There have been no failures in this country this reason so far as the products of old the country that the products of old the products of the produc nother earth are concerned. The year 1891 vill stand as one of the prolific years. The rield of nature's products is above the aver-uce all along the line, and in many lines the yield breaks all former records as re-

A Liberty street produce commission mer-A liberty street produce commission mer-chant prophesied a month ago through THE DISPATCH trade columns that potatoes would go below 40c per bushel this fall. This prediction has already come true, as good stock was offered to-day in ear load lots at 35c per bushel. From the last information that can be obtained the yield in this line is within 3 per cent of the greatest on record. Last year there was a famine of potatoes, while now there is a feast. The cost per bushel last fall was as great or greater than the present cost per barrel.

This has been a season of which the consumer cannot complain. The producer has had light profits for his pains. But the householder's expenses in lines of vegetables and fruits are this season on an average 50 per cent lower than last season. han last season.

The Coffee Outlook.

Demand for Rio coffee shows some improvement the past week and the downward sovement of prices has been checked. Renorts have not been so large of late as they and been, and this has given new strength to markets. According to the latest reports the total stock on hand at Rio is 367,000 bags, against 160,000 bags this time last The daily average receipts for the week past at Rio was 13,000 bags. Shipments to Europe for the week 24,000 bags, and to the United States 42,000 bags. The total visible supply in this country, according to Intest reports, is 487,000 bags, against 356,000 bags this time a year ago, and 337,000 bags the previous year at this time. Total receipts on the crop at Rio up to October 15 ocre 1,432,000 bags, against 862,000 bags at the same time last year, and 674,000 bags the previous year.

BULL FIGHTING FOR CHARITY. The Wife of the Mexican President Organ-

izes a Game for Flood Sufferers. CITY OF MEXICO, Oct. 20.-The revival

of bull fighting in the City of Mexico yesterday was in the name of charity. A com-mittee of ladies of this capital, with Mrs. Diaz, the wife of the President, at their head, organized the show for the benefit of the sufferers from the floods in Spain. It was one of the greatest spectacles of the Mexican national sport ever witnessed in the North American continent.

The time set was 2:30 in the afternoon It. is estimated that 12,000 persons were present. Two military bands were present and four companies of infantry served to insure good order. Nine bulls of celebrated breed were killed amid the "bravos" of the spec-tators. "he animals had been trained for the occasion and many of the matadors had narrow escapes. President Diaz and party left the ring during the killing of the eighth bull. The panderillos that had been stuck into the bulls after the fight were sold by peddlers at extravagant prices.

After Much Dickering the Hubley Property Changes Hands.

SALE OF AN EAST END RESIDENCE.

Completion of Larimer Avenue Bridge Gives That District a Boost.

FEATURES OF MONEY AND SPECULATION

Frequent mention has been made in this column of the Hubley property in Wilkinsburg. After being on the market for several years it has finally changed ownership, the transfer having been consummated yesterday. The purchaser is Mr. James C. Dick. J. H. Coleman & Co. conducted the negotiations. The consideration was pretty close to \$20,000.

The lot has a frontage of 191 feet on Penn avenue and extends back 260 feet to Wallace street. The house is a large two-story brick mansion. It was built about 25 years ago, and was at that time one of the finest residences in the county outside of the cities. The ground will be subdivided and put on the market.

Fine Residence Picked Up. Dr. J. R. Nelan, a well-known East End physician, has purchased from Thomas Murshall a fine stone and frame dwelling. with a lot 50x117, on Marchand street, for \$17,000. The house was erected about three years ago by Mr. Camp. He sold it to Mr. Palmer, he to Mr. Marshall and he to Dr. This shows how property moves in that

quarter of the city. Boomed by a Bridge, The Homewood district is one of the liveliest and most progressive quarters of the city. The completion of the Larimer avenue bridge has stimulated improvement on almost every street. About 50 houses across Negley's run have been completed or

put under way within the last few months. The grading and paving of Frankstown avenue, for almost a century known as Pucketty road, are almost completed. Homewood avenue will be improved next spring. It is almost solidly built up from the Pennsylvania Railroad to Frankstown avenue. The city is moving houses off the line of Grazier street to Sterritt street, within municipal limits. As contemplated, the Duquesne Traction cars will go out Grazier street to Wilkinsburg and the Citizens' Traction out Bennett street to the

same place.

The revlization of these expectations, by affording the people adequate transit facili-ties, will give the Homewood district a still greater impulse, and by attracting home-seekers from within and without, hasten its

SPURTS IN TWO STOCKS.

VANDERBILTS LEAD IN ACTIVITY A DULL SHARE MARKET.

The Adams Express Company Announced Itself Uninjured by Hoey's Transactions Which Causes a Rise in That Stock-Most Securities Score Moderate Advances.

New York, Oct. 20 .- Aside from the arrival

of another consignment of gold from the other side of the ocean and some announce-ments of a reduction of rates in the West there was nothing of a nature to stir the sluggish stream of speculation to-day, and the stock market continued to drift into dullness, the volume of business being the smallest since the late activity began to fall away. There was on the whole, however, a firmer tone to the dealings and most stocks traded in are slightly higher this evening. There was another spurt of activity and strength in the Vanderbilt stocks in the afternoon. These advances, however, were the only movements of importance in the list among the usually active shares, but the most striking advance of the day was in Adams Express, which followed the announcement by the officials of the company that after an examination by the officials of that after an examination by the omeans of the company they find that it will not suffer in any way from the losses incurred in the Hoey transactions. The stock, on several sales on small lots, rose to 145 from 134 last evening, and closed at close at the best

The opening prices were generally higher than those of last evening, but, while the tendency of the market under the early demand was to advance, the movement amounted to but little and the traders hamamounted to but little and the traders hammered a few of the leading shares with some
effect, bringing the figures down below
those of the opening. In the afternoon,
however, the spurt in the Vanderbilts had
the effect of spurring up the entire list and
better prices were reached all along the
line. The late trading saw a considerable
decline from these prices, but the close was
again firm, though dull and generally at the
close at the highest of the day.

The final changes are almost all in the direction of higher prices, though a gain of 1
per cent in Lake Shore was the only one of
importance. On the other hand, Sugar,
which had been unusually active, was decidedly weak and closed with a loss of 1 per
cent.

MOUNT ST. ELIAS STILL MONARCH. Russell's Exploring Expedition After

Climbing 14,500 Feet, Turn Back. VANCOUVER. B. C., Oct. 20,-Prof. Isaac C. Russell, who was sent by the United States Government and the National Geographical Society to explore the region about Mount St. Elias, has arrived here. He left in June for Alaska, and went to Icy Bay on the revenue cutter Bear. His party

consisted of T. P. Stainey, Neil McCarthy, J. H. Crumback, Frank S. Winter and Thomas White. White was drowned by the upsetting of the boat, otherwise the expedition was a success.

The party ascended Mount St. Elias on the north, reaching an elevation of 14,500 feet, when they were turned back by clouds and a severe snow storm. From the observa-tions taken the mountain is between 18,000 and 19,000 feet high. The party then ex-plored the coast from Icy Bay to Disen-chantment Bay, a distance of 100 miles, and also the glaciers. Russell and party left last evening for Seattle, whence they go direct to Washington.

A Reckless Driver Arrested. Frank Crawford, a teamster, was arrested at Eleventh and Liberty streets yesterday afternoon for reckless driving. He had ran into Michael Glynn who was walking across the street. Glynn was drunk. He was somewhat injured but was attended to by Police Surgeon Mover at Central station and then locked up on a charge of drunkenness. Crawford will have a hearing this morning.

GROCERIES ACTIVE AND SUGARS OFF

OFFICE OF PITTSBURG DISPATCH, ? TUESDAY, Oct. 20.

COUNTRY PRODUCE-Jobbing Prices-At the Monday meeting of the Elgin Board creamery was advanced 3c per pound. Fancy grades were sold at Elgin at 33c per pound, which means a 36c market here. At the advance all choice stock was promptly taken. Supply of the best creamery butter has not been equal to demand in this market for a week or two past. Potatoes are in very large supply and were offered today in earload lots at 35c per bushel, on track. A Liberty street commission merchant of-fers to furnish five or ten cars at these figures. Sweet potatoes are also in bountiful supply and markets are quiet. Garden stuff is still elimbing up, as our quotations will disclose. Tomatoes, beans, cucumbers and roasting ears are nearing their end for this season, and as a consequence prices are sharply advanced. The first Florida oranges sharply advanced. The first Florida oranges of the season arrived within a few days. New layer figs are also on the market. Lemons are scarce, and fancy stock readily sells at outside quotations.

The movement in this line is more active this week than last. With the exception of sugars, which are weak and lower, all staple sugars, which are weak and lower, all staple groceries are practically unchanged in price. The reason for the drop in sugar is obvious. The heavy demand for fruit canning purposes is a thing of the past.
