The union of an old man nearly 70 years of age with a girl of 19 has resulted in an elopement, robbery and suicide. Two years ago Jacob Masterman, aged and wealthy farmer residing in Fairmount township, 16 miles from here, became infatuated with Ida Dimmick, a buxom servant girl on an adjoining farm. Masterman proposed mar-riage to her. She was induced to give her consent. Masterman had been a widower for many years, with many married children.

Two months ago William Belas, a finetooking young man, was engaged as a farm hand. Early Friday morning Mesterman awoke to find that his wife had eloped with the farm hand, taking a team and a car-riage. Seven hundred dollars in cash had been taken. Saturday and Sunday Master-man sat brooding. Early yesterday morn-ing Masterman was found stretched upon the floor with a bullet hole in his temple. A revolver lay beside him. Within a few inutes he breathed his last.

Strict Onarantine Orders Issued to the Vessels in the Harbor.

RIO DE JANEIRO, Oct. 20 .- Dispatches received here from Santos, the port of Sao Paulo on the north side of the Island of Engua-Cuacan, announce that the yellow fever there is increasing. In consequence of this prevalance of the much dreaded malady the Brazilian Government has ordered that the vessels at Santos, amounting to about 100 craft, large and small, which have not yet commenced to discharge their cargoes, go outside the harbor until it is their turn to discharge. Ships which arrive at that port after the

issuing of the order referred to will not be admitted until there are berths available for them. Santos is not a large town (its popu-lation is estimated to be about 10,000,) but its harbor admits of large vessels, and it has an active export trade, chiefly in coffee.

and a merry war is expected. The trust recently issued a circular to its customers notifying them that they would forfeit certain rebates allowed if they purchased quick-aging whisky from other firms, and it has now decided that this quick-aging whisky is under 2 years of age. This is a direct slap at the Kentucky distillers, and it is predicted by a whisky dealer who visited the Internal Revenue Office to-day that the Kentucky distillers will now start up their spirit-making and make war on the trust.
