

VOICE OF THE SAGE.

John Sherman Analyzes the Election Results and Speaks of His Own

BATTLE FOR THE SENATE.

He Thinks Honest Money was the Great Winning Issue in Ohio.

THE M'KINLEY TARIFF ALL RIGHT,

But the One Prepared by the Oliver Commission Was Perfect.

IOWA HAS PUT AN END TO PROHIBITION

MANSFIELD, O., Nov. 5.—There was mass snow on the ground this morning as I walked up the gravel road through the big trees...

CAUSTIC AND CRITICAL

Attack Made on Governor Pattison by Attorney Lyman D. Gilbert.

TRYING TO CHANGE THE FIGURES.

Nearly Five Hours Devoted to the Peroration, in Two Sessions.

HENSEL REPEATS AT LENGTH TO-DAY

(FROM A STAFF CORRESPONDENT.)

A CORRECTED BOUNDARY SURVEY GIVEN OHIO A SLICE.

The Disputed Territory Has a Population of 200,000 and Includes Ft. Wayne, Richmond and Union City.—The Hoosiers Can Recoup on a Part of Chicago.

INDIANAPOLIS, Nov. 5.—During the last two months a survey party sent out by the National Government has been at work locating the boundary line between Ohio and Indiana...

INDIANA LAPS THE LINE.

The facts found by the surveyors are, as heretofore alleged, that the true line, as declared when Ohio was organized into a State, commences 12 miles west of the present boundary line at the north and runs directly south to the present line between Ohio and Indiana...

Pattison's Message Roughly Criticized.

The message of the Governor was criticized because it failed to give the State Treasurer and Auditor General credit for their sworn statements in vindication of the conduct of their office...

BRIGGS' CASE NOT ENDED.

IT MAY BE SEVERAL YEARS BEFORE IT IS SETTLED.

THE CONVENT HAS TO TAKE THE DOCTOR

Satisfied With His Present Position—Says of His Ultimate Acquisition of Ecclesiastical Charges.

NEW YORK, Nov. 5.—[Special.]—The Briggs case is far from ended,

A WHALING BARK LOST.

Its Crew Rescued, Return Home and Report a Poor Season.

SAFETY OF THE PUBLIC MONEY.

I pass now to the payment of \$420,000 made in December, 1890, on account of school appropriations. I have not quite understood the attitude of my friend, the Attorney General, as assumed toward that payment...

INVESTIGATIONS ON THE BORDER.

Inquiry Into the Citizenship of Two Men Who Were Shot in Mexico.

THE LESSONS OF THE CAMPAIGN.

Many in the first place the Republican party has at the present moment many more inside the lines that have disturbed it. I am not at all troubled as to the result in New York...

publican and a very able and popular man. He is only a Democrat upon the tariff question, and this fact is borne out by the other fact that everything is Republican by the usual majority except the Governor...

Significance of the Iowa Result. "Not particularly so. I think by the returns that it is simply a controversy upon the temperance question. Governor Boies is a Republican practically and has not been elected in a square contest between the two great party organizations. I think this election in Iowa teaches the Republican party a lesson that will make Iowa a decided Republican State in the Presidential election...

"Just what any other would concede. Upon the economic and financial questions this State is sensitive, but I say so far as the Republican party is concerned, it is only the Democrats that run off after new doctrines and that is only in the hope of being a single election. I have seen half of the Democrats of this State do not believe in free coinage, and yet the convention made it a part of their platform to catch the Farmers' Alliance vote. Governor Campbell, who is an able and popular man, and who has made a splendid canvass, frankly admits that he was beaten upon this issue...

"The issues of the next campaign are then clearly fixed by the next year ended." "Yes, that tariff question is practically settled for the time being. It will always be a source of agitation as long as the Government lasts. During the next session of Congress it can hardly be considered, but in the next campaign, just as it has been in Ohio this year. Then the nation will settle the question with the East being opposed to the West and South. Yes, I fear quite a change of sentiment will occur in the next session of Congress, but not enough, I fear, to disturb the feeling in Congress that the free coinage of silver means greater prosperity to the country...

"That I do not know. I see smiling signs toward Mr. Blaine. He seems to be exceedingly popular in very many States, but I imagine that the very much depend upon his nomination. I am not particularly disturbed as to the next Presidential canvass. I am convinced that the Republicans will win it under any circumstances."

"How about the Democratic candidate?" "About that I have no concern. It is evident that Mr. Cleveland has the matter in his hands if he wants to use it, but Governor Blaine has something to say in New York, and Mr. Cleveland's bold utterances on the silver question will doubtless affect his position in the West and South."

"There are many things about this interview that are interesting. It isn't often that you call on a statesman at 8 o'clock in the morning and find him up and working, and as I passed out of the front door of the Sherman mansion, just before 10 o'clock, which was my usual hour for arising, I couldn't help but recall the old story about the bird and the words."

WASHINGTON, Nov. 5.—The Congress of Brazil having refused to ratify the plan for settlement of the boundary disputed with the Argentine Republic, the question has been referred to the President of the United States as arbitrator. The arbitration proceedings will be held in Washington this week. The Bureau of American Republics is informed that the Brazilian Government has reorganized its diplomatic and consular service, reducing expenditures very considerably by abolishing the legations at St. Petersburg, Vienna and the Vatican. The Government has also consolidated the Venezuelan Legation with that of Mexico, and the Legation of Portugal with that of Spain...

BLAMED ON BRITAIN.

The Brazilian Crisis Is Now Charged to English Intrigues.

WORKING AGAIN RECIPROACITY.

President Fonseca Gives His Reasons for the Coup d'Etat.

THE NEWS OFFICIALLY CONFIRMED

RIO JANEIRO, Nov. 5.—It is officially announced that the President has convened the nation to elect new Representatives at a date to be determined upon later. The Federal capital (Rio Janeiro) and the town of Niteroy, or Praia Grande, five miles east of the capital, have been declared to be in a state of siege for two months.

"There is no revolution in Brazil, nor will there be one. I do not hesitate to say that the existing troubles may be traced to the English and the great chagrin at the treaty of reciprocity recently made with this country. Ever since President Fonseca signed the treaty English agents have been howling into the ears of the younger Congressmen the great injustice done to Brazil and its vast resources thereby lost, and it is not without effect."

WASHINGTON, Nov. 5.—[Special.]—Through the comparative trials of American armor commenced at Indian Head last Saturday have not yet been completed, the results on that day, taken in connection with those obtained from previous tests during the past year, show so conclusively the superiority of nickel steel over all steel for armor plates, that orders were today sent from the Navy Department to both Carnegie, Phelps & Co. and the Bethlehem Iron Works, directing that all armor under the present contracts be made of nickel steel.

WASHINGTON, Nov. 5.—[Special.]—The Cincinnati coal dealers are preparing for a demand for a pound of flesh from each citizen. Coal to families and small consumers has recently stepped from \$2 per ton up to \$3 50 and next Monday the dealers will give it another 50 cent boost up the tree of high prices. One coal and mining company has flung out its \$4 announcement to the breeze, but other dealers allege that the move is simply one to curtail its retail orders for the present. All of them are holding back on coal contracts, anxious to have as many bushels as possible for sale to families at a big profit.

WASHINGTON, Nov. 5.—[Special.]—The Government wants a Big Royalty from a Mining Company. TOPEKA, KAN., Nov. 5.—[Special.]—Suit was brought by the United States this afternoon to recover a royalty from the Leavenworth Coal Mining Company, estimated at \$2,500,000. An accounting is demanded for all the coal mined on the Government reservation at Ft. Leavenworth since 1868. In 1868, Congress, by a special act, leased to the Leavenworth Coal Mining Company the privilege of mining coal under all the lands owned by the Government at the military reservation. The company agreed to furnish all the coal required by the Government departments, and in addition pay a royalty of one-fourth of a cent per ton. The output of the mines has been enormous, and the petition alleges that the Government has never received a royalty.

WASHINGTON, Nov. 5.—[Special.]—The first snow began falling here early this morning and has continued at intervals all day, with no signs of cessation. It is now nearly 6 inches deep. It will do some damage to the corn crop, which is not quite all in and will probably be lost.

WASHINGTON, Nov. 5.—The City Council tonight granted a right of way to the Chicago "Elevated Terminal Railway Company." Mayor Washburne's signature is a foregone conclusion. The purpose is to practically abolish surface steam traffic in Chicago and establish a central freight clearing house for all railroads entering the city.

NEW YORK, Nov. 5.—The New York Chamber of Commerce to-day appointed a committee of five, including ex-Mayor Hewitt and Carl Schurz, to urge upon Congress such modification of the act of July 14, 1881, as will suspend the further purchase of silver and any additional coinage of the same until an international agreement is arrived at between the United States and other commercial nations of the world.
