The Secret Irish Agreement With Gladstone Is Embarrassing.

ALL SORTS OF REPRESENTATIONS.

Another Friend of Mrs. Parnell Threatens Healy a Thrashing.

THE POWERS MAY SEIZE CHINA PORTS

COPYRIGHT, 1991, BY THE NEW YORK ASSOCIATED

LONDON, Nov. 6 .- An authorized explanation sent to the Gladstonian papers anent the Liberal leader's share in the Boulogne negotiations, will only serve to confirm the suspicion that Mr. Gladstone's old parliamentary hand has been once more working in darkness in trying to win the ad-hesion of the solid Irish party, while keeping the terms of the bargain secret.

Mr. O'Brien's statements are declared by the Liberal leaders to be absurd misrepresentations. It is absolutely denied that the Liberal leaders gave Mr. McCarthy or any other negotiator any assurance as a basis fo a secret covenant. There was no such covenant, it is said, and everything Mr. Gladstone said or did was meant to be published as from the housetops.

These official denials are so wrapt up in verbal quibbles as to be deprived of the orce inherent in a direct and honest contradiction. Thus Mr. O'Brien's proposed secret agreement, while it is declared that it was never made to Gladstone, is admitted in an authoritative communication to the Gazette to have been made to Mr. Morley and to have been rejected.

The Gladstone Interview Ended. Further, the Gladstone interview with the Boulogne deputation is denied. Mr. Gladstone declined, it is said, to see the deputation, but he saw Mr. McCarthy, to whom he gave no fresh assurances. What Mr. O'Brien called secret assurances simply meant Mr. Gladstone's endorsement of the public statements of Mr. Morley in pledging he Liberals to give the Irish Legislature

control of the police and power to deal with the land question.

These disclaimers in themselves prove that Messrs. Gladstone and Morley had secret communication with Messrs. O'Brien, Dillon and McCarthy during the Boulougne Dillon and McCarthy during the Boulougne negotiations. But the Liberals have reason to fear, while the Conservatives exult the the prospects of further revelations. The document which Mr. Carthy produced at Boulogne as one embodying Mr. Gladstone's Boulogne as one embodying Mr. Gladstone's latest assurances, was only one of the several communications from the Liberal leaders. Mr. O'Brien holds some of these communications, which Messrs. Harrington, and eations, which Messrs, Harrington and Redmond challenge him to publish. It is not probable, however, that Mr. O'Brien will disclose them as long as the alliance with the

these communications, and it is now ex-pected that they will come to light as soon as her recovery will enable her to take part in the defense of Mr. Parnell and to strike in the defense of Mr. Parnell and to strike his enemies. The exigencies of the position created by the disclosures is keenly felt by the Liberals and confirms the general party demand that Mr. Gladstone shall at the earliest opportunity make a clear statement of his revised home rule scheme.

Unionists revel in the personal criticisms of the leaders on each side in the Cork election contest. Mr. Redmond describes Mr. O'Brien as acting the part of a bogus peace.

O'Brien as acting the part of a bogus peace-O'Brien states that William O'Brien privately denounced Mr. Dillon as aiming at the leadership, and said that if Mr. Dillon remained in America he would have been able to bring about a reunion.

Another Thrashing Awaits Healy. Timothy M. Healy must face a worse en counter than the one he had with Mr. Mc-Dermott. Henry Harrison, M. P. for Tipperary, warned Mr. Healy that if he re-peated his insulting allusions to Mrs. Par-nell he would take the law into his own ands and punish Mr. Healy. Mr. Healy n repeating his references to Mrs. Parnell, added that he would not mince words in dealing with the matter because she had found a protector in Mr. Harrison, who had declared his readiness to vindicate her honor. Mr. Harrison, who is of athletic build, will bide his time to get at Mr. Healy, who is now constantly protected by

The Trend of Municipal Politics

The Conservative press announced that the labor candidates in the municipal elecions were everywhere defeated. An analysis of returns, on the contrary, show that labor men carried 30 seats in England, some districts returning two at the head of the polls. The general results favor the Radicals. The elections were fought on party lines chiefly, and forecast a triumph for the Gladstonians in the coming Parliamentary elections. There were several in-stances where labor candidates opposed Conservatives. The Conservatives cap-tured two seats in Bradford through a division of the Radical vote.

China Must Reply This Month. The Foreign Office awaits a response from Peking to the ultinatum demanding the adoption of adequate measures to punish the leaders in the recent outrages and to secure a resumption of trade in the Huan province. Sir John Walsham, the British Minister to China, has been directed to give the Chinese Government until the end of the month to reply, when, failing satisfac-tion, the combined foreign fleet will scize Shanghai and other treaty ports on the Yang-Tse-Kiang and the powers will take control of the customs of each port until the matter in dispute is arranged. NOT AT THE SCENE OF CONFLICT.

The Humanity of the American Surgeon Is Scurvily Repaid.

CHICAGO, Nov. 6 .- A private letter reeived in Chicago to-day from Benjamin J Wells, one of the officers of the United States steamship Baltimore, by his father thoroughly explodes the assertions of British naval officers that the Baltimor acted as a spy on the Chilean insurgents when the latter made the landing at

Quintero. The officers of H. M. S. Champion, ac cording to dispatches from Victoria, B. C., eclare that when the landing took place he Champion was lying alongside the Baltimore at Valparaiso, and that the Baltimore steamed around the point to Quintero, watched the entire debarkation of the Congressionalists and then deliberately returned to the Government wharf at Valparaiso, reporting the important informa ion gained to the officials hostile to the Junta. The bitterness of the Chileans, resulting subsequently in the massacre of the members of the Baltimore's crew, is attributed by the British officers to the alleged spying on the part of the American war ressel. The letter, which is dated August 31, says:

Not on the Scene of Battle at All. "My last letter to you was from Coquin oo. The day it was mailed we received word that the insurgents had landed nea

Valparaiso. Valparaiso."

The extract shows conclusively that the Baltimore, so far from being alongside the Champion the day of the Quintero's landing, as asserted by the English officers, was not at Valparaiso or near Quintero as all, but at Coquimbo. The Baltimore, Mr. Wells says, did not leave Coquimbo until reached him at breakfast. It was not until sunset of the following evening that the Baltimore came to anchor in Valparaiso harbor, the first thing attracting attention harbor, the first thing attracting attention being the insurgent warships Abatao and Magellanes with flags flying at all their masts in celebration of the insurgent success in the first day's fight.

The letter describes the exciting scenes attending the fall of Valparaiso, the taking of refugees, including wounded officers and women and children aboard the Baltimore and the practical accession of the Junta to

and the practical accession of the Junta to power, adding prophetically: "We will not be in good favor here. That may be taken for granted. After capturing the Itata and cutting the cable at Iquique, our chances for bare politeness are slim,"

Entire Battalions Wiped Out. The letter concludes as follows: "I heard he Minister of War say last night that as the Minister of war say last night that as the tide of battle was turning against them, he turned to the commander of one of the battalions and said to him: 'Major, where are your men?' Post them in such and such a place.'
"The officer answered: 'Sir, the battalion

no longer exists.'
"Just think of it! Entire battalions completely wiped out, and this was only one of many. There is no doubt about it that the Government was frightfully beaten All the doctors we can spare are ashore working in the hospitals. One that we sent ashore yesterday went up to the battle-field and worked over the wounded there. Fifteen hundred were brought in last

It was after this letter, telling of the Baltimore's surgeon's work of humanity had been mailed, that a portion of the Balti-more's crew was frightfully maltreated in the streets of Valparaiso, the incident so peculiarly referred to by the officers of the British war vessel Champion. Mr. Wells was the officer in charge of the boats that landed a detachment of American blue jackets and marines to protect the United States Consulate during the disorder following the insurgent victory.

WYMAN SAYS HE FOLLOWED PRECEDENT

The expert accounts at work on the Allegheny Mayor's toke vesterday presented to the sub-Aud ing Committee a re-port supplementary to that made over a week ago. It is more startling than the first document. The spread-eagle part of the first report was dropped and statements were made, intended to appeal to reason. The or of the sub-auditing committee Henricks, Gilliford, Eschelman's required to prepare a discrepancies of the sub-auditing committee of the Henricks, Gilliford, Eschelman's required to prepare a discrepancies of the sub-auditing committee of the subperiod of Wyman's adm. stration. The committee then adjourned. The report received follows:

Many Stubs Are Missing.

GENTLEMEN-In accordance with your request that we verify the reported payments of various sums of money to John R. Murphy and the Mayor's office for amusement license to exhibit in Exposition Park during the years 1884 and 1885, we find that the stubs of the amusement license receipt book, previous to October 25, 1884, are miss-

ing and cannot be found.
We examined the stabs beginning October 25, 1884, and find that license No. 710, dated June 18, 1885, for 18 theatrical performances, No. 717, dated July 18, 1885, for 18 ditto; No. 718, dated July 23, 1885, for six theatrical performances, and No. 723, dated August 14, 1885, for 16 theatrical performances, being a total of 58 theatrical performances at Expo-sition Park at \$5 each, or \$200 in all, issued in the name of H. O. Price & Co., but do not find a single instance wherein the fee of \$25 was paid or entered on the stub for any single theatrical performance at the Exposition Park Theater, as is charged. In regard to foot races, we failed to find a single entry on stub that would indicate that any exhibition of that character was given in 1884 after October 25 of that year or during the entire year of 1885.

The item respecting the sum of \$100 as having been paid for two days' exhibition by P. T. Barnum we find correct as shown by stub for license No. 733 issued September 28, 1885. The item mentioned respecting 13 day and eight evening performances given by Buffalo Bill's Wild West show at Exposition Park, for which the sum of 850 was said to have been paid for each of the 20 performances, we find that only one licerso was issued on that account during 1881, being . 6 -No. 731, dated September 21, 1885, for three performances on September 21, 22 and 23, for all of which the sum of \$15 was accounted to

No Record to Be Found.

In regard to the wheel of fortune item we cannot verify the charge that \$200 per day had been paid Mayor Wyman, John R. Murphy and W. L. Braun, for the reasons stated before respecting the missing stubs previous before respecting the missing stubs previous to October 25, 1884. Neither do we find any record on stubs since that date respecting the sum of \$400 charged as having been paid to John R. Murphy in 1885, nor of the sum of \$800 charged as having been paid to Mayor Wyman on the same account on the following day. The stubs that we examined do not show the payment of any sum of money not show the payment of any sum of money for license to open the toboggan slide at the Exposition Park to the public, as has been charged that \$5 per day had been collected on this account.
Respectfully submitted,

Explanations of cases in exhibits October In exhibit "R" the debits show the yearly mount of money the Mayor's office has received from County Controller and Sheriff for commitments to jail and workhouse and discharged court cases.

The credits on the exhibits show the mount of these commitments fees and

amount of these commitment fees and costs that have been accounted for and paid over to the City Treasurer, and the balances unt not accounted for and still fue the city and should be covered into the City Treasury. Exhibit "S" shows witness fees earned by

officers in the regular course of duty which are due and payable to the city, as per opin-ion of the City Solicitor.

Witness Fees Plentiful.

For example, on June 8, 1890, a raid was made on house No. 96 Riveravenue, and nine persons were arrested without warrant. eight were charged on the docket with "dis orderly conduct," one with "drunkennesss, The docket numbers of above cases are 701 to 709 inclusive. In case No. 701 the record shows one off-

cer testified. Case No. 703 shows that three cer testified. Case No. 703 shows that three officers testified, while the records do not show that any witnesses were called or sworn in the other six cases. Case No. 705 was discharged. In seven cases the defendants paid \$1.50 cach witness fees, and in the remaining case \$1 was paid as witness fees, aggregating \$11.50, which properly belongs to and should be paid over to the city, as we failed to find any evidence to show that any witnesses were called, except city officers.

Again, on April 19, 1891, 51 persons were arrested on view, and at the hearing, held on the 20th, two of these prisoners were discharged. The remaining is were charged with disorderly conduct and were convicted on the strength of testimony given by four officers of the city and two other persons, witnesses. Each defendant in these 49 cases was taxed \$2.50 witness fees, aggregating \$122.50; deducting two fees due the witnesses that are not officers leaves witness fees in these cases \$121.50 die the city as fees earned by officers, and should be promptly covered into the City Treasury.

Again, on April 22, 1889, officers arrested 14 persons; charge made against them on the docket was disorderly conduct. Two of these defendants were discharged; in the other cases the records show but two witnesses the setsified and both of these were officers. In 11 of these cases \$1 witness fees have been taxed up and in the remaining one 50 cents is taxed up, aggregating \$11.50, all of which is due the city and should be paid into the City Treasury. officers testified, while the records do not

the City Treasury. Not Paid Into the Treasury. On March 31, 1889, eight persons were arrested on view without warrant. The charge against them on the docket is gambling, and they are numbered 1,665 to 1,653, inclusive; three officers were sworn and testifled in case 1,646; in the other seven cases fled in case 1,546; in the other seven cases the records do not show that any wilnesses were sworn or testified. Witness fees to the amount of \$1 in each case was taxed up, aggregating \$5 for the eight cases, all of which should be paid over to the city as fees carned by city officers.

In none of the few examples herein cited, nor in fact any of the numerous fees entered nor in fact any of the numerous fees entered on the witness fee exhibits as being due the city, have ever been paid over to the City

Treasury.
