

IN A DEFIANT MOOD.

Miners Claim to Have Been Hoodwinked by the Coal Operators.

GENERAL STRIKE NOW DECLARED.

Plenty of Money Will Be Furnished to Maintain the Lockout.

MASS MEETINGS TO BE HELD TO-DAY.

The miners' convention was in session the greater part of yesterday, and it was determined to continue the strike and make it more general.

After the convention adjourned last night National President Bae gave the proceedings in full, as follows:

"Sixty-nine delegates were present. The principal business transacted this morning was hearing and acting on the report of the Resolution Committee. It reported in favor of appointing a committee of 12 to confer with the operators and see what could be done. The gentlemen composing this committee were Charles McDonald, Joseph Miller, C. H. Ashbury, Thomas Schenck, Philip J. P. Welch, Michael O'Neil, Matt Johnston, Hugo Roeder and President Bae. This work lasted until dinner.

SIX THOUSAND GREENIES.

Bite at the Tempting Hook of Two Slick Operators Now in Custody.

NEW YORK, Oct. 26.—Inspector Byrnes to-day arrested two of the slickest "green goods" operators in the country. Frank Brooks, alias "Pretty Frank," and Terrence Murphy, alias Paddy Murphy, ex-convicts, having served sentence for pickpocketing and shoplifting. Murphy has been arrested for robbing ex-Secretary Robeson of a gold watch in Philadelphia. When arrested the men were found in the act of addressing a lot of circulars. In Brooks' room a complete "green goods" outfit was seized. The books contained more than 60,000 names of well-to-do persons in nearly every town and village in the country. About 6,000 letters and telegrams were also found from persons all over the country, acknowledging receipt of circulars and making appointments for meeting in this city. Inspector Byrnes estimated the expenditure for postage by the men within a month at \$3,000.

ITALIANS DENOUNCE THEIR CONSUL.

That Official's Conservative Course Excites His Countrymen's Ire.

CHICAGO, Oct. 26.—A mass meeting of Italian citizens was held here to-day to protest against the acts of Count Massimo di Costigliola, the Italian Consul in Chicago. An Italian newspaper here has attacked the Consul for his conservative attitude in regard to the Mafia lynching episode, and also charges him with disloyalty in failing to raise the Italian flag on the 20th of September, in order that the parading Italian societies might salute it, as he was required to do by instructions from the Home Government.

CONSIDERED AN INSULT.

"The cause of this was that on Saturday afternoon, when President Dempster was in the convention he said it would be impossible to arrange a meeting with the operators now, as some of the gentlemen composing the Operators' Committee were out of town, but when we went to see him this statement was prepared for us and had been given to the papers first. The convention considered the statement an insult and at once unanimously agreed to continue the strike. Previous to this they would have considered any fair compromise. This statement only confirmed our suspicions as to the insincerity of the operators in their agreement entered into last May, when the very contract was made. At that time they made the deal with the operators and a board of arbitrators, composed equally of miners and operators, decided that the local market (within a radius of 20 miles of Pittsburgh) will bear an advance over outside markets. The advance will be divided between the miners and operators. This was brought up in our conference with the operators last Thursday, and Chairman F. L. Robbins then said: 'This clause was put in to bring about a speedy agreement in the yearly contract, and was never intended to go into effect.'

THE STRIKE TO BE EXTENDED.

"After matters were rehearsed this afternoon it was agreed upon to appoint a committee of 12 to assist the district officers in conducting the strike to a successful conclusion. It was at once decided to make the strike more general, extending it to Irwin and other large mines along the Pennsylvania Railroad, along the Allegheny Valley Railroad and the Yough River above West Newton. We will also order all the men, who are now working in the Cherry, Idlewood, Keeling's, Philadelphia, Florsheim's and Watson mines, out. This will make, in the whole district, about 14,000 men. Full provisions have been made to meet all financial aid necessary. The report that our finances are low is without foundation. We have not needed to pay but very little money out so far, but from now on we will have plenty of money to use. The Standard Coal Company, of the Hocking Valley, has offered to advance all funds necessary to move families there, and who ever wants to go will be sent. To-morrow we will begin to hold mass meetings through the district, and they will be continued every day. The meetings to-morrow will be on the Valley and Ohio and Pennsylvania railroads. I will stay in the district until the conclusion of the strike.

MINERS GAINING GROUND.

The Shipment of Coal Has Fallen Off Very Much Since Saturday.

A dispatch from West Newton last night said that the miners were gaining headway in their strike, as the shipments and the number of men had fallen off two-thirds since Saturday. Banning mine, which on Saturday had 99 men working, had only 20 yesterday, and Scott's No. 2, which had 100 on Saturday, had only 25. Pacific, Hawk, Southwest, West Newton and Whitsett mines had made preparations to begin work this morning, but not a man put in an appearance.

Strike of Reeder Girls.

Yesterday 60 girls, who worked as press feeders in the non-union job offices, refused to go to work. They met in the morning and formed a temporary organization, which will be completed sometime during the week. They claim that their coming out was not requested by the job printers, but they did it to help the men in their strike. The Typographical Union will give aid and stand by them in their fight. The employers all say they will not be affected by this additional strike, while the printers think it is their winning card. The job printers succeeded in securing seven out of the city yesterday, and Joseph Eichbaum & Co. received two more printers.

Horsehoes Renew the Fight.

The journeymen horsehoes renewed their strike this morning. It was thought their trouble was settled, but now it breaks out anew, as the employers want to make the men work ten hours a day instead of nine hours, the basis upon which the strike was settled.

ASLEEP FOR 135 DAYS.

The Remarkable Case of a Lady Whom Only Physicians Can Rescue.

LANSING, Mich., Oct. 26.—One of the most remarkable cases that has ever engaged the attention of physicians in this vicinity is that of Miss Mary White, a young woman about 23 years of age, who for the last 135 days has been in a continuous state of slumber. Miss White, until stricken, had taught school in the neighborhood of her home. While attending a business school in Jackson in July of last year she was attacked by nephritis. An abscess was formed in her side and after intense suffering she was relieved of it. Some time afterwards she was attacked by epilepsy and suffered terribly from convulsions, having as many as 50 in a single hour.

These continued until June last when the young woman suddenly dropped into a slumber so deep that for days no one was able to rouse her. Dr. Brown is the only person who is able to arouse the patient, and the operation requires from 20 minutes to one hour. She is fed three times a day with light nourishment. She remains awake for about half an hour, during which she converses intelligently and takes an interest in reading newspapers. Dr. Brown thinks that the girl is gradually gaining more vitality and he believes that she will soon awaken.

THE FRENCH REAPING THE BENEFITS.

SAN FRANCISCO, Oct. 26.—Australian letters say that British traders and settlers in the New Hebrides are vexed at the disadvantage they are subjected to, compared with the French, by the regulations of the Imperial Government. They are forbidden to supply firearms and ammunition in trade for produce. Their vessels dare not take returning laborers to their homes if they have guns. As all laborers have guns and as they are partly paid off with those weapons the French vessels get all these passengers and English settlers are forbidden to get laborers or recruits from the neighboring islands for their plantations.

"Well! Well!"

That's the way you feel after one or two of Doctor Pierce's Pleasant Pellets have done their work. You feel well, instead of bilious and constipated; your sick headache, dizziness and indigestion are gone. It's done mildly and easily, too. You don't have to feel worse before you feel better. That is the trouble with the huge, old-fashioned pills. These are small, sugar-coated, easiest to take. One little Pellet's a laxative, three to four are cathartic. They regulate and cleanse the liver, stomach and bowels—quickly, but thoroughly. They're the cheapest pill sold by druggists, because you only pay for the good you get. They're guaranteed to give satisfaction, every time, or your money is returned. That's the regular plan all Dr. Pierce's medicines are sold on. "Value received, or no pay"—you can't get these terms with any other medicines, at any price. Can you ask more!

ORDERED A MURDERER AWAY.

A Different Version of the Late Removal of Colonel Haines.

TERRE HAUTE, Ind., Oct. 26.—The story of the removal of Colonel Haines from Washington is told here somewhat differently from the version sent out from the capital Saturday night. It is said that young Haines learned that his father was to be ordered away, whereupon he wrote a letter to the Secretary of War, in which he accused Senator Voorhees and Colonel Nelson, the latter the grandfather of Ned Hanagan, who young Haines murdered, of bringing about the change. He made threats, and Secretary Proctor consulted with Senator Voorhees and Colonel Nelson and gave the letter to the President, who sent for Colonel Haines. The latter broke down, and in tears told the President he had no influence with his son. The President asked if anyone had, and was told that Lieutenant Haines, of his army, a brother, was the only one. The brother was sent for, and it was soon arranged to send the murderer out of the country.
