The Run of Cattle at Local Yards Lighter Than Last Week, and

### QUALITY BELOW LATE AVERAGE.

Markets Are Steady at Prices Which Prevailed a Week Ago.

# SWINE ARE LOWER AND SHEEP HIGHER

#### OFFICE OF PITTSBURG DISPATCH, } MONDAY, Nov. 2.

There were 102 carloads of cattle on sale at East Liberty this morning against 150 head last Monday, and not a load of heavy prime beeves in the lot. Primes are conspicnous of late for their absence from our local markets. Almost one-fourth of today's offerings were from Chicago, the balance being in the main from Ohio and Indiana. The quality of the cattle on sale this morning was below average, and this indicates as plainly as possible the low quality of offerings.

While buyers were present in fair force, and supply was 50 carloads below that of last week, markets opened slow at about old prices. There were no beeves offered good enough to bring a nickel a pound, and yet prime beeves were worth more than 6c per pound in Chicago. The Pittsburg butcher who caters to the best trade must needs go to the Western metropolis to secure his to the Western metropolis to secure his supplies, as there are no prime beeves on sale here, and have not been on sale for months past. Fresh cows of high quality were not in supply equal to demand at East Lib-erty yards this morning. Sales were re-ported at \$50 00 and \$53 00 per head. These were the exceptions. Markets ranged from \$30 00@45 00 per head in a general way. The top price of yeal calves was 63/c per lb.

An Abundance of Fork.

Hogs-The run was large and markets were slow at a sharp decline from last week's prices. There were upward of 50 carloads on sale, against 28 loads last Mon-day. Top price this morning was \$4 05@ 4 10 per cwt., a decline of not less than 60c from price the work against

4 10 per cwt., a decline of not less than 60c from prices of a week ago. The time is here when hogs and hog products are in such abundance that prices are sure to go even lower than they now are. At the late decline price of hogs is more than 25c per cwt above last year's range at this time. With the great corn crop, it is only a question of time when there must be a further drop in prices. Sheep and lambs-Receipts in this line are very light this week. There were on sale this morning only 9 car loads, against 17 last Monday, and 24 loads the previous Monday.

Monday. Notwithstanding the run was so light, markets showed little improvement over last week. Choice grades were a shade bigher, but common stock was slow at last week's prices. The top of the market for sheep was 5c per D, and for lambs \$5 25. Only the best on sale brought these prices.

### Allegheny Yards.

Supply of cattle at Herr's Island yards was a fair average, both as to numbers and quality. There were no heavy prime beeves on sale. Demand was slow and prices were lower than last week. All live stock markets are reported slow. The wants of butchers here seem to have declined materially of late. The best beeves on sale were sold at \$5 75 to \$6 00 per cwt.; medium weights at \$5 00 to \$5 50; good 1,300 to 1,400 b) cattle at \$4 00 to \$4 50; fair to choice light weights, \$5 75 to \$4 75, and common to fair thin and rough steers at \$3 00 to \$3 50. There were on the market a few Butler county heifers and light steers, but Butler county heifers and light steers, but there were no offers above 3c P b, with 34c asked. Bulls and dry cows were quoted at 23c to 3c per lb, fresh cows at 530 00 to \$45 00 per head, and veal calves at 53c to 6c P b. Receipts: From Chicago-A. Thomas, 77; L. Gerson, 76; I. Zeigler, 127. This, to-gether with higher cables and a report that the Russian Government had prohibited the exports of all grain except wheat, had the effect of holding the market pretty steady during the early part of the day. But the speculative offerings were quite heavy to-ward noon-larger than the demand would absorb and the result was a sharp break in prices. GENERAL CONDITIONS ALL RIGHT. There was a cloud about as big as a man's hand upon the business horizon yesterday, caused by the embarrassment, possibly failure, of the Maverick National Bank of Boston. While there are no apprehensions of serious results to Pittsburg, or the country, from this financial misfit, its effect will be more or less depressing until the affair

shall be bridged over. It is too big a thing not to be felt outside of the limits of Bos OD. Troubles may come and troubles may go,

but business will pursue its customary course. American capital, brains and in genuity constitute a triad of almost unconquerable factors. They cannot be downed y anything short of a general catastrophe. Pittsburg is as sound, commercially and financially, as at any former period in her history.

HOME SECURITIES.

NO ONE DISPOSED TO TRADE ON THE EVE OF A HOLIDAY,

Only One Sale at the Three Calls-Coa Stocks Looking Up-The Listed Tractions Submit to Slight Concessions-Luster and Switch Stronger.

As nobody had expected much business on 'Change yesterday, the outcome, only oue sale, was not surprising. Politics was about

the only thing discussed. The sale referred to, that of a 100-share lot of New York and Cleveland Gas Coal Com-pany, at 41, was significant of a rising demand for coal stocks as winter approaches. About the only change in the natural gas group was a decline of a point in Wheeling at the last call. Manufacturers' Gas joined the active list after a long retirement.

All of the listed tractions except Pittsburg were slightly weaker. The unlisted trac-tions were about steady, with a light in-quiry and no offerings except in a very small

unity and way. Luster and Switch and Signal advanced a big fraction each, with none of either in sight. The holiday had a deterrent effect upon buyers. Bids and asking prices at each call follow:

A Bank Officer Predicts an Easy Market

Throughout the Winter. There was a moderate degree of activity There was a moderate degree of activity in local financial circles yesterday, with no change in rates or general conditions. A bank officer remarked: "Funds are accumu-lating, and there is every indication that money will be easy throughout the winter. People who have been declining business for forse of a structure way now dismiss

People who have been declining business for fear of a stringency may now dismiss their fears." Bank clearings were \$2,570,-692 43 and balances \$427,573 '.8. The situation at Chicago, the representa-tive market of the West, is thus described: The improved demand for local stocks and bonds has created more call for loans, and the disposition is to hold rates steady at 6 per cent for the bulk of the loans. Deposits keep up well, and the banks hold at least 30 per cent reserves. Commercial paper is being bought freely by interior bankers at

CLEARED BY THE FALL OF THE MAV-ERICK NATIONAL BANK

It Explains the Heavy Sales of Stocks by Boston Houses-Only Shares in Which That Center Is Interested Are Affected Seriously by the News.

NEW YORK, Nov. 2 .- The closing of the New lock, Nov. 2.—The closing of the doors of the Maverick National Bank of Boston this morning was a surprise to most people, but it revealed the reason of the selling of stocks for some time past by houses with Boston connections, and pre-cipitated the selling out of many lines of tocks held in that center. The number of these stocks, however, was small, and really the effort to get out of them with as little loss as possible should have had little or no influence upon the general list, and it would have had none had it not been for the fact that traders and shorts of all kinds made it the opportunity to hammer the list and afterward buy in their shorts on the decline

After the opening losses the demand from After the opening losses the demand from the shorts was sufficient to steady the mar-ket, and even infuse some strength into it. The activity for the first half hour was something which has not been seen since the late boom culminated, and about one-half of the entire business of the day was transacted during the first hour. The ex-citement then died away, and the dealings for the remainder of the day were almost reatureless with a firm tone throughout. As a matter of course the losses were chiefly in the stocks in which Boston is most largely interested, and New England, Atchison, St. Faul and Butlington were the centers of at-traction for the time the excitement lasted, but only in the first two of these was the loss, after that of the opening, of any im-portance. portance. New England closed on Saturday at 3914c.

Int only in the first two of these was the loss, after that of the opening, of any importance. New England closed on Saturday at 29%, on loss of 15% per cent, and was afterward driven down to 35%, on loss of 15% per cent. Atchison opened down a fraction, and then lost 13% per cent, touching 13%, but closed at its opening figure. Of the Boston stocks only Burlington, with a final loss of 3% per cent, showed any real weakness during the day. A drive was at Northern Pacific preferred, but the result was only a small fractional loss, and although Lake Shore. Pacific Mail and Delaware and Hudson each opened one per cent lower, their recoveries were generally complete, especially in the last named. The market finally closed duil but at about the lighest prices, but generally small fractions. The fighest prices, but generally small fractions the day.
