SOME BUYING OF BESSEMER PIG.

Several Steel Rail Mills Working in Comfortable Shape.

CONDITION OF THE BRITISH MARKET

SPECIAL TELEGRAN TO THE DISPATCH. NEW YORK, Oct. 29.-The Iron Age reports the iron and steel markets as follows: American Pig-The market remains dull, without any feature of interest. There has been some buying of special Bessemer pig at January.

Short Rins. \$16.50 delivered, and there is inquiry for additional quantities. We quote: Northern brands, \$16.75@18.00 for No. 1, \$16.00@16.50 for No. 2 and \$14 00@14 50 for gray forge. South-

No. 2 and 314 00@34 50 for gray forge. South-ern iron sells at \$16 25@17 00 for No. 1, \$15 50@ 16 00 for No. 2, \$14 50@14 75 for No. 3 foundry and \$14 25@14 50 for gray forge. Spiegeleisen and Ferro-manganese—There has been no business of any consequence in the spiegel market. For the present the leading Eastern buyers seem to have sup-plied themselves, the demand being covered in at least one case as far as July next. In ferro-manganese there has been only a jobrro-manganese there has been only a job-ng business in this market, which is somebing business in this market, which is somewhat disturbed by the reports of sales in the West. Notable among these is one lot of 250 tons sold at 861 70 delivered at Mingo Junction, which is equivalent to \$62 30 Haltimore. We quote 10 to 12 per cent, \$23 00@24 00; 20 per cent, \$27 00@25 00; and 80 per cent ferro, \$63 00@63 50.

LITTLE BILLET AND ROD BUSINESS. Billets and Rods-The market in this section is dull, and efforts to hunt up some busi-ness for foreign billets have not brought about any results. In rods there have been some sales of No. 8, but otherwise the maret is very quiet. We quote: Domestic bil-

some sales of No. 8, but otherwise the market is very quiet. We quote: Domestic billets, 827 006927 50 delivered; foreign billets nominally \$31 00631 50, and domestic rods, \$37 25637 75 tidewater. From the West come reports that billots are being offered at a very low price for immediate delivery.

Steel Rails-There has been further buying, and we can record sales aggregating about 25,000 tons, which include one block of 25,000 tons done by an Eastern mill, which is now in comfortable shape up to March, running single turn. Another hastern works is known to have booked quite well, while the third is still eagerly seeking business. There are further orders pending which will be closed at an early date, while some roads are not yet in the market simply because they have not looked into their requirements for next year. On the whole the outlook for winter work is quite good, while spring and early summer work is expected to come up a little later in abundance. In the West, Chicago is reported to have secured \$2,000 tons for the Great Northern, beside other orders which put it into fair shape. While the outlook is, therefore, not all conlend derone, it is evidently quite fair, with the prospects of a heavy demand from quarters which have not as yet approached the market. We quote \$30 for standard sections. There has been cutting lately on light sections, with offers about \$1 below the price lists.

DULL IRON AND STEEL MARKET. Manufactured Iron and Steel-Local mills and merchants report that new business is carce, and that the market has relapsed into duliness. Some of the mills have comfortably busy for months, but new architectural work is light. We continue to quote: Angles, 1992-100; sheared plates, 1992-25c; tees, 240@2.75c, and beams and namels 3.1c on dock. Steel plates are 1.93@ 15r for tank: 2.2 @2:30c for shell; 2.45@2.65c or flange: 2.65@2.75c for marine, and 3@3.25c firebox on dock. Bars are 1.7@1.9c on ck. Scrap axles are quotable at 2.15@2.20c ivered. Steel axles 2.15@2.25c, and links

lelivered. Steel axies 2.15@2.25c, and links and pins 2.15@2.20c.

Track Material—There is considerable usiness offering for spring delivery, but silves are sharply out for fishplates, to ecure desirable orders. We quote 2.15@ 25c for spikes, 1.70@1.10c for fishplates, and Sugac for bolts delivered.

Mirchaut Steel—Business is on a moderate cale in this market. We quote hot-rolled hatping 2@2.10c; machinery, 2.10@2.25c; tire, 1852.25c, and toe calk, 2.20@2.30c delivered.

Old Material—The market is very dull, with

Old Material—The market is very dull, with bld iron rails nominally \$20.00@21 00, while bid steel rails are offered at \$16.50@17 00, ensey City, without finding takers.

METAL MARKETS IN LONDON. British Iron and Metal Markets-Scotch arrants remained almost stationery at 47, with transactions small. Cleveland receded 28s 13d, with limited trading, and bemato 39s 11.30, with limited trading, and hematites dropped to 48s 71.50, although rather more active. Speculation in the several lines is still spiritless, there being very little outside interest. Stocks in Connal's stores at last report were 499,000 tons Scotch and 169,000 tons Cleveland. Latest sales of warrants were at 47s for Scotch 39s for Cleveland and 49s for hematite. Pig tin for prompt delivery dropped to £907s 6d, and has been almost neglected by outside speculators. Smallness of stocks falls flat as an to incentive purchases, owing to the flatness of the market for other metals. Copper has been unsettled and depressed, with many holders alarmed at the aggressive action of the "bear" party and reported reopening of e "bear" party and reported reopening of e Anaconda mines, with promised large oduction. Some good buying took place has restored confidence in some degree. A great deal of copper has passed that the market has been smashed by powerful operators interested in Rio Tinto and other mining shares. The consumption is erful operators interested in Rio Tinto and other intining shares. The consumption is good, and an increased demand for sulphate is noted. The Societe des Metaux sale has been postponed until December. The tin plate market has been quiet, but makers hold prices firmly. The Abercarne works have been closed, owing to scarbity of orders at remunerative prices. New works started at Neath. The steel trade is in better shape. Ealls in particular are firmer under the influence of improved demand. It is stated that the Darlington Steel Company has booked a large American order.

CHICAGO—There was more life in the wheat market to-day, due to a combination of circumstances, and a righer range of prices was established. The influences Lower, Fluctuating Frequently-Oats of circumstances, and a righer range of prices was established. The influences directly accountable for the advance to-day were dry weather reports, higher cables and rumors that the export of grain from Russia would certainly be prohibited. Some of the large "shorts" endeavored to keep prices down and were successful in causing a tem porary reaction from ontside prices, aided by some realizing at the advance. The speculative offerings were quite heavy and prevented a firmer rise in prices at the

The drouth news was, in substance, about the same as yesterday, a lack of moisture in the winter wheat region causing apprehension. Cables were higher, due, it was claimed, to news from Russia, it being rumored that the exportation of grain will be prohibited on and after November 5. The receipts in the Northwest continue liberal, but advices from that section were received chaming that larmers were stacking their ning that farmers were stacking their viscat and refusing to sell at present prices,

FEATURES OF MONEY AND SPECULATION

OPENINGS FOR SMALL TRADERS.

It is stated that the Panhandle Railroad Company will put down two additional tracks between Birmingham station and Mansfield, making it a four-track road between those points. This improvement is rendered necessary by the increase, in the coal traffic to the lakes via the Ohio connecting bridge, and also by the growth of business due to the opening of the McDonald oil field.

The fact that all the local roads are enlarging their facilities for transacting business must be accepted as proof of the pros-perous condition of this community.

On the Proquee Exchange to-day the butter market was stendy; fancy separator, 30c; Relief for the Business Center.

The business area of the city is being enlarged in a way which, while it affords much needed relief, causes no disturbance. The suburban march of trade has become an important as well as a conspicuous feature of Pittsburg. The rapid development of the outlying districts has enlarged the field of business enterprise. Stores and shops follow the movement of population, and there is scarcely a community, however newly formed, that does not possess a trade center, where staple articles may be obtained. This is a great convenience to large numbers of people, and is in no wise detri-mental to down-town merchants, since they furnish the supplies. There is trade enough

for all. The dispersion of business has been tollowed by good results. It has removed considerable pressure from the congested quarter of the city and by making room for large interests elevated the industrial and commercial importance of Pittsburg. It has, moreover, by enlarging the business field, augmented the trading class to the direct benefit of consumers, and materially assisted in building up the suburbs. "Country life with cit, advantages," is no longer a sentiment but a reality. The movement will go on until not only stores and shops, but hotels, theaters and market houses will arise to contribute to the comfort and pleasures of rural existence. The prospect is a pleasing one and is a strong factor in estimating future values of real estate.

A Progressive Suburb.

The flourishing condition of the nearby towns is good evidence of the soundness of the business situation in Pittsburg, since the business situation in Pittsburg, since any serious trouble here would react upon them. Homestead is a conspicuous example of suburban prosperity. Real estate has enbanced more than 100 per cent in three years. Many business and dwelling houses are going up. Sixth street has quite a city-like appearance. A large hotel is talked of. The steel works are being enlarged.

In conversation with the Secretary of the Munhall Land Improvement Company yesterday he said: "Andrew Carnegie told me last summer that in his opinion Homestead would in a few years outrank Braddock as

Large and Successful Auction Sale of Stocks-Exchange Prices Bested in Many Cases-The Regular Market Fairly Active and Strong.

The event in local stock circles yesterday was the auction sale on the floor of the Ex-change in the afternoon, by John D. Batley. Upward of 1,500 shares of securities and \$25,000 in bonds were offered and nearly all sold. This was a severe test of the absorb-tive ability of Pittsburg speculators, and the tive ability of Pittsburg speculators, and the result was highly encouraging. The ready sale of the bonds was, perhaps, the best feature of the occasion, showing a broadening market. There was a large attendance, and bidding was lively and sometimes spirited. Prices realized were in many cases higher than those ruling on 'Change. It was one of the most successful sales of the kind ever held here, and the general result is a higher standard of values for the consideration of future investors. The following is a list of the sales:

High Price of Butter Lessens the Demand and Reduces Cost.

POTATOES PLENTY AND ARE SLOW.

Heavy Receipts in Cereal Lines and Markets Are Quiet.

A DECLINE IN THE PACKAGE COFFEES

OFFICE OF PITTSBURG DISPATCH, THURSDAY, Oct. 29.

COUNTRY PRODUCE-(Jobbing Prices.)-The creamery butter market has found a lower level, and, while receipts are light, demand is also light. When creamery goes above 30c per pound, as it has done of late, the average consumer takes to oleo, and de-mand for the former falls off as prices rise. Choice butter has of late become a luxury, in which only the few with whom cost is no item can indulge. Supply of potatoes is still in excess of demand and markets are weak at prices quoted. Sweet potatoes are dull and slow, with a tendency toward lower prices. Apples are gaining as other domestic fruits wane. As Hallowe'en draws near demand for nuts increases. Markets in this line are now at their best for the year. Native walnuts are in short supply and prices are more than double the rates of last year. Tropical fruits are gaining in tone as home fruits decline. Poultry is plenty and slow. Strictly fresh eggs are scarce and outside quotations are easily obtained.

Sales on call at the Grain Exchange : Four cars of No. 2 yellow shell corn, 65c, 5 days; cars of No. 1 white oats, 3514c, 5 days; 5,000 bushels of November oats, 351/c. Receipts, as bulletined, 21 cars, of which 19 cars were by Pittsburg, Ft. Wayne and Chicago Railway, as follows: 1 car of ear corn, 13 of oats, 1 of middlings, 3 of hay, 1 of bran. By Baltimore and Ohio, I car of hay. By Panhandle and Lake Eric roads furnished no reports to-day. Old shell corn is firm at a

shade higher prices. Oats are barely steady at quotations. The general cercal situation is favorable to buyers. Wheat, flour and millfeed are quiet. Hay is steady and unchanged. Receipts of grain and hay are heavy this week. Farmers of late have been busy gathering in crops of corn and potatoes, and hence the short supply and strong prices of the early part of the month. Now stuff is coming in freely and markets incline toward a lower level.

Following quotations are for carload lots on freek. Dealers charge an advance on these prices

Provisions, The heavy receipts of hogs the past week have had the effect of weakening markets in provision lines. Lard is particularly slow and prices are on the decline. and prices are on the decline,
