### MANY ORDERS PLACED.

A Much Better Demand for Pig Iron, With Prices Holding Up.

STIFFENING IN SOUTHERN RATES. Clear Advance of Twenty-Five Cents on

Western Sales. STATE OF THE FOREIGN METAL TRADE

"SPECIAL TELEGRAM TO THE DISPATCH.] NEW YORK, Oct. 15.-The Iron Age reports the iron and steel markets as follows: American Pig-Sellers in this section re-American Fig.—Sellers in this section report that while an effort is being made to
obtain full prices, occasional weak spots do
appear, so that in some instances buyers

selling orders and the one of that market was very weak.

December, which closed yesterday at 83½c,
instances buyers

and gradually sold off to 98c, reacted to 98½c,
remained steady until near the close, when

nominally at \$27 50@28 00 for German and English. Foreign manganese has been sold only in a jobbing way, with tidewater price remaining nominally at \$64.50.

Billets and Reds-From the West come reports that the mills, while willing to book erders for domestic billets at \$25, show no disposition to shade \$25.50 for delivery after the first of the year. Foreign billets may nominally be quoted at \$31 00@31 50. In domestic rods a tidewater works has had placed an order for upward of 10,000 tons, and has also taken a quantity of No. 9. We continue to quote \$37 50@38 00 at tide-

Manufactured Iron and Steel-Bids for the McComb's dam bridge have been opened, the lowest bidders being the Union Bridge Company. As yet, however, the contract has not been closed. During the week the Rothschild building, calling for about 2,000 tons of structural material, was taken, as was also another structure requiring about 1,000 tons. Local mills report only a mod-crate amount of business. The fact that ut 13,000 :ous have been placed in Philadelphia for the Reading Company indicates that some of the mills are getting into good shape for luture orders. We note an inreased disposition to introduce the foreign beams into this market, a number of firms having the matter under consideracontinue to quote: Angles, 1,900;2,10c; sheared plates, 1,950;2,25c; tees, 2,450;2,75c,

Track Material—We quote 2.15@2.25c for spikes, 1.75@1.90c for fish plates and 2.80@ Old Material-Free offerings of old material continue better, but with very little lusiness doing.

### FOREIGN METAL MARKETS.

More Business in Tin Plate, but Little Doing in the Pig Iron Line.

New York, Oct. 15 .- [Special.]-The foreign metal markets are thus reported by the Iron Age. In London the movement in prices of pig iron warrants has been light, and the market is without important new features. There have been more buying orders about, but few lots changed hands, as buyers' limits were too low. Stocks in warrant stores have failen off slightly. The totals are now 499,000 tons Scotch and 159,000 tons Cleveland. Latest sales of warrants were at 47s for

chiefly for consumptive account.

Early in the week the copper market was depressed by rumors of a reopening of the Anaconca mines and the reported sale of the Societo des Metanx works and stock. Later on prices improved under the influence of purchases to cover short accounts and better buying on the part of consumers. There is still a feverish feeling, due to uncertainties regarding Anaconda and the French interests. In fin plate there has been more business. Some good Russian and Frisco lines were booked, American buyers seem morejaclined . American buyers seem more inclined Exports last month were 26,000 ch 11000 went to the United States, against \$1,000 tons and 25,000 tons res pectively in September, 1893.

The Metal Market. Your-Pig iron dull; American \$15 75@18 00. Copper steady; lake, Octo-ber \$12 10; do. November \$12 10. Lead weak; domestic \$4 35. Tin quiet; Straits \$20 15.

#### THE COKE MARKET.

A Slight Improvement Shown in Shipments for the Past Week.

SCOTTDALE, Oct. 15.-[Special.]-The coke shipments for the week ending October 10 show slight improvement. The Eastern and Western consignments fell off, but the Pitts-Western consignments fell off, but the Pitts-burg shipments increased R6 cars, and over-belanced the decrease to other points thears. The Frick Coke Company are operating about 65 per cent of their ovens four and five days a week, multhe McClure Coke Com-pany are rauning 52 per cent of their ovens jell time. The Southwest Coal and Coke Company and several "independents" are on full time. Cars never were so pienty this time of the year, and the continued dullness as the result of "no demand." Building ovens and repairing those file continues despite the bad condition of trade. The shipments for last week were 6,757 cars.

The shipments for inst week were 6,757 cars.
The week previous 6,716, showing an in-The week previous 6.716, showing an increase of \$1 cars. They were distributed as follows: To points west of Pittsburg, 2,557; to points sest of Pittsburg, 1,06; to Pittsburg, 2,567; to points sest of Pittsburg, 1,06; to Pittsburg, 2,569. Prices remain as quoted last week: Farnace coke, \$1.20; foundry, \$2.36; crushed, \$2.55, \$1,00. \$2.65, all f. o. b. cars at ovens, per ton of 2,000 pounds. The output in tons was 121,63%

## BEARS IN FULL CONTROL.

Core Leads a Heavy Slump in Cereals, Closely Followed by Wheat-The News Nearly All Favors Lower Prices-A Small Rally in Both.

CHICAGO-The bears were on top in the graduples this morning. The news was all in their favor. The result was a decided slump in corn especially, though there was a partial recovery later. While wheat resensed during the session it was not as weak
to corn, and every onslangut was stubbornty o meaned. The surprising thing is that,
the included bear news in the early trading there was not a more marked decline.
Cables were weak and lower, both in
Grant Britain and on the continent. New Great Britain and on the continent. New Tork opened weak and lower and continued to weaken, while Minneapolis and Pullath were off Kole, and all were sellers in this market on the improved weather in North Dakot, and the published statement that

the damage to wheat in that State had been the damage to wheat in that State had been grossly exaggerated. The weather there to day was clear and cold, with the early resumption of threshing expected. The receipts both here and in the Northwest were larger than were looked for. Reports from the Southwest were also encouraging, the late rains having expedited the fall seeding. The State reports of Michigan and Kansas indicated a total yield of \$11,030,000 more than that given by the Government crop report.

than that given by the Government crop report.

The Cincinnati Price Current had a bearish article saying that the recent rains in the Southwest had led to much fall seeding during the past week and that the general situs ation was much improved; that farmers were not delivering freely, but that millers were restricting their purchases; that the world's deficiency in breadstuffs was about equal to the European rye shortage, and that extreme prices were unlikely. On the weakness in the situation the longs began to unload and short sellers were greatly encouraged. Not only the local loars, but some big lines held by outsiders, notably for New York came on the market. A New York dispatch reported that most of the foreign houses there had selling orders and that the tone of that market was very weak.

appear, so that in some instances buyers succeed in covering requirements for the near future at prices close to the lowest made. Southern furnaces are stiffening. During the past week there have been sales in the West of large lots, including one block of 10,000 tons, another of 9,000 tons, and a third of 7,500 tons, for delivery during the early part of next year, on the basis of \$10, Birmingham, for gray forge and \$10 25 for No. 3 foundry, figures which show a clear advance of 25c a ton. We understand that the Tennessee Coal and Iron Company had on their books orders aggregating \$0,000 tons on October 1, and have since then added nearly 30,000 tons more. We note also a sale in the Lehigh Valley of 5,000 tons of gray forge to a local mill at \$13 7.5. We note also a sale in the Lehigh Valley of 5,000 tons of gray forge to a local mill at \$13 7.5. We note also a sale in the Lehigh Valley of 5,000 tons of gray forge to a local mill at \$13 7.5. We note also a sale in the Lehigh Valley of 5,000 tons of gray forge. Southern iton sells at \$16 256 17 for No. 2, and \$14 000 tons within the remainded steady until near the close, when a dispatch was received from London saying that Russia had prohibited the exhout of maize to go into effect to-morrow. This gave the stubborn buils the upper land, and, in the last few minutes, they put the price up to \$25c, at which it closed firm.

Corn was fairly active and decidedly weak. The receipts were a little above expectations, and included il cars of new corn. The was paparently beginning to arrive freely, supparently beginning to arrive freely, supparently beginning to arrive freely supparently

### THE NEWSBOYS' HOME

Plans Accepted for a Stone Structure Three Stories High.

SUCCESS OF A NOBLE ENTERPRISE.

Features of the New Postoffice District Now an Attractive Card.

TREND OF MONEY AND SPECULATION

It was learned yesterday from good authority that a design had been accepted for the Newsboys' Home to be erected at the corner of Old avenue and Shingiss street, on ground donated for that purpose by Mrs. Schenley.

Several plans were sent in to the committee, all being so good that it was a difficult matter to make a choice. The one selected contemplates a stone building about 100 feet square and three stories high. It will resemble in a general way the Carnegie Library building at Braddock, but will be handsomer. The completed structure will cost about \$50,000. Ground will soon be broken and work pushed forward as fast as

The promotors of this noble enterprise are to be congratulated on the success which has so far attended their efforts to provide a home for an army of little folk to people should not only be willing but anxious to extend a helping hand.

A Progressive District. Fourth avenue is the Wall street of Pittsourg. Its growth as a financial artery has been rapid and gratifying. It is the center of the banking and real estate district. The occupancy of the new postoffice has given it a fresh impulse, and the completion of the big buildings that are under way and of several others that will be erected next spring, will give it a still greater lift.

It has been stated that the demand fo

business property is centering in the district bounded by Fifth avenue, Grant and Wood streets and the river. Of these thorough-fares Smithfield street and Fourth avenue are in most favor, and nearly all the im-provements in sight in the precinct in ques-tion relate to one or the other. Good, round prices have lately been realized on Smithfield, but a deal or two will probably be concluded before long which will break the record.

The sale of a property on Third avenue for \$27,000 was reported in this column yesterday. Another deal is pending in the same locality involving about \$40,000. This street has always been backward, but it is attained to the same locality in catching the progressive spirit displayed or Fourth and Smithfield, and promises to be the scene of considerable activity within the next few months.

Old and New Pittsburg.

Mr. William Overton, a former Pitts burger, but who has made Denver his home for some years, was in the city yesterday. In the course of a short interview he said "I used to think Pittsburg a handsome place; but I find it so much improved that scarcely recognize it. Many of the landmarks of my boyhood have disappeared, notably those on Fifth avenue and Smithfield street and Fifth and Wood, and in their places I find stately blocks that would be a credit to any city. I am prouder of my native place than ever."

There is food in this for reflection. As a rule citizens do not appreciate Pittsburg at its real worth, and it is left to outsiders to spread its fame and extol its advantages to the manufacturer, the merchant and the home-seeker. More local pride would be a good thing for the city.

Business News and Gossip. The Third avenue deal, reported yesterday, involved \$27,000, not \$7,000, as printed. Such depreciation in values would be re-

markable. The Financial Chronicle says of the Westinghouse Electric and Manufacturing Company: "As reorganized, the company will be without debt, and will have a cash working capital sufficient for all its purposes when conducted on an economical basis, and this basis has been attained by the econo. mies which have been enforced by circumstances and by a careful consideration of the future needs of the company."

The Norwalk Savings Bank is a new van ture at Norwalk, O. The capital is \$100,000. The Edison people expect to occupy the building in course of erection at the corner of Wood and Diamond streets about Novem-

ber 15. The Building Inspector has had an easy time this week. Only three permits were issued yesterday, all for small improve-ments, the total cost being estimated at

\$2,030. At the last call yesterday 1051/2 was bid for Citizens' Traction 5s. They were offered

at 10614.
The National Cordage Company has advanced the price of its product 10 per cent.

It is probable S. V. White & Co. will settle on the basis of 50 cents on the dollar. Rea Bros. & Co. are settling with their creditors and hope to resume in a short

At Buenos Ayres gold is quoted at 350 per cent premium. Lincoln school bonds are now on the mar-

ket at par and interest. The J. C. Russell Shovel Company was chartered at Harrisburg yesterday. The in-corporators are: James C. Russell, John J. McKee and N. R. Snyder, of Pittsburg; Albert C. Wettengell, of Chartiers township, and Alexander Morrison, of Beaver

Falls. The capital stock is \$50,000. The Watsontown Bridge Company, of Northumberland county, capital stock \$1,000, has secured a charter.

Movements in Realty. A. J. Pentecost sold for Charles R. Weitershausen and Philip Richter, executors of the estate of Catharine Richter, deceased, a lot of ground on Perry street, Al-

legheny City, 33x150 with a brick and frame dwelling, for \$6,000. Ira M. Burchfield sold another lot in the Oliver terrace plan to Stephen W. Tener, for

\$1,500. It adjoins the one previously pur-chased by him, on which he is erecting a fine residence.

John K. Ewing & Co. yesterday offered for sale at auction the property No. 114 Taggart street, and withdrew it at a bid of

\$2,875 until further notice.

Denniston, Elderkin & Co., Lim., report the following sales: For W. H. Denniston to Mrs. Buiah Armstrong a lot on Ren-frew street, East End, corner of Xenia alley, 35x100, with a frame house of five rooms, for \$1,100 on easy payments; also for Caroline Heasly to James Brawdy a lot on Inwood street, Twenty-first ward, East End, with a two-story frame house of five rooms. for \$2,000, terms, \$500 cash and balance on time; also for J. L. Stevens et al to Mrs. Rebecca Sherfy a lot 25x120 feet, on Hastings street, for \$1,050 cash, on which a two-story frame house will be built at once. Charles Somers & Co. report the follow

ing additional sales of lots at Blaine: Cas per Fertig, city, lot 3, in block 4, \$300; Henry Marcer, Bucyrus, O., lot 6, in block 8, \$400; P. R. Strohnmeyer, Southside, city, lot 52, in block 13, \$400; A. C. Skelton, Allegheny, lot 78, in block 10, \$500; Warren Purdon, city, lots 33 and 34, in block 8, \$400 and \$450, respectively; Fred U. Miller, Steubenville, O., lot 53, in block 8, \$200; William Stitzer, Southside, city, lot 69, in block 11, \$400; Eliza V. Jones, Allegheny,

lot 61, in block 9, \$400. Reed B, Coyle & Co. sold through Baxter, Thompson & Co. two lots in the Eleventh ward, fronting 44 feet on Erin street by 115 feet in depth to Trent street, for \$2,700 Black & Baird sold to Conrad Housman

lot 62 in the T. A. Gillespie plan of Herron Hill Park, Thirteenth ward, for \$520. Baltensperger & Williams sold for J. R. Leyton, to a prominent business man of Pittsburg, a handsome Queen Anne brick

being liberally taken. Switch and Signal fell back at the second call, but recovered at the third.

With the exception of Pleasant Valley, which was hammered down a point, the street rail way list was about steady. Most of them have improved their running time, and as a result are carrying more people. This accounts for the better position they occupy before the public.

The natural gassers were still in the background, and weak as well. The season is approaching when their capacity will be put to the test, and it is not likely that they will be much of a factor until the result is known. A mere hole in the ground is poor property.

Sales at the first call were 25 shares of Pittsburg Traction at 42,5 Chartiers Gas at 5,86,600 Birmingham Traction bonds at 93, and 5 shares of stock of the same company at 174. There were no sales at the second call. At the third, \$3,000 Allegheny county riot 4's went at par and interest, 100 Luster at 12½, 150 at 12½, and \$500 Electric scrip at 70.

Bids and asking prices at each call are given in the subjoined table:

#### WALL STREET'S REVIEW.

MISSOURI PACIFIC LEADS IN A MOD-ERATE ADVANCE.

The Force of the Bear Movement Not Entirely Destroyed-Russian Loan News Has a Favorable Effect on the Market-Railroad Bonds Quiet.

New York Oct. 15 .- The assurance that the Russian loan will be taken in full created a favorable impression upon the financial market of Europe, and led to a much better feeling upon all classes of securities in London, with the effect of higher prices at that center and an unusual number of buying orders in this market for foreign operators. The bear element at the Stock Exchange, however, has not as yet changed its position however, has not as yet changed its position on the market and the traders follow still closely in their footsteps, although some of the latter went over to the bull side to-day. Beyond the resumption of the publication of its earnings by the Missouri Pacific there was nothing in the news of the day to have any particular effect upon the course of prices to day; but there was good buying, and this induced many of the traders to call in their shorts and get over on the other side. This movement gave great strength to Missouri Pacific, and it was again the leader of the market, but in the upward direction instead of a decline. Beside Missouri Pacific marked strength was shown in Pacific marked strength was shown in Louisville and Nashville, which was bought largely for foreign account, but the rest of the list failed to make any marked move-

largely for foreign account, but the rest of the list fatled to make any marked movement at any time of the day.

The opening figures showed advances over those of last evening, extending to ½ percent, and the force of the demand sent the whole list up small fractions further in the early dealings. The full bear contingent soid stocks freely on the rally, however, and most of the list was again brought down to and even below the opening prices. Dullness followed the accomplishment of this result, and while prices crawled upward no feature marked the trading until well into the afternoon. The buying by brokers identified with the Gould party then became very marked, and many of the shorts went into cover with the effect of advancing prices materially all along the line, while increasing largely the volume of business.

There was again considerable short selling on the top of the rise in the last hour, and some slight recession from the best figures was made, but the market closed quiet and steady to firm at or near the highest prices of the day. The final changes are almost invariably advances of fractional amounts, but Louisville and Nashville rose 1½ and Missouri Pacific 1½.

Railroad bonds were still quiet with a steady to firm tone, and displayed few features of interest during the day. The Richmond and West Point Trust 5s made a spurt late in the day, but with this exception and the comparative activity in Atchison in-

late in the day, but with this exception and the comparative activity in Atchison in-comes there were no features. Total sales, 11,900. The highest and closing quotations

#### THE COURSE OF MONEY.

Supply Keeps Up and Rates Maintain Their Usual Position.

Monetary movements and conditions ves terday were about the same as previously reported. There was a moderate demand for loans, discounting was fair and routine business active. The supply was more than sufficient to go round. Rates were steady at sufficient to go round. Rates were steady at 5607 per cent. Bank clearings were \$2,165,415.00 and balances \$407,220.32.

The full in gold imports this week is explained by the falling off for the time being in the effertugs of commercial bills against grain shipments, due to the congestion of all the facilities at European ports for receiving and handling grain. The desire of French financiers to obviate any disturbance of the Paris money market through gold shipments, while the success of the Russian ioan is in question, also has an in-

Russian toan is in question, also has an in-Russian foan is in question, also has an influence in the same connection.

At New York yesterday money on call was easy, ranging from 3 to 4 per cent; last loan, 3; closed offered at 3½; prime mercantile paper, 59,675; sterling exchange quiet and firmer at \$480 for 60-day bills and \$4.854 for demand.

#### GARDEN STUFF FIRM.

EFFECT OF RECENT FROSTS FELT IN BETTER VEGETABLE PRICES.

New York Cheese Still Active-Corn and Oats Weaker, and Choice Grades of Hay Stronger-Coffee Is Quiet and Sugars

Lower. OFFICE OF PITTSBURG DISPATCH, ? COUNTRY PRODUCE-Jobbing Prices-Markets in this line are fairly active and prices are generally steady to strong under the influence of late frosts. Tomatoes, cucumbers, and, in fact, all garden stuff, are moving upward. Receipts of potatoes have been liberal this week, and markets are quiet, with a tendency toward lower prices. Prospects are that potatoes will go under 40c per bushel in carload lots. Grapes are not coming in so freely since the frosts have caught the vineyards of Western New York and Northern Ohio, and tone of markets is firmer. New York cheese and choice Elgin creamery butter are in limited supply, and markets are very firm in both lines. BUTTER—Creamery, Eigin, 34935c; Ohio brands, 2034c; common country butter, 2032c; choice country rolls, 3031c.

REGISTRAR OF TRANSFERS MERCANTILE TRUST CO., 120 Broadway,

WE ARE AUTHORIZED TO OFFER FOR SUBSCRIPTION THE ABOVE ISSUE OF Seven Per Cent Cumulative Preferred Stock AT PAR,

The Preferred Stock is entitled to a cumulative preferred dividend of 7 per cent, pay-able semi-annually on January 1 and July 1, and, in addition, to a proportionate share of all dividends declared in any year, after 7 per cent has been paid on the other stocks outstanding. The Preferred Stock has also s preference in the assets of the company in case of liquidation over all other stocks. The authorized capital stock of the Company is \$10,000,000, of which \$4,000,000 is Preferred Stock. Shares, \$50 each.

The portion offered for subscription will be full paid and non-assessable when taken and paid for hereunder. Application will be made to list the stocks on the New York and Boston Stock Ex-

changes. The proceedings taken by the Company to create this issue of Preferred Stock have been submitted to counsel, and they advise

us that the reorganization and this issue of Preferred Stock are valid in law. The business of the Westinghouse Electric and Manufacturing Company has grown to its present large proportions in about five years. Its growth has been not only rapid, but continuous, and has fully kept pace with

12 months, to 31st December, 1888. . 1,288,569 41 12 months, to 31st December, 1889. . 3,618,379 81 12 months, to 31st December, 1890. . 4,289,086 81 The company manufactures its apparatus at three fully-equipped factories located, respectively, at Pittsburg, Pa.: Newark, N. J., and New York City, which furnish exceptionally complete facilities for the manufac ture of all kinds of electric light and power

apparatus. The company relies chiefly for success upon the quality and mechanical perfection of its work, although it has more than 1,000 patents affording valuable protection against

ompetition. The company will continue to have the benefit of the mechanical and engineering ability of its founder, Mr. Westinghouse. We have made an estimate of the assets of the combined companies, and our examination has led us to believe that, after making liberal deductions for all foreseen contingencies, the assets of the reorganized company will furnish ample security for the total issue of preferred stock, without tak-ing into consideration the value of the patents at all, and that the working capital will be fully sufficient to conduct the business on an economical basis, the saving in the interest account alone being sufficient

to pay full dividends on this issue. Subject to certain reservations detailed in the prospectus, the examination of the accountants shows an average profit of \$443,-140 53 per annum for the periods considered. We invite subscriptions to the above-men-tioned preferred stock AT PAR, payable as

follows: 10 PER CENT ON APPLICATION. 30 PER CENT ON ALLOTMENT, 30 PER CENT ON 2D NOVEMBER,

30 PER CENT ON 23D NOVEMBER, Subscribers have the option of paying to full for the stock allotted to them, and interest on the anticipated payment will be allowed at the rate of 4 per cent per annum. The right is reserved to reject or reduce any subscriptions and to make allotments of less than the amounts applied for. In allotment, preference will be given, so far as practicable, to those stockholders assent-

as practicable, to those stockholders assenting to the recent plan of reorganization and
to employes and dealers in the company's
manufactures.

The failure on the part of the subscriber
to pay any installment when due shall operate as a forfeiture of all previous payments.

The subscription list will open simultanemakes it to clock A. M. or Wednesday, the ously at 10 o'clock A. M. on Wednesday, the 14th day of October, 1891, and close at 3 o'clock P. M. on Friday, the 16th day of Oc-

tober, 1891, at our offices. AUGUST BELMONT & CO., 23 Nassau St., New York. LEE, HIGGINSON & CO.,

Copies of the plan of Reorganization, the prospectus, with full details and forms of application can be obtained at the offices above mentioned. Subscriptions will also be received at FIRST NATIONAL BANK, Pittsburg, Pa. The subscription for the entire amount of the Preferred Stock above offered has been
