## HEAVY RUN OF CATTLE

At East Liberty Yards and Prices are Generally Lower.

HALF FATTED STEERS VERY DULL.

Light Butcher Beeves and Smooth Feeders Still Steady.

SHEEP AND SWINE ARE ON THE DECLINE

## OFFICE OF PITTSBUEG DISPATOR, WEDNESDAY, Oct. 21.

Markets opened at East Liberty yards on Monday morning with 140 car loads of cattle on sale, an excess of 20 cars over the previous Monday. On Tuesday the supplies were reinforced by large additional receipts, so that the total number of cattle on sale this week has been above 165 car loads, making the run the largest of the season.

About one-half of the offerings were from Chicago and Indianapolis, in about equal number from each place. Quality of cattle on sale was a fair average. There were no prime heavy beeves on sale, as there is no onger a market here for this grade.

The week's trade has been very unsatisfactory both to shippers and commission men. Buyers were present in fair force, but made the most of their opportunity from the heavy run, and all common and low grade stock had to be sold at a decline of 15 to 30e from last week's prices. Half-fattened from last week's prices. Half-intened coarse steers, weighing from 1,000 to 1,200 lbs, were very hard to sell at the reduced prices. Good feeders and smooth, tidy butcher beeves of light weight held up close to last week's prices. Smooth stockers were also in demand at last week's prices. As a result of the heavy run over 20 carloads of cattle were sent on in first hands for want of satisfactory offers. Fresh cows and good veal caires were fairly steady at last week's veal caives were fairly steady at last week's

Sheep and Lambs—There were close to 50 loads on sale this week, or nearly double the number on ale last week and the week before. Choice shinep were in light supply and sold readily at about last week's prices. The market for lambs was thoroughly demoralized and ices were in general 50c per cwt., below last week's range. A few loads were shipped on in first hands. The top price of sheep was \$5 10 and lambs \$5 25 and only a

few fancy reached these figures.

Hogs—Receipts for the week so far have been close to 70 carloads against the same number last week. Markets have declined not less than 75c per cwt. in the last week. or price this morning was \$4 50@4 55 ceints at Chicago to-day were 22,000 head, and top price there was \$4 40 per cvt. With a decline in prices comes a de-cided improvement in quality of offerings showing the good effect of the corn crop. A Live Stock Firm's Review.

Following is the report of the week's prices at Liberty by Rowlen, Briggs & Co.: We report 170 loads of eattle on sale Monday and Tuesday, which graded in quality about same as for past two months. Plenty of namon rough grades and but few good nality butchering cattle and good feeders, which are in most demand. The season has ofvanced too far now for stock steers to ring good prices, and they are sure to meet with low prices the remainder of this fall and winter. There were no prime cattle ered, and as we had light export orders,

minuted the exportation of tye and oats, the demand was very light and prices were generally conceded a strong quarter lower on all grades except good smooth feeders, which were not over 10@15c lower.

We quote: Good, 1,300 to 1,400 steers, at \$450@5 16; good, 1,100 to 1,200, \$3 75@4 00; mixed and rough, 900 to 1,200, \$2 75@5 25; nice straight Ohio feeders, 1,000 to 1,200, \$3 70@4 10; stockers, 700 to 90, \$2 25@2 60; cows, bulls and stags, \$2 00@5 2 75c fresh cows and springers, \$20 00@6 45 00 per head. Receipts of hogs are heavy and dull sale at strong 3/c lower than last week. We quote: Select tops at \$4 40@6 400; good mixed, \$4 35@4 45; corn Vorkers, \$4 25@4 35; pigs, \$3 50@4 00; roughs, 36@4. Receipts of sheep and lambs are 36.4c. Receipts of sheep and lambs are about 40 loads, against 20 last week, mostly nmon, and about 25c lower on all but me sheep. We quote: 90 to 100 wethers \$4 65(a.5 00; 80 to 90 at \$4 00(a)4 50; 70 to 0 at \$3 25@3 75; calls, \$2 00@2 50; spring numbs, \$4 00@5 25. Veals, \$5 75@6 25; heavy and grass calves, \$2 50@3 00.

-Some Excitement in Oats. CHICAGO-Wheat weak and lower early, but the demand proved quite sharp and a reaction soon set in carrying the price up nearly a cent and a quarter from the low point, but all the advance was not held. There was little in the way of news. Cables opened easier, New York and other domestic

opened easier. New York and other domestic markets were lower and fine weather was renorted in the Northwest.

The weakness yesterday brought a good deal of long wheat on the market at the start, and the pressure sent prices off fully to below the close last night; but the crowd oversoid fiself, and corn, oats and pork all developing unusual strength, and good buying orders coming in from New York and the Northwest, wheat strengthened and made a decided rully. The advance, however, brought out short sellers, and under free offerings the market weakened and declined.

Then during the last hour a report was circulated that Russia, having alread; prohibited the exportation of rve and oats, would next extend the prohibition to wheat.

limited. The old shull clique helped the advance and there was a fair shipping demand. November started at 49c, sold up to 59c, eased off to 49½c, became firm and advanced to 49½c, at which it closed.

Oats showed a great deal of strength due partly to sympathy with corn, but mostly to the confirmation of the report received some days ago that Russia had prohibited the further exportation of oats from that country. November, which closed vesterday at 28%

November, which closed yesterday at 28% cents, advanced to 20% cents, and closed at

cents, advanced to 20% cents, and closed at 20% cents.

Hog products, which opened lower, grew strong and advanced in sympathy with corn and because of a new ralling by the Board of Directors which makes old pork a merchantable commodity after January I, as a second grade, though it is not to be deliverable on contracts unless so specified. The market weakened some during the last half of the session, but the close shows an advantage over yesterday of 15%22 cents on pork; 5%75% cents on lard, and 5%10 cents on ribs.

#### FUNDS ACCUMULATING.

Banks Said to Be Receiving More Than They Can Disburse,

Local funds continue in good supply, with a moderate but steady demand for loans and discounts. Owing to the large proportion of cash sales and close collections there is less pressure on the banks that usual at this season of the year, and some of them, if not all, are taking in more than they are paying out, A stringent market, therefore, is abo last thing to be expected. Yesterday's bank clearings were \$2,623,244 66 and balances, \$507,857 15. Interest rates were quoted at \$60 ? per cent, with the emphasis on the inside

figure.

The Well Street News learns that a man claiming to be Dr. William B. Meany and a resident of London, is in Chicago to arrange for the opening of an Anglo-American bank with offices in London and Chicago. The capital stock will be \$5,600.000. Most of the money will be put up by a London and South American syndicate. Emstus Wiman and a son of "Old Hutch," wheat speculato, are said to be interested in it.

At New York yesterday money on call was said to be interested in it.

THE FEMALE COLLEGE LOCATED.

Forecast of What Pittsburg Will Be at the End of Twenty-Five Years.

ANOTHER IMPORTANT DEAL IN ACREAGE

The report that the Female College people had decided to build on the church lot recently purchased in the Baum plan, was confirmed yesterday by a gentleman having inside information on the subject. The necessity of having church and college close together, as formerly, has been recognized all along, but it was not until a few days ago that a majority of the trustees of the former could be brought to give their consent to dividing their lot for that purpose.

The arrangement having been completed, is said to be entirely satisfactory to all concerned. It will save the college people considerable ready cash, and enable them to begin building operations at once. Ground will soon be broken for the church. A Big Sale of Acre ge.

Executors of the Louisa G. Rankin estate ave sold to S. J. McFarren 28 acres, with improvements, in Lower St. Clair township for \$45,000. This property adjoins Kuox-ville borough, with which it is probable it will be incorporated. An Interesting Forecast.

Practically all the buildings in this counry have been erected within 100 years. The few which stand that are more than 100 years old are not enough to offset what has been lost of the buildings within that time by fire and other causes of destruction. The buildings in sight, then, represent what is necessary for the comfort and convenience of 65,000,000 people and the aggregate of the building business for 100 years. Assuming that the number of buildings doubles every 25 years, it is claimed by a leading authority on the subject that at least 12,000,000 houses will be erected in this country within the next quarter of a century. The calculation is based on the ratio of increase during the century, and is

worthy of acceptance.
Should the estimate hold good, Pittsburg will have at the end of the next 25 years 100,000 dwellings and a population of at least 500,000. With such a prospect it is no wonder that owners of real estate, both city and suburban, have exalted views of values They should not, however, anticipate all enhancement for the period in question, but give buyers a chance to make something on the turn.

Greensburg is putting on city airs. The electric street railway is in successful operation, and a contract will soon be let for a complete system of electric lighting. Building is active and the houses are of a high class. To enlarge the choice residence district Dr. Townsend's property has been purchased by a syndicate through the agency of Gay, Bair & Lane, plotted and put on the market. It has been named Kenneth Place. Lots are sold with the proviso that no building shall be erected costing less than \$2,500, shall be at least 15 feet from the street line, and that all building material shall be brought in from the

Paying Off Farm Mortgages.

Western farmers are in better condition, financially, than ever before. From comparative poverty they have risen to afflurence as a result of large crops and high prices. BROKERS AIR THEIR OPINIONS ON PHILADELPHIA AND DUQUESNE.

Business Slow but Rather More Promising-Quotations Practically Unchanged -Features and Incidents on Call-New York Getting in Trim for a Rally. Considerable business was transacted yes-

Chartlers Gas at 5, 100 Hidalgo Mining at 4, and 5 Lester at 12.

In regard to Philadelphia Gas a broker said: "Accepting the assurance of the company of a supply for some years I think the stock is a safe purchase at the present price, and that others think the same thing is shown by the demand."

Another broker aired his opinion of street railway consolidation talk in this fashion: "I think Mr. Magee tells the truth when he says there is nothing in it so far as the Duquesne is concerned. That company would hardly have gone to the heavy expense of getting smaller cars if they were not in the fight to stay."

#### BONDS BEAT STOCKS.

BOTH CLASSES OF SECURITIES ARE UNUSUALLY STRONG.

The Vanderbilts and the Pittsburg, St. Louis and Chicago are the Features Among Shares-Only One Exception, Sugar, to the General Advance.

New York, Oct. 21.—The stock market to-day was again more active and displayed a more decided strong tone than for many days past, the result of the day's operations being the lifting of quotations all along the line, while a few stocks show marked gains. The chief features of the

led in the dealings, but the trading was ex-tended to a larger number of both stocks and bonds than for months, or at least since the Missouri Pacific dividend trouble first

tended to a larger number of both stocks and bonds than for months, or at least since the Missouri Pacific dividend trouble first began to have its influence upon the market. The opening gains were generally for small fractions, but further advances were made right from the first sales, and while the resistence of the bearish traders compeled a halt after the first demand from the foreigners was satisfied, the only effect of the hammering was comparative duliness without material concessions from the best figures reached. The purchasing of the Vanderbilts began before the forenoon was out, and soon after that time the buying of the entire list became most pronounced, everything traded in reaching figures which have not been seen for some time.

The Grangers naturally took the lead in the general list, but a few specialties made marked progress, while nothing except Sugar betrayed any weakness whatever. There was some realizing in the last few minutes, and New York Central retired fractionally, but the market as a whole closed quiet and strong at or near the best prices of the day. The final advances of note include New York Central, 2½: Pittsburg, St. Louis and Chicago, 1½, and Atchison, Rock Island, St. Paul, Union Pacific and Buffalo, Rochester and Pittsburg, each 1 per cent.

The broadening of the market for railroad bonds more than kept pace with the share list, and this fact was one of the inducements for many operators to come again into the market. The number of issues traded in was very large, and among these Atchison incomes was prominent for activity. The the market. The number of issues traded in was very large, and among these Atchison incomes was prominent for activity. The upward movement was also quite uniform, but the speculative bonds, while monopolizing the activity, failed to advance with those of a more substantial character, and among these bonds the upward movement was not so pronounced. The marked gains are few, but the Reading issues were most conspicuous. The total transactions reached \$2,638,000. The highest and closing quotations were:

A GLUT OF POTATOES. PRICES IN THIS LINE REACH THE LOW-

EST POINT FOR YEARS PAST. Choice Butter Scarce and Firm-Shell Corn and Choice Hay Are Higher, and Wheat Declining - Sugar Quiet and Coffee

OFFICE OF PITTSBURG DISPATCH, WEDNESDAY, Oct. 21.

COUNTRY PRODUCE-Jobbing Prices-The supply of potatoes far exceeds demand, and markets are weak. There were not less than 100 carloads in the various rail yards of the city this morning, an equivalent of 60,000 bushels. It is not probable that prices will be again as low this season as right now. For weeks past supply here was not equal to demand, and prices were relatively higher than at other trade centers. Now there is a glut and a drop, which will be followed by a reaction and an advance. Grapes are still in bountiful supply, but prices are well maintained. Choice creamery butter is firm at outside quotations. Supply of New York and Ohio cheese has caught up to demand, but markets are steady.
