The avenue was crowded, it being a beautiful, warm, sunny day, but not many people recognized the distinguished occupants of the partly closed carriage.

The Welcome at Madison Place

At Madison Place, however, there was a ouier, popular welcome. Assistant Secretary of State Ades, and Chief Clerk Brown were strolling in front of the house, and on each side of the entrance and across the street on Lafayette Square stood little croups of newspeper correspondents and others enger to see how Mr. Blaine was looking. After the Secretary and his wife had shaken hands with Messrs. Brown and Adee, Mrs. Blaine passed quickly into the house, but the Secretary stood on the sidewalk for five minutes, chatting with his official assistants.

He was evidently posing for the benefit of the people who were so critically scrutiniging his appearance. His face was bright, his features animated, and he stepped about with as much sgility, apparently, as he ever did. There was even less palenass in his face than is usual with him, and it was the general opinion of all who stood near him where they could see every movement; of his limos and features, that if he is a sick or broken down man he certainly did | simply persecution. not look it to-day.

of the South Dakota Jury. NEW ORLEANS, Oct. 24 .- A dispatch from Sioux Falls, S. D., was published here this morning, stating that a United States grand jury had returned indictments against the Louisiana Lottery Company for violation of the anti-lottery mail law. President Paul Conrad, of the lottery company, was interviewed in regard to the matter. He states that the Sioux Falls case is exactly like the El Paso, Tex., case; that there has been no violation of the law by the lottery company, and that they will prove this when the cases come to trial.

He says the whole trouble grew out of mailing a pamphlet containing the decision of the Supreme Court of this State in the mandamus case against the Secretary of State compelling that official to promulgate the proposed revenue amendments to the Constitution. President Conrad states that efforts were made by the postal authorities to obtain indictments in half a dozen States on the same grounds, but that they were unuccessful except at El Paso and Sioux 'alls. there, continues to-day. A considerable amount of land caved in to the river at the head of Leonidas street. A still more serious caving which has been threatened for some time at the head of Ursulines Dumaine and St. Philip streets, directly in front of the French market, commenced last night, and has continued to-day, threatening to take the street landings and railroad tracks into the river.

The locality is one of the most important commercially, in the city. The distance between the market and the river is not

great, but the main tracks of the Southern acific and the Louisville and Nashville Railway pass here. Here, also, is the land-ing for fruit and oyster luggers, and the wharves of the Harrison Southside line. The engineers hold to the idea that the sinking is due to a quicksand emptying it-
