NEW ADVERTISEMENTS.

OUR FOREIGN TRADE. Bradstreet's Figures That the Vol-

ume of American Exports BREAKS ALL PREVIOUS RECORDS.

Business Better in the West and South,

Quieter in the East. PITTSBURG CLEARINGS DECREASING

PERSONAL TELEGRAM TO THE DISPATOR 1 New York Cet 16 -Colder weather at many points East and West has stimulated sales of staple drygoods, clothing, woolens, shoes and bats, and special telegrams to Braddreet's in a majority of instances make mention of the resulting improvement. Heavier receipts of cotton at New Orleans have encouraged freer purchases, although wheat receipts there are checked by low water in the Mississippi near Cairo.

St. Louis reports a good Southern demand in general lines, although provisions are sluggish. The volume of business at Kansas City continues in excess of that for the like period in 1890, and at Omaha the outlook is considered very bright. Hogs there are 10 cents lower per hundred, and cattle a like amount higher. Cincinnati furnishes the exception to the rule, with a tendency to deeline in both volume and prices, except for winter fabries and iron, which are firmer.

TRADE IN THE NORTHWEST. Chicago, St. Paul and Minneapolis all report a fairly active distributive movement, The Sault canal blockade checks lake shipments of wheat from Duluth. Portland, Ore., is shipping wheat to San Francisco owing to the scarcity of tomage for export.

A mass meeting at San Francisc) to-night
will demand lower overland rail rates from
the Transcontinental Association. Fruit shippers will lead the movement.

Tron production has increased about 44,000 tons within a month, without an ne-knowledged increase of turnare stocks, an

expected tribute to the extent of the and to-mouth demand. Cotton varn makers report an improved demand. Drygoods at New York are in only moderate request. Openings of the new spring goods by agents have been the feature, with a fair business. At Boston trade is more active, with expert demand most prominent. Print cloths are weaker, on being again in excess of sales larger prices are quoted on some all-wool cross goods at New York. Wool is in light demand, but firm. Cotton is 14c off on large crop movement. Rubber is higher. Ran augur is 1-16@ Le up. Refined is in

PASLUDES AND STOCK SPECULATION. Business fallures in the United States number 198, against 230 last week and 177 this week last year. The total from Janmany 1 to date is 9,448, against 7,985 last

The dull, drooping and professional char-acter of stack speculation has given place at the close of the week to increased activ-ity and higher prices, due to covering of the large short interest, supplemented by in-creased fereign buying.

This revieing tendency in speculation is screased by the easier tone of the New York money market on the receipt of gold from Europe and a decreased movement of funds to the interior. Foreign exchange, however, had advanced on a decreased supply of commercial bills and the covering of sterling loans. The rise has temporarily checked the imports of gold from Europe, although about \$1,000,000 are now on the

Italiway earnings continue to show in creases, though on a somewhat smaller scale than in September, for which the slacker movement of grain would furnish ample reason. Bonds are dull, but the market isplays symptoms of a better investment

DITTSBUIG CLEARINGS DECREASING.

Tetal bank clearings for this week, as seried to Bendurot's from 63 cities, aggretate St 170,712,313 from 60 cities in the approved by Commissioner Ambrose and United States, 13 per cent less than in the like week of 1890. The decline is largely due to heavy decreases at New York for the most part of speculative dealings, Bos ton, Philadelphia. Pittsburg and Mil-scackee. Chicago's total increased 4 per cent as compared with this week a year are. Out of 63 cities reported 43 show decreases, indicating that the recent check to the movement of general trade was wide-

Exports of wheat for this week have about held their own, including flour, amounting to 4,000,447 bushels from both easts of the United States. This is far above the average in like weeks for four preced-ing years. For 16 weeks of the new crop year the total of wheat, and flour as wheat, expected from both coasts of the United States, as reported to Brackfred's, is 66,673,-000 bushels, as against 28,989,000 bushels in 16 weeks of 1890, with Montreal included, as compared with 31,121,000 bushels in a like portion of 1889; 35,952,000 bushels in 1888, and 53,828,000 bushels in 1887.

EXPORTS LABGELY INCREASING. Tids calendar year's export trade promises

to surpass all records. September breadstuff exports are 40 per cent larger than a year ago; for the three months ending Sep-tember 30, 1891, they are 170 per cent larger. Cotton exports for the nine months of the calendar year are 23 per cent larger, and exports of breadstuffs, cotton and petroeum combined for the nine months are 21 per cout larger than a year ago.

Net railway earnings for August on grain-carrying roads show good increases. The recent check to general trade adversely affected carnings on other groups notably Southern and Pacific systems. Net earnings of 122 roads for August aggregate only \$21,746,634, against \$20,557,526 in August, 1880, au increase of only 5.8 per cent, and of receipts 4.5 per cent. The showing is better than in August, 1880, when net earnings decreased 5.4 per cent. Net earnings of 110 roads for eight months increased 5.2 per cent and 2.8 per cent in gross. E. G. Dun & Co.'s weekly review says: Business throughout the West and South is strong and improving. At Eastern centers there is less satisfaction and the expected

results from the harvesting of large crops are more slowly realized. THE VOLUME STILL LARGE.

Yet the volume of all trade is as large as it ever has been, and for October may even surpass the unprecedented record of last vent. The prevailing confidence in the future of business continues unabated, and s seen even in some branches which comdain most of dull trade at present.

The irou trade illustrates these contradictory conditions. The output of furnaces in blast October 1 was 181,615 tons weekly, et the enormous production is marvelously disorbed. The demand for use in producing all kinds of farm machinery and imple-ments is far greater than it has been in any previous year, and the quantity of iron thus hard is enormous. On the other hand, the wool manufacturer is short of orders in the wear department, though Chicago athiers are buying more freely; but on the whole, clothices have not taken nearly their smal supply of goods, and many of the

Harmony at the Methodist Ecumenical Council Yesterday.

RESOLUTIONS AGAINST OPIUM

Social and Labor Questions the Subjects for

Discussion. RELIGION FOR RICH AND POOR

WASHINGTON, Oct. 16 .- When the Methedist Ecumenical Council this morning resumed the consideration of the federation question it was in a calmer mood than when t adjourned in disorder yesterday. The delegates who had participated in the 26.6 heated debate each arose on questions of personal privilege, apologizing for explaining their remarks of yesterday.

The delegates evidently did not care for a repetition of the heated discussion and confusion which this memorial caused yesterday, and several short addresses were made in favor of adopting the memorial. Each resolution separately, and the memo-3.4 rial as a whole, were then voted on and adopted by an unanimous vote. A memorial on the extermination of the liquor traffic was also adopted. The Business Committee reported the following resolution:

THE CONTAGIOUS DISEASE ACT. The conference expresses its devout thankfulness to Almighty God that, through the growing influence of Christian opinion, the contagious disease acts have been abolished in the United Kingdom, but deeply regrets that such immoral legislation is still in force in various other parts of the world in force in various other parts of the world. The conference further declares its earnest hope that the Christian sentiment will soon make such immoral legislation everywhere impossible, and, further, the conference records its strong conviction that men of notorlously immoral lite should not be allowed to occupy places of public trust and authority.

The resolution was adopted without debate. The committee also reported a resolution demanding the complete suppression of the opium trade in all parts of the world. It was adopted.

The morning topic for discussion was "Social Problems," and the labor question was treated by a number of speakers lead by Hon. Alden Spears, of the Boston Chamber of Commerce

credited to his individual account at various times. Another secret just out is that of the \$40,000 claimed to have been drawn out by a depositor during the last three days before the bank closed. Dill and his people drew \$37,000. This left not \$3,000 to be WORK FOR RICH AND POOR Bishop W. W. Duncan, of the Methodist Episcopal Church South, Spartanburg, S. C., presided at the afternoon session. Rev. Peter Thompson, of the London Mission, Wesleyan Methodist Church, read an essay drawn by the depositors. It is also to be shown that Dill took away during the last upon the "Obligations of the Church in Re-lation to the Social Condition of the People." There had been culpable neglect and indifference on the part of all churches, and vidual paper in its place. The officers claim that they can recover this, and will try to the rapid changes of recent years involving the degradation and ruin of multitudes had do so. Some of this paper went to the Curwensville bank, of which Dill's son-innot been watched and dealt with as they should have been. He was coming to the nw is eashier.

Efforts are now being made to trace the conclusion that almost the worst doom that could come in this life was the workhouse rest of the paper and enter proceedings against the holders. Officials say there are for men and women and pauper schools for six separate and distinct charges to be made children.

Rev. William McKee, United Brethren in Christ, of Dayton, O., said the Church must get down to and sympathize with the poor, in order to lift them up into a better condition.

thing from what is now known to be the mere wreck of a bank. When the doors closed Wednesday, September 30, there were but \$1,400 left in the bank vaults. Rev. Dr. Thomas Allen, of the Wesleyan Methodist Church, England, devoted himself to treating the subject of "Christian Work Among the Rich." To grow, the Work Among the Rich." To grow, the Church must expand itself to meet the nation's growth. It must avoid the confield, Pa., attorney for Banker Dill, of that place, appeared here this morning before tracted life of a narrow sect.
"Christian Work in Agricultural Dis-

tricts" was the theme selected by Rev. J. C. Hartzell, Methodist Episcopal Church, of Cincinnati. As in the past, so now, the papers, to show that Dill had gone before Judge Krebs, at Clearfield, Thursday, waived a hearing and entered a recognizance for his appearance at the next session of the moral forces of the Christian Church came from those who had received their training away from the large centers of population. Rev. Dr. E. J. Brailsford, of Scotland, said it was possible to forget the claims of the villages. How to purify the moral cesspool in the cities was the question.

After several short addresses on kindred pies a recess was taken

OVERCOATS

At far below their actual value, garments made to sell at \$18, \$20 and \$22, we advertised them for this week at one uniform price of

During the past two days the people have responded in large numbers and lookers became buyers at short notice when they saw the values we are offering for the

The truth is that in either the Suits or Overcoats we are selling at this price we can fascinate you with fabrics, charm you with colors, bewilder you with novelties both of material and style and gratify you with honest worth of

To all these we add the master stroke when we name the figures with which we are winning your patronage, Come in any time before Saturday night and see what \$15

300 TO 400 MARKET STREET.

Prices to the lowest

Reasonable prices belong with the best tailoring to order and finest goods. We have all three. If you have read our advertisements our plan for making goods to order is The most liberal array of fine cloths and styles you have ever

seen. Hardly possible for you to take time to see them all. You know the usual fault of making-to-measure. Prices steep as if the tailor had a sheep-skin for his skill. We're going to get the trade. We'll let neither uppish prices

nor indifferent work stand in our way.

Any Woman Who Has a Fur Garment.

Either Seal Sacque, Jacket or Fur-lined Circular, should not delay in bringing them to us at once. We can make them into one of the fashionable garments now so popular-either a short jacket, a military cape or small cape. We are prepared with a large force to do them at once. So do not delay. Prices mod-

FLEISHMAN & CO., 504, 506 and 508 Market St.

AT LAST IT RAINED! AND now house cleaning must be finished before cold weather. You will no doubt find on taking down your various door, window and wall hangings, that many are too much soiled to again use. Before replenishing call and see what a beautiful stock of fresh, new style draperies we can show you. We also clean lace curtains and rehang them

for you. Send for our new Curtain Cata-logue. We make over mattresses and re-
