SAVED BY SOLDIERS.

Insurrections in Cuba Only Prevented by the Gnards That Are Hired by the Spanish.

BRIGANDAGE YET AT A PREMIUM.

Anecdote Told of a Reformed Young Officeholder.

HE WAS JUST AS GOOD AS HIS WORD.

Other Interesting Interviews Culled From Reporters, Notebooks.

The Cubans are a long-suffering people, according to Senor V. de la Calle, a resident of Havnna, who was in the city during the week. Senor Calle deals largely in mathis time. He had purchased in New York, previous to coming here, because, as he said, "he had not heard of Pittsburg." He left an order here for \$5,000 worth of machinery, and promised to call again next year.

Referring to the condition of the Cubans, Senor de la Calle says they are the worst governed people in the world.

"Think of it," he said, "the population of the island is 1,500,000, and these people pay the Spanish Government \$26,000,000 annually. They pay a property tax of 10 per annually. They pay a property tax of 10 per cent in addition to various municipal and local taxes. They also pay for an army of 10,000 soldiers which the Government must up and realized his trick his heart was keep there to prevent an open revolt of the

SAVED BY THE SOLDIERY.

"To say that dissatisfaction is rife is to use a very mild term. If it were not for the soldiery the people would rise and seize the Government themselves. The authoritles are absolutely indifferent to the welfare of the inhabitants. For instance, the great scourge of the islands is the yellow fever. A primary cause of this is the unsanitary condition of the shores and cities. The outlay of a very little money in cutting a canal through a peninsula to connect two waterways would flood an area of ground which periodically dries up with very horrible results. This is where the yellow fever is bred and whence it spreads. "The ardent wish of the Cubans is for an-

nexation to the United States. If a comple of war vessels and a regiment or two were to run down and demand possession they would be received with open arms. Possession by the United States is the only hope in the heart of the Cuban for the blessings of a fostering Government, such as they now obtain here.

MANY SUMMER VISITORS TO CUBA. "We have many visitors during summer."

continued the Cuban. "Fully 60,000 pernumber increases annually. This season's at the head of it.' crop of sugar was unusally good, the proportion of saccharine matter in the canes eing above the average. By a recent improvement in the process of making sugar the operation has been made more continuous and profitable. The stalks, which are used for fuel, are dried by artificial means as they come from into the fires. Before, the stalks were permitted to dry naturally, and if the weather was damp delay ensued. The climate. delightful, the temperature never falling below 650 or exceeding 900.

BUIGANDAGE VERY PLOURISHING. "Brigands are numerous, and the business apturing rich Cubons is a profitable undertaking. Not long ago a wealthy friend f mine was captured and taken to the mountains. He was told to write to his nds and say his ransom had been fixed at 17,000, He did so, and he also canthem against trying to res-nim by force. He would have been killed without doubt. They treated me well, 'he told me afterward. 'I went for some time without food and at length I cried: "Oh! if I only had a milk and some catment I could en-is." "Why, certainly," said the chief brigand; "the Senor can have everything he

"A whistle blow; a boy appeared, received the order and quickly returned with excollect milk and outmen! I was well taken care of, but-it was expensive living; it cost me \$17,000. The Government makes attempt at suppressing brigandage. Americans who come there, though, generally know how to take care of themselves and the 'chevaliers d' industrie' know it."

TARANTULA JUICE WHISKY. Its Effects on a Young Englishman at a

Trading Post Out West. Way back in the '70's," said Mr. T. B. Montgomery, at the Monongahela, last evening, in a reminiscent mood, "there was a lot of tourists scattered over the West, who came to hunt the buffalo and see the country. They were for the most part healthy young bloods who traveled in style, and whose outfits were gorgeous. They were always welcome guests at the frontier posts, and some of the stories with which our boys plied them made the hair on the heads of their doting mammas stand or end when recold with the usual embellish-

ments. But there was one particular party which journeyed to Texas and the Indian

nation that will remember their trip as long "It was a cold, raw night, early in Nopember of '71, that word was brought to Captain D-, of the Tenth Cavairy, communding a small, one-company post in the Indian Nation, that a party of tourists had arrived and desired to see him. Hurrying on his clock, D-came out to them and was met with 'Beg pardon, I am sure, but I um Lieutenant Orstall, of Her Majesty's East India contingent service, don't you know, and desire the hospitality of the post for the night.' D- made them heartily welcome, saw that man and beast were properly cared for, and then sauntered down to the 'sutler's shop' for a drink. The only drinkable on hand was some Tarantula i dee whishy that the boys used to an 'would make a man run ten miles to chew his youngest child's ear off,' and a decoction of some kind of bitters made to evade the law against selling whisky in the Nation, which was even worse than this whisky. The comnandant and his guest walked over to the rough beard that answered for a bar, and sutler or post trader, a tough-

"What will you have, Lieutenant?" in-"I'll take a little book," said the Eng-

"'Hock be blowed!' said the trader; 'you'll drink whisky, t at's what you'll drink, and be glad to get it, too.

'Orstall's hair stood on end when he raised the glass to his lips and he took a fit after he had swallowed half of it. Fear of the trader compelled him to finish the drink, and then he swooned. He was carried to a but and put to bed.

"Next morning he came across Buck Stanton, the post interpreter, cleaning an old smooth-bore. After watching him a moment he said: 'I don't suppose you can compare at all with us in marksmanship, you know.' 'I don't know,' said Stanton; give us a specimen of your English shoot-

"I spent last summer with my friend, Lord Ross, at his manor, said the Englishman. 'His Lordship walked out me morning and put up a bull's eye; Phone 1186.

walked off 25 yards, wheeled, fired and took it; 25 yards more; the same; 25 more, the me; walked off another 25 yards, completng 100, and took it again.

"That's good shooting, sure, said Stanton, but when I lived down in Paolo Pinto county, Tex., I used to amuse myself the same way at times, only I used a live mark. same way at times, only I used a live mark. I used to cinch a saddle on a mustang early in the morning; ride off in the prairie; lasso a buffalo bull; get down and picket him to a mosquito bush. Then, walking off exactly 10 yards, I wheeled, fired and took the bull's eye; walked in 25 mark the same 25 mark the same 25. 25 yards, the same; 25 more, the same; 25 Grant's Fealty to Friends Illustrated in an

Same; then walking the remaining 25 yards, completing the 100, I stuck the gun in the bull's mouth, and blew the gun, bull and all to kingdom come, Lieutenant

Orsfall. "The Englishman walked away with a look of disgust and astonishment over-spreading his features and when he met old Colonel Guerson, the commanding officer of the Tenth, some time afterward, and told him that Stanton was a 'deuced vulgar fellaw, you know,' he meant every word he

GRANT'S FEALTY TO FRIENDS.

How He Reinstated the Son of an Old Comrade in Office.

"Of the most prominent traits in General Grant's character," said Colonel T. R. chinery and supplies, and buys his stock at | Matheson, of Washington, at the Duquesne last evening, when the conversation turned on the late President, "was the steadfast manner in which he stuck to his friends. I can recall a case which illustrates that. In 1873 the term of a Western Senator expired, and before leaving Washington he secured a position in the Postoffice Department for his only son, a bright young fellow whose only failing was an indulgence in an occasional spree. Marshall Jewell was then Post-master General, and he had appointed the broken; out of money, out of place, with a wife and child to take care of, he didn't know where to turn. All at once he thought of General Grant, and off he went to the White House. His acquaintance with the attaches readily procured him an audience with the President, to whom he nade a clean breast of the whole affair. 'Can you stop drinking?' asked the

'Yes, sir,' replied the young man. "Will you promise me not to touch drop of anything intoxicating for a year?" 'Yes, sir,' came the answer. Taking a card, Grant wrote: 'The Postmaster General will please reinstate Mr. —— to his clerkship in the Postoffice Department. U. S. G.' He handed this to the son of his old friend, and told him to be a man.

"The young man was soon in the Postmas-ter General's office. The official slowly read 'There is no vacancy,' he said. 'I have filled your place. However, put an application on file, and it will be considered in its turn." The clerk returned, in a dejected mood, to the White House.

'He said there was no vacancy, did he?' said the President, 'and told you to file an application, eh? Well, you can't file that wife and baby of yours, can you?' Grant took the card and wrote on the reverse side, 'You make a vacancy or I will.'
"The President of the United States can

have my resignation if he desires it, said the Postmaster General, testily, when the message was handed to him, but he cansons visited the island last season, and the | not put you in this department while I am The now thoroughly discouraged sup-pliant for office once more returned to the White House and told Grant what the Post-

master General had said. "'Take this young man over to the Navy Department,' said the President to a clerk whom he called from an adjoining room, 'and say to Secretary Robeson that I desire his appointment as clerk.' This time the

appointment was made.
There was a Cabinet council next day, and Grant asked for and was tendered and accepted the Postmaster General's resigna-tion. The clerk? He kept his promise, and is to-day a respected, soher man."

HOOSIERS FOR BLAINE.

an Old Soldier.

Colonel W. H. Tucker, of Indianapolis, city. was at the Union depot last night. He is a member of the Union Veteran Legion, and was going to Reading to prepare for the encompinent there. Asked how the President that may lead to a strike on the Ft. Wayne was regarded in his own State, Colonel road. The freight men are said to be op-

"Well, I would rather not say anything about that. I would rather not see printed what I think is the opinion now held of President Harrison among Indiana Republicans. I can say, however, that I think he is making a mistake in seeking a second term. I am opposed to second terms on principle, but I most decidedly think that Mr. Harrison should not push the issue. He has given us a good and clean administration, to be sure, but he will make a mistake if he seeks a renomination. The people want Binine, and if he will accept he will be the next President of these United States."

Fruit as a Routine Diet.

"The abundant fruit crops have knocked the bottom out of the wholesale grocery business," said a traveling man for a local house vesterday." I have just returned from a regular trip, and this time last year I had booked 200 orders for a general line. This time I booked none. The country people are check full of fruit, and are livbeing on it as much as possible. They are buying very little meat, and making the fruit take the place of the regular diet. They buy a little sugar and coffee, but that s all. Collections, also, are slow, business, taking it all around, in a poor

A Tin Plate Mill for Kittanning.

S. B. Cochron, an ex-member of the Pennsylvania Legislature from Armstrong county, was in Pittsburg yesterday. "Our just subscribed \$150,000 for the purpose of erecting a large tin plate mill at Kittanning, and we are promised that the present scale does not expire until the presen ning, and we are promised that several other industries will locate at Kittanning within the year. Everything is quiet in

Delegates Leaving To-Day for Chicago. The Supreme Commandery, U. A. M., leaves to-day, at 2 P. M., via the Pittsburg, Fort Wayne and Chicago Railroad, for Chicago, for the annual session of the Uniformed Rank, to be held in that city Tuesday next. The session will last four days, and several changes will be made in the laws of the order.

Bargains in Pianos and Organs. GLASS BOOM AHEAD. MINERS ASK FOR MONEY.

Owners of Window Houses Look for Big Business This Season.

FACTORIES TO RESUME THIS WEEK.

Striking Miners Are Making a Game Fight for an Advance.

MISCELLANEOUS INDUSTRIAL ITEMS

Before another week has rolled by a great many of the window glass factories will be in operation. The 15th of the present month has been fixed as the date for most of them to start, and as that will be Thursday, it is expected that preparations for resuming will be commenced to-morrow or next day. There many be a few of the houses that will not be fired up until after the next meeting of the manufacturers.

This meeting will be held in Cleveland during the following week; with short productions and light stocks in jobbers' hands, it is said it is almost certain that prices will be advanced. There is little or no glass in the hands of the jobbers or manufacturers and as the former have filled up largely with cheap glass they will want better prices.

AN EXCELLENT OUTLOOK AT PRESENT. The outlook for the season just commencng is splendid. Several manufacturers were seen yesterday. They have not talked so hopefully on the outlook for years. The cause for this is mainly on account of the fact that the stock this year is fully 100,000 poxes less than at this time last year. There is a growing demand for glass since building operations are resuming a healthy condition, and there is a difference in the time of starting up the factories that will result favorably to the manufacturers.

Inquiry was made yesterday into the condition of the local factories that have either resumed or are about to start up. S. W. McKee will not be ready to operate for some time, owing to repairs which have not yet been completed. This will be the chief cause for detaining those who do not resume on October 15. O'Leary Bros. will start up at Monongahela City on Thursday. They will melt with coal this fire, but will continue to use natural gas in the blow fur-nace and flattening oven, or at least as long as the fuel holds out.

WHAT OTHER FIRMS ARE DOING. Cunningham & Co. will likely not start efore November 1, but D. O. Cunningham already in operation, with a full crew. Ihmsen's have started their ten-pot furnace, using natural gas. They announce that the furnace with gas producers will not be ready yet for several weeks.

One of the tanks at Jeannette was put in operation last week and another will be fired up to-night. The factory of Thomas Wightman & Co., in the West End, will not be in operation before November 1.
Phillips & Co. have a ten-pot furnace in operation. George Wamhoff & Co., will resume full time this week.

There will be in all 1,600 pots in opera-tion this year. This is nearly double as many as were operated 10 years ago, and yet the demand greatly exceeds the supply. The workers are feeling in good trim for work after their prolonged rest, and most of them are pretty well satisfied to get back to

Virginia Granite for Pittsburg. Edward Stots, a local architect, and James Johnston, the contractor, have been in Manchester, Va., inspecting the granite produced at the works of Rennie & McIntosh, who have been awarded the contract for the first story of a granite front on a large building now in the course of erection in

this city.

The object of their visit was to determine whether to use granite or sandstone in the balance of the building, which is to be seven stories high. They decided in favor of granite. It will require about 5,000 cubic with designs of the architect. It is said this will be the first Vir-ginia granite used in a building front in this

Freightmen's Runs Too Long. There are varied rumors of a difficulty posing the run through from Conway to Crestline. They claim the run is entirely too long and they are not allowed enough time at home. One of the employes who lives in Allegheny, said last night he had been away from Wednesday at 1 o'clock until yesterday afternoon. There will be a meeting called soon at which the matter will be discussed and some formidable plan arranged, which the company will borasked

Rollers Become Manufacturers W. S. McCullough and R. A. Robinson, the rollers at Moorhead Brothers & Co 's mill, over whose positions the recent strike occurred, became part owners in the Keystone Manufacturing Company yesterday This plant is located at Thirty-third street Messrs, McCullough and Robinson will rank as manufacturers in the future, and must of necessity withdraw from the Amal gamated Association. This fact, however, will not release the strike of the plate mill crew, but it will be continued by the Amalgamated Association with the same vigor as

In No Hurry About the Scale. There has been considerable misunderstanding about the notices posted in the works of Carnegie Bros. & Co., at Braddock, relative to the desired change in the scale. Many have thought that the firm would notify the men immediately of what changes were wanted. While the firm did say that

Weekly Papers Out on Time.

ranged for a month or two yet.

The prifiters' strike has not changed color in the last two or three days. Each side is putting forth its best effort, and the fight is evidently at its height. The large firms say their work is being put out all right, and the weekly publicat ons were out yesterday on time. Still the printers are not losing hope, and President Prescott expresses great confidence in the men winning.

A Veteran Boller Resigns

Benjamin Weaver, who has been employed as guide mill roller at the "porkuse" mill of the Pittsburg Forge and Iron Company for the last 20 years, yesterday resigned his position to go into other business. Last night his old employes pre-sented him with a handsome pair of gold spectacles, E. A. Keil making the presenta-tion speech.

A Labor Poet's Fiftieth Birthday. To-day Karl Reuber, the well-known ocal labor poet, will celebrate his 50th birthday. Mr. Reuber has written many bright pieces of poetry in defense of labor's cause, and has also dedicated verses to many labor officials, living and dead. writings are very popular with working-

Bricklayers Getting to Work. Quite a number of additional bricklayers have received employment at their price, \$4 50 a day and when the weekly pay roll for strike benefits was made out yesterday, there was found to be a less number of men idle than at any time during the strike.

Local District Officers Issue a Call-Presi dent Costello Makes a Dally Tour of the District-Mr. Rae Will Continue His

Missionary Work. The miners are preparing to carry or their strike all winter if it takes that long to win. Yesterday President Costello and Secretary McQuaid sent out an appeal for aid, or rather levying an assessment of 25 cents upon each member in the district, Assuming that there are 12,000 men out, which is 1,500 less than estimated by the miners' officials, that will raise an im-mediate fund, \$3,600, which will be used for the specific purpose of keeping men constantly in the field to encourage the

strikers.

The following is a copy of the appeal

To the Miners of the Pittsburg district. To the Miners of the Pittsburg district.

GRENTING—In accordance with instructions from the last convention, we hereby order a levy of 25 cents to be paid immediately, for the purpose of carrying on the strike inaugurated by said convention. It should be plainly understood that to make this strike a success, we must have men in the held. The operators have resolved to fill all contracts on the basis of 79 cents per ton, in order to prevent any of the operators giving the advance.

To counteract this, all competitors must be stopped filling our contracts. Committees should collect it. Delegates remember your piedge: let all try to do their duty, and we will strive to do ones.

we will strive to do ours

JOHN COSTELLO, President, M. McQUAID, Secretary. President Costello made a tour of the district yesterday again, completing it at 11 o'clock last night. Speaking about the statement made by the operators, that there are nearly 40 mines at work, Mr. Cos-tello said: "There is not a mine working on the Chartiers branch, with the exception of 12 men at Cooks. The men employed at the Jumbo mines came out to-day. Three mines at Smithton came out also. On the Panhandle there are very few men working and they are unorganized. The men about whom the opera-tors boasted this morning, are cut this even-ing and they will stay out."

President Rae will continue tis missionary work next week. He spoke at McDon-ald and Cannonsburg on Friday. Yesterday he started for Houtzdale, where the convenhe started for Houtzdale, where the conven-tion will be held Monday. He will return Monday evening, speak at Smithton Tues-day, at Lucyville on Wednesday and at Black Diamond on Thursday. He will be accompanied by President Contello and the district officers.

VIEW OF THE ELECTRIC CAR.

Successful Test of the Westinghouse Machines at Pullman.

COMING MOTOR

THEY PROPEL 28,000 POUND CARS.

EACH CAR WILL CARRY 250 PEOPLE

With the Results.

Under the caption of "Rapid Transit in Novel Dress; Double Decked Electric Street Cars Exhibited and Experimented With," the Chicago Herald of October 6

On the invitation of George M. Pullman large number of Chicago representative business men and others interested in railway locomotion went to Pullman yesterday afternoon and witnessed the practical demonstration of an invention which is expected to be the solution of the rapid transit problem, viz.: the operation of a car designed to double the carrying capacity of street railways and greatly enhance the comfort of the passengers. Two special cars left the Van Buren street station, at

2:10 P. M., carrying: R. H. Southgate, H. R. Hobart, J. H. Wrenn, Gen. J. A. McNulta, S. M. Jones, H. H. Porter, Henry Villard, Milward Adams, C. C. Wheeler, S. B. Cobb, E. L. Powers, Murry Nelson, C. H. Chappelle H. B. Stone, E. L. Brewster, A. Bement, F. W. Rice, H. F. Royce, G. E. C. Johnson, Williston Fish, T. B. Blackstone, shall Field. A. L. C. Berger, Norman Williams, Colonel Keefo, H. H. Windsor,

H. H. Porter,
Judge Lambert Tree.
Cyrns H. McCormick,
Jesse Spalding,
R. T. Crane,
T. C. Crawford,
John A. Logan, Jr.,
B. R. Mercer,
W. W. Kimball,
J. R. Walsh,
Henry Wheeler,
W. R. Moore,
Gen. Horace Porter,
J. L. Barkley,
George M. Pullman,
C. L. Pullman,
T. H. Wicks. DESCRIPTION OF THE CAR.

The new car which the party was invited to inspect is the joint invention of E C. Sessions, a banker in Oakland, Cal., and C. L. Pullman. It is a "double-decker" con-cern, operated by the trolley electric sys-tem. Mr. Sessions is responsible for the upper deck of the car, while Mr. Pullman igned the central entrance and elevated pilot houses. In general appearance the car resembles the double-decked vehicles in common use in London and Paris, and it presented a handsome appearance as it stood on the rails of the experimental tracks along the western edge of the city. The new car is 32 feet long; the width 7 feet and 4 inches; height, 14 feet 9½ inches. The chief aim of the inventors was to design a car with double the usual carrying capacity. The new car will seat 40 passengers on each deck. The car body is so arranged that passengers may enter at the center of either side, where spiral stairs lead to the upper deck. Four stairways, combined with two at the bottom senarate toward the top, leading to either end of the car. The entrances at the center occupy no more space than the end platforms on ordinary street cars. The lower car body consists of two compartments, each 12 feet long, with circular ends, scats being carried around the ends as well as at the sides. The upper 12 feet deck is entirely covered with a canopy attached to the pilot house. The equipped with electric chandelier louble oil lamp in each compartment. Electric heaters are also set in the car. Two Westinghouse motors of 25 horse-power furnish the force. The car rests on two trucks of special design, arranged with double brake attachments and a friction brake. The efficiency of the brakes was demonstrated by the stoppage of the car within its own length while traveling at a speed of 12 miles an hour H H Sessions. the Pullman Car Works, is the inventor of

the brake attachment. IT ASTONISHED THE PASSENGERS. 5 cans California apricots. 1 00 The operation of the motors was perfect 5 lbs tea (in all varieties). 1 00 giving great speed and being under perfect. The operation of the motors was perfect. 50 bars family soap. 1 00 the passengers and an electric diagram,
Weigh your goods—family scales. 1 95 showing where vacant seats may be found handsomely decorated and painted a beauti ful carmine. It weighs 28,000 pounds, and cost \$3,500. Last week a large party of Bos-85 ton electric street railway men visited Pull-30 man and made a careful inspection of its merits, departing with the promise of an order for a large number of cars for use next

summer. by a number of Chicago capitalists for the manufacture of this new car, and they hope E. S. GILES, to be able to furnish an important factor toward solving the transportation problem during the World's Fair. The new car will be known as the Pullman center vestibule street car with upper seats.

This new motor, with street cars corresponding to the Pullman palace cars on steam roads, marks a new era in street railroading. AN IMPORTANT LOCAL INDUSTRY.

It should greatly redound to the credit of the Westinghouse Company that motors manufactured by them are the first to be placed under cars of such large dimensions, and it showed conclusively that confidence was placed in the motors manufactured by was placed in the motors manufactured by that company. This type of car, on account of its novel features and great carrying capacity, will no doubt meet with much favor and will be placed on very many street railways where the traffic is exceedingly heavy, and as it has been proven by this that the Wastinghouse maters possess test that the Westinghouse motors possess the requisite qualities for this severe service. the result cannot fail to be of great advant-age to this Pittsburg industry in largely increasing the amount of railway business now being done by them.

Boys' Suit Sale on Monday. Monday we have arranged a great day for the boys. It will be a gala day in our boys' suit department. 500 Boys' short pants suits, neat cassi-meres and cheviots, sizes 4 to 14, at \$2 00

size)

every dollar's worth of 30c, 40c, 50c and 60c tea, or 1 pound of cut loaf sugar with every pound of tea.

Goods delivered free to all parts of both cities. To those living out of the city we will prepay freight on all orders of \$10 and upward to any station or landing within 100 miles of Pittsburg. Send for price list M. R. Thompson, 301 Market street, opposite Gusky's.

PEOPLE GO WILD WITH JOY.

Happy Hearts, Joyous Faces and Encou aging Words. When you hear people uttering words one after the other that the sacrifice tailor-

made clothing sale now going on in this city at 646 Liberty, corner Sixth avenue, is a godsend to this community, the public can rest assured that it's fully appreciated by the rich, and especially those whose means are limited. The sale will commence again Tuesday morning and continue from day to day until the goods are entirely sold out. Mr. Morris E. Moses, our townsman, who has charge of the sale for the New York creditors, is sufficient guarantee for its reliability and the public can rest as-sured that the unheard-of bargains will encourage you to buy whether you want to or

Forced to the Highest Pinnacle Of Popularity By the Thunder-Toned Voice of Public

Acclamation, Our Enchanting Millinery Dep'm't Stands Without a Peer in the

Production and

CREATION OF HIGH-CLASS,

ARTISTIC MILLINERY

AT EVER POPULAR LOW PRICES!

'Tis with a feeling of pardonable pride, and most extreme pleasure, we again invite all ladies within a radius of 200 miles to visit this, the acknowledged Leading Millinery House, not only in these two cities, but in broad Pennsylvania for that matter. The inspirations and revelations of High-Class, Artistic Millinery, always to be seen here, are comparable with anything to be found in the metropolitan cities of the universe. Then our stock of Untrimmed Hats is enormous; there's over 150 styles to select from, nothing lacking that is worth consideration. Then, we've got everything for the adornment of headwear the most exacting heart of lovely woman could desire. Besides, when materials are bought here,

THEN THERE'S NO CHARGE FOR TRIMMING.

Just as anticipated, our "Sealette" garments have taken the town by storm; little to be wondered at. though. Much superior to Plush and no more expensive, besides being scarcely distinguishable from Alaska Sealskin. Ladies, you'd do well to examine these beautiful "Sealette" garments before pur-
