FEW PRIME CATTLE

Offered at the East Liberty Yards, and Markets Decline

ON ALL COMMON AND LOW GRADES,

Half Fatted Coarse Beeves Are Sold Only at a Sacrifice.

SWINE HIGHER AND SHEEP STRADY

OFFICE OF PITTSBURG DISPATCH, MONDAY, October 26,

There were 150 loads of cattle on sale at the East Liberty yards this morning, against 140 loads last Monday, and 120 the previous Monday. In to-day's receipts were over 50 ear loads from Chicago. Quality of offerings was not up to the late average. There were no heavy primes on sale as there is no longer a demand for this grade, and light primes were scarce. Buyers were not on hand in a large number as last week. Those present made the most of their opportunity from the large run, and markets opened dull and slow a: a decline of 10c to 15c per cwt from last Monday's prices.

There was a large run of coarse half fatted beeves weighing from 1100 to 1200 fb, and this grade suffered most from the decline. A leading stockman who had on sale 7 loads good but not prime Indiana beeves weighing from 1200 to 1400 h, was hoping to obtain a nickel a pound for his stock, but when this editor left the yards the signs were that there would be a concession to the buyer, before a sale could be made. So far as could be learned there were no cattle sold at East Liberty to-day above a nickel per pound.

No Primes on Sale.

As primes are worth above 6c per lb at Chicago it is evident that there were no primes on sale at the Liberty yards. Fresh caws of good quality were in seant supply. There were no sales reported above \$40 per nead. Choice grades would have found ready sale at \$45 to \$30 per head had there been any on hand. Receipts of calves were a fair average and prices ruled about the same as last week, with 614e per ft as top of markets for fancy vealers. Sheep-There were about 17 carloads on sale against 24 loads last Monday Notwithstanding light run markets were weak, and last week's prices were barely maintained. Top price of sheep was 5c per lb. and lambs \$5.25, and only a few of the choicest reached these figures. Hogs—The number on sale at the opening of markets this morning was 28 carloads. against 45 loads last Monday and 55 the previous Monday. Owing to de-cline of receipts markets are a shade stronger than they were a week ago. York-ers ranged from \$4.35(a4.50, and Philadelphias from \$4 6564 75 per cwt. Receipts at Chicago to-day were 30,000 head, and top price there was \$4 30 per cwt.

Allegheny Yards.

Receipts cattle at Herr's Island yards were not so large this week as last and markets were steady at a range of 15c to 25c per cwt higher than last Monday. Demand, however, was slow, and at noon prospects were that concessions would be necessary in order to unload. Best heavy beeves were quoted at 86 25 to 86 40; medium weights at \$5 00 to 85 75; light weights at \$4 25 to 84 75, and common grades at \$2 50 to \$3 50. Fresh cows of good quality were in light supply, and markets ranged from \$30 00 to \$40 00 per head. There were 38 head of calves on sale, and price; ranged from 4c to 50 per lb, the latter price being paid for fancy yeals. Supply of cattle from surrounding counties was very light. Drovers report an unusually light supply of cattle in the hands of Western Pennsylvania stock raisers. Receipts: From Chicago—I. Zeigler, 121 head; L. Gerson, 85; A. Fromm, 57. From Pennsylvania—J. Behler, 1; J.

GRAIN AND PROVISIONS.

A Good Business in Wheat, Which Is Weak and Lower-Corn Strengthens During the Day-Onts Easy-Hog Products Start Firm, but Ease Off.

CHICAGO-In the wheat market to-day a good business was transacted, the market ruling weak and lower. The opening was 1,0% lower than Saturday's closing, ruled temporarily weak and then became firm, advancing 3.c, but later developed a very weak feeling, and prices declined 3.c, held steady for awhile and closed 3.6.3.c lower

than Saturday's close.
The speculative offerings were heavy at the start, but they were soon absorbed, in-fluenced, no doubt, by the stronger tone of cable advices. There was a liberal increase in the visible supply and heavy receipts in the Northwest, which exceeded any pre-vious Monday's receipts this season. Indivious Monday's receipts this season. Indi-cations of a big increase in the supply and the large receipts in the Northwest, with weak intercables and easier domestic mar-kets, finally turned prices downward. The put prices held for a time, but some of the early buyers finally began to sell and the weakness soon ended.

December declined to 9P₃c; reacted some, and at 11 o'clock was 9P₃c against 95 3c at the close Saturday. When the visible sur-ply was posted, showing an increase of 3.600, 600 bushels, there was a rush to sell, and De-

ply was posted, showing an increase of 3,600, 5000 bushels, there was a rush to sell, and December went off to 94c; reacted to 195c, and at 1 o'clock was 945c. Longs showed great discouragemen; and liquidated freely, while short sellers sold heavily.

Corn started weak and lower, but improved later and held up well. The local receipts were about 80 cars more than expected, and, with a moderate demand. November selling at 495c and May 425c. But New York was higher and the demand increased. November improving to 505c; increased. November improving to 50%; cased off to 50%; and at 12 o'clock was 50%; May sold up 70, 120%; cased off to 30%c, and at 12 o'clock was 30%c. May sold up to 42%c, and at 12 o'clock was 62%c. The market rurned quite strong during the last hour, and October sold at 50%c. Oats were quiet and easy, mainly on the liberal receipts. November sold at 29%6 29%c, and at 12 o'clock was 29%c. May sold at 31% 831%c and at 12 o'clock was 31%c. The market strengthened a little during the closing hour in sympathy with corn, and the decrease of 27%,000 bushels in the visible symply.

Hog products were rather firm at the start but sold off, largely on the estimated liberal receipts of hogs to-morrow and the weakness in wheat. January pork sold at \$11.45, eased off to \$11.30, and at 12 o'clock was \$11.33½. January lard sold from \$6.43½ to \$6.37½ to \$5.30. January ribs, \$5.37½ 5.90. The market continued weak during the last hour, influenced largely by the prospective hour. hour, influenced largely by the prospective heavy receipts of hogs. January pork sold off to \$11.30, and lard to \$6.625, and January ribs to \$5.875, but there was a slight reaction in all products.

A GOOD BEGINNING.

Local Trade Starts Out in Excellent Shape for a Busy Week.

AN IMPORTANT BUSINESS LEASE.

Reported Sale of the Stewart Farm at Parnassus to Local Capitalists.

OFFICE AND STREET NEWS AND GOSSIP

The week opened with a good movement in nearly all business lines. Monetary affairs were easy. Indications of an improvement in the iron market were more pronounced than a week ago. Large railroad carnings will sooner or later react upon this great industry. The outlook for Pittsburg and her enterprises was never more promising than now. Comparing conditions with a year ago, the merchant, the manufacturer and the mechanic have better opportunities for making money than then. Speculation alone languishes.

An Important Lease. Black & Baird yesterday leased for T. P. Bedillion, of Wheeling, but formerly of Pittsburg, to the Pittsburg Wall Paper Company, for five years at an annual rental of little less than \$2,500, No. 821 Penn avenue. The building, a three-story brick, will be remodeled to suit the requirements of the business in hand, and a plate glass front will be put in.

Boomed by the Duquesne, The opening of the Wilkinsburg branch of the Duquesne Traction Road marks a new era in the history of rapid transit in Pittsburg. It will bring a large amount of real estate into the market and hasten its development. A few far-sighted people, who had faith that the Duquesne Traction people would carry out their promises, and ought property on the line of the road, will realize large profits from the enhancement of values which will naturally follow. Extensive improvements between East Liberty and Pittsburg are already talked of, some of which will no doubt be consummated.

The Stewart Farm Sold. It was mentioned in this column about two months ago that a deal was on for the purchase of the H. S. A. Stewart farm, at Parnassus, by a local improvement company. According to inside information the transaction was consummated Saturday afternoon. The farm contains 200 acres, a little more or less, and the consideration was close to \$100,000, or \$500 an acre.

The Realty Market. The abundance of money seeking investment is a strong factor in the expectations of owners and agents of still greater activity in the real estate market. This gives a hopeful aspect to the outlook. Values remain steady. Those having property for sale are firm in their demands, which would not be the case was there not a conviction that the market was perfectly stable and promising. Prices, too, on a good deal of inside property have been put at a high rate, and many agents say, in the way of complaint, that much capital belonging to outside elients has thus been kept out of the local market, Owners wanting to realize should take this phase of the matter into consideration.

Business News and Gossip, It is reported that the Pennsylvania Railroad will try to head off the Duquesne at Wilkinsburg by reducing the price of onthly tickets to \$2 50. A gentleman who took in the East Liberty

district on Sunday said he counted and estimated about 300 buildings in various stages of completion. Coupons due on the Pittsburg and Western Railway Company's 5 per cent mortgage gold bonds of 1891 will be raid on and after November 1 at the office of Drexel, Morgan & Co., No. 23 Wall street, New York.

PRICES AS STRONG AS IF BACKED BY

Philadelphia Gas and Pittsburg Traction the Strongest Features-Goods Offered Sparingly, Showing That Holders Expect a Turn in the Tide-Price Changes.

There was very little trading in stocks yes terday, and the market was practically featurcless. There appeared to be some buying orders, but the goods were not to be had. The only business at the two first calls was the making quotations. At the last there were two sales—10 shares of Allegheny Val-ley Railroad stock at 2½ and 20 shares of Luster mining at 12.

Price changes were small in all cases, with more gains than losses. The strongest feature was Philadelphia Gas, which finished % better than the opening. It is characteristic of this stock that it is either very strong or very weak. It occupies no middle ground. Pittsburg Traction was bid up a big fraction. Duquesne also improved its position, being wanted at 12 and offered at 14. There are many who think the Wilkinsburg branch will be the most profitable part of the road. Electric was weak on reports that subscriptions to the proposed stock would have been a failure but for the guarantee. This scarcely tallies with previous advices, and should be accepted with some grains of allowance. As a fact, enough of the stock has

Closing Bond Quotations

Monday is always an off day in produce lines, and to-day was no exception to the rule. Receipts of potatoes are on the decline, but markets are still quiet. Apples are in bountiful supply and slew. The same

is true of quinces. Grapes are in fair sup-

ply, but their end is near. Supply is fully equal to demand. Malaga grapes are plenty and markets are a shade lower. Receipts of bananas to-day were 17 carloads, but large

quantities of those on sale were chilled and, therefore, sold at nominal prices. Choice

bananas found ready sale at outside quotations. Strictly fresh eggs are scarce and

very firm. The Pittsburg egg market is relatively lower than the New York mar-

ket. At New York prices of fresh eggs are firm at 25 to 26c per dozen. Creamery but-ter of high grade is in limited supply, but

sufficient for demand, which has declined or

Stocks Dull and Fractionally Lower, Partly On Account of the Approaching Election -Chicago Gas is the Strong Point In the

NEW YORK, Oct. 26 .- The stock market today was dull throughout, and while alternately firm and heavy no material movement occurred except in one or two stocks. and while the final changes in quotations are generally losses they are in most cases for insignificant fractions. This state of affairs reflects only the uncertainty which

affairs reflects only the uncertainty which has taken possession of operators, though the near approach of an important election has its influence in keeping the market dull within narrow limits.

The most prominent feature of the present market is the demand for good railroad bonds. The demand for bonds is not confined to this side of the Atlantic, as large orders are being received from London.

The trading in stocks to-day was almost entirely of a professional character. Forcign operators were buyers of St. Paul at the opening, which was firm though quiet, but aside from its activity St. Paul was not prominent in the movements of the day. Chicago Gas was the strong point in the active list, but Michigan Central scored a gain of 1½ per cent. On the other hand Tennessee Coal, after rising a fraction to 40, dropped to 38, and recovered only a fraction, and Delaware and Hudson dropped 1½ per cent, while the advance in Michigan Central was not held.

and Delaware and Hudson dropped 1½ per cent, while the advance in Michigan Central was not held.

The early improvement in the general list was fractional, and the cessation of the early demand offered the usual opportunity to hammer the list down, and prices were soon placed below the level of the opening figures and kept there for the remainder of the day. Covering helped a partial recovery in the last hour, but no material movement took place except in Chicago Gas, which was again bought for Western account. The market was unusually barren of feature, and finally closed dull, though firm on the rally, with most stocks slightly lower than on Saturday. Chicago Gas shows the only advance, its gain being 1½ per cent, while Delaware and Hudson is 1½ per cent, while Delaware and Hudson is 1½ per cent, while Delaware said lissues reaching \$1,559,000, which business was very widely distributed, though Mobile and Ohio 4s and Reading firsts were specially prominent. The market was strong almost from opening to close, in marked contrast to the share list, and while the gains, as a rule, are fractional, a few issues made made material progress. Many of the inactive bonds made marked advances. The highest and closing quotations figures. The highest and closing quotations

The financial situation at the beginning of the week was encouraging in all of its aspects. The banks were well supplied, but not burdened with funds. There were signs on every hand of increasing financial strength and vigor among all classes. The large business of the Clearing House denoted an active movement in general trade. Call and time loans were quoted at 6@7 per cent and time loans were quoted at 6@7 per cent respectively. Bank clearings were \$2,233.

In regard to silver, a London correspondent writes: "The market continues very quiet. There is no speculation, the demand for the Continent is small, and the Indian demand is less than it has been for a long time past. Last year, it will be recollected, the exports of the metal to India were on an enormous scale. Evidently they were larger than the country required for the moment, and it will be some time, therefore, before India is able to absorb all that has been sent. Meantime, however, the exports are very large, and by and by a demand will spring up."

The iron gates that were placed on lock No. 3 some four years ago have been found to be inadequate for the work. The main trouble is the gates are too heavy, each one weighing 40 tons. The walls show signs of straining. The tron gates cost \$17,000, but they will be removed and replaced with wooden ones, which will close navigation for 30 days.

A Wonderful Meteor Seen in Iowa. LYONS, IA., Oct. 26.-At 5:13 A. M. vesterday a tremendons meteor was observed by the operator at Riggs station, Ia., passing directly from west to east. It was red and emitted flashes of bluish fire as it passed. For nearly half a minute after it had passed its pathway across the sky could be traced by a luminous line. Hunters who came in this morning from east of Riggs, on the Mississippi river, confirm the report as one of the most wonderful sights they ever

in the printing establishment of H. L. McGaw & Son. proprietors and publishers of the West End Record. Hear what he says of the Catarrh and Dyspepsia Institute, its physicians and mode of treatment. "I think I had cians and mode of freatment. "I think I had la grippe last winter, although my catarrhal troubles dated back to about two years age. My head had a stuffed-up feeling in the morning, my right ear often pained me, had pain in my sides, could not sleep well and left tired and languid. The tough muons that dropped into my throat was difficult to raise. My appetite failed, had belching of gas after eating, and my stomach was so weak I had to be careful of my diet. The disease shally reached my lungs so that I often felt soreness in my chest. Not being able to find relief and gradually getting worse, I became afraid I would rm into consumption unless I soon obtained help."

"Reading of so many cures made by the physicians of the Catarrh and Dyspepsia Institute, and that they were catarrh specialists. I consulted them. They made so lists.

physicians of the Catarrh and Dyspepsia Institute, and that they were catarrh specialists, I consulted them. They made no big promises, but referred me to others who had been cured of conditions worse than mine. This gave me some hope, and, finding their terms reasonable and within my reach, I took a course of treatment and became cured." I now feel well.

"I now feel well and strong as every. I have since induced several of my friends to go to these specialists, for I feel very grateful for what they have done for me. I shall always recommend these physicians as worthy the name of specialists and shall be glad to further describe my case to anyone who may call at my home.
