DEMAND NINE HOURS

Nearly Nine Hundred of Jones &

Laughlins' Men on a Strike.

OTHER DEPARTMENTS MAY GO OUT.

Miners' Troubles Breaking Out Again Over

This District.

NOTES FROM THE INDUSTRIAL WORLD

Right on the heels of the partly settled

strike of the miners of the Pittsburg dis-

trict comes another eruption of labor. Yes-

terday THE DISPATCH mentioned the

reduction that Jones & Laughlins had made

in the wages of their laborers, and said there

Yesterday their dissatisfaction came to a

As was stated before, the cause of the

trouble was an increase of working hours

and none in wages. The notices were served

on blacksmiths, carpenters, steel mill shov-

elers and laborers, beam mill and bridge mill workers. The bridge department was

shut down yesterday, but the other depart-

ments were working with the few who remained or were put in afterward. In the

12-inch mill the men heard that a notice was to be served and they quit before it

Only Coming Back to Old Figures.

About one year ago the machinists of the

this mill struck for a nine-hour day and

won. As a consequence of this other departments were put on the nine-hour sys-

tem. The officials of the mill claim it was

only done because they thought the other mills in Pittsburg would do the same,

As none of the other manufacturers fol-

the men back to just where they were one

year ago. Further than this they have

Vesteriny afternoon the men held a meeting in Weber's Hall, Southside. Over 500 men attended the meeting. They fully discussed the stand they were taking, and appointed a committee to wait on the firm this morning. The committee was instructed

to inform the management that the strikers wanted to be taken back on the nine-hour basis, and if this could not be accomplished they were not to make

any compromises, as the men did not want anything but a straight retraction of the

company's actions. One of the strikers said last night that he thought the company

Other Departments May Strike.

The men working in the polishing department held a meeting last night, but refused to give out anything. It was learned from another source that the men were discussing

the propriety of going out, although as yet they have not received any notice of a re-

suction, and to-morrow morning will very ikely find this department idle. This will

be a hard blow to the firm, as the polishers are now at work on an order for 1,000,000 cutter bars, which must be finished at once. The engineers were

also reported last night to be preparing to strike to-day. If this is done the whole

will, in which over 4,000 men are employed.

not, the machinists will. Last night a machinist employed in the mill said: "It is only a matter of a day or two until we receive our notices,

and when we do every man will strike. The refusal of the machinists to work would,

of course, cause a strike of the entire mill.

Even if the notices are not served on the

machinists they may strike in order to help the organized labor along."

MINERS STILL ON A STRIKE.

Several Operators Decline to Reinstate the

nied.

THE NEBULAR HYPOTHESIS.

Prof. Keeler Says the Sun Has Eight Mill-

ion Years of Life.

Director J. E. Keeler, of the Allegheny

Observatory, but formerly connected with

the Lick Observatory, lectured last night

before the Academy of Science and Art on the "Nebular Hypothesis." He said:

"One point brought out by the spectro-

scope is that some stars, at least, are formed

by the condensation of nebulæ. The tele-

scope and camera show that all stars are

probably formed in the same way. If stars

are evolved in this way from nebulæ our own sun, which is nothing but an ordinary star, cannot be regarded as an exception, and, of course, all the planets, including the earth, must have been produced by the process which formed the sun. Apparently we have in the solar course a glock

have in the solar system a clock which is running down. When the sun ceases contracting, which may

sun ceases contracting, which may be in some 8,000,000 or 10,000,000 years, its

outflow of light and heat must cease, and all living creatures must perish off the face

of the earth. Something unforescen by our

The Liebig COMPANY

Have for twenty-five years been putting up the famous product which stirred medical circles when first invented and given to the world by the renowned chemist, Justus von Liebig. Their EXTRACT OF BEEF

Is known around the world and has lately been carried into "Darkest Africa" by Stanley. It is unapproachable for purity, flavor and ben-ficial effects. As BEEF TEA, delicious and refreshing. Indispensable in Improved and Economic Cook-

GLASSES SPECTACLES.
