THE RUN OF CATTLE

Lighter at East Liberty Yards Than for Some Weeks Past.

OFFICE OF PITTSBURG DISPATCH, ? WEDNESDAY, Nov. 4.

There have been on sale at the East Lib erty vards this week 115 car loads of cattle against 150 loads last week and 165 the previous week. Of this week's offerings about 25 per cent were from Chicago, the balance mainly from Ohio and Indiana. Prime beeves have ceased to be a quantity at the East Liberty yards. There were no offerings in car load lots any where near prime. It was believed and hoped by sellers at the opening of markets on Monday that better

prices than last week would be obtained, on account of the lighter run. The effort in this line, however, proved abortive, and markets ruled about as they did last week. Nothing that was offered was good enough to bring a nickel a pound, and a few loads of common stock were sent on in first hands for want of satisfactory offers. The demand for staple meats has declined of la'e, owing to heavy receipts of poultry and the advent of the game season. Fresh cans of high grade are in good de-mand and some fancy sold at higher prices than any on the market for a few weeks

past, Sheep and lambs-The run for the week has been unusually light, and good sheep proved firm at a shade better prices this week than last. Lambs were dull and lower all along the line, as were common

and low grades of sheep. Receipts of hogs were large, the total for the week being about 75 carloads. Prices are 60 to 70c per cwt below range of a week ago. Best Philadelphias were held at \$4 05 this morning, and nothing sold above \$4 10 this week \$4 10 this week.

A Live Stock Firm's Review.

Following is the situation as reported by Holmes, Rowlen, Briggs & Co.: We report 102 loads cattle on sale Monday, which was about 60 cars less than same day last week. The quality of receipts was not up to the general average of late. The principal part were made up of common low-priced stock-ers, feeders and low grade butchering cattle. No prime heavy beeves on sale. The aters, lecters and low grade butchering cattle. No prime heavy beeves on sale. The at-tendance of buyers was fair, but all com-plained of having made no money, even at the extremely low prices of the past few weeks, and while there was a strong effort with salesmen to advance prices, buyers were very determined to buy at last week's where very determined to only at has week s prices or lower, and in most of their pur-chases they succeeded. The Drygoods Market. New Yonx, Nov. 4.—The drygoods market was unchanzed, but the demand was mod-crate, following so closely upon yesterday's holiday. Business improved slowly during the day, and orders for spring fabrics con-tinue to lead in interest. The tone and condition of the market were steady, and lit-tle change of any kind was apprenended for the immediate fature. While there is no speculative tendency to demand, the move-ment is in the main satisfactory, and there is no lack of confidence. A 12-STORY BUILDING PLANNED.

New and Important Industrato Be Estab lished at Jeannette.

FEATURES OF MONEY AND SPECULATION

Pittsburg is to have a skyscraper-not such as they have in Chicago, but a good starter. It was given out yesterday that Park Bros., purchasers of the McTighe, or Magee, block, corner of Fifth avenue and Grant street, will early next spring begin the demolition of the old buildings preparatory to the erection of a 12-story business and office structure covering the entire lot, which is 100 feet square. This will be the tallest building by three stories in the city, and, occupying a commanding position on the summit of the "hump," it will be even more conspicuous than the Court House. It is needless to say the building will be first class in all of its appointments and arrangements. Much interest is taken by property own-

Auch interest is taken by property own-ers in the locality in this important enter-prise. They think it will give a powerful impulse to real estate in a long neglected quarter, lead to other improvements and place Grant street in line with the progres-sive thoroughfares further down town.

A Boom for Jeannette.

Jeannette is to have a new and important Jeannette is to have a new and important industry—something unique in these parts —which will add largely to its manufac-turing importance. A company has been formed for the erection of a plant for the manufacture of rugs, seal plush and astra-chans in imitation of animal furs, with a capital of \$100,000. Hon. Alfred Hugg, of Camden, N. J., is president and chief pro-moter of the enterprise. Ground has been secured for the necessary buildings, which will be erected as soon as possible. will be erected as soon as possible.

The Allegheny Church Deal.

Details of the M. E. Church deal in Allecheny are interesting. Several sites were considered at different times on options secured by James W. Drape & Co. One on Western avenue was preferred, but owing One on to the exorbitant price asked, it was dropped. At the last moment overtures that had been instituted early in the quest for the property on the corner of Allegheny avenue and Beech street, known as the rink 2002137 were recented by the an

avenue and Beech street, known as the rink, 200x137, were reopened by the ap-pearance of Rev. Dr. Paxton, of New York, one of the Denny heirs, upon the scene, who met the church committee and made such concessions as led to the closing of the deal at \$65,000. Ground will be broken at once for the building.

An Outsider Comes In.

W. I. Mitchell has sold his residence property on Trenton avenue, Wilkinsburg, to William Douer for \$6,000. Mr. Mitchell will build at once on the opposite side of the avenue. Mr. Douer has been in busi-ness in Chicago. He will be a valuable acquisition to this community.

It was stated that offi-cials of the Manchester and Piensant Valley lines are holding irequent conferences, and

cials of the Manchester and Pleasant Valley lines are holding frequent conferences, and that an arrangement of some kind would soon be reached. The boom in Pittsburg Traction was attributed to the opinion that it and the Duquesne would soon come to terms. There is nothing new in all this, so far as outsiders can see, but the companies may be preparing a melon to cut. Sales cut a small figure. They were two shares of Third National Bank at 128 and ten of Switch and Signal at 9%. Bids and offers at each call follow:

lotment in severalty of nearly 14,000,000 acres of land of the Cherokees, is creating quite a stir among the Indians of the civilized tribes. It is thought to be the largest land suit ever instituted in America. No Mercy for Siberian Rufugees. VLADIVOSTOCK, SIBELIA, Nov. 4 .-

Quite a number of lately escaped convicts have been recaptured recently, some dead and others alive. The Russians are paying 50 roubles premium for live criminals and 75 for dead ones if brought in. The Governor issued a proclamation that at present only 16 criminals were at large out of the whole crowd that escaped some time ago, but it is generally supposed that there are a lot more adrift.

Porcelain Deposits in Illinois.

SPRINGFIELD, ILL., Nov. 4.-Dr. Lindahl, State Geologist, has made the dis covery that there is plenty of raw material in Illinois for the manufacture of glaved earthenware of several varieties and of a very high quality. The kaolin, or porce-lain clay, exists in large quantities in Southern Illinois, particularly that section of the State in the vicinity of Union

Cigarettes Kill a Giddy Girl. LEBANON, IND., Nov. 4 -- Miss Cora

Necse, aged 18, was, while returning home from a theater two weeks ago, persuaded by her escort to indulge in cigarette smoking. She became ill shortly afterward and gradually grew worse until she died. The doctors gave it as their opinion that death was caused by nicotine poison introduced into her system by smoking the cigarette.

MONETARY MOVEMENTS.

A Oniet Day at the Loca! Banks-The Mayerick Failure.

The local money market was quiet and

easy yesterday, as was to be expected so soon after the election. The call was modsoon after the election. The call was mod-erate and the supply abundant. There were no disturbing influences. Even the Mav-erick Bank failure had censed to be a live factor, showing the general soundness of the business situation. Rates were quoted at 607 per cent. the inside figure being the rule. Bank clearings were \$3,186,119 68 and balances \$498,992 81. In regard to the Maverick Bank failure, the Journal of Finance says: "It can be stated on authority which is practically of-ficial, that the failure of this Boston bank is likely to have a wuch less important bear-

stated on attaction and this Boston bank is likely to have a much less important bear-ing upon the course of the stock market than the professional bears have expected. There will be no loss to depositors, so we are assured from high authority. Further than this, no banks or other institutions will be affected. At the worst the failure will cause but a feeling of anxiety through-out New England, which will soon subside." At New York yesterday money on call was firm, ranging from 4 to 5 per cent; has I loan 6, closed offered at 6. Prime mercantile paper, 5265, Sterling exchange quiet and stoady at \$4 80% for 60-day bills, and \$4 84 for demaud.

in the history of the company. The Gran-gres were all benefited by this, and even Rock Island, which showed a loss for the same week, advanced. The opening prices were small fractions better than Monday's finals, and large fractions were added to these gains among the active shares during the forencon. The movement attained no great proportions among the rest of the list, and died away completely before noon. Pricesthen settled away on a very limited business until the last hour, when the bidding up of money and the weakness in the Texns Pacifics weakened the rest of the market, and in most stocks the early gains were neutralized. The movement was very irregular, however, and the final changes are equally so, but the only active stock that sympathized to any extent in the decline was Rock Island, which shows a loss for the day of 1½ per cent, while Texns Pacific is down 1½ and Chicago Gas is up 1 per cent. The clonewas dull and heavy at the concessions. Railroad bonds were fairly active, the business amounting to \$1,236,000. The gen-eral market showed a moderate degree of strength throughout the day, but the de-cline in Texns Pacific was most marked. Rumors of adverse legislation or further re-duction in rates by the Railroad Commis-sion of Texns was responsible for a large portion of the loss, which was shared to some extent by the Kainsa and Texns bonds. No other weak spot was seen, however, and the list in general shows but slight changes for the day, though closing rather heavy in sympathy with stocks. The highest and closing quotations were: Atchison In. 44466 641 UP 4948...706 075 B A Oa (1988, 107 0017 B C A A 183, 003 0017 B C A A 184, 004 002 B C A A 184, 004 003 B C A Oa (1988, 107 0017 B C A A 184, 004 002 B C A A 184, 004 002 B C A A 184, 004 003 B C A Oa (1988, 106 001 B C A 184, 004 001 B C A 184, 00
