These reports show that the candidates for State offices, outside of the Governor, have run well up with their chief. Probably the weakest of them will not have a majority of less than 5,000. In some precincts Bestow, for Lieutenant Governor, runs ahead of Boies, and in other precincts, Kinne, for Supreme Judge, does the same. The one peculiar element is the Legisla-

ture. It seems a strange incongruity that in a campaign where anti-prohibition would be a vital issue, the voters, while expressing their sentiments, should have failed to vote for the very influence which could bring their wishes about. It would seem to have done mighty little good to vote for a Democratic Governor and not at the same time provide for a Democratic Legislature, for without the one the other is powerless; but then that is one the peculiarities of Iowa polities.

The most that the Democrats can hope for at this writing is that the Senate may be a tie. That marvel of hopefulness, physical energy and heroic voice, Brother Ed Hunter, declares that the Democrats have 25 Senators, the Republicans 24 and a poor, forlorn People's man fill up the 50. That same astute authority, Brother Ed Hunter, declares that the House will not have more than 6 Republican majority.

as follows: "Of course, everyone has a right to put his own construction upon the result, and I am not anxious to obtrude my ideas; but it seems to me something ought to be no longer doubtful. Any man who still thinks that tariff reform is a settled and obsolete issue, or that the importance of sound and safe money, is a question upon which people can be blinded, is either willfully wrong or dangerously dull. It seems to me, too, that Democrats ought to be satisfied that a stanch adherence to the prin-ciples of the party does not require the abuse of those who show no inclination to help us. "I very much regret the defeat of Gover-ernor Campbell. He has been a brave and honest official. This, and the splendid canvass he made entitled him to success. While the election of Flower, Russell and Boies ought to cause the utmost rejoicing among Democrats, they should not forget that with these things come the obligations to be true to the people, honest in the ad-vocacy of our principles and decent in all things.

"I was surprised by the result, and, it is needless to say, greatly disappointed. I did not expect much gain in Boston, but every sign pointed to heavy Republican gains throughout the State. The significance of the result in Massachusetts is serious, after all allowance has been made for Gov-ernor Russell's great popularity. We shall have to fight as we never have before to keep Massachusetts, as we can keep her, in the place she has al-ways occupied in Presidental elections. The most important election in its national The most important election in its national significance was that in Ohio. We have won, electing McKinley and the Legisla-ture. In the next most important, New York and Massachusetts, we have made gains, but lost the Governor. In the West we have apparently lost power and gained largely elsewhere. Thus, through the country, despite the disappointments, we have every reason for entering hopefully on the

has been extented to January 1, next, for the first deliveries, and July 1, 1892, for last deliveries. Some of the Estimates Submitted. RIVER NEWS AND NOTES. Louisville Items-The Stage of Water an [SPECIAL TELEGRAMS TO THE DISPATCH.]

Among the estimates submitted is one of \$326,000, for the equipment of the south wing of the army gun froundry, and one of \$1,122,000 for oil-tempered and annealed steel for 8, 10 and 12 inch guns, including the parts required for the manufacture of a type 16-inch gun. On the subject of this great gun—about equal in size to the lat-gest rifle in the world—General Flagler says: "I was surprised by the result, and, it is says: "If an appropriation should be made available by June 30, 1892, the type 16-inch gun would hardly be made and tested be-fore June 30, 1895, while the first three 16-guns for service would not be completed before the end of 1898. Recent improve-

This estimate is based upon the same returns upon which Chairman Fullen rests his 9,000 majorities on the same ticket. Hunter says that the lower House would undoubtedly have been Democratic if it had not been for the People's vote in many of the counties. In two districts alone the People's party threw their vote for their own hopeless candidates, and so defeated the Democratic candidates. The increase of Governor Boies' majority

is so widely scattered over the State that it is a hopeless task to analyze it closely. He has made large gains where few were ex-pected, and, on the other hand, has suffered losses where they were wholly unexpected. For instance, in his own town of Waterloo he lost 106, but this is accounted for by the fact that two years ago hundreds of neighbors cast their votes for him without the least hope of his election. This year some of them took it back. The western counties did not do as well as was expected. Sioux City, Woodbury county, which a month ago was calculating on about 2,500 majority, has tumbled down to 1,200, and glad to get it. Pottawatonic county, Council Bluffs, also boasted loudly of what it was going to do, but it did not keep its promise, actually running behind its vote of two years ago.

## **Close Calculation by Some Counties**

On the other hand, the Mitsissippi river counties stood up to their work beyond expectation. Scott county gave within 40 votes of what it promised; Dubuke county gave 300 increase; Des Moines county was but 76 votes short, and Clinton less than 30. Such a showing as this, considering the enormous vote cast, is almost pheno Isne Of course, the Democrats are jubilant. they have made a tremendous fight against mighty odds; they have won a victory which they hoped for, but, if the truth must be told, scarcely expected. They are disconcerted at the loss of the Legislature, but they are not disheartened. They still assert that the prohibitory law must go. They believe that enough Republicans will be found in the coming Legislature to join the Democrats in repealing that law. If that is impossible, the issue is only to come

up again. Meantime, Governor Boies is now the biggest Presidental candidate there is in the West. He arrived in Des Moines to-night west. He arrived in Des Joines to-night from Waterloo. The Democrats are pre-paring to give him a royal welcome. The streets are packed with excited people shouting for Boies. The Farmers' Alliance candidate, West-

fall, for Governor received about 15,000 votes in the State. The Alliance carried one county for Governor, Monons; one for Representative, Montgomery, and the Montgomery-Mills Senatorial district. The Prohibition vote has not been reported, ex-cept in a few counties, but it is probably very light.

State Assembly. RICHMOND, Nov. 4. - [Special.] noticeable feature in connection with the election in this State is the fact that for the first time since the war there is no colored member of the Legislature, and that the negroes all over the State did not generally vote except in two counties where the Republicans put up a ticket. In this city not a negro voted.

The only ticket voted for was that named by the Democratic primary. The Legisla-ture is so unanimously Democratic that members of that party are already express-ing the fear that it may become unwieldy.

Governor Hill Not Strengthened by the Democratic Victory in New York-The Effect of the Ohio Election on Blaine's Intentions

NEW YORK, Nov. 4 .- [Special.]-Chauncey M. Depew, talking to-day of the big Democratic sweep in New York State, said the result would have more effect on the Democratic Convention than on any direct national issue.

"Do you not think this result will strengthen Mr. Hill's chances for 1892?" he was asked.

"Quite the reverse. Governor Hill's "Quite the reverse. Governor Hill's strength was that he was the only Demo-crat who could carry New York. cussion, but there is not enough of it to rouse the whole State. After you get out into the fields it is an incident and an il-lustration, but Republicans are enthused by inforcing the cardinal doctrines of their faith and nicturing the cardinal doctrines of their

faith, and picturing the necessity of their faith, and picturing the necessity of their eternal vigilance and activity to prevent their overthrow. This is especially true of protective tariff and honest money.

# THE MOST RADIANT REPUBLICAN.

## senator Quay Too Happy to Call and Con gratulate the President.

WASHINGTON, Nov. 4.-[Special.]-Senator Quay was at his house here to-day, all day, leaving in his special car to-night for Florida, whence he will not return until Congress meets. He did not call at the White House to extend his sympathy to President Harrison, but he seemed to think President Harrison needed it, for he regards President Harrison needed it, for he regards the success of the Democrats as a condemna-tion of the administration, just as he re-gards the result in Pennsylvania as a vin-dication and victory for himself, not only offsetting the Delamater defeat, but pre-saging his own triumph and re-election to the Genetic part area. the Senate next year. He attributes the defeat of Delamater to

the weakness of the candidate, who was nominated, he says, against his better judg-ment. This year good men were nominated by his advice, and were elected. Of one

#### .... A Judgment Against a Steel Company.

850 NEW YORK, Nov. 4.-Judgment for \$125,-139 180 was yesterday entered against the Scranton Steel Company in favor of John A. Nichols on promissory notes for pig iron furnished by W. B. Hart & Co., of Phila-delphia. ....

"The radical change from a caliber of 45 inch (our present service standard) to the much smaller one of 30, the use of the long and narrow cartridge thereby necessitated, and the introduction of smokeless powder and the introduction of smokeless powder for imparting a greatly increased velocity to the bullet without subjecting the barrel and breech system to undue augmented strain, have all operated to retard the efforts of American inventors to perfect their guns, and the result is that but few magazine guns of American design have yet been brought before the hoard. This department is doing all in its power to afford American inventors all concertainty to meet the reinventors all opportunity to meet the re-quirements of new existing conditions.

"Reports from our army show that an ex-pert soldier can fire the present service Springfield single loader, with the accuracy generally needed in action, about 20 times per minute. So far as rapidity of fire alone is concerned, these reports reduce some-what the almost universally estimated necessity for an immediate change to a

necessity for an immediate change to a magazine system. It is important to state that up to the present the investigations made and knowledge gained by this department have not demonstrated so much excellence in the magazine arms which have been adopted by foreign nations as was expected, and have not shown such perfortion in any one of them as could war as was expected, and have not shown such perfection in any one of them as could war-rant its adoption for our service. It is hoped that this country can produce a bet-ter arm, and until it can, or certainly until it has been demonstrated that it cannot, it would be wise to defer a change from the excellent single loader now in service to a excellent single-loader now in service to a magazine system. No efforts will be spared to arrive at a satisfactory magazine arm." The new 30 caliber Springfield is said to

have been very successful with smokeles powder.

## A CLEVELAND FORGER IN CUSTODY.

He Uses His Good Name to Filch \$75,000 From His Company.

CLEVELAND, Nov. 4 .- Two years ago B. S. Barrett, a piano dealer and prominent church member, suddenly left this city. Investigation showed that he had committed a vestigation showed that he had committed a great many forgeries by duplicating small notes for \$75,000 given as security for the payment of pianos and using them at several banks as collateral in obtaining loans. Nothing was heard of him until a few months ago, when a Cleveland man met him in a small town in West Virginia. Barrett was under an assumed name and was working as a traveling photographer was working as a traveling photographer. The fact was published.

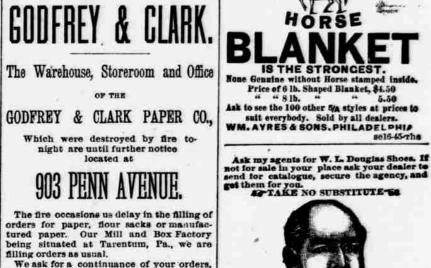

To-day Superintendent of Police Schmitt received a telegram from Railroad Detec-tive Robison, of Charleston, W. Va., say-ing he had Barrett in custody. There are about a dozen indictments hanging over Barrett in this county.

the office of the Western Union Telegraph the office of the Western Union Telegraph Company. A trolley loop of the electric street railway is said to have come in con-tact with a wire leading into the teleghaph office, thus igniting the wires back of the switch board. The flames swept up with great rapidity, destroying the operating, in-struments, furniture and part of the re-cords. The Associated Press rooms were damaged, while the Mexican Cable Com-pany on the second floor escaped without serious loss.
