurer's offices will meet in this city Monday morning, but its meeting is likely to be a merely perfunctory matter. The members will adjourn to Harrisburg without delay.

It is given out on the best authority that the Republican Senate will proceed with the work to be mapped out in the Governor's message, in the most vigorous manner, and any and all violations of the laws developed by the inquiry are to be summarily dealt with. It is known that Governor Pattison takes the view that the Senate's duties, in the business to come before the members, are analogous to those of a grand jury. In accordance with this theory, At-torney General Hensel appears after the manner of a District Attorney, with his itnesses, to make out a case.
"It really amounts to a trial on impeach-

ment charges," said a prominent Demo-cratic lawyer this evening, "for you will find the Governor's message built on that line if I make no mistake. There will be a number of witnesses, similar to a case at court, and on the evidence or statements drawn out the Senate must request remova of the Auditor General or State Treasurer or pronounce them guiltless of misconduct or malfeasance in office. The question or malfeasance in office. The question about the right of the Senate to summor witnesses or send for and secure documentary evidence is a matter liable to bring on ex-tended discussion. If the Senate sits as a committee to investihave access to the floor. gate into certain charges, specified, of course, in the Governor's message, it appears like an optional matter to allow the Attorney General any share in the proceedings. They call upon the people to meet this action at the polls in November and urge the Republican members of the Senate, since they have been called in extra session, to seek out and punish offenders in office, if they exist, or to fearlessly acquit them if the proof fail. The resolutions conclude by indersing the State

He Denies That the Church Is Supreme or That the Episcopal Creed Is Literally Believed By Anybody-The Posi-tion of Alleged Heretics Defined. [SPECIAL TELEGRAM TO THE DISPATCH.]

NEW YORK, October 10 .- The Rev. Howard MacQueary, in an article on "Heretics in the Church," which will appear in the Sun to-morrow, says among other things: "In Bishop Potter's charge to the clergy of his diocese, the Bishop is reported as saying that there is 'a consistent and unvarying teaching of the church' which no clergyman of the Episcopal Church can honorably reject and retain his ministerial orders in that church. We deny that there is any such body of 'consistent and unvarying teaching in the church' to be found among the creeds of Christendom, and we challenge the Bishop to prove his proposi-

"He knows as well as anybody that for three or four centuries the Christain Church had no one common creed. Every church formulated her own confession of faith. He knows that neither the Apostles' nor the Nicene creed, as we now have them, was formulated by the great council of Nice, which gave the church her first ecumenical creed. He knows that that council did not define the nature of Christ's resurrection and did not insert the article on the Virgin in its creed. He knows that the greates diversity of opinion prevailed in the early church on these subjects. He knows that even Popes have since the Nicene period been Unitarian and Pelagain. "How then can he have the courage

tell intelligent men that the creed of the Episcopal Church embodies the consistent Episcopal Church embodies the consistent and unvarying teachings of the church, which they are not at liberty to question? Everybody knows that the power of the Papacy was largely built up by the influence of the well-known "false decretals." So far from the antiquity of a belief establishing its truth, it is often a presumption against it. Still, we will honor the Fathers as long as their utterances are not exalted into infallible oracles.

"Bishop Potter and his school no more accept the literal meaning of the creed than we do. They don't believe in the literal meaning of the article on the resurrection of the body, and yet Planon and all the older theologians and the whole church believed this article literally. The creed clearly says our body will rise from the dead, but it does not define the nature of Christ's resurrection." Christ's resurrection.

WOMEN THROWN INTO THE RIVER.

The Mob Burned and Pillaged and Was Armed to Commit Murder.

SECRET SOCIETIES BLAMED FOR IT

HON KOW, CHINA, Oct. 6 .- The steamer Paohua arrived here to-day with Ichang refugees, 20 in all. They had lost everything except the clothes they were at the beginning of the outbreak. Several bore marks of violence. The riot took place at broad noonday without warning or provocation. It was carried out by a handful of men evidently acting under orders in the presence of a number of Chinese officials who knew every one of the rioters.

Their mission of destruction was carried out with the utmost speed. A crowd had collected, and suddenly a rush was made for a house belonging to the American Episcopal Mission. The gate was smashed in, and man heading the mob cried, "Slay the foreigners." The rioters came in with a rush, and one aimed a murderous blow with a shacle at Mr. Sowerby. Mr. Sowerby disarmed this assailant, avoided another and then ran for his life, reaching the Consulate, from where he was transferred to the Pahua. The American Mission House was set on fire, and the Yamen and soldiers fell back, neither civil nor military mandarins making an effort to protect the property.

SISTERS THROWN IN THE RIVER. The Roman Catholic Convent was next | fired and the Sisters, seven in number, barely escaped to the river, where they were thrown headlong down the steep bank by soldiers. They were taken in a boat on board the Paohua, and were stoned by the mob on shore. Several Sisters were badly injured by the missiles. It is thought a number of children in the convent were burned to death.

A mob armed with knives and axes rushed to the Consulate, but did not attack The house in which were Dr. Pirie and Rev. Mr. Deane, together with several other buildings, were burned. Mr. Rockburn's house was ruined and the new British Consulate, in course of construction, was torn down. Houses were looted, and, although no one was killed, several attemps were made to murder and threats were frequent. At the old Consulate the foreigners kept the rioters back with bay-onets. The leaders of the mob carried gun-powder and kerosene, with which to fire the buildings.

NO ATTEMPT AT PUNISHMENT. Those having stolen property from the ruined buildings were arrested next day, but no attempt was made to capture the real intruders. Many of the rioters were sol-diers who had taken off their coats to disguise themselves. During the whole time mandarins were present and made no attempt to prevent the people from carrying away plunder. That no lives were lost is almost entirely a matter of luck. The Scotch missionaries owed their escape to the fact that they had gone boating on the river at the time of the outbreak. They hurried back, and were just in time to rescue senior missionaries and infant children, and escape when the mob arrived. The Roman Catholic Sisters havely escaped to the control of the control

Sisters barely escaped being massacred en-masse, several being severely injured.

As in former cases telegraph clerks re-fused to send on news. A full dispatch to the Daily Nows at Shanghai was refused without excuse on the day of the riot, and all foreign messages the day after. On the third day, when all possible damage had

been done, the military mounted guard over the blackened ruins. FURTHER ACTION AGAINST FOREIGNERS. In Han Kow things are stirring again. Yesterday there was a gathering of the antiforeign element here, including a large number of magistrates and officials. They resolved that foreigners must be driven in mediately from the central provinces. The missions at Wuchang have received threatening placards ordering them to leave at once or they will be exterminated. The Tastai inspected the nunnery to-day, ing search for bones, eyes, etc., of children said to have been murdered by the sisters. A dispatch from Shanghai, dated Septem ber 12, is as follows: The North China

Doily New says:

There are points about the Ichang riot of serious importance. It is in no sense the work of a mob. There was indeed a pretext in the shape of a child said to have been kidnaped on the day of the riot, but this evidently is merely a subterfuge in order to give the shadow of an excuse for the outbreak. Evidences that the riot was directed and carried out by soldiers are only too numerous. There were people in authority who restrained the outbreak in certain directions and fostered it in others. The Chinese Brigadier General at Ichang is a great friend of foreigners, but he was helpless in the presence of an order evidently come to his Hunan soldiers to destroy all foreign property they could on that day. Where no gunboat can go the position of foreigners, unless in numbers, is very insecure. When soldiers get orders from their secret leaders they care nothing for their officers, and the central government is powerless. There will be no security for foreign life or property in China unless the rebellious secret Hunanese are suppressed by force. Daily News says:

The People of Braddock Had a Bad Case of Rattles Last Night. BRADDOCK, Oct. 10.-[Special.]-It has all along been imagined by some that Murderer Fitzsimmons was located in this city, and

to-night this idea amounts almost to a craze. At 11 o'clock to-night little bands of citizens were scouring the hills for the fugitive, while every point of exit in the town was being watened. This afternoon some boys said they had seen a queer-looking man under the platform of the station, but no attention was paid to their statements. This evening, however, three women nearing the Pennsylvania station, saw a man whom they believe to be the very picture of Fizzimmons, peering out at them from a space beneath the building. Officers were notified, and searching the space under the station, found an old crate in which body had evidently been sleeping regularly, an old pair of overshoes and a book. About the time the man escaped from beneath the station, a man answering to his description, and wearing a false beard, ran into the rear of the house of Robert Harris, and asked Mrs. Harris to shelter him until his pursuers passed. The door was closed in his face, and he ran toward Sixth street, where he was lost to sight.

It is believed by Fitzsimmons friends here will never leave the vicinity unti Mrs. Clark and his wife are safely out of the clutches of the law. He has many close and secret friends in Mifflin township, and all erries are being closely watched, as the police intend locating the mysterious fugi-tive, whether it be Fitzsimmons or not.

FAST BAILROAD RUN.

A Millionaire Speeds an Engine at Less Than a Mile a Minute.

LEBANON, PA., Oct. 10 .- [Special.]-Robert Coleman, the millionaire iron manufacturer of Cornwall, this county, demonstrated the other day that it is not always necessary to be graduated from a fireman to become a successful locomotive engineer. With his own hand on the trottle, in an engine with one passenger car attached, he

was present at the convention and made an address.

miles, in exactly four minutes. The average rate of speed was 50 second to the mile, the fastest ever attained on the road. There were aboard with him R. B. Gordon, General Freight and Passenger Agent; E. W. Ash, Dispatcher, L. R. Crowell, Chief Engineer, and A. Hess.

PIERCED TO THE BRAIN.

TERRIBLE RESULT OF BLASTING A TREE WITH DYNAMITE.

A Splinter of Wood Forced Through a Man's Skull Into His Brain-It Is Pulled Out and Death Follows-The Difficult

PHILADELPHIA, Oct. 10 .- [Special.] -At

the Presbyterian Hospital to-day the phy-

sicians were confronted with one of the most peculiar cases known in the annals of accident sugery. It was that of Charles Buckley, who was brought to the institution shortly after noon with a splinter of wood, about four inches long and one inch in diameter, sticking in his brain, having been forced through the skull by the premature explosion of a dynamite cartridge. Buckley died a few hours after the accident. Buckley was employed to fell two trees which were an obstruction to the lawn of D. M. Hess. He was told to chop up the

trees after felling them, but instead he en-deavored to economize his strength by blasting the trunk. He was an experienced quarryman and knew how to use dynamit on rocks, but evidently failed to calculate the lessened resistance offered by the wood. He accordingly bored a hole in the trunk, and after inserting the cartridge, a small one, ignited a fuse about six inches in length and retreated about ten feet to await

spector, has just returned from a visit to Pedras Negras, Mexico. He states that there is great destitution among the lower classes of Mexicans in the States of Chihuahus and Duranto. There are about 4,000 people seeking employment on the railroad extension between Tarreon and Durange. These men and their families are half starved and in utter want.

The railroad contractors and construction posses have hard work in standing off the hungry horde. Those who have been given work receive from 25 cents to 35 cents in Mexican money per day. There are hundreds of the unfortunates who subsist entirely on the maguay plant. The drought, however, has been broken, and there are in-

SOME CHANGES IN THE PROGRAMME. A few alterations in the programme were made. The warden's meeting, scheduled for Monday afternoon, will be held in the evening instead, and the address of Mrs. Ellen C. Johnson, Superintendent of the Reformatory Prison for Women, Sherborn, Mass., arranged for Wednesday morning, will be delivered Tuesday evening. The paper by Charlton T. Lewis, of New Jersey, will not be heard Tuesday evening, as he

was summoned home vesterday on account of sickness in his family. The meeting last night was scheduled to commence at 7:30, but the big clock in the tower was booming out the hour of 8 as Ex-President Hayes, side by side with George A. Kelly, Chairman of the Reception Committee, marched down the aisle of Carnegie Music Hall, followed by about 30 distinguished delegates, members of the local committees and Mayors Gourley and

Wyman. A SPEECH FOR THE GOVERNOR. Henry M. Warner, Chairman of the local mmittee, presided, and, after prayer by Bishop Whitehead, made a short speech, in which he referred to the fact that the first concentrated move in the direction of prison reform had been made in the State of Pennsylvania. He then introduced Adjutant General McClelland, who he said would address the audience on behalf of the State of Pennsylvania in place of Governor Pattison, who could not attend. General Mc-Clelland was greeted with great applause.

He said:

I regret very much that the Governor was prevented from being present to welcome you to the State of Pennsylvania. It was his earnest desire to meet with this congress, but circumstances forbade. I have been sent here to extend to you a hearty welcome, and am glad to have the honor. Your association is constituted by the voluntary coming to-gether of large-hearted, unselfish Americans. The country at large is the better that your association was organized, the object being a most worthy one-to bester the condition of the unfortunate in-mates of our penal and reformatory institutions. These unfortunates are entitled to all the helps, encouragement and considera-tion the sympathetic heart can give, not only when under restraint, but when, re-heved from restraint, they honestly attempt to make amends for the past by leading cor-rect lives. To assist these your association should have the earnest, substantial sup-port of well-disposed people everywhere. port of well-disposed people everywhere.

I understand this is the twenty-first congress of the National Prison Association. I gress of the National Prison Association. It cannot but congratulate you upon this evidence of your permanency. Should the sessions this year tend to develop increased interest among the good people of the community in your work the immediate and ultimate effect would be far-reaching and helpful to all.

WISHING ALL A HEARTY WELCOME. That your stay here may be pleasant and whom you are in-

sure you, the sincere wish of the people of Pennsylvania. Ladies and gentlem requested, I extend to you one Pavsie and all a most cordial welcome to Pennsylvania.
