WILL EVICT TENANTS.

The Operators Determined to Thwart the Men at Every Turn.

MINERS HOLDING MASS MEETINGS.

An Attempt Will Be Made to Bring Out the Port Royal Employes.

TROUBLE ANTICIPATED AT ANY TIME

The situation of the striking miners has not changed much from yesterday, but to-morrow will be a very interesting and busy day in the district. One hundred strikers, accompanied by a brass band will go to Port Royal to try to bring the men out. This will be attended with trouble as the operators and deputies have heard of their coming and are determined that they shall not make their point.

President Rae did not conduct a meeting yesterday, but the Miners' Committee did. At Eureka, on the Baltimore & Ohio Railroad, they succeeded in bringing out 200 men. The committee then visited Port Royal and Jacobs Creek, and induced the miners to send a delegation to the mass meetings at Smithton and Banning to-day. The strikers succeeded in keeping the Jacob's Creek men out yesterday. The operators here have decided that the strikers will have to leave the company's houses, and trouble is anticipated to-day.

Last night President Costello visited Henry Florshein's mines at Findleyville and made an agreement with Mr. Florshein whereby he is allowed to run his mines. This mine is under contract to supply the gas company of Wheeling, and it was on the condition that he would fill this contract only that Mr Costello agreed to let the men work. They will receive 92 cents and are to pay $100 per week toward the benefit of the striking miners.

National President Rae said last night that he Ohio miners had not been asked to come out yet, but he wouldn't say whether they would be.

Employers Know Nothing About It.

The men employed at Jones & Laughlins, Oliver Iron and Steel Company and the Upper and Lower Union Mills of Carnegie, Phipps & Co. were reported to have refused to work the steel billets made at the Duquesne works. The management of these works say they know nothing about it, and they do not think the employes will make such demands. President Weihe, of the Amalgamated Association of Iron Workers, said yesterday afternoon that he had heard nothing of it.

A Coal Famine.

Many of the small towns located along the Ohio river and a number of miles off the railroads are suffering for coal, on account of the low water. There is plenty of coal lying along the river, and when the rise in the river comes there will be 12,000,000 bushels of coal ready to ship. In New Orleans coal is selling at 45 cents per bushel.

Miners Go to Ohio.

Over 40 miners took advantage of the Standard Coal Company's offer yesterday and left for the company's mines on the Panhandle Railroad. They will remove their families later. More men will go to-morrow.

Labor Notes.

THE Edgar Thomson steel plant Furnace A has been torn down, but will be rebuilt at once.

THE Braddock Wire Company is putting in a new 600-horse power Stirling boiler, and will now burn oil instead of gas.

THE Jeannette Textile Manufacturing Company is the latest addition to that town's industries. It will employ about 125 men.

THE Executive Board of the Master Painters' and Decorators' Association of Pennsylvania met at Harrisburg yesterday, and decided to hold the next State convention in that city January 12, 13 and 14.

A ST. LOUIS MAN'S CONCESSION.

He Admits That the Chicago Fair May Be a Success.

The first St. Louis man to admit that the World's Fair at Chicago may be a success is Colonel E. D. Meier, a well-known iron merchant, who is stopping at the Duquesne. He says the people of Chicago have dropped their fight over local questions, and that they are now all working together to make the fair in reality a World's Fair. St. Louis, he said, will do all it can to make the Columbian Exposition a success, but in case Chicago gets a swelled head and attempts to spread out toward the south, he thought it probable that St. Louis would extend its lines and take in Chicago.

Referring to the political situation, Colonel Meier said: "I have seen tin plate manufactured, and the Democratic cry that it has been a failure will be a boomerang in a few months. In St. Louis Congressman Niedringhaus has built a large tin plate mill, and in a few months will have it in full operation. The political situation in St. Louis is one of the most peculiar in the country. Both parties have two branches—the silk stockings and the hoodlums. The four sections are about equal in size, and at every election engage in a rough and tumble fight. The municipal election next spring will be the liveliest on record. The hoodlums are now in power, and it is likely the silk stocking element will unite to knock them out.

BOOMS THE BUSINESS.

Rate Reduction on Structural Iron Pleases the Bridge Makers.

The initial freight lines east of Pittsburg have changed the rates on structural and bridge iron from fifth to sixth class. From Pittsburg to Chicago the rate has been reduced from 17½ to 15 cents per ton; to Milwaukee, from 19½ to 17 cents; to the Mississippi river or East St. Louis, from 22 to 18½ cents.

The bridge builders are unusually busy, the only drawback being the great trouble in securing cars to transport their staple. Cars are short on all lines, both east and west of Chicago. The Western roads have given over all their cars to the grain shippers, while the coal and coke trade monopolize the Eastern demand. Traffic is quite heavy on all the roads, and no road is complaining of a dearth of business.

Boys' Fine Suits.

To-day we place on sale several complete lines of boys' (short pants) suits, including fine cassimeres, cheviots and worsteds, that sold for $4 and $5, at the special price of $2 a suit, sizes for boys 4 to 14 years old. Elegant patterns to choose from.

An Excellent Stock of Custom-Made Clothing to Be Sold at Half Values.

The Pittsburg Combination Clothing Company offer Thursday, Friday and Saturday an excellent stock of custom-made clothing to be sold at half values. We bought at the peremptory auction sale of the entire fall and winter stock of fine clothing of the well-known firm of Messrs. Feehheimer, Goodkind & Co., 748 and 750 Broadway, New York City, through the auction firm of Messrs. Wilnerding, Morris & Mitchell, at 64 and 66 White street, New York City, $50,000 worth of the finest grades of clothing. We did not need these goods, but they were so ridiculously cheap, and of such fine quality and excellent make, we could not resist the opportunity. We bought for net cash, and only paid about one-quarter manufacturing cost of the goods. It was a forced sale, and we have them now ready for our patrons this morning, for whose benefit we arrange this special three days' sale, that they may have the benefit of our fortunate purchase. These garments are well worth $30, $35 and $40 of any man's money. Here are the inducements: Imported chinchilla overcoats, satin or cassimere lined or serge or cassimere; manufacturers' prices, $22, $25 and $28, during these three days, $12.
