bell had convinced the people of Ohio that protection was a farce, but it seems other-wise. I also felt that the people of this State had had enough of Bardsleyism and corruption and would endorse a new, clean set of candidates. But it was the extra-ordinary effort of the Republicans that de-feated our candidates. I don't mean to say that thus the present Anditor General and that that the present Auditor General and charges against them, but if they are-if the Republican party is as had as our leaders say it is-it is easy to understand why they would especially not desire the elec-tion of Wright and Tilden at this time."

Mr. Guffey had no opinion to express of the local election, but of the effect of Tuesday's vote on the next Presidental campaign said:

"The vote of New York and Massachusetts shows where they stand on the tariff question, particularly in Massachusetts, where, I understand, the fight was entirely on the tariff, both sides having declared against free silver. If this is true one heretofore solid State is taken from the Repub lican columns in Presidental elections. believe the Democrats will sweep the coun-try next fall and the election of their Presi-

dent easily accomplished." A. F. Keating would not allow himself to be interviewed on the local or national situation so soon after the election, maintaining that it could not be thoroughly understoo days at least, but of the State election he said:

"I am not sure that the Republican victory means a rebuke for Governor Pattison. But one thing I will say, the people have shown they are satisfied with their present State officers, or they would not have voted as they did."

Was a Mistaken Move.

J. O. Brown said: "It is quite apparent that the people take no stock in Governor Pattison's methods of reforming the State government. To say the least, if his motive n calling an extra session of the Senate for form purposes was sincere, it looks as if he had taken a very inopportune time for it, and the people have shown their disbelief in his sincerity.

The victory in Pennsylvania and Ohio strengthens the tariff question greatly. In the other States it was not a feature of the election. The only other result will be to intensify partisan feeling for next year's campaign, and the effect will be about a standoff. 1 am satisfied that the result in New York will assure the nomination of Cleveland by the Democrats, "The local election demonstrated the ne-

cessity of the Republican party to be more rolitic. The element known as the Straightouts displayed sufficient strength and earnestness and gave the regulars worry enough to convince them that hereafter the best thing to do is to use the most politic plans in their party methods. The only things that prevented the Straightouts from winning were: First, the earnest work of the party men; second, the people were satisfied with the cleanness and general excellent character of the Governor's judicial appointmen

Colonel Frank A. Burr, of New York said:

"Nothing was more prominently dis-played in this election than that the tariff estion is still unsettled and it will be the great and leading issue of the next national contest.

MISSIONARY WORK IN AUSTRALIA

By Laying on Hands He Called From Death's Door a Little Girl.

HIS WIFE CORROBORATES HIS STORY

Carnegie Hall was packed last night with eager and many earnest listeners to the Rev. John Alexander Dowie, the noted disciple of faith cure. Many fervent amens were heard as the speaker touched some sympathetic chord of his hearers.

Several things had a tendency to bring an especially large crowd to Carnegie Hall last night. Chief among these was the fact that a public healing had been performed in the afternoon, the particulars of which were spread broadcast over the city, and people who had paid but little attention to Mr. Dowie's teachings were eager to see and hear him.

Shortly after the services, or mission, as Mr. Dowie terms it, opened in the afternoon, a woman came in, bearing heavily on a pair of crutches. She hobbled up to the front of the hall and took a seat to the left of the speaker, within a few feet of the platform. There she sat, an eager, earnest listener to every word, occasionally uttering a fervent "Amen." Mr. Dowie talked at some length, reciting incidents of the cases which had come under his treatment. To close these remarks he made an appeal to his hearers to trust the Lord and have the cures brought about with the laying on of hands.

A Public Healing.

With this exhortation the singing of the loxology was commenced, but the beauty of hat closing anthem was suddenly hushed

by the fervent expression: "Praise God, I am healed!" followed by the rush of feet and the rattling of a pair of crutches as they fell heavily on the speaker's desk. These words emanated from the lips of the woman, who an hour before had hobbled into the auditorium an almost helpless cripple, but was then seemingly well and healthy.

Great excitement prevailed after this episode, but by the wonderful controlling power that Mr. Dowie possesses he again started the concluding hymn, again started the concluding nymn, and the audience seemed to catch a new in-spiration from its words, singing it as they never had before. As the music died away, and after the benediction had been pro-nounced, the crowd surged about the lady, offering congratulations.

So with such a rehearsal of biblical hap-So with such a renearsal of Diblical map-penings going on in the nineteenth century, it was not to be marveled that so large an assemblage gathered last night. Mr. Dowie's talk was along the line of his own work and how he had early in life been drawn over to the belief that the power to cure by faith had not left this earth with the

ascension of Christ. He Tells His Own Story.

He told the story about as follows: "Early in life I was given up by the med-ical fraternity to die, being afflicted with an incurable malady. My life was miser-able but for the fact that I had a great love for the Bible and its teachings. It was my only solace. I read it through and medi-tated on its many wise teachings until I at last firmls thought that God could cure me, as he had healed so many others during Christ's life on earth. I began to pray, here and formatic, but my reveated did as long and fervently, but my reward did not come. I then concluded, and I have since firmly been caused to believe that long pravers were not the ones which found their way to the heart of God. Then I commenced in the new. It was night and I was alone in my bedchamber. Kneeling down beside my bed I offered up a supplica-tion to the Divine Healer, asking Him to in Europe. tion to the Divine Healer, asking Him to cure me, as I knew He could, and that my whole life would be given to His work. As I finished this short prayer I leaped into bed and was soon sleeping soundly, something I had not been used to doing. At early dawn I wakened, feeling like a different person, but with a enawing huncer, quickly dressed but with a gnawing hunger, quickly dressed and went out into the garden. It was that time of the year when the fruits of all kinds were hanging rich and lucious on the vines. From here and there I plucked and ate them, all the time offering up pray-ers for my new found health. I went to breakfast and ate a large meal of good old Scottish porridge. When I had finished, I told my father of how God had healed me, and great was the thanksgiving in our hous

as Leech, Bookkeeper for Holm Rowlen & Co. Arrested at Boffalo-Speculation As to His Alleged Defalcation.

Nicholas Leech, the missing bookkeeper for Holmes, Rowlen & Co., commission stock merchants of the East End, was brought back to the city yesterday. It is alleged he is short in his accounts and that he is now in the custody of a Pinkerton detective. No information has been made against him but the detective who arrested him in Buffalo has him in charge at a hotel. Mr. Leech left home Sunday morning, October 25. He told his wife that he was going to Butler with a friend to buy apples. He did not return that night, and his friends and employers became uneasy. In a few days rumors that his accounts were short became circulated, and the firm put an accountant to work on the books. They accountant to work on the books. They soon had evidence, it was alleged, that there had been a serious defalcation. One

transaction that came to light showed that the Saturday before he went away Leech obtained \$1,500 by drawing a sight draft on a. Baltimore party with whom his firm transacted business. The mode of doing business with this firm was when Holmes, Rowlen & Co. made a ship-

Property Valued at \$40,000 Destroyed b Braun Says He Was Attacked by an Allegheny Officer.

AFRAID THAT HE WILL BE KILLED.

Chairman Henricks Claims That He Has More Information.

WELL-KNOWN CITIZEN TO TESTIFY

Charges of fraud and crookedness in Allegheny affairs are made . with daily regularity, It published in book form they would take up about as much space and be as sensational as a whole library of yellow-backed literature. The latest allegation made is that a city officer attacked Detective Braun and knocked three of his front teeth out in order to intimidate him. Braun further claims that he is afraid to go within Allegheny's city line for fear he will be arrested on a false charge, or worse still, be made a fit subject for a coffin.

Mr. Braum lives on Webster avenue, Pittsburg. He was formerly a detective in Allegheny, and has made affidavits charging Mayor Wyman and Chief Murphy with accepting bribes. He claims to have more information of a startling nature, to which he will testify if the people back of the investigation promise to protect him. When asked about Braun's allegations

When asked about Braun's allegations yesterday, Chairnan Henricks, of the sub-Auditing Comhittee, said he knew nothing about them except what Mr. Braun had told him. "I heard of a fight between Braun and a city fireman," continued Mr. Hen-ricks, "but I would not charge that the present investigation had anything to do with it. Braun being the in a firid to go to with it. Brann claims he is afraid to go to Allegheny, but I do not think he will hold back any information on that account.

Arrested Without Cause.

"He was arrested recently and says there was no cause for it, but I would not be willing to make a positive statement on my own account as to whether the officers were or were not acting with malice. Braun will be a very important witness. He says threats have been made against him and seems to think they may be carried out. I want it understood, however, that I am only repeating what Braun said and that I

am not responsible for its truthfulness." "What will be the nature of the develop-ments next Friday?" Mr. Henricks was asked

"It would not be good policy to speak about it until the time comes," was the about it until the time comes, was the answer. "I can promise you, however, that it will be startling. It will not only prove the charges that have already been made against Wyman and Murphy, but will show that graver crimes have been committed. In one case we have discovered by the decket that a man was arrested docket that a man was arrested for robbery and was afterward released on straw bail. He was arrested early in Oc-tober, 1886, and his case was continued for a week. It did not come up for nearly a month and when it was finally brought before the Mayor the man was discharged on \$1,000 bail, which, of course, was never forfeited to the city. There are plenty of similar cases that will make it pretty hot for Wyman and Murphy.

Rose Lacey's Story.

"Do you know whether it is true, as re-ported, that Chief Murphy has an affidavit from Rose Lacey, stating that she did not make the affidavit which charges Murphy with asking her for \$100 to get bail for her?" "I do not think it is true," replied Mr. Henricks. "I know Rose Lacey's signature, and then the time mode on the officient

and the one that is made on the affidavit that has been published is hers. I have also good evidence that the charge she made is correct. Before she was arrested she purchased a piano from me, and a day or so after she was released one of the payments became due and she came to me and asked for more time. She said she had been compelled to give

Murphy \$100, and that she hadn't any

The next morning when Mr. Green called Eleanor to come down to get breakfast, his voice echoued through the hallway without any response. The second time he called his voice echoed a little more and kept increasing in noise until the old gentleman got discouraged and made an investigation. He has been investigating ever since. When he looked in his daughter's room he found that she wasn't there, but that was all he did find. She had taken her best dress and gone away without even leaving a note to tell the old folks at home that she had to tell the old folks at home that she had not committed suicide. An alarm was raised at once, but no trace of the missing girl could be found. THREE DESTITUTE SAILORS.

Their Boats Are Tied Up and They Are Without Occupations.

A man giving his name as William Me-Kinley, of Ohio, was a "sleeper" at the Twenty-eighth ward police station last evening through the kindness of Sergeant Me Shane. He, in company with Thomas Leonand and William Preston, applied for lodg-ing about 10 o'clock. McKinley acted as spokesman for the three. He said they had arrived in the city yesterday from Ashta-bula, O., where they have been for nearly a year past. They were lake sailors, and as all the boats, or a majority of them, have tied up for the winter they were thrown out of

work. McKinley is 52 years old, has gray hair, and in facial appearance resembles very much the Ohio statesman, William McKinley.

Rev. C. E. Locke, pastor of the Smithfield Street M. E. Church, was particularly well pleased with McKinley's election' in Ohio. Major McKinley was a member of Mr. Locke's father's congregation in Canton and in that way the prominent Pittsburg divine became acquainted with the newly elected Governor. Mr. Locke thinks Mc-Kinley is a model politician and the campaign was an example of clean politics.

She would have no object in making a false charge at that time, so I think it

was correct. "With regard to the claim of Wyman and Murphy that we are producing evidence only from persons whose characters do not give the affidavits any weight, I have to say that we are after the truth and would have no object in getting false statements. When the evidence is given in such a way, however, that it has the appearance of truth fulness on the face of it, our duty is to report it to the Auditing Committee. the horse and damaged wagon were returned to the engine house.
