BROOKLYN, Oct. 25 .- Dr. Talmage this morning preached on "Sailing Up the Nile," the second sermon of the series, entitled "From the Pyramids to the Aeropolis, or What i Saw in Egypt and Greece, Confirmatory of the Scriptures." His text was Eachiel xaix, 9: "The river is mine and I have made it."

Aha! This is the river Nile. A brown, or yellow, or silver cord on which are hung more lewels of thrilling interest than on any river that was ever twisted in the sunshine. To find the birthplace of this river was the ascination and defeat of expeditions withutnumber. But the work went on until Sticke, and Grant, and Baker found the two lakes which are the source of what was called the White Nile, and baptized these to lakes with the names of Victoria and

evolution which says the world started with nothing and then rose, and human nature began with nothing but evolved into splendid manhood and womanhood of itself. Nay, the sculpture of the world was more wonderful in the days of Memphis and Thebes and Corthage than in the days of Boston and New York. They have evoluted from magnificence into destruction. The Gospel of Josus Christ is the only elevation of individual, social and national elemanter. Let all the tiving elties know that pomp and opulence and temporal prosperity are no security. Those ancient cities lacked nothing but good morals.

THE VOICE OF EGYPT'S RUINS. I notice the voice of those ancient cities is hoarse from the exposure of 40 centuries, and they accentuate slowly with hips that

last two days. Yesterday it reached a higher rung on the ladder than has been at-Mediterranneau Scawe behold a won- tained heretofore. The estimated production was 67,300 barrels. This was a jump of 7,000 barrels from utius. As the great river approached the Saturday, and 17,000 barrels more than was produced Friday. The runs of the Southern Pipe Line from the McDonald field for Fri-day were 55,579 barrels. This great increase is due largely to four new wells. These were Guffey, Murphy and the Oakdale Oil Com-pany's No. 1 on the Morgan, which started

off at 225 barrels an hour. Yesterday afternoon it was reported to have settled down to about 150 barrels an hour. Southwest of it, not more than 600 feet, is Greenlee &

to reap much profit from our season's work." In dairy product lines we note a diminish-ing demand on account of higher prices. When creatinery batter goes above 35c, per lh, as it has done the past week, the average consumer prefers the imitations. High priced creamery has had the effect of bring-ing oleo to the front, and demand for the former has very much declined in the past week. OFFICE OF PITTSBURG DISPATCH, SATURDAY, Oct. 34. COUNTRY PRODUCE-[Jobbing Prices.]-Potatoes are still in supply beyond demand and markets are slow. Until present stock, which is unusually large, is worked off, there can be no improvement in prices. The top price to-day in car load lots was 40c per bushel. Sales were reported at 36c per bushel. Poultry is in bountiful supply and markets are barely steady. The near approach of Hallowe'en brings strong demand on nuts. Tomatoes and roasting ears are steadily rising upward. The day of garden stuff draws near its end for this year, and prices are advancing accordingly. Grapes are in fair supply and choice stock is firm at prices quoted. Dairy products are not so lively as they have been of late. High prices of creamery butter here had the effect of curtailing demand, and volume of trade is much less since rates have advanced. Strictly fresh eggs are in limited supply, and markets are firm at quotations:

M., The foreign houses were moderate buyers of their specialities, and the other large in-terests were doing little in the market either for support or the accumulation of stocks. There were the usual realizations stocks. There were the usual realizations by the smaller class of bulls on the rise of the last two days, but the improvement in prices has not been such as to bring any amount of stock upon the market. Trading, therefore, was very light and the fluctua-tions were strictly upon a parity with the business done. Among the inactive shares no feature of any kind was seen, but the ad-vance of 3/in St. Paul preferred was the only movement of importance. York 9.30 A. M., Baltimore 6.30 A. M., Washing-ton 7.30 A. This is, however, a natural condition at this time, as shoe manufactur-ers are now running very light, being, as they are, at the close of the season for fall goods and awaiting the influx of spring or-ders. It is more than likely, too, that the present situation will undergo no material change before the first weeks of November, though a slight improvement may be noted during the closing days of October. Of course, during this period of slackness the tendency in most lines of leather will be toward accumulation; but it is believed with the soon-to-be-expected calls from shee man-ufacturers that stocks will speedily be re-

SECURITIES AND CASH.

Local Business Handicapped by the Firm ness of Holders.

Stocks pursued the even tenor of their way during the week, business being slow and general conditions unchanged. As has been noted for some time, there were more buyers than sellers, showing that the bulls have lost nothing of their confidence.

Some of the quotations put on the board are apt to be mislending. Outsiders take it

are apt to be mislending. Outsiders take it for granted that asking prices represent what holders would be willing to accept. In many instances this is not the case. For instance, Philadelphia Gas was offered yes-terday at 11%, but there was none obtaina-ble at that figure. The market is really stronger than it looks. Closing prices as compared with those of the previous Saturday show the following changes in the active list: Chartiers Gas gained ½, Philadelphia Gas 1, Central Trac-tion ½, Citizens' Traction ½, and Pittsburg Traction 1. Pleasant Valley lost ½, New York and Cleveland Gas Coal ½, Luster ½, and Electric 1. Umaha-Cattle-Receipts, 1.700 head: mar-

York and Cleveland Gas Coal 2, Luster 2, and Electric 1. The only sale Saturday was that of 25 shares of Wheeling Gas at 29, a decline from the last previously reported transaction. Sales on call for the week were 320 shares, against 1.204 the previous week. Easy money was the rule during the week, and at the close most of the banks had more than at the beginning. This was not the re-sult of back ward trade, but of large cash sales and close collections. More that ever people are carrying on their aflairs without recourse to the banks. There was no com-plaint on this score, however, as all the strictly financial concerns did a satisfactory business. The business of the Clearing House was about the best of the year, being considerably larger than the previous week, and vatly better than 1889. These are the figures:
