THE FINAL FIGURES

Given Out by Political Leaders in the Buckeye State Campaign.

MAJORITY FOR M'KINLEY Estimated by Confident Republicans at Upward of 25,000.

CAMPBELL STILL CLAIMING IT. His Opponents Laugh at Him While Admiring His Nerve.

THE BAY STATE CONSIDERED CLOSE FROM A STAFF CORRESPONDENT.

COLUMBUS, Nov. 1.—One more day the turmoil remains, when the campaign work in Ohio for this fall will be finished. The leaders of all factions and the people are tired, and willing to throw up the sponge.

With both parties confident of success, the betting fraternity and the people must take chances and bet on the result. All that can be done now is to present the claims of the managers and the latest estimates and gossip. The public can then judge for itself.

Columbus, always poky and slow, was unusually quiet to-day. There was nothing on the streets to indicate that an important election was to be decided in the next 72 hours.

The Republican headquarters were closed during the day, but they were opened for a while this evening. The clerical forces of both parties have gone home to vote, but Chairman Neal and Hahn were here to watch the closing features. The correspondents who have been traveling with the candidates or engaged in canvassing the State crowded the Neill House and discussed the situation.

Governor Campbell smilingly confident. Some of the Republican hustlers were a little apprehensive, but nobody ever heard of a Democrat being disconcerted. Chairman Neill kept open house, and a small company of the wheelhorses was on hand all day, telling stories and figuring on the outcome. Governor Campbell appeared at the Neill House about noon looking as fresh as a school boy and wearing a plug hat. The faithful Claude Keener, his right bower, was at his elbow. The eight Republican leaders amused the politicians, and the old crowd went up: "Where did you get that hat?" On the stump the Governor wears a cutaway coat and a derby, thus carrying out the Jeffersonian idea of simplicity, but to-day he broke away from his rule.

Mr. Campbell has stood the hard work of the campaign, but he looks as if he could go through another siege. What puzzles the Republicans—and, to be candid, worries them a little—is the sublime confidence the Governor has in himself to pull through. He is the most sanguine Democrat in the State, and he has no doubt about his election. This is how he reasons:

He has been in the lead in the polls, and never made a mistake in guessing a result. I feel sure I will have double my plurality in 1888, and probably more. Within the last three weeks there has been a wonderful change in sentiment. It will amount to a popular uprising—what you would call a ground swell—and I will be the winner with a good-sized majority."

The Governor Giving Out No Figures. The Governor thinks that the people are mad that they didn't elect a full quota of Democratic Congressmen last fall, and this year they will make up for it. He expects Ohio to turn a somewhat as Kansas and Nebraska did a year ago. So sure is he of his success that when asked by friends how to wager money on the outcome, he advises that if they will bet to put up their cash on the Democratic ticket, Mr. Campbell is not giving figures, but he is in a position to air. He adds that he has been in the stump that as soon as he sees an audience he can tell who is for and against him. In making speeches he has watched his hearers closely, and he claims he converted many Republicans, as his manner indicated. The Governor has great faith in his judgment, and it is on small points like the above that he has his opinion.

The hopefulness of Campbell has had a good effect in jacking up the drooping spirits of his lieutenants, and they are now claiming everything in sight. His friends say if the Governor is re-elected he has the satisfaction of knowing that he fought the fight alone. No amount of entreaty would induce a Hill or Cleveland to come into the State to help him. Governor Gray, of Indiana, made one speech, and then went home and said he couldn't see on what the Democrats based their hopes. This provoked Mr. Campbell a good deal. His vigorous canvass is no doubt due to the apathy or jealousy of these Presidential candidates. He was determined to show them that he could get along without their assistance.

Republicans Laugh at Campbell's brag. On the other hand, the Republicans laugh at the Governor's confidence, but they admire his nerve. It is a good play, they say, for him to maintain a bold front until the avalanche falls. They give him credit for being a dangerous foe, but one that is badly licked now to Dayton, this afternoon, to visit the soldiers' home to-day morning. In the evening he will close the campaign with a meeting at Cincinnati. McKinley will make his last speech at Canton.

Chairman Hahn had nothing new to add to his estimate made a few days ago. He says that his figures, so far as Hamilton county is concerned, are based on Secretary of State Ryan's vote last year. During the day he saw a number of calculations made, and McKinley's majority was placed anywhere from 18,000 to 21,000 votes. He counts on the election of 19 or 21 Senators, and from 61 to 67 Representatives. He claims the western Reserve is in line, and that the People's party has not made inroads into the Republican stronghold. In the northwest the new party is strong, and is expected to injure Campbell's chances. The Governor thinks he has won back doubting Democrats in that section, and he

believes McKinley failed to reach wavering Republicans.

No Panic Features This Year. Chairman Hahn denies the report that he had a federal officeholder under cover conducting the Legislative fight for him. The Democrats charge that such a man came into the State during August, and worked in the garret above the chairman's rooms. Captain Matthews, the Republican Secretary, sat at his desk to-night, looking over his mail. "One strong point about no panic features," he said, "is that we have had no panic features. Usually a few days before an election men begin to break down under strain and they do anything that is going against them. We have had nothing of this kind, and it is too late now for a panic to overtake us. These letters I am reading are from all parts of the State, and they contain nothing but assurances of success. The boys report that they are waiting for the day, and will be at the polls. McKinley ought to have not less than 20,000 majority."

Summit is the only Republican county that is really in danger, and Colonel Cooper, of Akron, is held responsible for the result. He is charged with being a sorehead, and cutting the wages of his employees a short time ago for the purpose of injuring the party. It has had the desired effect. The Republican majority in the county is about 1,000. The Democrats are jubilant and claim it. The Republican managers realize that they will lose some votes, but they still think they can carry the county.

Chairman Neal is Very Sanguine. Chairman Neal looks at the contest good-naturedly. "Well, boys," he said, "we must all live, no matter who is elected. It is very sanguine to-day, and predicts that Campbell will come down to Hamilton county with a much larger plurality than he had in 1888. He figures that the Governor will have twice his plurality of two years ago. Then it was about 11,000, and this would make it 22,000. This gives some idea of the strength of Democratic hopes—or bluffs, which? He had quite a joke with Hahn about the money the Republicans have in the State. "I agree," replied Neal, "and I will give you \$5,000 in the bargain for it. It cost the committee about \$300 to pay their expenses."

Colonel W. A. Taylor, one of Mr. Neal's advisers, delivered himself of some "laying the odds" party prejudice. McKinley's majority has not less than 10,000 of a majority in Hamilton county to bet Campbell. I believe, according to Republican estimates, that he will beat me. "If this is true, McKinley will be beaten."

Position of the Big Cities. If Democratic claims are correct, Hamilton county is in much better shape than they expected. Most of the kickers are in the city. The Democrats are confident that they will have a large majority in the city. The Republicans are afraid of the city. The city is expected to give the Democrats a large majority. The city is expected to give the Democrats a large majority.

To wind up generally, I think McKinley will not be as large as was anticipated. I have heard estimates of the Mayor's plurality made to-day ranging from 3,000 up to 25,000 votes. The Republicans are looking for more than 10,000 of a majority. "Well, this is enough to land protection on the Governor," said one of the Democrats. "It is enough to elect all it will be by a landslide and he will have a very large majority. As the indications for such a possibility are so good, I think the Republicans should be in a better position than they are. I feel sure I will have double my plurality in 1888, and probably more. Within the last three weeks there has been a wonderful change in sentiment. It will amount to a popular uprising—what you would call a ground swell—and I will be the winner with a good-sized majority."

Both Sides Claim a Victory by From 10,000 to 20,000.—The British-American Against Governor Russell—Labor and Its Power.

BOSTON, Nov. 1.—[Special.]—The political campaign in Massachusetts has been a snorter. Both sides have been using their heavy guns all along the line, and the battle has been a continuous war of artillery. There will be no cessation until the ballot boxes are closed, Tuesday afternoon. The committees of both parties have worked very hard, and they have done a great deal of good work. They have done a great deal of good work. They have done a great deal of good work.

the Republicans will win a handsome victory. Here in his home Republicans are wide awake, and if the rest of the State does as well as Stark county it will be only a question of majority. Major McKinley will spend election day in Canton, and will vote in his old precinct. In the evening he will receive election returns at Republican headquarters. Private wires will be arranged for, and every facility obtained for the securing of news from over the State.

THE FINISHING TOUCHES PUT ON THE KEYSTONE STATE CAMPAIGN YESTERDAY.

Chairman Waters Says Gregg and Morrison Will Win by About 20,000.—Chairman Kerr Equally Confident That His Men Will Get There.

PHILADELPHIA, Nov. 1.—[Special.]—Today is the busy day for the workers. The campaign virtually closed with Saturday night's meetings, many details were yet to be arranged, and Sunday saw the clerks at the several headquarters winding up the work of the committees and putting the finishing touches to the programme to be carried out Tuesday with the aid of the voters.

Both sides are apparently full of confidence, and victory is claimed for all of the candidates. Especially confident is Republican Chairman Waters, who claims that his ticket will roll up a majority close on to 50,000. Democratic Chairman Kerr is equally hopeful, but is not quite so extravagant in his estimates.

So far as the fight in this city is concerned, the wisecracks are of course, but both sides are claiming victory. That the city is full of well known repeaters is certain, though they are being closely watched, and there is every reason to believe that the magistrates will sit all day Tuesday will be kept busy hearing complaints and issuing warrants.

Chairman Kerr left for his Clearfield home to-night to rest, and will return to the city on Tuesday evening. He said: "I am not giving out tabulated statements, but am very confident of the result." In speaking of the Democratic party he is better placed here than has been the case in many years. The Democrats are confident and united. They are better organized to prevent fraud and cheating at the polls than ever before. In addition to the splendid organization of the Democrats in this city, we have brought to the support of the party a block division force of 6,000 Democrats, who will work over the direct route, and will be in the city in force on the day of the election. A careful estimate, made from the figures furnished by County Chairmen and reliable sources, shows that our cause is a good one, and that the Democratic ticket will be elected by a heavy vote. The party is united, and that means firm ranks and every man on guard."

Chairman Waters, while declining to enter into a formal publication, said this evening: "Republican success is certain. Our organization is of such a character that I have no hesitancy in claiming a repetition majority for Gregg and Morrison, liable to be increased to 20,000. A careful estimate, made from the figures furnished by County Chairmen and reliable sources, shows that our cause is a good one, and that the Democratic ticket will be elected by a heavy vote. The party is united, and that means firm ranks and every man on guard."

A CURIOSITY IN POLITICS. Republicans and Democrats Unite Against the Provisional.

HOLLIDAYSBURG, Nov. 1.—[Special.]—The contest in the Twenty-fourth Judicial district, including Blair county, is becoming exciting. Hon. John Dean, who has been on the bench for the past 20 years, was petitioned by 50 members of his bar to consent to serve another term. The Republican party tendered him an unanimous nomination, which was also done by the Democratic party. It is thought that 12,000 votes in the county there will be not over 1,500 against him.

The Provisionals, however, have selected T. A. Jones, of the same county, as their standard bearer. He has promised his adherents to interpret the license law as does Harry White, of Indiana county, and grant a license to every salaried man. Blair county is temperance stronghold, and the prohibition amendment in 1889 some 2,284 majority. This fall the Provisionals have carried on a hot campaign, held mass meetings, and issued a large number of campaign papers. By a preconcerted arrangement several prominent Altoona clergymen were preaching temperance, and thus doing a little for the cause. A careful estimate, made from the figures furnished by County Chairmen and reliable sources, shows that our cause is a good one, and that the Democratic ticket will be elected by a heavy vote. The party is united, and that means firm ranks and every man on guard."

THE ANXIETY IN IOWA. Republicans Somewhat More Hopeful Than Their Opponents.

DES MOINES, Ia., Nov. 1.—The political campaign in Iowa has been a snorter. Both sides have been using their heavy guns all along the line, and the battle has been a continuous war of artillery. There will be no cessation until the ballot boxes are closed, Tuesday afternoon. The committees of both parties have worked very hard, and they have done a great deal of good work. CRUELTY OF CHILEANS

Shown by Their Treatment of Uncle Sam's Sailors Under Arrest.

OFFICIAL REPORT OF THE AFFAIR Received Yesterday by Secretary Tracy From Captain Schley.

TALKS WITH PROMINENT CHILEANS

WASHINGTON, Nov. 1.—Secretary Tracy this afternoon received the following dispatch from Captain Schley, dated yesterday: "Petty Officer Johnston, in whose arms Riggin was killed, declares that the act was done by the police guard. Apprentice Williams reports that he was arrested by a mounted policeman, who placed custody of him around his wrist and started his horse in a gallop, throwing him down. After that the policeman walked his horse. Coalheaver McWilliams was arrested and taken to prison with eight nippers around his wrists, and a lasso around his neck. He was bitten in the arm after arrest. Coalheaver Quigley while trying to effect escape from jail, was struck with a sword by a police officer. Apprentice Talbot was arrested, caught nippers were placed around his wrists, and on the way to prison he was struck repeatedly by police."

PHILADELPHIA, Nov. 1.—[Special.]—The erection of a large oil refinery at Marcus Hook, on the property of the Reading Railroad Company, in connection with a new pipe line from the oil fields in Southwestern Pennsylvania, is an established fact. The story was confirmed to-day by prominent oil refiners in this city, who said the enterprise was conceived in opposition to the Standard Oil Company.

The men at the head of the project are W. L. Mellon & Co., of Pittsburgh, who have associated with them a number of heavy capitalists of Western Pennsylvania, men who have been for years identified with the trade. Andrew Carnegie, the Pittsburgh millionaire, is also reported to be engaged in the new movement, and the pipe for the new pipe line will come from his works.

When the project of a new pipe line was first broached it was intended to make New York the seaboard outlet, but through the efforts of several well-known Philadelphia firms, who presented to the promoters of the enterprise the advantages of Philadelphia, they were induced to reconsider their determination and make this city the terminal point. The construction of the pipe line and erection of the refineries on the Delaware will involve an expenditure of several millions of dollars, which has already been secured.

The right of way for the pipe line, which will be known as the Greene Pipe Line, from Gregg's station, Pa., to Philadelphia, is now being secured by J. H. Donaldson. The line will be 310 miles long, and will cross the Susquehanna river about Harrisburg. The pipe will be six inches in diameter, with a carrying capacity of 500 barrels an hour, with a pressure of 1,000 pounds. The line will be constructed and operated by the Standard Oil Company, as the men identified with the movement have many of them in the past at his hands, and are not likely after the same has been constructed and the refineries erected, to turn them over to that big corporation.

CHLOROFORMED AND ROBBED. A Wealthy New Hampshire Brewer Victimized to the Extent of \$7,000.

PORTSMOUTH, N. H., Nov. 1.—One of the boldest robberies ever perpetrated in this city, occurred this morning before the hours of 1 and 4, when the house on Market street occupied by George Scott, Vice President of the Portsmouth Brewing Company, was entered and robbed. The entrance was effected through a rear window and the thief proceeded to the rear chamber, where Mr. Scott and his wife, and after removing all Mr. Scott's clothing chloroformed Mr. and Mrs. Scott.

The pockets of the clothing were rifled, the key to the safe and a gold watch and chain valued at \$400 were taken, and a diamond pin valued at \$150 was removed from a shirt. After securing the key to the safe, the thief proceeded to the lower stairs, where the safe is kept, opened and rifled it, securing between \$4,000 and \$5,000 in money, several articles of jewelry, and other valuables. The total value of the money and negotiable articles will amount to nearly \$7,000.

ALL OTHER MINING CONVICTS To Be Liberated by the Determined Workmen of Tennessee.

CHATTANOOGA, Nov. 1.—A rumor is current here that a secret understanding exists between the miners throughout the State to liberate all convicts working in the coal mines. In consequence it is thought the next move will be on Oliver Springs, Tracy City and Inman, where convicts are employed. No further outbreaks have occurred at Briceville and the miners resumed work yesterday morning.

The convicts are scattered, the majority fleeing to the mountains of Kentucky. The total number of convicts released exceeds 300. The militia are awaiting orders from Governor Buchanan, but the officers do not think they will be called out, as the damage has been done and there is no need for their presence at Briceville. The failure of the Legislature to adjust the difficulty is the foundation of the present lawlessness.

FIGHTING A FOREIGN SYNDICATE. Litigation Involving \$1,000,000 Begun by American Stockholders.

DULUTH, Nov. 1.—The Iron and Lead Company of Minnesota, Limited, has a legal fight on its hands that threatens to grow the corporation. The fight is practically a family one, and is of such proportions that about \$1,000,000 is involved in the controversy. The stockholders in the company are principally Englishmen, and the company has secured a vast area of valuable mineral lands. In addition to the available stock there were issued debentures to raise money to further the landed investments. These debentures were to some extent, at least, given to persons in England.

The holders of some of these debentures got wind of a plan on foot by the Englishmen of the corporation to look after their interests in a way that is thought to be inimical to the holders of interests in Minnesota. As a result a number of actions have been commenced against the corporation setting up the claims, and attachments have been levied, the defendant being a foreign corporation.

MILLER, the Suicide Identified. NEW YORK, Nov. 1.—Detectives at Fort Lee, N. J., to-day positively identified the body of the suicide found at Englewood, N. J., on Saturday, as William Miller, who brutally murdered Minnie Ransauer, of this city, Friday.

A BIG BANK FAILURE

Will Be Formally Announced to the Financial World This Morning.

NO FEARS OF ANY PANIC, Although the Concern Is the Largest in New England, and Has UPWARD OF \$10,000,000 DEPOSITS.

Comptroller Lacey Blamed for the Same Policy as in Keystone.

SENSATIONAL DEATH OF THE EXAMINER

BOSTON, Nov. 1.—The doors of the Maverick National Bank will not open for business to-morrow morning. This means that the most prominent financial institution in New England has been for some time in a state of suspension of payment. The blow will be a serious one, and is the only occasion of surprise anticipated to a certain extent, and will have reason it can positively state that the failure will not entail any widespread financial evil.

Some idea of the extent of the failure can be gleaned from the fact that ten days ago deposits in the bank amounted to more than \$10,000,000, the bank depositors numbering more than 300 and individual depositors about 1,200. But the most sensational feature of the failure is the announcement that as far back as January last Bank Examiner Magruder reported to Mr. Lacey, Comptroller of the Currency, that the bank was in a bad condition. Again, in September, Mr. Magruder reported to the Comptroller of the Currency that the bank was rotten.

Just the Same as Keystone. In spite of these warnings the bank was permitted to continue in business. It is a reproduction of the infamous Keystone Bank robbery in which official figures in the amount of \$1,000,000 were stolen. Bank Examiner Magruder dropped dead of heart disease incidental to the mental excitement over the pending exposure. His life was sacrificed by his political bosses in Washington, and millions of dollars have gone up in a big speculation bubble which might have been saved if officials had not betrayed their trust. The official announcement of the suspension was made by the Clearing House committee this evening in the following form:

The national bank examiner, acting under the instructions of the Comptroller of the Currency, has closed the Maverick National Bank. The Clearing House Committee of the Boston Banks has called a meeting of the members of the clearing house at 2:30 o'clock this morning to take action upon a proposition recommended by the committee. All the banks composing the association unite in making advances in cash to the depositors of the bank. The object of making these advances is to relieve the temporary embarrassment of the depositors.

A Suicide the Immediate Cause. The immediate cause of the bank's suspension was the suicide of Irving Evans and the talk which followed it. The loss caused the bank by its dealings with Evans was not large enough to seriously injure it. It was stated that the creditors of Mr. Evans would not lose more than \$500,000. That is true, and it is also true that not more than \$200,000 of that amount falls upon the Maverick Bank.

But the talk of the street made the bank's loss far greater. The stories included rumors of the negligence of Mr. Potter and Mr. Magruder, and the relations of the broker. Most of these stories were entirely false. The gossip about the bank, instead of subsiding, increased to flood tide, and became of a menacing character. It is thought the inevitable effect will be to bring more than a month ago. Some of the principal depositors one after another withdrew their accounts. The deposits in the bank ten days ago amounted to more than \$10,000,000. During last week more than \$1,700,000 was withdrawn. State Treasurer Martin withdrew some \$900,000 of the Commonwealth's fund, which was given to him by the trust moneys were also taken out.

An Official Crisis Reached. No bank having ten millions or more out on loans could stand a withdrawal of a portion of them into cash. It is not need to be implied that the Maverick Bank was in such a position. It was not. An official crisis, if it was so expressed, was reached several days ago, when the President of another bank, who was in Boston, refused to accept a certified check on the Maverick from one of its depositors. The motive of the refusal is said to have been partly a financial one.

At all events, the matter was immediately brought to the attention of a member of the Clearing House committee, not in an official capacity, who felt it to be his duty to consult with the committee. He did not do so, it is said, and approved of the action of the President, who refused the certified check. It is thought the situation justified their action. The first action of the committee was taken on Thursday, October 22. From that time on the Clearing House Committee kept a very close watch of the Maverick. They actually went into the bank on Wednesday last for the purpose of ascertaining its exact condition. The examination was made partly by members of the committee and partly by Assistant National Bank Examiner Emer, occupied three days.

Trying to Tide It Over. In the meantime it is said that banks in the Clearing House had advanced about \$500,000 to supply the temporary needs of the Maverick, and care was taken to make the Clearing House come on the right side of the ledger. In fact it was given to the amount of \$200,000 on Friday and of \$400,000 on Saturday. But the drafts over the counters of the Clearing House had advanced about \$500,000 to supply the temporary needs of the Maverick, and care was taken to make the Clearing House come on the right side of the ledger. In fact it was given to the amount of \$200,000 on Friday and of \$400,000 on Saturday.
