The Rumers About Rusle and Buckley

Arousing the New York Magnates. New York, Oct. 30 .- The rumor that Rich nruson, Connor, Rusic and Buckley will depert the Gunts to join American Association clubs has awakened a feeling of genuine auxiety among the lovers of the game in this city. The names of Connor and Richardson are almost synonymous with that of New York, while Rusie and Buckley have won a reserved seat in the hearts of baschall patrons here. Richardson and coording to common rumor, will Join the Athletics at a largely increased salnry. Ensie is said to have been offered \$6,300 by the Chicago American Association club, by the Chicago American Association club, which is \$3,000 more than he got from New York last season. Buckley is one of the few men in the country who can hold Rusic's speedy delivery and is wanted by Chicago, too, and inasmuch as both have publicly expressed dissatisfaction with their treatment here it would not require much coaxing to get them away. Although all four nice on the New Yorkers' reserve less it is no har to their going into the Association hereafted the Longue and Association are at war and do not respect each others contracts.

Were Very Talkative.

The directors met at the Hotel Schlosser and they expressed themselves so exhaustively that they had to have supper there. Manager McGannigle was before them three times and the second time he was asked to state his terms, or at least the bard asked him if certain terms were suitable to him. They were and that ended the matter. There is no embargo placed upon him and he alone is responsible for the team who are to play for Pittsburg next year.

One of the grant sources of opposition to the appointment of McGunnigle to the position bas been the thought that he would not have Ed Hamlon on the team. The Disparch has never declared this fear and does not now. Hanlon will be on the ilke to say that in his last match with Kilrain he was not properly trained. Muldoon took him on the road as a drawing card to make money instead of training him as he ought to have been trained. Muldoon was supposed by the public to have great power over the champion, but Muldoon had no such power. The next time Sullivan will be trained directly under the eyes of Johnson, Wakeley and his other backers. They realize that Slavin is a very powerful man and will take no chances."

Johnson was seen by a reporter in Brocklyn this afternoon. He said: "Yes, Sullivan is anxious to fight Slavin and I and others are prepared to back him. Mr. Lumley, through his London agent, has been trying to get Slavin to declare himself, but he seems to be doing more blustering than anything else. There will be a fight if Slavin will come up to the mark which I hope he will. There is hardly anything that can be done now until we hear from Slavin."

FANS FOR FUEL GAS.

With Little Pressure. WHICH WILL NOW BE INCREASED.

The Union Gas Company Has a Deal With the Versailles People.

NEWSY NOTES FROM NEARBY TOWNS

MCKEESPORT, Oct. 30 .- If reports heard on the streets are true natural gas for fuel will within the next two weeks cease to be a scarcity, and the information given below comes from a reliable source. The deal by which the Union Gas Company will receive a supply of gas from the Versailles Gas Company is as good as made, as the contract will be signed as soon as a piece of work now in progress and being done for the purpose of increasing the gas flow shall be accomplished. This is accepted as a settled fact.

The Versailles Gas Company has plenty of gas, but it is troubled with the same affliction all other fields have given companies and has to do something to overcome the difficulty. The trouble is that the gas does not have the pressure here that it should have and something is needed to give it that. This something is a patent steam fan and the company is having one put on its line. It costs \$20,000 and is a fine piece of machinery. The fan gives the gas the pressure and in two weeks at the latest the gas pressure is expected to be very largely increased and the Union Gas Company will have plenty of gas to supply its consumers.

These fans are a great success. One of them has been in use on the People's Gas Company's line in the Murraysville field for two years and keeps up the pressure on the line right along. They are costly, but do the work and will prove a good thing to the Versailles Company's line. The erec-tion of engines and the fan on the line of the company extending from Grapeville to this city has been in progress for some time and will be completed within the time men-

### THE BOARD REMAINS IN THE HOLE. Queer Complications in a Case of Dual

Hamilton Treasurer over Mr. Dowler's head, the latter having been regularly elected when the board organized. The Dowler election was adjudged illegal, as he had not made his last year's report when the election was made.

When the report was finally submitted the board was surprised to learn that he had retained 2 per cent of all money handled by him during his term, and gave notice that he intended doing the same this year. As there is about \$45,000 to be spent this year, the board has sought legal advice to get them out of the hole. The result was the election of Mr. Hamilton, since when Mr. Dowler has stated that he will handle the funds for this year without pay. This set the board to pulling Mr. Hamilton off, with the result of raising another row. Taxpayers are kicking and the board remains in the hole.

ATROCIOUS DOUBLE MURDER. NOTED SMUGGLER KILLS AN

OFFICER AND HIS FRIEND.

The Knife Used in Both Cases-One Man Lives to Tell the Terrible Tale-No Court Trial Needed if the Murderer Is Caught.

LAREDO, TEX., Oct. 30 .- [Special.]-One of the most atrocious double murders which ever blackened the annals of this county was committed this morning about 4 o'clock. Yesterday evening United States Deputy Marshal George Wise was notified by Francisco Salazar that Francesco Florez, a noted smuggler, would come uptown from the eastern part toward the river with smuggled goods. The Marshal notified a friend, and the two laid in wait for the smuggler near the schoolhouse plaza, stationing themselves there about 3 o'clock. About 4 6 12 xdown a street near Marshal Wise, and was halted. He stopped and laid down his

The officer stepped up to see what he had when Florez stabbed him in the pit of the stomach. Wise staggered back and fired two shots at his mandage when him had been storaged. two shots at his murderer, when his friend Garcia ran up, and Wise called out that he was killed, and called upon Garcia to catch his murderer. Garcia, who was not an officer, ran after Florez and caught him, when he also received his death wound from the deadly knife, being stabbed about an inch below the left breast, falling dead in his tracks.

The pistol shots attracted the attention of

people living in the neighborhood, and they ran out to find one man dead and another mortally wounded, and a fleeing shadow in the distance. Wise was conveyed to his residence. Garcia was carried to the residence of his family. Marshal Wise lived until this morning about 8 o'clock. He lived to tell the story of his murder and all the circumstances connected therewith. The bundle the man laid down contained

about ten gallons of mescal. Florez is known here as a smuggler, and is a natural-ized citizen of the United States. If he can be apprehended in Mexico, a demand will be made for his extradition. Were he caught to-night no court of justice would ever pass upon his guilt or innocence.

Scenes Described by a Man Who Rode Through a Prairie Fire.

WICHITA, KAN., Oct. 30 .- A gentlema who has just arrived from the western part of the State reports terrific prairie fires in Gray and Ford counties. For miles the Santa Fe train, on which he was a passenger, traveled at its utmost speed through a sea of flames, with every window and ventilator flattened down. From the train could be seen burning farm buildings and stacks of hay and grain, and people and stock fleeing before the flames. He says there must have been a num-

ber of human lives and many head of stock lost in the vicinity of Beaumont, Butler county. Thousands of acres of grass land were burned over last night, fences were destroyed and stock burned or scat-
