Palmer on the Robel Flag.

General Palmer, when asked yesterday whether he had issued an order against G. A. R. men parading in processions where Confederate flags were carried, said: "After care'nl consideration and meditation I have decided not to issue any order to that effect as yet, but I will do so immediately after the coming election. If I issued the order now, coming election. If I issued the order now, some parties would claim that it was a cam-puign issue, and that the order was issued for that purpose. What we desire is to im-print upon the minds of the rising genera-tion that the only flag is the Stars and Stripes, and that no other flag should be recognized whatever. We do not object to their ersecting monuments to their brave gen-rais or men, for heroes are heroes and nothing else can be made out of them. We also do not object to their building hos-pitals for their wounded, crippled and sick, for they deserve all the care they can get, but we do object to the robel flag parades."

The Market Stronger Than It Appears on the Surface – Week's Trading Hardly Enough to Go Round-Gains and Losses of Small Import.
Stocks pursued the even tenor of their way during the week, business being slow and general conditions unchanged. phenomenal gain, and one that makes an Atchison statistician green with envy. The third week of October the gross gain in St. Paul was \$153,000. It looks as if the bull and the third took had correctioned that for granted that asking prices represent what holders would be willing to accept. In many instances this is not the case. For what holders would be winny to accept.
In many instances this is not the case. For instance, Philadelphia Gas was offered yesterday at 11%, but there was none obtainable at that figure. The market is really stronger than it looks.
Closing prices as compared with those of the previous Saturday show the following charges in the active list: Chartiers Gas gained ½, Philadelphia Gas 1, Central Traction ½, Clizens' Traction ½, and Pittsburg Traction 1. Pleasant Valley lost ½. New York and Cleveland Gas Coal ½, Luster ½, and Electric 1.
While none of the local corporations gave out anything new to influence speculation there was a distinct improvement in the belief that they are running smoothly and earning more than expenses. There seems to be no doubt that this is true of the Manchester line.
It will be interesting to many Pittsburgers.

The only sale yesterday was that of 25 bhares of Wheeling Gas at 29, a decline from the last previously reported transaction. Sales on call for the week were 800 shares.

THE WEEK IN OIL.

Considerable Business Transacted and

At the close of the week the McDonald

field was less bearish as a factor than at the

beginning, many traders thinking it had seen its best. This was only supposition,

however, and it may still be fruitful of sur

prises. Trading was of fair proportions, affording much-needed encouragement. The week's clearings aggregated about \$8,000 barrels. There were more house bound \$8,000 barrels.

There were more buyers than selvers of cer-tificates, indicating confidence in the out-look. Conditious outside of McDonald were distinctly bullish-leaving the Standard

distinctly builtsh-leaving file Standard out. The highest price reached during the week was Glaic, and the lowest 50% showing a range of nearly 2c. The close as compared with Saturday shows a small loss, but there was improvement in the tone of the market. Bedned finished the week lower in New York and Antwerp. Clearing House Business Shows Decided Improvement in General Trade.

Easy money was the rule during the week, and at the close most of the banks had more than at the beginning. This was not the requency; to treat all cases alike by routing, mechanical applications, regardless either of the disease or the idiosynomiales of the patient: hence in not a lew cases come in-jurious re-ults with disappointment on all stady of the greatest practical importance; the difference in result between a very gen-and protracter one being, in some cases, all the difference between agreeable success and painfal failure. sult of backward trade, but of large cash sales and close collections. More that ever people are carrying on their aflairs without recourse to the banks. There was no complaint on this score, however, as all the strictly financial concerns did a satisfactory business. The business of the Clearing House was about the best of the year, being considerably larger than the previous week, and vastly better than 1889. These are the

the difference between agreeable success and painful failure. The position of electricity in the front rank of tonics and sectatives and its pre-emi-nent value in the treatment of neuralgia, rheumatism, paralysis, sciatica, lumbago, etc., has now been so long confirmed by electropathic specialists in this country and Germany that demonstration of these prop-ositions by case is less needed than former-ly, yet here is one of interest: "I have been a terrible sufferer, as have figures Saturday's exchanges\$ 2,517.018 98
