Prices of garden stuff have been very much stimulated by recent frosts. All through September tomatoes were a drug three bandels for St. Now they are active and firm at \$1.75 to \$2.00 per bushel. Garden stuff has been moving steadily upural in price for the past week or two. Potatoes are the exception to the rule. The latter are in supply in excess of demand, and prices are 15 to 20c per bushel lower than an month aga. The potato crop is firm above the average this senson and within 3 per cent of the highest yield on record.

Receipts of potatoes in this market were close to 400 carlonds, and this weeks to first shows no decline. The very best are slow it 40 cents per bushel on track, and 40 to 50c from store. The Coffee Trade.

Markets in this line have shown additional strength in the past few days.

The following from the Boston Herald gives the situation and outlook in coffee lines:

There is considerable excitement in the coffee market primarily, with generally stronger prices. The New York market is somewhat excited, and advices by telegraph are very strong, though the exchange market was telegraphed Saturday as steady and unchanged. Of course, this was intended to BALTIMORE—Wheat—No. 2 red firm; spot and October, \$1 01/20 009; December, \$1 01/20 009; December, spot and October, \$1 01/20 009; S1 05/20 009; S1 05/20 009; December, spot and October, \$1 01/20 009; S1 05/20 009; S1 05/20 009; December, spot and October, \$1 01/20 009; S1 05/20 009

Nevember flowering is greatly hurt by heavy rains, and this is being used as a bull argument in the coffee trade. The weekly Rio cable gives the market as strong, with exchange at 14%d. The daily average of receipts for the week has been 10,000 bags: shipments to Europe, 44,000 bags; to the United States, 32,000 bags. The total visible supply of Rio coffee is now figured at 67,292 bogs; same time last year, 374,260 bugs: same time in 1889, 444,463 bags. The total receipts on the crop at Rio up to October 22 have been 1,498,000 bags; same time last year, 920,000 bags; same time in 1889, 718,000 bags.

The market on Maraesibo coffee is very firm. The last steamer had but 12,000 bags on her, and these were all sold to arrive. This leaves the market very strong, with prices up the to le for wholesale lots. This strength in the market also pertains to all Central American coffees. Javas are very firm. The Phonograph has arrived with some 12,000 mats of Java coffees, but these coffices were all sold previously to arrive, so that very few of them come on to the mar-The coffees are reported to be turning out fairly brown.

#### · A CORNER IN CORN.

New Yorkers Seem to Control the October Futures, and Force the Price Up-Wheat Opens Strong but Closes Tame and Weak-Oats Quiet,

CHICAGO-The wheat market was

rather stronger early, but the closing was tame and much weaker. The news was again bearish, and the feeling in the wheat crowd was consequently not at all bouyant, early trading this morning being confined to early trading this morning being confined to local scalpers. Liverpool cables reported a steady market for spot wheat, but futures for red American wheat were led lower.

December wheat sold during the first hour from 19% down to 19%. Later it rose to 10%. Reliable English cable dispatches brought the intelligence that houses were offering wheat freely, and the big increase on ocean passage would indicate this. News of this kind was unpleasant to the crowd, who appeared to be long of wheat, but some strength followed the announcement that a cargo of No.2 spring wheat had been worked dry winter in the winter wheat States dry winter in the winter wheat States helped to put December wheat up to 35%c. The opening was about the same as the closing figures of yesterday, and the market cased off about 1/2012c, then became stronger and prices advanced about 1/2012c, closing 1/2012c, closing 1/2012c, closing 1/2012c.

easier, prices declining 12.48 Mgc, closing 1ge lower than yesterday.

Corn strong. The shorts for the only new crop futures are manifesting a good deal of uneasiness, which has been increased by the fact that there seems to be a corner in October in New York, where it advanced to 72c this morning. During the last bour October corn sold to 58c and at 1 o'clock was 574cc. November corn touched 594cc and at 1 o'clock was 524cc, May sold to 45c. It eased off 24cc, while the year touched 464cc, but weak-ened to 455cc.

REAL ESTATE IN GOOD SHAPE. Another Railway Combine Engages the At-

tention of Speculators.

OFFICE AND STREET NEWS AND GOSSIP

It was reported yesterday that the Washington street, Allegheny, residence of Mr. Edward Groetzinger was about changing ownership at a price very close to \$20,000. The papers consummating the deal probably passed yesterday evening. It is said Mr. Groetzinger has taken a fancy to the East End and will build on Fifth avenue.

Several other transactions of importance -one of them involving between \$30,000 and \$40,000-were brought to a head yesterday, but only one of them can be given today. Major A. J. Pentecost sold two acres John M. Montgomery for \$10,000. The purchaser will improve with a fine residence.

Reasons for Their Faith. Owners and agents of real estate have Owners and agents of real estate have good reason for expecting an active market throughout the winter, unless it be particu-larly severe, and a very lively one next season. The immense crops which are being marketed induce a feeling of confidence. The full effect of the general prosperity will not be felt all at once. It will come clowly, but they its influence will be inslowly, but that its influence will be inevitable and powerful on all lines of trade

evitable and powerful on all lines of trade is a universal conviction. Real estate deal-ers, as much as others, have confidence in the future. They can see nothing in the way of a full revival of trade. This feeling and belief, based mainly on the rapid growth of the city, are no doubt accountable for the indisposition of prop-erty owners to make concessions. They have hard facts on their side, which buyers cannot offset, and the sooner they accept the situation the better it will be for them. They can gain nothing, and may lose much,

Better Prices Likely.

A prominent New York stock broker is reported as saying: "Appearances indicate better prices likely in January. In the meantime many houses are looking over the yearly belance sheet. Conditions are changing for the better. It requires a great deal of work to set speculation in motion on a large scale, enhance values and reinstate confidence that was badly shaken in the street 11 months ago."

Business News and Gosslp.

Large receipts of gold from Europe, the successful inception of the crop movement, the comparative absence of financial pressure and the maintenance throughout of fair reserves at the castern cities have produced their effect. The New York bank reserves are increasing, time money is again offered at 5 per cent or less, and the prospects for an easy money market during the late autumn and winter months are decidedly encouraging."

A NEW STREET RAILWAY CONSOLIDA-TION SCHEME BOBS UP.

at Glenfield, on the Ft. Wayne road, to The Pittsburg and Second Avenue Lines Said to Be Meditating Pooling Their Issucs-Allegheny Valley Railway and Monongahela Water Get a Backset.

The event of most importance in local stock circles yesterday was a well authen-ticated report that terms were being arranged for a pooling arrangement between the Pittsburg Traction Company and the Second Avenue Electric Railway Company.
The informant, who is on the inside, went so far as to state that one or two confer-ences looking to this end had been held in Philadelphia, and that negotiations would soon be resumed in Pittsburg. The fact that both of these roads are enlarging their East End systems which consolidation, or some equivalent arrangement, would ren-der mutually beneficial, if not indispensible to success, lends probability to the re-port. Pittsburg Traction stock was stronger on this talk. In fact, none was offered at any price.

Allegheny Valley was depressed on pros-pects of a stock assessment of \$5 a share, and Monongahela Water on the proposal of the company to issue bonds to the amount the company to issue bonds to the amount of \$100,000 to improve the plant. There were orders for Philadelphia Gas, and it improved a big traction. It is a hard stock to keep down. Electric was weak and neglected. Switch and Signal and the miners were steady. Third National Bank advanced \$1 a share. Airbrake was a trifle weaker.

Sales were 15 sharee of Electric at 13%, 3 Airbrake at 104½ and 12 at 105. Bids and asking prices at each call are given in the following table:

Cordage the Only Exception, Though Chicago Gas Is Active-Some Selling for the Account of the Desunct Firm of Evans & Co.

NEW YORK, October 27 .- The stock market was again dull to-day, though there were spurts of activity in a few stocks, which were paid special attention to by the bears, and the tone was rather weak throughout, though the movements among the active stocks were in but few cases of any import-

The selling of some stocks by commission houses were found to be for the account of the defunct firm of Evans & Co., but the bulk of the selling, as usual of late, was by the traders and bears. The news of the day was uniformly favorable.

The opening was small fractions higher, helped by a moderate demand from the foreigner, but the hammering began immedi-ately and the opening prices were in most of the active stocks the best of the day. The movements, as a rule, however, were insignificant, and while the contest in St. Paul was waged with vigor on both sides the net

significant, and while the contest in St. raul was waged with vigor on both sides the net result was of little importance. Reading showed the widest fluctuation among the leading shares, dropping 1½ per cent to 41, but the others were all traded in within a range of less than 1 per cent.

Chicago Gas was in demand at advancing prices but the weakness of the general list prevented any material improvement. Cordage, however, was the strong feature of the day, and is the only stock showing a material gain, but the movements of the Industrials now have no influence upon the railroad list, and there was no disposition shown to follow its lead at any time of the day. Atchison was also largely traded in, but failed to move. The shorts covered some what in the late trading and slight fractions were regained, the market classing dull but firm. Cordage is no 6%.

Railroad bouds were fairly active and the business, which amounted to \$1.814.000, was widely distributed, though Atchison incomes, Reading 1sts and Richmond & West Point Trust 5s were specially prominent in the datalines. The temper of the market

widely distributed, though Atchison incomes, Rending 1sts and Richmond & West Point Trust 5s were specially prominent in the dealings. The temper of the market was rather mixed, but while little movement was to be noted among active bonds—and that of an irregular character—the inactive issues show marked gains in many cases. High Price of Creamery Butter Stimulates Trade in Oleo.

COFFRE IS FIRM AND SUGAR STEADY

OFFICE OF PITTSBURG DISPATCH, TUESDAY, Oct. 27.

COUNTRY PRODUCE-[Jobbing Prices. ]-At Eigin the prices of creamery butter stand the same this week as last, but markets are reported firm at the old prices. Receipts of country butter are light, but demand corresponds. Oleo seems to have the preference over everything in butter lines under gilt-edged stock. Potatoes are still in abundant supply. There were little, if any, short of 100 carloads on track in the various yards this morning, and the top price was 40c per bushel in carload lots. Grapes are only in fair supply, but prices have found a lower level, as our quotations will disclose. With none of other fruits, apples are improving in demand, and quality of offerings also shows improvement of late. Poultry continues to come in freely, and markets are rather quiet. Strictly fresh eggs are in limited supply, and signs are that prices will advance at an early day.

STOCKING A STORE FOR NOTHING.

The Ingenious Plan by Which Fugitive Merchants Swindled the Jobbers.

St. Joseph, Mo., Oct. 27 .- One of the most thoroughly organized systems of fraud that has been brought to light in this vicinity for many years has just been unearthed, and the perpetrators are believed to be in or near this city. Warrants have been issued for the arrest of William Springer, B. Blankenburg and A. Goldberg on the charge of obtaining merchandise under false pretences. The three named are said to have obtained \$3,000 worth of goods from wholesale merchants of Chicago, Des Moines and Ottumwa, for which they

have not paid a cent.

Last August the first two named men opened a clothing and furnishing store at Osceola, Ia. In the front part of the storeroom a display of cheap goods was made. The firm represented to commercial agencies and wholesalers that their stock was worth \$2,800. Large consignments of goods were bought on one-third cash upon delivery, the balance in 60 and 90 days. When the goods were shipped to the firm the boxes contain-ing the merchandise were taken to the rear apartment of the store, all marks were re-moved and the goods were then reshipped to A. Goldberg, St. Joseph. When the creditors were about to close in on the firm creditors were about to close in on the firm the store was suddenly closed and the mem-bers of the firm took their departure. They were traced to St. Joseph, where they have been shadowed until requisition papers culd be made out. It is now feared that they have given the police the slip. About \$2,000 worth of goods have been found in the building where Goldberg had his quar-ters.
