PHARAOHS MUST GO. Modern Oppressors Likened to the Rulers of Ancient Egypt,

THE LAND OF CRUELEST SLAVERY. Burdens Which Now Call for Removal From

TALMAGE'S SUNDAY MORNING SERMON

the Land of the Nile.

BROOKLYN, Nov. 1 .- The subject of Dr. Talmage's morning sermon was "Bricks Without Straw," a continuation of the series on the confirmation of Holy Scripture which Dr. Talmage found in his journey from the Pyramids to the Acropolis. His text was, Isaiah ixx : 1: "The burden of

What is all this excitement about in the streets of Cairo, Egypt, this December morning in 1889: Stand back! We hear loud voices and see the crowds of people retreating to the sides of the streets. The excitement of others becomes our own excitement Footmen come in sight. They have a rod in the hand and tasseled cap on head, and their arms and feet are bare. Their garb is black to the waist, except as threaded with gold,

and the rest is white.

They are clearing the way for an official dignitary in a chariot or carriage. They are swift, and sometimes run 20 or 40 miles at a stretch in front of an equipage. Make way! They are the flectest-footed men on earth, but soon die, for the human frame was not made for such endurance. I asked all around me who the man in the carriage was, but no one scemed to know. Yet as I fell back with the rest to the wall I said, This is the old custom found all up and down the Bible, fottmen running before the rulers, demand-

Egypt Our Great-Great Grandmother.

Now, my hearers, in this course of sermons am only serving you as footman, and clearing the way for your coming into the wonders of Egyptology, a subject that I would have you study far beyond anything would have you study far beyond anything that can be said in the brevity of pulpit utterance. Two hundred and eighty-nine times does the Bible refer to Egypt and the Egyptians. No wonder, for Egypt was the mother of nations. Egypt, the mother of Greece; the mother of Rome; Rome, the mother of England; England, the mother of our own land. According to that Egypt is our great-great grandmother.

We saw again and again on and along the Nile a boss workman roughly smite a subordinate who did not please him. It is no rare occurrence to see long lines of men under heavy burdens passing by task masters at short distances, lashing them as they go by, into greater speed, and then these workmen, exhausted with the blasting heats of the day, lying down upon the bare ground, suddenly chilled with the night air, crying out in prayer. "Ya! Allah!" "Ya! Allah!" which means Oh! God! Oh! God! But what must have been the olden times cruelly shown by the Egyptians toward their Isrnelliish slaves is indicated by a picture in the Beni-Hassan tombs, where a man is he'd down on his foce ly two men nd another holds up the victim's feet while ne officials beat the bare back of the victim.

The Costly Pyramids Were Cheap. w you see how the Pharnohs could hem nothing for wages, nothing but the ears and blood of the tollers, and tears and lood are a cheap drink for devils. "Bricks hout straw" may not suggest so much realing until you know that the bricks are usually under with "crushed straw," aw crushed with the feet of the exen in a threshing, and this crushed straw denied the workmen, they had to pick up here d there a piece of stubble or gather rushes in the waterside. This story of the Bible confirmed by the fact that many of the ck walls of Egypt have on the lower layards the higher ress of brick made with straw, but the higher ress of brick made out of rough straw. of brick made out of rough straw, hes from the riverlank, the truth of sook of Exodus thus written in the walls discovered by the modern ex-

That Government outrage has always been a characteristic of Egyptian rulers. Taxation to the point of starvation was the Egyptian rule in the Bible times as well as it is in our own times. Seventy per cent of what the Egyptian farmer makes is paid for taxes to the Government. Now, that is not so much taxation as assassination. What think con of that, you who grown under heavy mays in America?

But 70 per cent of Government tax in Egypt is a mercy as compared to what the Hebrew slaves suffered there in Rible times. They got nothing but tood hardly fit for a dog, and their clothing was of one rag, and their roof a burning sky by day and the stars of heaven by night. roof a burning sky by day and the stars of heaven by night.

The Government owned all the Hebrews. And let modern lunaties, who in America propose handing over telegraph companies and railroads and other things to be run by Government, see the folly of letting Government get its hand on everything. I would rather trust the people than any government the United States ever had or will have. We worth the day when legislators and congresses and administrations get possession of anything more than is necessary for them to have. That would be the revival in this land of that old Egytian tyranny for which God has never had anything but reduct thunderbolts. But through suc unite processes Israel was enslaved in Egypt and the long line of agonies began all up and

long line of agonies began all upand down the Nile.

Where was help to come from? Not the throne, Pharmon sat upon that. Not the stray, Pharmon's officers commanded that, Not surrounding nations, Pharmon's threat made them all tremble. Not the gods Ammon and Osiris, or the goddess Isis, for Pharmon built their temples out of the grouns of this diabolical servitude.

Moses, the Deliverer, Is Found. But one hot day the Princess Thonoris the daughter of Pharaoh, while in her bathinghouse on the banks of the Nile, has word prought her that there is a baby affoat on the river in a cradle made out of big leaves Reckless of the crocodiles who lay basking themselves in the sun, the maidens wade in and snatch up the child, and first one carries him and then another carries him, and all

him and then another carries him, and all the way up the bank he runs a gauntlet of caresses, till Thonoris rushes out of the bath-ing-house and says: "Beautiful foundling, I will adopt you as my own. You shall yet went the Expetian crown and sit on the Expetian throne."

No! No! No! He is to be the emancipator of the Hebrews, Tell it in all the brick-kiins, Before him a sca will part. On a mountain top, alone, this one will receive from the Al-mighty a law that is to be the foundation of op, alone, this one will receive from the Alinghty a law that is to be the foundation of
it good haw while the world lasts. When he
dead God will come down on Nebo, and,
one, bury him, no man or woman or angel
orthy to attend the obsequies. The child
nows up and goes out and studies the
orrors of Expytian oppression and supresses his indignation, for the right time
is not come, although once, for a minute,
let fly, and when he saw a task-master
at the whip on the back of a workman who
as doing his best.

The National Love for the Nil-

The National Love for the Nile. To the Egyptians the Nile was a deity. Its

was the finest natural beverage of all the earth. We have no such love for the Hud-son, and Germans have no such love for the Rhine, and Russians have no such love for the Volga, as the Egyptians have love for the Nile. the Voiga, as the Egyptana the Nile.

But one day when Pharaoh comes down to this river, Moses takes a stick and white the saters and they turn into the gore of a slaughter house, and through the sinces and fish ponds the incarnadined liquid backs up into the land and the malodor whelms everying the and hovel to throse room.

thing from the mud hovel to throne room. Then came the frogs with horrible crosk all over everything. Then this people, cleanly almost to fastidiousness, were infested with insects that belong to the fifthy and unakempt, and the air ouzzed and buzzed with sup), and the air ouzzed and buzzed with the and then the distemper started cows to oldewing and horses to neighing, and theis to growning, as they rolled over and coired. And then boils, one of which will all a man in wretchedness, came in clusters that the top of the head to the sole of the lot. And then the clouds dropped hail and withining. And then locusts came in, such a of them, worse than the grasshop-cis ever were in Kansas, and then dark-the dropped for three days so that the proceeding and their loce, great surges of midnight covering them.

The Most Terrible Plague of All. And last of all, on the night of the 18th of April, about 1.800 years before Christ, the De-

of the Red Sen. As the shadows begin to fall in the distance is seen the host of Pharaoh in pursuit. But the Lord opened the crystal gates of Bahr-el-Kulzum and the enslaved Israelites passed into liberty and then the crystal gates of the sea rolled shut against the Egyptian pursuers.

So the burden of oppression was lifted; but another burden of Egypt is made up of deserts. Indeed, Africa is a great continent for deserts. Indeed, Africa is a great continent for deserts. Ithyan desert, Sahara desert, deserts here and there and yonder, condemning was regions of Africa to barrenness. But all those deserts will yet be flooded, and so made fertile. De Lesseps says it can be done, and he who planned the suez Canal which married the Red Sea and the Mediterranean, knows what he is talking about. The human race is so multiplied that it must have more cultivated land, and the world must abolish its deserts.

Mohammedanism Must Be Rooted Out.

Mohammedanism Must Be Rooted Ont. Another burden of Egypt to be lifted in Another burden of Egypt to be lifted is the burden of Mohammedanism, although there are some good things about that re-ligiou. Its disciples must always wash be-fore they pray, and that is five times a day. A commendable grace is cleanliness, Strong drink is positively forbidden by Mohamdrink is positively forbidden by Moham-medanism, and though some may have seen a drunken Mohammedan, I never saw one. It is a religion of sobriety. Then they are not ashamed of their devotions. When the call for prayers is sounded from the minarets the Mohammedan immediately unrolls the rag upon the ground and falls on his knees, and crowds of spectators are to him no embarrassment; reproof to many a Christian who omits his prayers if people are looking.

tian who omits his prayers if people are looking.

But Mohammedanism, with its polygamy, blights everything it touches, Mohammed, its founder, had four wives, and his followers are the enemies of good womanhood. Mohammedanism puts its curse on all kgypt, and by setting up a sinful Ambhigher than the immaculate Christ, is an overwhelming blasphemy.

But before I forget it I must put more emphasis upon the fact that the last outrage that resulted in the liberation of the Hebrews was their being compelled to make bricks without striaw. That was the last straw that broke the camel's back. God would allow the despotism against his people to go no further.

Modern Bricks Without Straw.

Modern Bricks Without Straw. That oppression still goes on. Demand of your wife appropriate wardrobe and bounti-ful table without providing the means necessary: Bricks without straw. Cities demanding in the public school faithful and successful instruction without giving the successful instruction without giving the teachers competent livelihood: Bricks without straw. United States Government demanding of Senators and Congressmen at Washington full attendance to the interests of the people, but ou compensation which may have done well enough when 25 cents went as far a dollar now, but in these times not sufficient to preserve their influence and respectability: Bricks without straw. In many parts of the land churches demanding of pastors vigorous sermons and sympathetic service on starvation salary: Bricks without straw.

pathetic service on stavation salary: Bricks without straw.

That is one reason why there are so many poor bricks. In all departments, bricks not even, or bricks that crumble, or bricks that are not bricks at all. Work adequately paid for is worth more than work not paid for. More straw and then better bricks.

not paid for. More straw and then beeks, bricks.

But in all departments there are Pharaoh, Sometimes capital a Pharaoh, and sometimes labor a Pharaoh. When capital prospers, and makes large percentage on its investment, and declines to consider the needs of the operatives, then capital is a Pharaoh. On the other hand, when workmen do not regard the anxieties and business struggles of the firm employing them, then labor becomes a Pharaoh.

The World's Pharaohs Must Go.

God hates oppressors, and they will all thought ne did a fine thing, a cunning thing, a decisive thing when for the complete extinction of the Hebrews in Egypt he ordered all the Hebrew boys massacred, but he did not find it so fine a thing when his own firstborn that night of the destroying angel dropped dead. Let all the Pharaohs take warning. Some of the worst of them are on a small scale in households as when a man, because his arm is strong and his voice loud, dominates his poor wife into a domestic slavery.

dominates his poor wife into a domestic slavery.

There are thousands of such cases where the wife is a life-time serf, her opinions disregarded, her tastes insulted, and her existence a wretchedness, though the world may not know it. It is a Pharaoh that sits at the head of that table, and a Pharaoh that tyrannizes that home. There is no more abhorrent Pharaoh than a domestic Pharaoh, What an accursed monster is that man who keeps his wife in dread about family expenses, and must be cautious how she introduces an article of millinery or womanly wardrobe without humiliating consultation and apology. Who is that man acting so? For six months—in order to win that woman's heart, he sent her every few days a bouquet wound with white ribbon and an endearing couplet, and took her to concerts and theaters, and helped her into carriages as though sie were a princess and ran as though sie were a princess, and ran across the room to pick up her pocket hand-kerchief with the speed of an antelope, and on the marriage day promised all that the liturgy required, saying, "I will!" with an emphasis that excited the admiration of all spectators. But now he begrudges her two cents for a postage stamp and wonders why she rides across Brooklyn bridge when the foot passage costs nothing.

Coffee Markets

CONVICT LABOR COMPETITION.

Devising Ways and Means to Avoid a Preswethers, \$4 4005 10: Westerns. \$3 5004 50: Texans, \$3 75@3 90; lambs, \$3 75@3 90.

Washington, Nov. 1.—The United States Consul General at Berlin has informed the Department of State that it appears to be a common practice in Germany for persons who employ convict labor to do so in connection with the manufacture of articles by free labor, and that the products are so much alike that it is impossible to distinguish them from each other, especially as they are mingled together in the warehouse. He therefore suggested that Consular officers be authorized to refuse to certify all invoices presented on behalf of any manufacturer, contractor, agent or other person who handles, deals in or has in his possession for sale convict wares.

The matter having been referred to the Treasury Department, Acting Secretary Spaulding has informed the Secretary of State that there is no authority of law for the course suggested by the Consul Gen. ent Foreign Evil.

The matter having been reserred to the Treasury Department, Acting Secretary Spaulding has informed the Secretary of State that there is no authority of law for the course suggested by the Consul General, but that it might be well if a statement of facts were made by the Consul on the certified invoice for the information

Spaulding has informed the Secretary of State that there is no authority of law for the course suggested by the Consul General, but that it might be well if a statement of facts were made by the Consul on the certified invoice for the information of the Custom officers, who would thereupon take measures to prevent the introduction of such wares into the United States. He requests that Consular officers be instructed accordingly.

Hunters Fire Into a School.

BEAVER FALLS, Nov. 1.—[Special.]—
Farmer Bliner, a School Director from North Sewickley township, came into town to-day and gave the particulars of an outrage at the Bennet Run schoolhouse, about two miles from here, yesterday, by two hunters, said to be from thus place. In the afternoon the two men approached the school, which was in session, when one of them discharged the contents of his gan through the thin door at close range. Fortunately none of the children were in direct range, but some scattering shot flew among the children, striking them in the face and causing them to scream with pain and fright. None of them were seriously injured.

Creamery Butter, Provisions and Coffee on the Decline.

POTATOES IN PLENTY AND QUIET. Buff Hides Lower and Steer and Calfskins

Are Steady. HARNESS AND SOLE LEATHER SLOW

OFFICE OF PITTSBURG DISPATCH, SATURDAY, Oct. 31. 5
The drop in creamery butter has been one of the marked features of markets the week past. When fancy Elgin went up to 35c and 36c per pound the average consumer's attention was turned to substitutes, and as a result, demand for creamery declined so sharply that for the first time in clined so sharply that for the first time in many weeks supply has caught up to de-mand. It is evident that the masses are not willing to pay these high prices for creamery, preferring oleo at the lower rates. The Pittsburg egg mar-

ket has been relatively lower this week than the New York market, but prices here are on the advance the past day or two. Grapes and bananas are coming to the front the past week in a chilled condition, front the past week in a chilled condition, and prices are only nominal. The time is at hand when the old staple fruit, namely, the apple, will take the lead. Already tone of markets in this line shows improvement. Potatoes are in very large supply, and prices touched their lowest point for the season in the past few days. As many as 200 carloads were on sale on a single day in the railroad yards of the city, and 500 cars would be a moderate estimate of the receipts for the week past. Choice stock was sold on track this week at a shade under 460 per bushel. There is not likely to be a better time to lay in the winter a replace of receiver than at the present. sale on a single day in the railroad yatus of the city, and 500 cars would be a moderate estimate of the receipts for the week past. Choice stock was sold on track this week at a shade under 40c per bushel. There is not likely to be a better time to lay in the win-ter's supply of potatoes than at the present time. time.

It will be seen by reference to market column that hog products are on the decline.

The Hide Situation. It was the general opinion that buff hides had touched bottom a week or two ago. But had touched bottom a week or two ago. But to the surprise of all, prices are lower this week than last. In Chicago the drop has been equivalent to be per lb, since the middle of the week. Receipts for common and low grade beeves have been unprecedently large at all live stock centers of late. Last year's light corn crop shows its effect in the generally low quality of cattle on the market, and light quality of hides offered. Buff hides never reached a lower point than they are right now. Steer hides and calt skins manage to hold their own, and our quotations in these lines are the same this week as last.

No. 1 green saited steers, 60 lbs and over.\$
No. 1 green saited cows, all weights...
No. 1 green saited hides, 40 to 60 lbs...
No. 1 green saited hides, 25 to 40 lbs...
No. 1 saited buils...
No. 1 saited caliskins... No. 1 green calfekins.
No. 1 green veal kips, per piece.
No. 1 green runner kips.
Sheepskins.
Tallow, prime.

Heavy weight leather is in fair demand, but all light stock is dull and slow. Light stock is accumulating to a greater degree than is comfortable to tanners. The slack than is comfortable to tanners. The slack time of the year is here, and activity is not looked for by tanners until near the beginning of the year. Spring trade is expected to open sooner than usual, by reason of great crops, which will put farmers in good condition for buving. Sole leather is dull and hemlook is off 3/2 the past two weeks.

Following are the prices of harness leather, as established by the Allegheny tanners:

tanners:
No. 1 trace, 38c per lb: B trace, 38c per lb;
No. 1 trace, 38c per lb: B trace, 38c per lb;

No. 3 heavy, 38c per lb; black line, 29c per lb. Shoe and Leather Trade, The following view of the situation is toe and Leather Review

The following view of the situation is from the Chicago Shoe and Leather Review:

The shoe and leather trades are void of any new features to note. Business is about the same as reported last week in all lines. There is, however, an improving tone characterizing shoes and leather, that is, of itselt, encouraging to dealers in these commodities, even though trade is not just now so active as they would like to see it. In boots and shoes the fine dry fall weather has retarded sales and the consequent dimunition of stocks, but in spite of this fact, if reports say true, stocks generally are smaller now than they have been before at this season for many years.

Prices of footwear, like those of leather, are certainly very low, but notwithstanding this fact, buyers are showing little disposition to purchase. This would indicate some degree of confidence on their part in the stability of present values, and that they are not anticipating any change in prices soon. The manufacturers are not doing very much just now, but there is everything to hope for the future, judging from the present outlook. With low stocks in the hands of jobbers and retailers, it leaves the bulk of next years supply yet to be manufactured; and as all indications point to a big trade in footwear for the ensuing 12 months, it would seem that manufacturers will soon see the busiest days they have had in a long time.

LIVE STOCK MARKETS.

CHICAGO-Only light trading within a small range of prices characterized Sat-urday's market, but the feeling was stronger, and prices ruled slightly higher than the closing. The influences were a little more favorable to holders. There little more favorable to holders. There was less disposition to sell, and some of the shorts were covering. Foreigners were reported as buyers, and there seemed to be a little more importance attached to the news from abroad. English cables were higher and continental cables weaker. The question of Russia prohibiting the exports of grain is evidently having some effect, advices to-day again claiming a possibility of such an order going into effect.

The leading futures ranged as follows, as corrected by John M. Oakley & Co., & Sixth street, members of the Chicago Board of Trade:

SPECULATION AND MONEY. Small Volume of Business, but Value

Hold Their Own.

A Small Volume of Business, but Values
Hold Their Own.

Regular lines of trade yielded satisfactory results during the week, but speculation was apathetic on 'Change. It was one of the dullest weeks of the year, sales on call falling below 500 shares. Outside transactions made some progress, but did not come up to expectations.

Closing prices of the active stocks, as compared with those of the previous Saturday, show the following changes: Third National Bank gained 7%, Chartlers Gas ½, Philadelphia Gas ½, Wheeling Gas 1, Pittsburg Traction 1, and Switch and Signal ½, and Luster ½. There were a few weak spots in the rest of the list, but on the whole it was stendy.

Sales Saturday were ten shares of Philadelphia Gas at 11%, and two shares of Alleaheny Valley Rallroad at 2.

Clearing House operations for the month just ended, while away below those of last year, run almost even with those of 1889, as shown below:

Saturday's exchanges.

Saturday's exc

Grain, Flour and Feed. There was one sale on call at the Grain Exchange to-day, namely, a car of new yellow ear corn, 46c spot. Receipts, as bulletined, 51 cars, of which 27 cars were by

bulletined, 51 cars, of which 27 cars were by Pittsburg, Ft. Wayne and Chicago Railway, as follows: Ten cars of hay, 1 of rye, 2 of barley, 1 of feed, 8 of flour, 2 of corn, 3 of oats. By Pittsburg, Cincinnati and St. Louis: Five cars of cats, 2 of corn, 1 of hay. By Baltimore and Ohio: One car of corn, 2 of hay, 1 of oats. By Pittsburg and Lake Erie: Seven cars of rye 2 of hay, 1 of oats, 2 of flour. Receipts for the week ending October 30, 350 cars against 240 cars 'he previous week. Total receipts for the past week were the largest for any one week this season. Oats led with 85 carloads, and wheat was a good second, with 65 carloads as the total for the week. Last week rve led with 52 cars, and oats followed with 46 cars. Cercal markets are quiet all along the line, a fact no doubt due to heavy receipts. Old shell corn and new ear corn are lower, as our quotations will disclose.

Foltowing quotations are for carload lots on

WALL STREET'S REVIEW. A Plan of Relief for the Richmond and West Point-Continued Drives in Coal Shares, Especially Lackawanna and Reading-Chicago Gas Goes Up. NEW YORK, Oct. 3L-The stock market was, aside from the trading in three stocks, the dullest of the week and even more feature-less than usual of late. Notwithstanding the publication of a plan for the financial relief of the Richmond and West Point no movement was excited in securities and the strength and activity in the Vanderbilts and Industrials seemed to have entire dis-In their place, however, remained the

In their place, however, remained the weakness in the Coal stocks, and the further movement in Chicago Gas toward higher prices, the best figures of the week being reached in this stock to-day. It, with Lackawanna and Reading, supplied all the animation there was in the market to-day, and the features, aside from a sharp upward movement in Phonix Mining; but the latter, as usual of late, had no influence upon the rest of the market, being a mining stock, and one of the unlisted ones at that.

The opening was dull and tame, though slightly higher than last evening's figures, and while there was some demand from London and Boston, the former buying St. Paul, Reading and Union Pacific, and the latter Atchison, the traders continued to hammer the Coal stocks to some effect. Lackawanna dropped 1½, after opening up 3, but Reading retired only a fraction, and the efforts to cover later in the day caused the recovery of most of these losses. Chicago Gas rose steadily from 55½ to 57, closing at the latter price.

No other feature of any kind marked the dealings, the general list being simply dull and stagnant, and the market finally closed dull and steady at insignificant changes from first prices. Chicago Gas showed a change of 2 per cent, but the only important loss was in Tenneese Coal, which opened down 1 per cent and shaded off further ½ per cent.

Ralirosed bonds were more active com-25c.
