IS EXPECTED THIS WEEK.

The great scarcity of choice creamery but-

continues, and an advance of Elgin is sure

to come before the week is gone. Leading

jobbers report that it is impossible to meet

demand for good creamery butter. Strictly

fresh eggs are in short supply and readily

bring outside quotations. The week opens

with heavy receipts of grapes, the total be-

ing about ten carloads. Markets are quiet,

with prices a shade lower. Peaches still

linger, but demand is slow. In vegetable

lines we note an improving market, a con-dition explained by the advent of frosty

weather. Potatoes are no longer in short supply, as they have been for a week or two past. Sweet potatoes are quiet.

# MORE GOOD CATTLE

Offered at East Liberty This Week Than for Some Time, and

" in Active Demand.

HOGS DROOPING AND SHEEP HIGHER

OFFICE OF PITTSBURG DISPATCH, )
MONDAY, Oct. 12. (
At the East Liberty stock yards there were 120 car load of cattle on sale at the opening of the markets against 97 loads last Monday and 83 loads the previous Monday. General quality of to-day's offerings was a fair average, and rather above that of last week. There were 40 loads from Chicago, and the other 80 loads were in the main from Ohio and Indiana with a few from Pennsylvania and West Virginia. Buyers were present in the usual number, and, notwithstanding the increased run, markets varied little from last Monday. While there were no cattle last week above \$5.00 per cwt. on car load lots, this price, was refused for four loads of Indiana beeves which were held at \$5 25. Good stockers and feeders were steady at last week's prices as were were steady at last week's prices as were light, smooth butcher beeves. Fresh cows were in moderate supply, and those of good grade were in demand at last week's prices, the range being \$50 to \$45 per head. There were 150 head of calves on sale and the top price was 6006 ac per pound, only a few extra fine reaching these figures. Sheep in Light Supply.

There were all told but 13 double deck loads of sheep and lambs on sale at the opening of markets against 15 loads last Monday

For all good stock, markets were active and strong at better prices than ruled a week ago. Top price of sheep was 55 e and lambs 6c per b, being a 1/2 advance over last Monday for sheep and 1/2 for lambs. The facts are that choice grades have not been in sufficient supply to meet demand for some weeks past, while common and low grade stock has been overabundant. Horse-Receipts were the largest of the season, the total being 53 carloads against 30 cars last Monday. The proportion of good corn-fed stock shows a steady gain week by week, and with the interconnection of good corn-fed stock shows a steady gain week by week, and with the improvement in quality comes a steady de-cline in prices. The top of the market for hogs to-day was \$5 15 to \$5 25, which was a 25c per cwt, below last Monday's prices. At the decline markets did not show any great the decline markets did not show any great activity. The time is here when receipts of hogs will be on the increase. At Chicago to-day receipts were 28,000 head, and top price there was \$4.90. The great corn crop begins to show its influence in the declining prices of hogs and hog products. Allegheny Yards.

At the Herr's Island yards the run of cattle was below late average in number, but were sufficient for all demands. Heavy were sufficient.

MARKETS SHOW LITTLE CHANGE

CHICAGO—Wheat opened weak and lower to-day. The prime cause was the Government crop report of Saturday, which was promulgated after the close of the Board. It indicated the very large total of about 500,000,000 bushels as the season's yield, which would give a surplus of about 230,000,009 bushels for export, according to local experts, and a heavy decline was looked for.

Liverpool reported a decline of 1/4 in spot

and ld in futures, but London was 9d nigher on California wheat to arrive and New York started lower. The first sales here showed a decline of 1½c from Saturday's close, but almost immediately began to develop strength and eventually advanced 1c, but lost part of the improvement. The early advance was the result of good buying orders from New York and some bullish re-

ers from New York and some bullish reports.

One of these was the published statement that Germany and the United States had signed a convention, by the terms of which all American cereals would be admitted into termany, duty free, in return for the free admission into the United States of German beet sugar, free of duty, after January 1 next. In spite of dispatches somewhat confirmatory of this report, it was not generally believed here; but it nevertheless caused some covering by timid shorts and helped the advance. The news which had a more decidedly bullish effect on the market in the early trading was the Weather Bureau report indicating min with probable snow on the unthreshed wheat shocks in the Northwest, with continued clear, dry weather in the Southwest, which, it was argued, would further delay which, against December opened at 185,000 to wheat

becamber opened at 98/4@981/c, against

December opened at 984@984c, against 994c on Saturday at the close; sold up to 984c, off to 984c, up to 984c, receded to 984c, railied near the close to 184c, and closed steady at 884c.

Corn was hervously strong. The market opened 4@1c lower on the Government report placing the condition at 22.5 against 91.1 hast month, and indicating a cron of 2 900,000,000 bushels, but soon sold up 1824c on liberal purchases by the local shipping contigent and shorts who came in on the advance. Realizing carried the market back 1/201c after which it ruled firm. October opened at 522c against 53c at the close on 8 aurday; sold up irregularly to 15c; reacted to 36c around which figure it held for a long time; then near the close advanced to 54 c and closed at 543c.

Outs were quiet and steady, closing 1/200 higher.

recovering most of the decline later in the day. The liquidation was again very gen-eral and the demand was slack and bids much reduced. The big stock of pork here was the depressing factor, and the weakness in this dragged down the long futures. The close shows a loss of 756015c. Lard is 7450134c lower and ribs 756015c.

# A BIG EAST END DEAL.

The Wilkins Property, on Penn Avenue, Changes Ownership.

A VERY FINE MANSION TO FOLLOW.

Eusiness Conditions Present a Healthy and

This is not the original Wilkins home stead, but it has been owned and occupied by different members of the family for many years, and is a landmark in that quarter of the city. It fronts 160 feet on Penn avenue and extends back about 650 feet to Juniatta street. The price, when estimated on the Penn avenue frontage, \$250 a foot, seemspretty steep, even for that excep-tionally favored popular locality, but when gauged by the square feet, 104,000, it looks quite resonable. It is Mr. Jackson's intention to demolish

early next spring, and begin the erection of an elegant stone mansion, to be finished and ready for occupancy by April 1, 1893. Before entering upon this deal Mr. Jack-son had the adjoining property on the east under consideration at \$125,000, but a hitch occurred. He then opened negotiations with Mr. Wilkins with the result stated.

The Business Situation. The week's business opened under auspi cious circumstances. Weather was perfect, making everybody feel like being up and doing. There was no news to depress, but much to confirm and strengthen confidence in the soundness of the conditions and elevate faith in the outlook. It should be borne in mind that none of the difficulties which have occurred in Pittsburg during the past five months are traceable to existing conditions. All of them, without exception, are legacies from previous years.

Perhaps the most important feature of the monetary situation is the continuance of gold imports. From September 12, when the movement began, up to date receipts of specie from Europe have amounted to about \$13,000,000, while a large amount is in transit, and will arrive this week. The current estimates that within a short time shipments of at least £10,000,000, or \$50,000,000, from London and the continent will be made are not negatived by anything either in the current export movement or the condition of the foreign money markets. In fact, it is to such expectations that is due the remarkable confidence which is the distinguishing

General trade remains quiet, but exhibited a decidedly broadening tendency. It cannot be expected, remarks the Financial Chronicle, that after the many adverse influences and events which marked the course of affairs between the summer of 1890 and the summer of 1891 a sudden and radical recovery should ensue even though radical recovery should ensue, even though the outlook for the future appears very promising. Yet there are distinct signs of improvement, and so far as can be judged from the leading conditions which must control the course of business during the next 12 months, such as crops, exports, railroad earnings, etc., the indications point as strongly to a revival of activity as they did a year ago in the opposite direc-

Railroad earnings continue to show large gains. Important features in these reports are the small number and extent of the decreases shown as compared with September a year ago, and the large number and heavy volume of increases reported resenonding month a r decreases of any kind, and, with four ex-ceptions, these decreases are slight. Cash Rather More Active, With Enough to Meet All Calls.

The local money market was fairly active yesterday, with an abundant supply of funds to meet all calls and plenty left over. There were no symptoms of a stringency or even of an advance in rates, which were 667 per cent. At these figures all good borrowers were promptly accommodated. Bank clearings were up to the best level of the year, aggregating \$2,657,225 52; balances were \$270,435 86.

### A SUCCESSFUL BEAR RAID. CHICAGO GAS THE ONLY STOCK TO

ESCAPE THE PRESSURE.

Atchison and St. Paul the Only Active Shares-A Steady Decline in Prices From the Opening to the Close-Rail- ter noted for a number of days past still road Bonds Dull.

NEW YORK, Oct. 12.-The stock market today was again only moderately active, while weak in tone, and while no sudden downward movement took place during the day the steady pressure to sell caused material losses before the close of business. The pressure brought to bear was caused by another bear raid under the leadership of Mr. Cammack, whose brokers attacked the entire list, making a general and uniform movement over the whole market. No support was accorded prices anywhere, and only the natural strength of the market pre-vented a sudden break in some part of the

There were only two really active stocks to-day—Atchison and St. Paul—but the former furnished about one-fourth of the today—Atchison and St. Pain—out the former furnished about one-fourth of the entire business done.

The opening of the market was in sympathy with a lower London market, and selling by the foreigners as well as the bears had the effect of opening the market at declines from Saturday's figures of from ¼ to 1 per cent, Sugar, New England and Hocking Valley showing the largest losses. There was no relief from the steady pressure, however, at any time during the day, and the opening figures in most cases were the best of the day. Chicago Gas was the only exception to the rule, and it was very strong in the early dealings, in the face of the weakness in the rest of the list, rising ½ per cent and holding the advance to the close, though it was only fractionally higher owing to the decline at the opening.

When well into the afternoon the leading When well into the afternoon the leading shares, including Atchison, Missouri Pacific, Rock Island, C., C., C. & St. L., Wheeling and shares, including Atenson, Missouri Pacine, Rock Island, C., C., C. & St. L., Wheeling and Lake Erie, Cordage, Sugar and some specialties, were all down over I per cent from the opening figures, and the downward movement made little or no further progress for the rest of the day, covering keeping prices within narrow limits, while making no recovery. The market finally closed dull and steady at or near the lowest prices reached. The list to-night is all lower and the material losses include Sugar, 1½; Buffalo, Rochester and Pittsburg, 1½; Lake Shore, 1½; Atchison, C., C., C. & St. L. and Northwestern, each 1½; Rock Island, St. Paul, Missouri Pacific and Wheeling and Lake Erie, each 1½, and Wabash preferred, 1 per cent.

Railroad bonds were quiet to dull and the dealings extended to an unusually small number of issues. Atchison incomes were the only one showing any animation. Total
