POINTS IN BUILDING AND REALTY.

Beart End Residences Picked Up and Sites Purchased for Others.

LAWRENCEVILLE'S PAROCHIAL SCHOOL.

General trade was rather slow last week, but the local movement was a good average. Owing to the character of her industries, Pittsburg is the last to feel a depression. Her products being staple and essential, are always in demand. There were no new business entanglements, and one or two hampering progress for several months were straightened out, leaving the situation materially stronger.

With exciting elections on hand in several of the States, the failure of business to respond to the favorable conditions which everywhere prevail, should cause no uncasiness. There is nothing wrong at the bottom. The outlook has met with no content.

casiness. There is nothing wrong at the bottom. The outlook has met with no eclipse. There is an abundance of cheap eclipse. There is an abundance of cheap money at all of the great business centers, which is being augmented by steady receipts of gold from Europe.

Railroads are carrying to tneir full capacity. They will soon begin to buy iron. Farmers are strengthening their position by paying off their mortgages. Seldom have so many elements of strength and encouragement been united. They presage a great business movement at an early day.

A Squirrel H ll Deal. It was stated in this column a short time ago that three prominen business men, two of whom reside on the Nortifside, had about decided to purchase ground and build hand-some homes in the squirrel Hill district.

some homes in the Squirrel Hill district. During the week one of these gentlemen bought, through the agency of J. H. Coleman & Co., six acres in the locality mentioned, near Forbes street, for \$20,500, upon which he will erect, next year, a dwelling that will be a credit to that neighborhood.

The other two gentlemen, it is understood, have several sites under consideration, but, so far as known, have settled upon none. able Goods. Regular lines of trade yielded satisfactor

East End Residences Sold. Two elegant East End residence propertie changed ownership during the week. Black & Baird sold a new stone house of 12 rooms, lot 60x161, on the west side of Negley avenue, between Center and Penn, for \$18,000. The purchaser is Milton I. Baird, of

the firm, who will occupy the place as a residence.

Thomas A. Hertman sold through the agency of M. F. Hipple & Co., his fine residence, a handsome new 12-room mansion, Queen Anne style, with lot 50x120, situated on the west side of South Highland avenue, Twen ieth ward, for \$17,000. The purchaser, a leading business man, will make it his permanent home.

Will Build the School. The parochial school of St. John's R. C. Church, near the Forks of the Road, will be built after all. It was stated some time ago that the trustees had encountered an unexpected obstacle in the refusal of the Scott beirs to sell their lot at what was considered a reasonable price. This difficulty has been removed and the coveted property secured, giving them the desired frontage on Penn avenue.

As preliminary to the erection of the school building the trustees have decided to sell their property between Thirtieth and Thirty-first streets.

The Building Record, Continued good weather during the week was favorable to building operations. Rapid progress was made with work under way, and many buildings were started in the hope of getting them under roof before cold weather. The number of permits issued fell slightly below the average for the sea-son, numbering 38, against 38 the previous week, but the estimated value of the im-provements was much greater, being \$27,-818, against \$129,663 the week before. Of this amount the Times building, on Fourth ave-nue, contributed \$230,000. This was the only permit of special importance taken out, the others being for the ordinary classes of im-provements. The record so far this year shows a total of 2,655 buildings and addishows a total of 2,635 buildings and additions, which is about 270 in excess of the number authorized in 1830.

Yesterday's permits were: C. G. Hussey, brick addition six-story business house on Virgin alley, Third ward. Cost, \$4,500. John T. Madigna, brick three-story store and dwelling on Butler street, Eighteenth ward. Cost, \$4,000. Annie Blades, frame one-story dwelling on Ridge street, Thirteenth ward. Cost, \$3.0. John Shier, frame two-story dwelling on Bismarck way, Thirteenth ward. Cost, \$1,000.

The feature of the week was the auction sale on Thursday afternoou. It absorbed the bulk of the outstanding orders, and in many cases raised the standard of values. By demonstrating the existence of a good demand for bonds and other good investment securities the sale was a positive benefit to the trade.

Brokers are still hopeful of a revival, and not without good reason. The large volume of money to go into the hands of the farmers will be used to discharge a large amount of indebtedness to Eastern creditors, and, with funds accumulating at the financial cente.s, there will be for a long time to come a disposition to invest in old and new securities rather than to work into new enterprises. Such a disposition will direct funds very freely into stock market channels.

WALL STREET'S REVIEW. THE DULLEST DAY IN THE WEEK, EXCEPT IN THREE STOCKS.

Plan of Relief for the Richmond and West Point-Continued Drives in Coal Shares, Especially Lackawanna and

Reading-Chicago Gas Goes Up. NEW YORK, Oct. 31 .- The stock market was, side from the trading in three stocks, the dullest of the week and even more feature-less than usual of late. Notwithstanding the publication of a plan for the financial movement was excited in securities and the strength and activity in the Vanderbilts and Industrials seemed to have entire dis-

in their place, bowever, remained the weakness in the Coal stocks, and the further movement in Chicago Gas toward higher prices, the best flgures of the week heing reached in this stock to-day. It, with Lack-awanns and Reading, supplied all the animation there was in the market to-day, and the fentures, aside from a sharp upward movement in Phœnix Mining; but the latter, as usual of late, had no influence upon the rest of the market, being a mining stock, and one of the unlisted ones at that.

The opening was dull and tame, though slightly higher than last evening's flgures, and while there was some demand from London and Boston, the former buying St. Paul, Reading and Union Pacific, and the latter Atchison, the traders continued to hammer the Coal stocks to some effect. Lackawanna dropped 1½, after opening up 36, but Reading retired only a fraction, and the efforts to cover later in the day caused the recovery of most of these losses. Chicago Gas rose steadily from 55% to 57, closing at the latter price.

No other feature of any kind marked the dealings, the general list being simply dull and stagnant, and the market finally closed dull and steady at insignificant changes from first prices. Chicago Gas showed a change of 2 per cent, but the only Laportant movement in Chicago Gas toward higher from first prices. Chicago Gas showed a change of 2 per cent, but the only important loss was in Tennesse Coal, which opened down 1 per cent and shaded off further 1/2

Railroad bonds were more active com-paratively than stocks and displayed a more decided tone, most of the issues traded in scoring gains of more or less importance, though Union Pacific, Denver and Gall West failed to move. The Railway Situation. John M. Oakley & Co. received the following: "There is one fact patent to all students of railway statistics, namely, the constantly growing volume of traffic. So far this has een accompanied by a constantly diminish-There is more reason to expect that the lowest possible rate tariffe will soon be reached than that the ratio of growth of traffic will be reached or stopped. When the tendency

of the out card in the market was Chicago Gas, though it is not a trump to be particularly proud of. It rose two points. There was an assault on the Coalers, but they did not yield any furtner than short sales might be expected to make them yield, and that

be expected to make them yield, and that was fractions.

"The bank statement was fully as favorable as expected. While the loss in reserve was a petty \$52,000, the banks actually gained \$400,000 in net specie. Richmond affairs are the subject of a good deal of goseip. Mr. Inman, its President, is a man of powers and resources, and it will not do to reckon on his deserting the property. The probability is that the market will be higher and more active Wednesday at advancing prices."

A Waiting Market.

Henry Clews & Co. say: "Still we have on

Wall street the stagnant and feebly-oscilating condition of speculative business that nas prevailed for six weeks past. The interest in the stock market is almost entirely confined to the "room traders;" the outside public are absent or listlessly waiting. public are absent or listlessly waiting. There is one fact, however, that deserves notice, viz., that the constant attacks of the bears fail to produce any general or importantly relding in prices.

"This suggests that there is confidence enough to induce persistence in helding; and probably also means that margins are in good shape, which is the more probable from the fact that those now in the market have made handsome profits out of the antecedent rise. These considerations make it probable that, if the bears are intent upon persisting in their efforts to break prices, they may find it to be a long undertaking and one that will need to be kept up until holders are willing to sell from sheer weariness of waiting. These are among the considerations that make the leaders of speculation willing to defer buying until we are nearer to the maturer effects of our large crops."

THE MONETARY SITUATION. Susiness of the Pittsburg Clearing Rouse for the Month.

Clearing House operations for the month just ended, while away below those of last

ordinary. Last year's business was so large as to erect a false standard and caused peo-

ple to expect the impossible. Business then was excited and much of it Business then was excited and much of it was "wind," as subsequent events demonstrated. Now it is, so far as can be seen and judged, on a sound basis, backed by hard cash. The country is really more prosperous to-day than ever before in its nistory. There is less speculation and more legitimate trade. Pittsburg merchants and manufacturers have nothing to complain of. They have plenty of business and are taking no risks. GRAIN AND PROVISIONS.

A Light Trade and Narrow Fluctuations in Wheat-More Rumors of Russian Prohibition of Exports-Corn Opens Quite Weak and Continues Unsettled.

CHICAGO-Only light trading within a small range of prices characterized the market to-day, but the feeling was stronger, and prices ruled slightly higher than the closing of yesterday. The influences were a little more favorable to holders. There was less disposition to sell, and some of the shorts were covering. Foreigners were re-ported as buyers, and there seemed to be of grain is evidently having some effect, advices to-day again claiming a possibility of such an order going into effect. Reports of dry weather continue to be received, and a message from a party in Central Illinois saffi that early sown wheat is looking bad, and in some cases there is talk or plowing up and replanting.

The opening was 1/2/2/2 higher, eased of 1/2 and then advanced 1/2/2/2/2; ruled easy and closed about 1/2/1/2/2 higher than yesterdey.

Mr. John 11. Garson.

Mr. Garson says: "I have been troubled for a long time with insomnia, poor appetite, loss o flesh. My business proved a burden. I was worried by trivial matters. My strength beyan to fail. In fact I felt that I was breaking down. Upon consulting the physicians of 507 Penn avenue, I was informed that my condition was one of general debuilty, with threatened nervous prostration.

tration.
"I was encouraged to undertake a course "I was encouraged to undertake a course of treatment and the result has been perfectly satisfactory. I sleep well and get up refreshed. My appetite is good and digestion perfect. All nervousness and other unpleasant symptoms have disappeared. I therefore take pleasure in indorsing electricity as a curative agent and as applied by the physicians of the Electropathic Institute as 507 Penn avenue." Sciatic Rheumatism Cured.

"I had a severe attack of sciatic rheumatism. I was taken down about June I, and suffered tortures," says Mr. David W. Spencer, of Sunnystic, Pa. "I heard of the skill of the physicians in charge of the Electropathic Institute, and as soon as I could possibly be moved was taken there for treatment. I was under treatment but a shore time but an entirely cured." time, but am entirely cured." The Great Tonic.
