M'EINLET'S WORK IN HIS OWN COUNTY

FROM & STAFF CORRESPONDENT.]

NEW YORK, Oct. 18 .- One of the most striking things developed thus early in the New York State campaign is the extraordinary popularity of Grover Cleveland. For a man who has been set down as a dead political duck this may be considered remarkable. It would be impossible to describe the enthusiasm with which Mr. Cleveland is greeted wherever he goes.

Being a large man physically and an ex-President of the United States he would naturally attract attention in any political body. To anybody who happened to be present at recent demonstrations in New York and Brooklyn it would be at once apparent that the recognition which he receives on these occasions could not be attributed to the fact of his mere personal presence or his former official position. The popular feeling was evidently deeper and the applause which greeted him and followed his utterances has a spontaneity which cannot be manufactured.

This was observable in Tammany Hall as well as Brooklyn. It is worth while to observe that when Mr. Cleveland was associated with Governor Hill on the stand the ovation which was tendered the former completely outshone the demonstration in favor of the Governor. In every one of these audiences the supposed political rivalry between the ex-President and our they were plainly in favor of Mr. Cleveland.

Perhaps this is largely due to the fact for the Democratic party in this State trial. some doubts which were carefully and perthis. It was ardently hoped and perhaps believed by these detractors that Mr. Cleveland would remain quiescent during this struggle, or, at least, that he would take no active part in the canvass.

I don't care what other people do. My impression is, however, that when the polls are closed at the end of this campaign going to do.'

California Corporations Take a Hand. It would be highly interesting just now if it could be ascertained just what part the Californians are playing in this campaign. The Northern Pacific Railroad management

is long headed and far reaching. It is true that candidate Fassett is connected with the Northern Pacific Railroad only by marriage. He may or may not have any by marriage interest in the Northern Pacific beyond the matrimonial one as the husband of million-

aire Crocker's daughter. From this it might be easually inferred that it would be of no particular advantage to the Pacific Railroad people it Mr. Fassett were chosen Governor of this State. But in politics as well as in railroad mat-

ters there are wheels within wheels. The Northern Pacific Railroad has important in-terests pending at Washington. It has re-peatedly sought and obtained favors from administrations. It relies upon important favors yet to come. Where there are milldollars involved it does not seem ions of improbable that the interested parties should keep a sharp lookout for possible favorable or unfavorable contingencies. The Pacific Railroad people have long demonstrated their ability at Washington in obtaining something for nothing. An expensive and well appointed lobby at the national capital has always been found by these people a paying investment.

A Branch Metropolitan Lobby.

Has that lobby opened a branch office in this city? There are certain indications which point that way. The indications will pretty soon appear upon the surface of political affairs. Mr. Fassett is the representative of the Republican leader of New York, but he is not less a representative of the Republican administration of Washing-

heads of its promoters. It would not be surprising if the future should develop the fact that a Northern Pacific Railroad deal closely connects Washington, California and

# SPLIT ON THE LOTTERY.

#### The Breach Wider Than Ever in the Louisiana Democratic Ranks.

NEW ORLEANS, Oct. 18 .- [Special.]-The Democratic State Central Committee adjourned last night after an exciting session of five days, most of which time was given up to a vain effort to harmonize and unite the party on the lottery issue. The lottery faction secured control of the committee and fixed the date for the State convention for December 16. An effort was made to

settle the question in advance of the regular election by a Democratic white primary on December 1, the understanding being that if the lottery got a majority at the primary

the Democratic party was to indorse it and support it at the polls in April. The factions, however, were unable to come to terms and the convention adjourned with the breach wider than ever. The fight will now be carried into the Democratic State Convention. If the opponents of the lottery secure a majority in that body they will declare against it, and the opposite will obtain if the lottery wins. The chances are in favor of a split in the party, even if the "antis" are defeated.

### WATER STANDING IN POOLS.

The water this morning is standing in pools all over the ranches and the cattlemen are delighted. They estimate that the rain is worth to them in round figures at least \$500,000. It is also worth much to the cot-ton-growers, and as the entire cost of the experiment was about \$2,500 they regard it as one of the best investments they could possibly have made. The scientific value of the success cannot be estimated, of course, but it will undoubtedly lead to many more tests of the concussion theory. Already offers are being made to the rain-makers to go to Mexico and experiment there The bombardment began early last even

ing, and until nearly midnight there was a continuous roar from the dynamite and rack-a-rock batteries. The full moon was sailing across a cloudless sky, and the hundreds of people who had come to the camp were satisfied that the experiment would be a flat failure. They said that it was a beau-tiful imitation of a battle, but that rain would follow from such a sky was absurd and impossible.

BETS OFFERED AGAINST RAIN.

Many offered to bet baskets of champagne that no rain would come, and some of the rainmakers took up the bets as quickly as they were offered. The recent quarrel of M. Ferry with the committee has not tended to smooth the way to the removal of the decree against the admission of pork, but quite to the contrary.

ONE SUPPORTER'S BAD BREAK. Yesterday M. Reinach, supporting the position taken by M. Ferry, called the reactionists in the committee "a collection of little fools," thus adding increased bitter-

Mr. Reid found him hopeful of success in overcoming the oppo-sition created by M. Reinach. M. Several eminent French lawyers have been consulted upon the matter of the re-lease of the fund of the Irish Parliamentary party now on deposit here. They agree that the problem is a knotty one, and that the first step must be an application to the Court of Chancery by the heirs of Mr. Par-nell and those of Mr. Biggar, for Mr. Big-gar was a trustee of the fund at the same time that Mr. Parnell was. On the other hand, his personal following insisted that Grover was all right and would for the scene of his closing labors in the do his part when the time came. To say that they are delighted now is putting it mildly. They are more enthusiastic if it were possible to be so, than ever before. So far as Cleveland and Hill are concerned personally, it is clearly apparent that they have buried the hatchet for the time being, at least, and will pull through the canvass in the front rank shoulder to shoulder.

### Cieveland May Visit Other States.

It is true that he has felt that his duty lies here, but after the battle heats up a little more he may be induced to accept a command of either flank. It is asserted that his personal activity in the canvass from now on will be of more service to his party than the efforts of a dozen lesser lights.

It is more apparent every day that the World's Fair issue will probably be a prominent feature at the coming election. The intensity of feeling on this subject will never be fully appreciated outside of New York-no, not even in Chicago. Perhaps the Chicago people with the full boom of the Columbian Exposition engaging their undivided attention will more readily feel for the disappointed New Yorkers because they will quite understand what the city of Chicago and the State of Illinois would

have lost had things gone the other way. To show the extent of this sentiment of he tillity to those who are deemed responsible for sending the Fair to Chicago it may be mentioned that a monster demonstration will be held in Harlem Monday, during which a grand procession of tradesmen and business men of all grades will march over the grounds where the World's Fair was to have been held had New York got the prize. It is proposed that this procession shall march with appropriate banners and the ususual signs of political indignation displayed upon such occasions, and it may be assumed that the inscriptions thereon will not be pleasant reading for the friends of suburo of the metropolis, which, by the northward marks of commercial prosperity, has become an important section of the city itself.

It is unnecessary to say that had the World's Fair been held on the outskirts of Harlem, a considerable portion of that \$300,000,000 which Chauncey Depew said. the Fair would bring to the State in which it was held would have been left there. Not the smallest tradesmen in that region but believes he has by some hocus pocus been deprived of his share of that money. has been reserving his home county of Stark canvass. For this reason the campaign has languished a little in this section, but there is every indication that it will be lively from this time on. Next Saturday the Major, accompanied by Congressman Burrows, will rally the Republicans at Al-liance, in the eastern end of the county. Meetings will be held both afternoon and evening, and great preparations are being

times that figure. His opponents, however, think that he cannot do it again, and are disposed to risk some funds upon that opin-ion. The local Republican hustlers being

more votes than the Republican candidates for Representatives, particularly as B. F. Weybrecht, one of the Democratic nominces, is an active business man of marked a candidate he received a number of com-

plimentary votes in the Democratic Congressional Convention deadlock last year, and will undoubtedly run ahead of his ticket this time. For this reason the outlook for McKinley in the county is brighter than the Legislative situation.

SAM SMALL UNDER ARREST.

A Shady Transaction in Real Estate Gets Him Into Trouble.

BOSTON, Oct. 18 .- [Special.]-The Rev. Sam Small was arrested in this city on Monday last on a charge of obtaining \$1,000 by false pretenses made by the Rev. H. U. Monro, an Episcopal clergyman at Newton Lower Falls. Mr. Small has been stumping the State for the past few weeks in the interest of the Prohibition ticket. Secretary Marden, of the Prohibitory State

Committee, went bail for him, and he has been stumping the State ever since. The case was brought in the Civil Court to avoid the scandal that a criminal case might bring to the cause of Prohibition. It is said that the transaction which resulted in the arrest of Mr. Small was agreed upon in August, 1890, when Mr. Small was President of Ogden University. It is alleged that Mr. Small induced the Rev. Mr. Monro to pay \$1,000 for a lot of

land which he represented to be worth that sum. The land belonged to the university, and it is alleged that the university demanded only \$500 for it, and that Mr. made \$500 by this transaction. When Mr. Monro heard of this he demanded the return of his money. As it was not forthcoming, he caused the arrest of Mr. Small.

### PARNELLITES IN CHICAGO.

Irish-American Citizens Denounce Church Interference in Politics.

CHICAGO, Oct. 18 .- At a Parnell me morial meeting of Irish-American citizens of Chicago to-night resolutions were adopted declaring that a final settlement of the Irish question must be based on Irish control of Irish affairs, legislative and administrative, and urging the choice of a leader who would remove fears on the part

of Protestants. It is declared that religious differences should no longer be the cause of separating the Irish people politically. The resolutions conclude as follows: "We regard, therefore, the recent efforts of the Irish hierarchy to establish ecclesiasti-cal domination in the affairs of Ireland as

the most dangerous obstruction to Irish self government.

## BALFOUR IS THE MAN. His Appointment as W. H. Smith's Suc cessor Officially Announced. LONDON, Oct. 18 -- It is officially an

nounced that Right Hon. Arthur J. Balfour has been appointed First Lord of the Treasury. It is reported that Mr. Balfour will retain his position as the Chief Secretary for Ireland.

The Chronicle this morning thinks the Marquis of Salisbury would have preferred

another Parliamentary leader to Mr. Balfour, but he was obliged to accede to the wishes of his party unless the Marquis of Hartington had consented to convert the coalition into a permanent union. Mr. Balfour is not at all likely, the Chronicle thinks, to be as docile to the ruling of the triumvirate-Salisbury, Hartington and Chamberlain-as Mr. Smith was. The apand pointment may be regarded as a gambler's throw; that his leadership will have a beneficial effect upon the coming election.

Heavy Seas Beat Upon Queenstown QUEENSTOWN, Oct. 18 .- Since 3 o'clock this afternoon a heavy rain with wind has prevailed. This, accompanied by an ab-normally high tide, flooded the Custom Houses. Many craft were swamped. The admiralty pier and docks were greatly dam-aged. All local traffic has been suspended owing to heavy seas. The cross-channel steamers report that the severity of the storm is unprecedented.
