Manager McGunnigle Signs His Contract and Leaves for the East to Hustle.

DIRECTORS CONFER WITH HIM.

The Expenses of the Ball Team to Kent as Low as Possible for Next Season.

COMISKET IS FOR THE CINCINNATIS

A Local Proiseller Talks About Western Trotten General Sporting News of the Day.

The directors of the local ball club held a meeting yesterday afternoon. Manager McGunnigle signed a contract to manage the team next year and left for the East

The signing of the manager absolutely dispels all doubt as to the intentions of the directors. Since they held their meeting last Friday they have been unanimous in eir desire to have Manager McGunnigle nanage their team, but the delay in signing him has been caused by purely technical matters. He was signed by Secretary Scan-

drett yesterday afternoon.

The directors at their meeting yesterda discussed matters relating to the team, and nager McGunnigie explained to them what he proposed to do relative to making the team stronger than it was last season. the team stronger than it was last season. His statement was deemed highly satisfactory. But the directors are extremely desirous of keeping down expenses next season, as they consider the team this year has cost excentingly too much. Manager McGunnigle will, therefore, go East with this fact in view. He expects to sign several players and be in Pittsburg again some time next week. After he has signed as many players as are needed, he will go to Chicago for the winter and manage a billiard room. Refore leaving for the East last evening, the manager said: "Ned Hanlon will be signed when I return. There is no hurry needed in nis case, as we fully understand each other now and he wants to stay here. ch other now and he wants to stay here may be that the directors will have t iscuss Galvin's case, as he claims the club wes him \$500. I have nothing whatever to with that, and as soon as that matter is with that, and as soon as that matter is tied between the directors and Galvin I il easily sign Jimmy. I think Corkhill il be on the team, and he and Hanlon ght to make a good showing in left and neer. I will get a man equal to them for the team.

terday, and he will sign without any trouble He states that he has had an excellent tim hunting deer in the Canadian woods.

LOOKS LIKE A JUMP.

Strong Indications That Comiskey Intends to Leave Von Der Ahe. low almost seems certain that Comiskey

going to desert Von Der Ane and join the accionati League club. The Times-Star prints the following on the natter: Then the Brown's of 1892 march out on the field to wipe up Sportsmen's Park with the enemy, one face will be missed from the enemy, one face will be missed from the team that is certain to strike sorrow into the breast of the cranks. This face is none other than than that of the popular Captain Comiskey. To a member of the Republic's sporting department he stated this morning that he had fully decided to not play here next year. President Brush, of the Cincinnati club had made him an offer of \$8,000 to captain and names that team. Although naticlab had made him an offer of \$8,00 to captain and manage that team. Although he has not placed his signature to a contract as yet, he said he would do so in a tew days. Comiskey's leaving the Browns means a great deal for Von der Ahe. It is a well-known fact that he can get more work out of a young player than any baseball captain in this country, with the possible enception of your "Uncle Ause." Then too, his eaving means the impoing possible exception of your "Uncle Ause." Then, too, his seaving means the jumping of Several other players. Matters locally are in a very much muddled sinte, and it looks as though the Browns will be compelled to go through next season with a lot of minor league men. President Von der Ahe is away on a fishing excursion to Gibend's Slough, and could, therefore, not be seen to make a statement regarding the trouble.

Jack Boyle will doubtless follow Comiskey into the camp of the Red Stockings. Left field may be filled either by "Long John" Reilly or James E. Cannvan. The Cincinnati situation is brightening.

"The summer trotting meetings out West this year have been great, but the fall meetings have not been very successful. Of course, there was some great going on the Independence track. C. W. PORT SCOUT'S people refused an offer of \$25,000 For him from a prominent Eastern turfite, who thought he saw in him "the horse of the year" for next season, and who wanted him for the spring handicaps, such as the Brooklyn, Metropolitan and Suburban. The Montana people scouted the idea of selling, and intimated that if he was worth that to anyone he was worth that to them, and that they would take him East again themselves.

BASHEVORD, the grack cold of the Bashford Manor. would take him East again themselves.

Bashford Manor stable, was priced to a well-known Eastern turfite at \$50.00 at Westchester. As the cold had not won a single race in the East the price caused the would-be purchaser to stare and decline the purchase. But Morris, the Bashford Manor trainer, three in with superb nonchalance the information that "they didn't feel anxious to sell." He considers Bashford a wonder, and a great many good judges affirm that the cold has never been himself since he caught cold shortly before he went East.

Business, to a large degree, gave way to politics vesterday. Buying and selling could be deferred for a little season, but not so with voting. It had to be done at once or not at all. Still, trading was fair. About the only thing missed was the stock call. Banks and stores were open as usual, and mills and factories kept right on as if nothing unusual was transpiring.

The Oakdale Oil Company's No. 1 on the Wallace farm is about 300 feet west of north from Glenn well. The No. 1 on the R. W. Glenn of the same company is through the Gordon sand and should be in the fifth to-day or to-morrow. The No. 3 Mevey of Guckert & Steele is located southwest of Forst & Greenlee's big No. 1 Mevey about 700 feet. It is the fourth well which these parties have completed on this farm, and with the exception of No. 1, which has now stopped flowing, they were all small. It was believed for a while that their Nos. 2 and 5 were light owing to the drainage, but as No. 3 is nearer to the big Greenlee & Forst well than any of the others, this theory will hardly hold good.

It is one of the most important wells in the field, as it is located far to the east of the present developments. In the McCurdy Field.

BAZAN RENOUNCES HIS COUNTRY.

Enraged at the Execution of His Brother He Crosses the Border.

HOUSTON, TEX., Nov. 3.-A letter from one of the Federal officials at Rio Grande City, Tex., says that First Lieutenaut Bazan, a fiery young official in the Mexican army, has deserted to this side. Some weeks ago his brother was caught by Gar-

weeks ago his brother was caught by Garcia's soldiers and shot as a suspected revolutionist. Lieutenant Bazan, on hearing of the assassination, sent the following challenge to General Garcia:

"My brother, Juan Bazan, has been brutally murdered by your orders. My allegiance to the government of our country is strong. I have been educated by my country and its preservation is dearer to me than life. My brother's life was dearer to me than my own. If you are not hardened me than my own. If you are not hardened by your career you will waive your superior rank and accord me the satisfaction due me for the terrible wrong done to my brother

and myself."

Learning that his life was in danger and that his execution only depended on the order of arrest ordered by General Garcis, Lieutenant Bazan deserted to Texas after

Lieutenant Bazan deserted to Texas after bidding farewell to the company that had served under him. When he arrived at Rio Grande City his clothes were practically torn from his body by the chaparral through which he had passed. He will go into susiness in the United States.

Evidence has accumulated that the execution of the alleged Garcia revolutionists by General Garcia was without justification. The larger number of the men shot were harmless Mexican cowboys living in Texas, who were in the habit of crossing the Rio Grande back and forth a dozen times a week.

The boy's father compelled him to give up
his study of telegraphy, but the wire remained stretched from the buildings and running
along the roofs without any ground connection. The matter was given no further
thought until it was noticed that cats,
which had formerly used the top of a shed

He went to it and found that it was dead.
